NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description

The following is a summary of certain provisions of the Plan. Participants should refer to the Plan Agreement for more complete information. The Plan, established February 1, 1979, is a defined contribution plan to encourage employee savings to provide benefits upon an employee's retirement. The Plan covers significantly all employees of CT Consultants, Inc. (the "Company") who have completed three months of credited service and have attained the age of 21. Upon meeting the eligibility requirements, employees are auto-enrolled with a 3% deferral unless otherwise elected. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. During both 2014 and 2013, the Company completed an acquisition, after which the employees of the acquired entities became eligible to participate in the Plan. These participants were permitted to make rollovers into the current Plan.

Administration – The Plan is administered by the Company which is responsible for controlling and managing the operations and administration of the Plan.

Contributions – Participants may contribute up to 50% of their compensation to the Plan subject to limitations contained in the Internal Revenue Code on a pre-tax basis or Roth post-tax basis. The Company makes discretionary matching contributions, as determined each year by its Board of Directors, which shall not exceed 50% of the participant's elective contribution up to a maximum of 35% of eligible compensation. The Company made matching contributions of 12% of participants' deferrals during 2014. The Company may also make a discretionary profit sharing contribution which shall be credited pro-rata to each participant's profit sharing account based on the ratio of each participant's compensation to the total compensation of all participants, subject to certain limitations as defined in the Plan Agreement. No profit sharing contributions were made during 2014.

Participant Accounts – The Plan maintains an individual account for each participant. These accounts are credited with participants' contributions, Company matching and profit sharing contributions and related earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The net value of each participant's account is established daily. The benefit to which a participant is entitled is the benefit that can be provided from the participants' vested account.

Participants may make a daily election directing the plan administrator to change the employee contribution amount and allocation of the funds invested or to be invested in each of the available investment accounts. In addition, participants can reposition funds and change future investment direction.

Vesting – Participants are at all times vested in their elective and voluntary contributions, Company matching contributions and earnings thereon. Profit sharing contributions and earnings thereon vest to participants at a rate of 20% annually after two years of service and become fully vested after six years of service. Participants also become fully vested at age 65, upon death or if disabled. Any forfeited amounts are used to offset Company contributions.

Payment of Benefits – A participant, upon retirement, termination, disability or the attainment of age 59½ or a participant's beneficiary upon the participant's death, may elect to receive a lump-sum amount equal to the value of his or her account, or receive an annuity based on normal life expectancy of the participant or the participant's beneficiary. In the case of a severe financial hardship, the plan administrator, in its sole discretion, may direct distribution of all or a portion of the participant's vested account balance, subject to certain restrictions.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 1. Plan Description (Continued)

Termination Provisions – The Company anticipates and believes that the Plan will continue indefinitely, however, the Company reserves the right to terminate the Plan at any time by an action of its Board of Directors. In the event of termination of the Plan, the participants will become 100% vested in their profit sharing contributions and the assets then remaining in the fund will be allocated and distributed to participants in accordance with the terms of the Plan.

Notes Receivable From Participants – The Plan permits limited borrowing by a participant against the value of his or her account based upon participant contributions made under the Plan. The maximum loan balance may not exceed \$50,000 or 50% of the participant's total vested account balances. Repayments of principal and interest are credited to the participants' separate accounts within the funds as elected by the participants. Until such repayments are received, the loan receivable is accounted for in the participant loan fund.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting – The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment as well as the adjustment of the investment from fair value to contract value (if applicable). No adjustment from fair value to contract value is presented as fair value approximates contract value at December 31, 2014 and 2013. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan Document (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, Custodians and insurance company. See Note 4 for discussion of fair value measurements.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 2. Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on the settlement-date basis. There is no significant difference between settlement-date basis and trade-date basis for the periods presented. Interest income is recorded on the accrual basis. Dividend income is accrued on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan Document.

Administrative Fees – Administrative fees are paid by the Plan or the Company, at the option of the Company. Fees related to distributions and loans are charged directly to participant accounts and are included in administrative expense. Revenue sharing payments are made from excess revenue generated by the Plan through fund revenue or fees that are made available to the Plan. The Company monitors the payments received by the Plan service providers to ensure that they are used properly for qualifying plan administrative and operating expenses. Expenses paid from this account or directly by the Company are excluded from these financial statements.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits – Benefits are recorded when paid.

Subsequent Events – The Plan has evaluated subsequent events through October 9, 2015, which is the date the financial statements were available to be issued.

Note 3. Unaudited Information

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly Great-West Trust Company, LLC, the Trustee of the Plan, and Great-West Life & Annuity Insurance Company of New York, the Custodian of the Plan, have certified to the completeness and accuracy of all investments and notes receivable from participants reflected on the statements of net assets available for benefits at December 31, 2014 and 2013, the schedule of assets (held at end of year) at December 31, 2014, the related investment activity and interest on notes receivable from participants reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2014 and the investment related information in the accompanying notes to the financial statements. This information is unaudited by independent accountants.

Note 4. Fair Value Measurements

The Plan estimates the fair value of financial instruments using available market information and other generally accepted valuation methodologies. The inputs used to measure fair value are classified into three levels:

- Level 1 – Quoted market prices in active markets for identical assets and liabilities
- Level 2 – Observable market-based inputs or unobservable inputs that are corroborated by market data
- Level 3 – Unobservable inputs in which little or no market data exists

The following is a description of the valuations methodologies used for Plan assets measured at fair value:

- Investments in registered investment companies are valued at the net asset value of the shares held by the Plan on the last day of the Plan year based on market quotations or prices from independent pricing services. These are classified as Level 1.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 4. Fair Value Measurements (Continued)

- The guaranteed investment contract is valued at contract value as determined by the Custodian, which approximates fair value, and represents contributions plus interest at a specified rate, less participant withdrawals and fees. The guaranteed investment contract is classified as Level 3, as there are no quoted prices or other observable inputs for pricing. The Plan does not receive unobservable inputs from the Custodian; accordingly, the Plan does not use separate quantitative information to value the contract. In determining the reasonableness of the methodology, the plan administrator evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments and overall credit ratings.

The following tables set forth by level the Plan's assets at fair value as of December 31, 2014 and 2013:

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 4. Fair Value Measurements (Continued)

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets (guaranteed investment contract) for the year ended December 31, 2014.

Balance, beginning of year	\$2,637,198
Interest earned	895,939
Purchases	37,121
Sales	<u>(438,901)</u>
Balance, end of year	<u>\$3,131,357</u>

Note 5. Guaranteed Investment Contract

The Plan entered into a fully-benefit responsive guaranteed investment contract with the Custodian. The Custodian maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed at least annually for resetting.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

<u>Average Yields</u>	<u>2014</u>	<u>2013</u>
Based on actual earnings	1.25	1.26
Based on interest rate credited to participants	1.25	1.26

Note 6. Related Party Transactions

The Plan pays certain administrative fees and invests in certain investments managed by the Custodian and the Trustee. Therefore, these transactions qualify as party-in-interest transactions. Fees paid were \$5,414 during 2014.

Note 7. Income Tax Status

The prototype document on which this Plan is based obtained a determination letter in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 7. Income Tax Status (Continued)

The Plan's management has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's management believes it is no longer subject to income tax examinations for years prior to 2011.

Note 8. Risks and Uncertainties

The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
