Tooling Dynamics, LLC Retirement Savings Plan

Notes to Financial Statements

December 31, 2014 and 2013

Note 1 - Description of Plan

The following description of the Tooling Dynamics, LLC Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a defined contribution plan covering all eligible employees of Tooling Dynamics, LLC (Company). All full-time employees who have completed six months of service and are age 21 or older are eligible to participate January 1, April 1, July 1, or October 1 after such requirements are met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year participants may contribute up to the maximum percentage allowable of pretax annual compensation, as defined in the Plan, not to exceed the maximum permitted by law. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans and individual retirement accounts. Participants direct the investment of their contributions and Company contributions into various investment options offered by the Plan.

The Company provides for a matching contribution of an amount equal to 25% of each participant's elective contribution for the year, not to exceed 10% of each participant's compensation. In addition, the Company may make a discretionary contribution which would be allocated per the Plan document, provided the participant completed 500 hours of service during the Plan year and was employed on the last day of the Plan year. No discretionary contributions were made for 2014 or 2013.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Loan and disbursement fees are charged to the respective participants' accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the employer matching contributions is earned in accordance with the following schedule:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Tooling Dynamics, LLC Retirement Savings Plan

Notes to Financial Statements

December 31, 2014 and 2013

Note 1 - Description of Plan (continued)

Vesting (continued)

The Plan permits early retirement at age 55 upon completion of 6 years of service. Regardless of the number of years of service, a participant's account balance becomes fully vested when a participant retires, becomes permanently disabled, or dies.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years or for a period exceeding five years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive the value of the participant's vested interest in his or her account in accordance with the provisions of the Plan, in a lump-sum distribution or installment payments. A participant that has attained the age of 59.5 may withdraw all or a portion of their vested account balance.

Forfeited Accounts

At December 31, 2014 and 2013, forfeited nonvested accounts totaled \$-0-. These accounts will first be used to reduce the Company's matching contribution first and then used to reduce the Company's non-elective contribution to the Plan, if any. During the years ended December 31, 2014 and 2013, \$-0- and \$1,420, respectively, of forfeited nonvested accounts were utilized to reduce employer contributions.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Notes to Financial Statements

December 31, 2014 and 2013

Note 2 - Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation (depreciation) of fair value of investments. Fees related to the administration of notes receivable are charged directly to the participant's account and are included as administrative expenses.

The plan administrator has obtained certifications from the trustee that information provided to the plan administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets. Investments that represent 5% or more of the Plan's net assets at December 31, 2014 and 2013 are separately identified.

Fulton Financial Advisors also certified to the completeness and accuracy of (\$48,309) and \$495,230 of net appreciation (depreciation) in fair value of investments (all from registered investment companies) and \$388,515 and \$221,215 of dividend, interest, and other income related to the aforementioned assets for the years ended December 31, 2014 and 2013, respectively.

Note 4 - Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered investment companies: Valued at the net asset value of shares held by the Plan at year-end.

Notes to Financial Statements

December 31, 2014 and 2013

Note 4 - Fair Value Measurements (continued)

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2014 and 2013, there were no transfers in or out of Level 3.

Notes to Financial Statements

December 31, 2014 and 2013

Note 5 - Tax Status

The Company adopted a prototype non-standardized profit sharing plan sponsored by Fulton Financial Advisors. The prototype plan has received an opinion letter from the Internal Revenue Service dated December 29, 2009 stating that the prototype plan is qualified under the appropriate section of the Internal Revenue Code (IRC). The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the opinion letter. The plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. Federal, state, or local tax authorities for years before 2011.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in the Company contribution portion of their account.

Note 7 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 8 - Related Party Transactions and Party-in-Interest Transactions

Fulton Financial Advisors (Fulton) is the trustee of the Plan. Fulton provides recordkeeping services to the Plan and therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for these services amounted to \$27,157 and \$23,228 for the years ended December 31, 2014 and 2013, respectively.
