Note 1. Plan Description

The following description of the Ektron, Inc. 401(k) Profit Sharing Plan & Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

General: The Plan was created on September 1, 2000 and is a defined contribution plan covering all eligible employees of Ektron, Inc. (the "Plan Sponsor" or "the Company") who have completed three months of service and are age twenty-one or older. The Plan is subject to the provisions of the Internal Revenue Code (the "Code"), and the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan was most recently amended on August 1, 2013 to change its trustee and record keeper to Fidelity Management Trust Company.

Contributions: The Plan allows for initial participation by employees on the first day of the next month after satisfying the applicable service and age requirements. Participants, who elect to defer, may contribute to the Plan an amount between 1% and 100% of their eligible compensation, as defined by the Plan. Participants may also roll over amounts representing distributions from other qualified defined benefit or contribution plans. Participants who attain age 50 before the end of the plan year are eligible to make catch-up contributions. Contributions are subject to certain limitations established by the Code.

The Company may contribute employer discretionary matching contributions into the Plan. In order to be eligible for discretionary matching contributions participants must make deferral contributions. No such discretionary matching contributions were made for the plan year ended December 31, 2014.

The Company may also make employer discretionary nonelective contributions to be allocated among all eligible participants. An employee is eligible for discretionary nonelective contributions upon completion of 1,000 hours of service during the Plan year and must be employed on the last day of the Plan year to be eligible to receive discretionary nonelective contributions. No discretionary nonelective contributions were made for the plan year ended December 31, 2014.

Participant accounts: Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's nonelective contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are at all times 100% vested in their own contributions to the Plan plus actual earnings thereon. Employer discretionary matching contributions and discretionary nonelective contributions will vest according to the following schedule:

Years of Service	Vested Percentage
Less than 1	0%
1	25%
2	50%
3	75%
4	100%

Forfeitures: Forfeitures are retained in the Plan and may first be used to pay administrative expenses. Any remaining amounts will be used to reduce future employer contributions payable under the Plan. During 2014, forfeitures totaled $535 and forfeitures of $2,500 were used to fund plan expenses. At December 31, 2014 and 2013, forfeited non-vested accounts totaled $22 and $1,987, respectively.

Note 1. Plan Description (Continued)

Investment elections: Each participant shall direct the investment of their account among a selection of investments offered by the Plan. Participants may change their investment options daily.

Payment of benefits: The Plan permits withdrawals when a participant terminates employment, retires, or becomes disabled or deceased. In-service withdrawals are also permitted for certain financial hardships or when a participant attains age 59 ½. In-service distributions can only be made from the vested amount of the participants' accounts and distributions based on hardship cannot be less than $500. Benefits are payable in lump-sum payments with certain exceptions allowed. Participant accounts with a balance of $5,000 or less are required to be distributed in a lump-sum payment as soon as it is practicable following retirement, death or other termination at the discretion of the plan administrator.

Notes receivable from participants: Participants may borrow from their accounts in accordance with the provisions in the Plan. Each loan shall be limited to 50% of the participant's vested interest in the Plan. Loans shall be in an amount not less than $1,000 or greater than $50,000. Loan terms shall not be for a period exceeding five years, except if the loan is used to acquire the principal residence of the participant, in which case the loan shall not be for a period exceeding fifteen years. Loans are secured by the balance in the participant's account and bear interest at a rate commensurate with the local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions. A participant is not allowed to have more than one outstanding loan at any time.

Expenses: The Company pays all general administrative expenses of the Plan, except for the investment fees and administrative costs associated with participant activity such as loan and distribution requests. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan have been prepared on an accrual basis and are in conformity with principles generally accepted in the United States of America ("GAAP").

Use of estimates: The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Benefit payments: Benefits are recorded when paid.

Income taxes: GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than note would not be sustained upon examination by a tax authority. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.

Note 2. Summary of Significant Accounting Policies (Continued)

Recent Accounting Pronouncements: In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-12 ("ASU 2015-12"). Part I of ASU 2015-12 designates contract value as the only required measure for fully benefit-responsive investments contracts, and as a result, excludes such investments from the fair value disclosure requirements, which maintains the relevant information while reducing the cost and complexity of reporting for fully benefit-responsive investment contracts. Under the amendments, fully benefit responsive investment contracts also will be presented at contract value; accordingly there no longer will be an adjustment from fair value to contract value on the face of the financial statements. These amendments are limited to direct investments between the plan and the issuer of the investment contract. Investment contracts that qualify for and use net asset value per share ("NAV") or its equivalent as a practical expedient would be subject to the disclosure requirements of Accounting Standards Codification Topic 820, Fair Value Measurement, as amended recently by ASU 2015-07.

Part II of ASU 2015-12 eliminates current requirements to disclose (a) individual investments that represent five percent or more of net assets available for benefits and (b) the net appreciation or depreciation for investments by general type. The net appreciation or depreciation in investments still is required to be presented in the aggregate. ASU 2015-12 requires that investments of employee benefit plans be grouped only by general type, eliminating the need to further disaggregate the investments on the basis of nature, characteristics and risk. Also, self-directed brokerage accounts now should be reported as a single line item, instead of the underlying investments in the brokerage accounts being disaggregated by general type or further disaggregated by nature and risk.

Part III of ASU 2015-12 provides a practical expedient to permit plans to measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. If a plan applies the practical expedient and a contribution, distribution, and/or significant event occurs between the alternative measurement date and the plan's fiscal year-end, the plan is required to disclose the amount of the contribution, distribution, and/or significant event. The plan also is required to disclose the accounting policy election and the date used to measure investments and investment-related accounts.

ASU 2015-12 is effective for fiscal years beginning after December 15, 2015. Earlier application is permitted. The Plan's management is currently evaluating the impact of the pending adoption of ASU 2015-12 on the Plan's financial statements. Upon adoption, the amendments shall be applied retrospectively to all periods presented.

Note 3. Information Certified or Provided by Fidelity Management Trust Company ("Trustee")

The following is a summary of the Plan's asset information as of December 31, 2014 and 2013, and for the year ended December 31, 2014, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from Fidelity Management Trust Company, the trustee of the Plan, that information provided to the Plan Administrator by the trustee, related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2014	2013
Investments, at fair value		
Mutual funds	$ 5,804,768	$ 6,079,454
Money market fund	18,452	74,543
	$ 5,823,220	$ 6,153,997
Notes receivable from participants	$ 166,185	$ 102,203

The trustee certified to the completeness and accuracy of $87,662 of net depreciation in fair value of investments, $392,979 of interest and dividends related to the aforementioned investments, and interest income on notes receivable from participants of $6,117, for the year ended December 31, 2014.

Note 4. Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014.

Mutual funds and money market fund: Mutual funds and the money market fund are valued at quoted market prices. These securities are categorized in Level 1 as they are actively traded and no valuation adjustments have been applied.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013.

Note 5. Investments

The following presents the fair value of all Plan investments that individually represent 5% or more of the Plan's nets assets at December 31, 2014 and 2013:

Investments at Fair Value	2014	2013
Fidelity Advisor Freedom 2045 A	$ 1,073,665	$ 1,073,158
Fidelity Advisor Freedom 2040 A	1,053,398	949,100

Fidelity Advisor Freedom 2030 A	477,851	545,072
Fidelity Advisor Freedom 2020 A	436,951	385,301

During the year ended December 31, 2014, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $87,662.

Note 6. Party-in-Interest Transaction

Certain plan investments held at December 31, 2014 are shares of a money market fund and mutual funds managed by Fidelity Management Trust Company, and therefore, these transactions qualify as party-in-interest transactions as that term is defined in Section 3(14) of ERISA. Notes receivable from participants qualify as party-in interest transactions. The Plan Sponsor also paid certain administrative expenses of the Plan.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

Note 8. Income Tax Status

The Plan obtained its latest opinion letter on a prototype Standardized Profit Sharing Plan dated March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the opinion letter. However, the Plan Sponsor believes that the Plan is currently designed and operating in compliance with the applicable requirements of the Code, and, therefore, believes that the Plan, as amended, is qualified and is tax exempt.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and such changes could materially affect participant account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for plan benefits per the financial statements to the Form 5500 as of December 31, 2014:

Net assets available for benefits per financial statements	$ 6,012,231
Employee contributions receivable	(22,826)
Net assets available for benefits per Form 5500	$ 5,989,405

The following is a reconciliation of net decrease in net assets available for plan benefits per the financial statements to Form 5500 for the year ended December 31, 2014:
