JUDSON 403(b) PLAN

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2014 AND 2013

1. Description of Plan:

General:

The Plan, established January 1, 1985 is a defined contribution plan covering all employees of Judson Services, Inc. and affiliates ("Judson") who meet the eligibility requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Finance Committee is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance with the reporting and recommendations of their investment advisor.

Management of the Plan engaged Wilmington Trust Retirement and Institutional Services Company ("Wilmington Trust") as custodian of the Plan. During 2015, Wilmington Trust was acquired by Matrix Trust Company ("Matrix"), who assumed all of the responsibilities of Wilmington Trust, including providing the 2014 certification.

Contributions:

Participants may elect to contribute up to 100% of their compensation (which may not exceed annual dollar limits established by the Internal Revenue Service) into the Plan on a pre-tax or after-tax (Roth) basis. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Effective April 1, 2015, the Plan was amended to include an auto-enrollment provision whereby all newly eligible employees (except for union employees) are automatically enrolled in the Plan. Automatically enrolled participants will have their deferral rate set at 2% of their compensation. In addition, any participants with a deferral rate less than 2% of compensation will have their deferral percentage increase to 2% of compensation. Effective October 1, 2015, the Plan was amended to include these same features for union employees. Participants may affirmatively elect not to participate in the Plan or to participate at a lower deferral percentage. These contributions are invested in a designated fund until changed by the participant.

Judson made discretionary matching contributions on behalf of all eligible employees at 50%, of employee elective deferrals (limited up to the first 4% of the employees' compensation) for the years ended December 31, 2014 and 2013.

Contributions received from employers for 2014 are net of payments of \$8,980 to be made to certain participants prior to December 31, 2015. Contributions received from employers for 2013 are net of payments of \$11,036 made to certain active participants in March 2014, to return to them excess employer contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. These amounts are included in the statements of net assets available for benefits as excess contributions payable at December 31, 2014 and 2013, respectively.

Additionally, Judson made discretionary allocations of the revenue sharing conduit account to the Plan totaling \$25,137 and \$13,881 in 2014 and 2013, respectively, which is included in contributions, other.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEARS ENDED DECEMBER 31, 2014 AND 2013

1. Description of Plan (continued):

Participant accounts:

Separate accounts for each participant are maintained by the custodians. Each account is credited with contributions and earnings from investments held in the account. Participants may direct their contributions, including the employer's portion, into any combination of 20 investment funds. The participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their pre-tax or after-tax contributions and employer matching contributions plus earnings thereon.

Payment of benefits:

Participants, who suffer serious financial hardship as defined by the Plan, may withdraw a portion of their vested account in order to meet their financial needs. Once participants attain age 59-1/2, they may also elect to withdraw from their account, any amount not to exceed their vested portion. All accounts are subject to distribution upon the participant's termination, retirement or death.

On termination of service, participants may elect to receive a lump sum distribution equal to the vested value of their account balance or in installments not to exceed the life of the participant. All distributions are to be made in cash.

Benefits are recorded when paid.

Participant notes:

Participants may borrow from their accounts. The minimum loan is \$1,000 to a maximum of \$50,000 or 50% of the participant balance. Loan transactions are treated as transfers between investment funds and the participant notes. Repayment of a loan must be made over a period not to exceed five years, unless the loan is used to purchase a principal residence, in which case the loan is to be repaid within a reasonable period of time, not to extend beyond 15 years. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1% (4.25%) at December 31, 2014 and 2013. Principal and interest may be paid through payroll deductions or cash on a timely basis. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If participants cease to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

2. Summary of significant accounting policies:

Basis of accounting:

The financial statements of the Plan are prepared using the accrual method.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates and assumptions.

Investment valuation and income recognition:

The Plan's investments are valued at fair value at December 31, 2014 and 2013 as provided by Matrix and Wilmington Trust, the custodians of the Plan, respectively.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. These amounts were provided by Wilmington Trust.

Subsequent events:

In preparing these financial statements, the Plan's management has evaluated events and transactions for potential recognition or disclosure through October 8, 2015, the date the Plan's financial statements were available to be issued.

3. Investments:

The following table represents the fair value of investments at December 31, 2014 and 2013. Investments that represent 5% or more of the Plan's net assets in either year are separately identified.

4. Fair value:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

JUDSON 403(b) PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEARS ENDED DECEMBER 31, 2014 AND 2013

4. Fair value (continued):

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies utilized at December 31, 2014 and 2013.

- The fair value of mutual funds is valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- The fair value of the money market fund is valued primarily on the basis of market quotations. However, the fund has adopted procedures for making "fair value" determinations if market quotations are not readily available or are not considered reliable. These procedures may be used if an issuer defaults and there is no market for its securities. Use of these procedures is intended to result in more appropriate net asset values.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumption to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value on a recurring basis at December 31, 2014, were as follows:

	Level 1	Level 2	Total
Mutual funds:			
Multi cap funds	\$ 1,363,490		\$ 1,363,490
Income funds	1,193,642		1,193,642

5. Plan expenses:

Substantially all administrative expenses are paid by the Plan. Certain administrative functions are performed by employees of Judson. No such employee, nor Judson, receives compensation from the Plan.

Additionally, investment expenses of the funds are included in net appreciation (depreciation) in fair value of investments.

6. Information certified by custodians:

The financial information included in the Plan's financial statements, except for receivables, has been derived from information certified as complete and accurate by Matrix as of and for the year ended December 31, 2014 and by Wilmington Trust as of and for the year ended December 31, 2013, in accordance with Section 2520.103-5 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA.

7. Income tax status:

The Internal Revenue Service has determined that the prototype plan under which the Judson 403(b) Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan is required to operate in conformity with the IRC to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is exempt from taxation.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

YEARS ENDED DECEMBER 31, 2014 AND 2013

7. Income tax status (continued):

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

8. Plan termination:

Judson expects to continue the Plan but reserves the right at any time within its sole discretion to reduce, suspend or discontinue contributions to the Plan or to terminate the Plan. However, no such action may deprive any participant or beneficiary under the Plan of any vested right.

9. Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.
