NATIONAL LIME & STONE COMPANY
EMPLOYEES' 401(k) PLAN

Notes to Financial Statements
Years Ended December 31, 2014 and 2013

Note 1 – Description of Plan

The following description of the National Lime & Stone Company Employees' 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan, amended and restated as of January 1, 2009, is a defined contribution plan covering all eligible employees of National Lime & Stone Company (the Company and Plan Administrator), as defined in the Plan document.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant Accounts

Each participant's account is credited with the participant's contribution, employer contribution (as applicable), and an employer discretionary contribution to certain eligible participants. Investment earnings (losses) are allocated based upon participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the vested value of the participant's account. All contributions and earnings are invested among the mutual funds and common/collective trusts offered by the Plan at the direction of the participant.

Notes Receivable from Participants

Participants may borrow their accounts a minimum of \$1,000 up to the lesser of \$50,000, reduced by the excess, if any, of the highest outstanding balance of any other loans from the Plan during the preceding twelve-month period, or 50% of their vested account balance. Principal and interest is paid ratably through payroll deductions.

Contributions

Participants may elect to defer up to 100% of their annual compensation, as defined in the Plan document. The Company contributes 50% of the first 6% of base compensation for certain eligible participants contributing to the Plan. The Company may also make discretionary contributions to certain eligible participants. Participants may also contribute amounts representing distributions from other qualified plans.

Note 1 – Description of Plan (continued)

Payment of Benefits

Participants are eligible to retire at age 65. Upon termination of employment a participant's account is payable by lump sum or annuity, as defined by the Plan document. Participants are eligible for in-service distributions upon attainment of age 59 ½.

Vesting

Participants are immediately vested in their contributions plus actual earnings (losses) thereon. Company discretionary contributions and company match contributions, plus actual earnings (losses) thereon, are immediately vested for certain eligible participants, and vest based on years of continuous service for other participants, as defined in the Plan document. A participant is 100% vested in all contributions after six years of credited service.

Forfeitures

Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company contributions. If the participant is reemployed before incurring five consecutive one-year breaks in service, the Plan must reinstate the participant's nonvested accumulated benefits in his or her account balance under certain circumstances as defined in the Plan. During 2013, \$3,403 of forfeitures were used to reduce the Company's contributions to the Plan. At December 31, 2014 and 2013, respectively, the forfeited account balance totaled \$11,361 and \$2,040.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. Upon termination, the entire interest of each participant's account is distributed to participants.

Administrative Expenses

Fees are paid by the Plan for legal, accounting, trustee, and other costs of administering the Plan.

Note 2 – Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Benefit payments to participants are recorded upon distribution.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis. This applies even when the investment contracts are not held directly by the plan but are underlying assets in a common/collective trust (CCT) investment held by the plan.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. There have been no changes in the valuation methods used. The Plan's Investments are held by Charles Schwab Bank (the Trustee) under trust agreements with the Plan Administrator.

Mutual funds represent investments with various investment managers. The fair values of these investments are determined by reference to the fund's underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds are valued at the net asset value.

Common/collective trust funds represent investments with various investment managers. Units held in CCTs, including stable value funds, are fair valued either at the unit value as reported by the investment managers, on a discounted cash flow model, or utilizing the quoted market prices, as applicable. CCTs are not available in an exchange and active market; however, the fair value is determined based on the underlying investments as traded in an exchange and active market.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

Note 2 – Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

Purchases and sales of the investments within the Plan are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants represent outstanding loans and are measured at their unpaid principal balance plus accrued interest.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that could affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Note 3 – Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2014 and 2013, net appreciation (depreciation) in fair value of mutual funds, net investment gain on common/collective trusts, interest, dividends and investment expenses for the years then ended, were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Trustee.

As of December 31, 2014 and 2013, Mellon Stable Value Fund of The Bank of New York Mellon is valued at fair value within the total of common/collective trusts on the Statements of Net Assets Available for Benefits and is valued at contract value on the Schedule of Assets (Held at End of Year) per the Form 5500, as shown below:

Note 4 - Fair Value Measurement

The various inputs that may be used to determine the value of the Plan's investments are summarized in three broad levels within the fair value hierarchy. The three levels are described below:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

Note 4 - Fair Value Measurement (continued)

A financial asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following tables set forth by level within the fair value hierarchy the Plan's investments at fair value, as of December 31, 2014 and 2013. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Note 6 – Income Tax Status

The Internal Revenue Service ruled on May 23, 2008 that the Prototype Non-Standardized Profit Sharing Plan with CODA (the prototype plan of Charles Schwab Trust Company upon which the Plan is based) qualifies under Section 401(a) of the Internal Revenue Code (IRC) and the related trust is, therefore, not subject to tax under present income tax law. The Plan has been amended since receiving the opinion letter. The Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 7 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8 – Subsequent Events

Management has evaluated subsequent events through October 7, 2015, the date the financial statements were available to be issued, and determined that no events have occurred that require recognition or disclosure.
