Note 1 - Description of Plan

The following description of Win-Holt Equipment Corporation 401(k) Employee Savings and Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, which was established on February 1, 1983, is a defined contribution plan under Internal Revenue Service Code Section 401(k), covering all eligible partners and employees of Win-Holt Equipment Corp. (the “Sponsor”).

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

The Plan is a defined contribution plan covering substantially all employees who have completed ninety days of service and are at least 21 years of age.

Investments of the Plan are held by a trust established under the Plan with Fidelity Management Trust Company (the “Trustee”). The Trustee invests all contributions and allocates to each participant account its proportionate share of investment income.

Contributions

The Plan is funded by the Sponsor’s profit sharing contributions in such amount, if any, as determined by the Sponsor, in its sole discretion, and shall be made from the profits of the Sponsor. There was no profit sharing contribution recorded in 2014.

Each year, participants may contribute a minimum of 1% up to a maximum of 90% of pre-tax annual compensation, as defined in the Plan. A participant’s total contributions in any year may not exceed the maximum amounts for that year as specified in the Internal Revenue Code. Highly compensated employees may be limited to a smaller contribution. Effective January 2007, the Plan was amended to accept Roth 401(k) deferrals as contributions to the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Furthermore, a special Qualified Non-Elective Contribution ("QNEC") may be made at the discretion of the Sponsor on behalf of eligible non-highly compensated participants.

Each year, the Sponsor makes a discretionary matching 401(m) contribution of 50% of the first 3% of the 401(k) salary deferral amounts the participants have contributed. In 2014, the Sponsor made matching contributions of $77,461, funded from the forfeiture account (see Forfeitures section of Note 1).

Note 1 - Description of Plan (cont'd.)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Sponsor's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100% vested in their contributions plus actual earnings thereon. Participants shall have a vested percentage in their employer contribution accounts according to a graded vesting schedule based on years of service as follows:

Years of Service	Vesting Percentage
Less than 1	0%
At least 1 but less than 2	20%
At least 2 but less than 3	40%
At least 3 but less than 4	60%
At least 4 but less than 5	80%
5 or more years	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans are available only from accounts deferred through salary reduction and vested employer matching amounts. The loans are secured by the balance in the participants' accounts and bear interest at rates ranging from 4.25% to 5.00%, which are determined based on the prime rate on the date of the loan, plus 1%. Principal and interest are paid ratably through payroll deductions, except those used to acquire a principal residence of a participant. Such loans must be repaid over a period not to exceed five years.

Payment of Benefits

Participants' benefits under the Plan are payable to participants, their beneficiaries or their estates upon the termination of employment, normal retirement, late retirement, disability, death or hardship. Benefits are payable in the form of lump-sum distributions to participants with account balances of $5,000 or less. Benefits are payable in the form of (i) joint and survivor annuities to married participants, or (ii) life annuities to unmarried participants with account balances in excess of $5,000. Participants are entitled to receive a distribution of their rollover accounts at any time.

Note 1 - Description of Plan (cont'd.)

Forfeitures

When certain terminations of participants in the Plan occur, the nonvested portion of the participant's account, as defined by the Plan, represents forfeiture. However, if the participant is re-employed and fulfills certain requirements, as defined in the Plan, the participant's account will be reinstated. At December 31, 2014 and 2013, forfeited nonvested accounts related to the Sponsor's contributions totaled $38,509 and $71,179, respectively. Nonvested forfeitures are used to reduce the Sponsor's matching contribution. At December 31, 2014, $77,461 was used to reduce employer contributions.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting and present the net assets available for benefits and changes in those net assets. Amounts allocated to accounts of participants who have elected to withdraw from the Plan are recorded as distributions when paid.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis for fully benefit responsive investment contracts.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (cont'd.)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance of credit losses has been recorded at December 31, 2014 or 2013. Principal and interest is paid ratably through payroll deductions.

Excess Contributions Payable

The Plan is required to return contributions received during the Plan year in excess of the Internal Revenue Code limits. The amounts due to participants at December 31, 2014 and 2013 were $0 and $1,618, respectively.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Sponsor. Expenses that are paid by the Sponsor are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments. During 2014, administrative expenses of $44,536 were deducted from participant accounts. Certain administrative functions are performed by officers or employees of the Sponsor. No such officer or employee receives compensation from the Plan.

Note 3 - Information Prepared and Certified By Trustee

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by Fidelity Management Trust Company, as trustee of the Plan, at December 31, 2014 and 2013 and for the year ended December 31, 2014. This information has not been audited by the independent auditors.

Note 4 - Investments

At December 31, 2014 and 2013, investments that represent 5% or more of the Plan's net assets consisted of the following:

	2014	2013
Mutual Funds and Pooled Separate Accounts		
American Funds Capital World Growth and Income Fund	$ 437,405	$ 433,237

PIMCO Total Return Fund	246,526	238,732
Franklin Rising Dividends Fund	480,343	549,628

Note 5 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 5 - Fair Value Measurements (cont'd.)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission ("SEC"). These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2014 and 2013:

Note 6 - Related Party Transactions

Certain Plan investments are managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee and record keeper for the Plan, therefore, these transactions qualify as party-in-interest transactions. There were no fees paid by the Plan for investment services for the year ended December 31, 2014.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 8 - Guaranteed and Traditional Investment Contracts

The Plan entered into a fully benefit-responsive guaranteed investment contract with Fidelity Management Trust Company ("Fidelity"). Fidelity maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value, as an adjustment to contract value was deemed insignificant. Contract value, as reported to the Plan by Fidelity Management Trust Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract approximates contract vale at December 31, 2014 and 2013. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 4%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yields earned by the guaranteed investment contract are as follows:

	2014	2013
Based on actual earnings	1.10%	1.21%
Based on interest rate credited to participants	1.14%	1.46%

Note 9 - Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Sponsor by a letter dated March 16, 2010 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified, and the related trust is tax exempt.

U.S. GAAP requires Plan management to evaluate uncertain tax positions taken by the Plan and recognize a tax liability if the Plan has taken a uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 10 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 11 - Delinquent Participant Contributions

During the year ended December 31, 2014, the Sponsor did not submit employee contributions and loan repayments of $57,530 in a timely manner. This requires the Sponsor to file notice with the IRS and the Department of Labor which will result in the payment of an excise tax by the Sponsor.

Note 12 - Subsequent Events

The Plan has evaluated all events or transactions that occurred after December 31, 2014 through the date of these financial statements, which is the date that the financial statements were available to be issued. During this period, there were no material subsequent events requiring disclosure.

Note 5 - Fair Value Measurements (cont'd.)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission ("SEC"). These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2014 and 2013:
