401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2014 AND 2013

NOTE 1: DESCRIPTION OF PLAN

The following description of the Sunrise Credit Services, Inc. ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General and Eligibility:

The Plan is a defined contribution plan covering all employees of the Company who have completed one Year of Eligibility Service, as defined in the plan document, and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions:

Each year, participants may contribute up to 75% of pretax annual compensation as defined in the Plan, up to the annual Internal Revenue Service limitation. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company will make a matching contribution equal to 10% on the first 6% that a participant contributes to the Plan. Additional profit sharing amounts may be contributed at the option of the Company. Any non-elective contributions made by the Company will be allocated to all eligible participants. Participants direct the investment of their contributions, as well as any employer contributions, into various investment options offered by the Plan. Contributions are subject to certain limitations. If the plan does not meet discrimination tests, a portion of highly compensated employees' contributions may be returned to them as corrective distributions.

Participant Accounts:

The value of each participant's account can change depending on several factors, which include: (a) contributions that are made to the account, (b) increases or decreases in the market value of investments, (c) cost of investment management expenses, transactional costs and service charges, and (d) loans and loan repayments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after 3 years of credited service.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2014 AND 2013

NOTE 1: DESCRIPTION OF PLAN (Continued)

Participant Loans:
Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The interest rate is the prime rate as published in *The Wall Street Journal* on the 14th of each month plus two percentage points and is effective for any loan processed as of the 16th day of the month. Principal and interest are paid through payroll deductions. If at times participants do not meet certain criteria, their loan balances become deemed distributions.

Payment of Benefits:
On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or have the payment paid as a "direct rollover" to an individual retirement plan or another qualified plan. If the participant's account balance exceeds $5,000, they may also choose to receive monthly installments or defer receiving payments until age 70½. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts:
Forfeited unvested balances are used to offset future contributions due to the plan from the Company. At both December 31, 2014 and 2013, the balance in the forfeited non-vested accounts totaled $0.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting:
The financial statements have been prepared using the modified cash basis of accounting and guidelines for filing with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The modified cash basis of accounting differs from accounting principles generally accepted in the United States of America principally because contributions are recognized when received rather than when earned, investment income is recognized when received, and all administrative expenses are recorded when paid rather than when incurred. Accordingly, receivables for contributions and investment income earned have not been recognized in the accompanying financial statements, nor have payables for expenses incurred.

SUNRISE CREDIT SERVICES, INC.
401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2014 AND 2013

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates:
The preparation of financial statements in conformity with the modified cash basis of accounting requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

Notes Receivable From Participants:
Loans to participants are reported at their unpaid principal balance plus any accrued but unpaid interest. Loans to participants that are in default, as defined in the plan document, are recorded as deemed distributions to participants. An allowance for uncollectible loans is included in this balance. For the years ended December 31, 2014 and 2013, the allowance amounted to $0 and $5,208, respectively.

Investment Valuation and Income Recognition:
The Plan's investments are stated at fair value as measured by quoted prices in an active market. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded when received. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Tax Status:
The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Plan management evaluates tax positions taken by the Plan and recognizes a tax liability (or asset) if it has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service and Department of Labor. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 or 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The

administrator believes that the Plan's income tax returns for the years prior to 2011 are no longer subject to examination, based on the normal statutory periods subject to audit, notwithstanding any events or circumstances that may exist, which could expand the open period.

Administrative Costs:
The Plan permits the payment of plan expenses from Plan assets or by the Plan Sponsor. The investment management fees are deducted from the fair value of the investments based on agreement with the Plan's custodian.

Subsequent Events:
The Plan has evaluated events and transactions that occurred through September 17, 2015, which is the date the financial statements were available to be issued, for possible disclosure and recognition in the financial statements.

NOTE 3: INVESTMENTS

The Plan's investments are entirely participant-directed. The Plan's investments are held in an investment portfolio that was held by State Street Bank and Trust.

Common Collective Trusts:
The Plan invests in the Collective Trust SSgA U.S. Government Money Market Fund and SSgA S&P 500 Index Fund issued by the SSgA Funds Management, Inc. (collectively, the "Funds"). These Funds are valued at net asset value.

The strategy of the SSgA U.S. Government Money Market Fund is to invest at least 80% of its net assets in obligations issued or guaranteed as to principal and interest payments by the US Government or its agencies and instrumentalities as well as repurchase agreements secured by such instruments. The SSgA U.S. Government Money Market Fund will invest no more than 5% of its net assets (taken at current market value) in repurchase agreements maturing in more than seven days.

The strategy of the SSgA S&P 500 Index Fund is to capture the price performance of a large cross-section of the US publicly traded stock market.

NOTE 5: FAIR VALUE MEASUREMENTS

The FASB Accounting Standards Codification Topic, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB Accounting Standards Codification are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;

SUNRISE CREDIT SERVICES, INC.
401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2014 AND 2013

NOTE 5: FAIR VALUE MEASUREMENTS (Continued)

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

- *Mutual Funds:* The fair value of mutual funds is based on quoted prices as listed in the active market in which the mutual funds are traded.

- *Common Collective Trusts:* Valued at the net asset value ("NAV"). Underlying investments are based upon the latest market quotations when available. When not available fair value is determined by fund manager by reference to quoted market values on other financial data pertaining to investments of similar nature, quality and yield. This is consistent with industry reporting.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6: RELATED PARTY TRANSACTIONS

Certain plan investments are shares of common collective trusts managed by SSgA Funds Management, Inc. ("SSgA"). SSgA is a wholly-owned subsidiary of State Street Corporation, which is a service provider for the Plan. Therefore these transactions qualify as exempt party-in-interest transactions. No fees were paid by the Plan for the investment management services for the years ended December 31, 2014 and 2013.

NOTE 7: RISKS AND UNCERTAINTIES

The Plan's investments are concentrated in funds that invest in marketable securities. Such securities are subject to various risks that impact the value of the funds. Due to the level of risk associated with certain securities and the level of uncertainty related to changes in the value of the securities, it is at least reasonably possible that changes in market conditions in the near term could materially affect participants' account balances and the value of investments reported in the financial statements.

NOTE 8: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their total account balances.
