NOTE 1 - DESCRIPTION OF PLAN

The following description of the Ingraham Group 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General -
The Plan is a defined contribution plan covering all employees of I-Corp, Inc. ("Company"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions -
Participants may elect to defer any percentage or amount up to the maximum annual amount permitted by statute. Participants may also contribute amounts representing distributions from other qualified plans. The Company contributes a matching of 100% of the first 3% and 50% of the next 2% of base compensation that a participant contributes to the Plan. Additional amounts may be contributed at the option of the Company. Participants' and employer contributions are directed by participants into several available investment accounts. Contributions are subject to certain limitations.

Participant Accounts -
Each participant's account is credited with the participant's contribution, the Company's matching contribution and earnings on the participant's and Company's contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting -
Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service.

Participant Loans -
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the Participant's elective contribution balance. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest determined by the Administrator based on the prevailing interest rates charged by persons in the business of loaning money. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits -
Distributions upon death are made pursuant to the election of the participant or beneficiary. Upon termination of employment, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution, installments, or a combination of lump sum distributions and installments.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Forfeited Accounts -
At December 31, 2014 and 2013, forfeited nonvested accounts totaled $17,092 and $14,552, respectively. Forfeited amounts are used to reduce the Company's matching contribution.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting -
The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates -
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition -
The Plan's investments are stated at fair value. Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Participant loans are valued at cost which approximates fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Expenses -
Certain of the Plan's administrative expenses are paid directly by the Company. Recordkeeping fees are paid from the Plan's assets.

Payment of Benefits -
Benefits are recorded when paid.

Date of Management's Review -
Management has evaluated subsequent events through October 9, 2015, the date the financial statements were available to be issued.

NOTE 3 - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 3 - FAIR VALUE MEASUREMENTS (Continued)

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 or 3 inputs were available to the Plan.

Level 1 Fair Value Measurements -
The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.
