NOTE 1 – DESCRIPTION OF PLAN

The following brief description of the El Dorado Furniture 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provision, which is available upon request.

General

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility Requirements

To become eligible, participants must be full-time employees of El Dorado Furniture Corporation (the "Company") who have one year of service, worked at least 1,000 hours during the year, and are at least 21 years old.

Contributions

Each year, participants may contribute up to 15% of their pretax annual compensation. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company contributes 35% of the first 5% of base compensation. Additional amounts may be contributed at the option of the Company's Board of Directors.

Contributions in excess of the above limitations are refunded to the participant and any matching portion to the Company.

Participant Accounts

Each participant's account is credited with the participant's voluntary contribution, the Company's matching contribution, and plan earnings; and charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant, under a seven-year graded schedule, is 100% vested after six years of credited service for matching contributions and 100% vested after seven years of credited service for discretionary contributions.

Note Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The notes are repaid over a period of one to five years, and are secured by the balance in the participant's account. The notes bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Interest rates range from 5.25% to 11.50%. Principal and interest are paid ratably through monthly payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits
Participants may receive an amount equal to the value of their vested interest upon termination of employment, death, disability or retirement. On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest, or annual installments over a ten year period. For termination of service due to other reasons, a participant may receive the value of the vested interest as a lump sum distribution.

Rollovers
The Plan accepts rollover contributions from other tax-qualified plans, governmental 457 plans, and traditional IRAs for those participants who choose to invest in the Plan.

Forfeitures
Forfeited accounts are used to offset employer contributions made after the forfeited amount is determined. Forfeitures may first be used to pay plan expenses. Any forfeiture left after paying plan expenses are used to offset the next contributions.

Investment Options
Upon enrollment in the Plan, a participant may direct their contributions to be vested in one or more of the investment options available to the Plan.

Administrative Expenses
The Employee Retirement Income Security Act of 1974 (ERISA) allows certain expenses directly related to operating the plan to be paid from the participant accounts. Such expenses include investment management fees and commissions, plan expenses for the general administration and recordkeeping, and other per-use fees.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions to net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value, determined as follows:

- Guaranteed interest accounts with Principal – value paid when funds are withdrawn prior to their maturity and reflects a surrender charge.
- Collective investment trust with Morley Financial Services, Inc. – value invested in collective investment funds, which are offered by banks or trust companies.
- Pooled separate accounts with Principal – quoted market price times the number of units in each account.
- Participant loans – valued at cost which approximates fair value.

Net appreciation/depreciation in fair value of investments includes gains/losses on investments bought and sold, as well as held, during the year.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Payment of Benefits

Benefits are recorded when paid.

Risk and Uncertainties

The Plan provides for various investment options. These investments are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of such investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits and statement of changes in net assets available for plan benefits.

Subsequent Events

The Plan has evaluated subsequent events through September 29, 2015, which is the date the financial statements were available to be issued.

NOTE 3 – INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2014 and 2013, and the supplemental Schedule H, Line 4i- Schedule of Assets (Held at End of Year) as of December 31, 2014; and the related investment activity reflected in the Statements of Changes in Net Assets Available for Benefits for the year ended December 31, 2014 and 2013.

NOTE 4 – INVESTMENTS (UNAUDITED)

The following table lists those investments that represent 5% or more of the Plan's net assets at December 31, 2014 and 2013 with the remaining investments grouped as other investments:

	2014	2013
Principal Guaranteed Interest Contract - General Account	$ 663,861	$ 646,108

	$ 10,076,795	$ 8,942,942

*Represents less than 5%

During 2014 and 2013, the Plan's investments appreciated in value by $514,030 and $1,202,170 as follows:

	2014	2013
Pooled Separate Accounts	$ 501,777	$ 1,224,495
Collective Investment Trust	15,422	(11,501)
Other	(3,169)	(10,824)
	$ 514,030	$ 1,202,170

NOTE 5 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination participants would become 100% vested in their accounts.

NOTE 6 – TAX STATUS

The Internal Revenue Service, by a favorable opinion letter dated April 15, 1993, concluded that the form of the Standardized Paired Profit Sharing 401(k) Plan and related trust is acceptable in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE 7 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting *Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

- Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 inputs to the valuation methodology include the following:
    - Quoted prices for similar assets or liabilities in active markets
    - Quoted prices for identical or similar assets or liabilities in inactive markets
    - Inputs other than quoted prices that are observable for the asset or liability
    - Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 7 – FAIR VALUE MEASUREMENTS (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014, and 2013.

- *Collective Investment Trust.* The fair value of conventional investment contracts is determined using a discounted cash flow methodology where the individual contract cash flows are discounted at the prevailing interpolated yield curve rate as of year end. Individual assets of the synthetic investment contract are generally valued at representative quoted market prices.
- *Pooled investment accounts* are comprised of common stock, corporate bonds and U.S. government securities. Valued at the closing price reported on the active market on which the individual securities are traded.
- *Investment contract*. Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations, considering the creditworthiness of the issuer (see Note 8).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

As of December 31, 2014, the Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits.

	Fair Value	Fair Value Measurements Using: Quoted Prices in Active Markets for Identical Assets (Level 1)	Fair Value Measurements Using: Significant Other Observable Inputs (Level 2)	Fair Value Measurements Using: Significant Unobservable Inputs (Level 3)
Investment Contract	$ 663,861	$ -	$ -	$ 663,861

Total	$10,076,795	$ -	$ 9,412,934	$ 663,861

As of December 31, 2013, the Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits.

NOTE 8 – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan entered into a benefit-responsive investment contract with Principal Life Insurance Company. Principal Life Insurance Company maintains the contributions in a general account. The account is credited with actual earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measure attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

Contract value, as reported by the Plan by Principal Life Insurance Company, represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's management has determined that the contract value of the Plan's fully benefit-responsive contract as of December 31, 2014 and 2013 approximates fair value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2014 and 2013 was $663,861 and $646,108, respectively.

The average yields earned by the guaranteed investment contract are as follows:

Average yields:	2014	2013
Based on actual earnings	-0.5%	-1.7%
Based on interest rate credited to participants	0.8%	1.0%

Certain events limit the Plan's ability to transact at contract value with Principal Life Insurance Company. Such events include the following: (a) amendments to the plan documents (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with Plan participants is probable.

NOTE 9 – DELINQUENT PARTICIPANT CONTRIBUTIONS

As reported on Schedule H, line 4a, Schedule of Delinquent Participant Contributions for the year ended December 31, 2014, certain participant contributions were not remitted to the trust within the time frame specified by the Department of Labor's Regulation 29CFR 2510.53-102, thus constituting nonexempt transactions between the Trustee and the Company for the year ended December 31, 2014. This delinquent participant contribution consisted of a loan repayment in the amount of $40 relating to the plan year 2013. This was corrected and loan payment was remitted to the Trustee on May 26, 2014.

NOTE 10 – PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are managed by Principal Life Insurance Company. Principal Life Insurance Company is the trustee as defined by the Plan and, therefore, these transactions qualify-as-party in interest transactions.

NOTE 11 – EXCESS CONTRIBUTIONS

For the years ended December 31, 2014 and 2013, the Plan had $88,741 and $62,089, respectively, for contributions in excess of amounts allowed by the IRS. These amounts are included as deductions from net assets on the statement of changes in net assets available for benefits. The Plan distributed those excess contributions as appropriate during December 31, 2014 and 2013, respectively.

NOTE 12 – SUBSEQUENT EVENT

The Plan was amended effective July 1, 2015. The amendment defines entry dates for acquired employees. In addition, the amendment automatically enrolls an eligible employee to defer 6% of their pay, unless a different percentage, including zero, is specifically chosen by the employee. Participants already in the Plan as of the amendment date that are not making an elective deferral contribution of at least 6% are automatically enrolled to defer 6%, unless a different percentage is elected by the participant. If a different percentage is not elected, including zero, the percentage will be automatically increased each January 1 by 1% up to a maximum of 10%.
