EUCLID INSURANCE SERVICES, INC.
401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

NOTE A. DESCRIPTION OF PLAN

The following description of the Euclid Insurance Services, Inc. 401(K) Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

1) General

The Plan is a defined contribution plan covering all eligible employees of Euclid Insurance Services, Inc., Euclid Insurance Agencies, LLC, Euclid Insurance Agencies Holdings, LLC, and Euclid Managers, LLC (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2) Contributions

Participants may elect to contribute pre-tax earnings up to current Internal Revenue Service ("IRS") regulations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. All employees, except those governed by a collective bargaining agreement, are eligible to enter the Plan upon employment with the Company through June 30, 2014 and after sixty days of employment after July 1, 2014 and have attained age 21. Eligible employees can enter the Plan on the first day of the month coinciding with or next following the date the eligibility requirements are met. Participants may also contribute amounts representing distributions from other qualified retirement plans and Roth after-tax contributions. Effective January 1, 2015, the Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participant in the Plan. Automatically enrolled participants have there deferral rate set at 3% of compensation and their contributions invested in a designated balanced fund until changed by the participant. The Company may discretionary contribute a matching contribution to the Plan. The Company's discretionary matching contribution is calculated as a 50% match of the participant's salary reduction, up to 6% of their qualified compensation. This amount is allocated to participants' accounts each pay period. The Company elected most divisions to receive a discretionary match for 2014. The Company may also contribute a discretionary profit sharing contribution. This amount is allocated to participants' accounts that have completed one year of service during the Plan year and are actively employed on the last day of the Plan year. The Company did not elect to make a discretionary profit sharing contribution for the year ended December 31, 2014. Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to certain limitations.

3) Participant Accounts

Each participant's account is credited with the participant's elective contribution and allocations of: a) the Company's discretionary matching contribution (if applicable), b) the Company's discretionary profit sharing contribution (if applicable), c) investment earnings, and d) investment expenses. Allocations are based on the participant's compensation or account balances, as defined. The benefit to which a participant is entitled is what can be provided from the participant's vested account.

NOTE A. DESCRIPTION OF PLAN: (Continued)

4) Notes Receivable from Participants

Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

5) Vesting

Participants are vested immediately in their deferral contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on years of service.

Upon termination of employment for reasons other than by death, disability or retirement, participants will receive the Company's discretionary matching and profit sharing contribution portion(s) of their participant account valued at its fair market value and shall vest according to the following schedule based upon years of service:

Years of Service	Vested Percentage
1	0%
2	20
3	40
4	60
5	80
6	100

Upon termination of employment by reason of death, disability or retirement, the balance in the participants' account will become fully vested.

6) Payment of Benefits

On termination of service due to death, disability, or retirement a participant or his beneficiary may elect to receive a single lump-sum payment.

7) Forfeited Accounts

At December 31, 2014, and 2013, forfeited non-vested accounts totaled $10,825 and $708, respectively. These accounts may be used to reduce future employer contributions or pay Plan expenses. Also, in 2014, Plan expenses of $2,546 and employer contributions of $6,177 were paid from forfeited non-vested accounts.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

DECEMBER 31, 2014 AND 2013

NOTE B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

1) Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting in conformity with generally accepted accounting principles.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits is to be presented with the fair value of the Plan's investments as well as the adjustment from fair value to contract value for the fully benefit-responsive investment contracts. The statement of changes in net assets available for benefits also is to be prepared on the contract value basis for the fully benefit-responsive investment contracts. Since fair value equals the contract value for fully benefit-responsive investment contracts then there is not adjustment that is presented.

2) Subsequent Events

The Company has evaluated subsequent events through October 7, 2015, the date which the financial statements were available to be issued.

3) Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

4) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note F for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

DECEMBER 31, 2014 AND 2013

NOTE B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES: (Continued)

5) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid capital balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

6) Payment of Benefits

Benefit obligations are recorded when paid.

7) Administration of Plan

The Company absorbs significant costs of the Plan administration by paying expenses directly.

NOTE C. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts, and all assets will be liquidated and paid to participants.

NOTE D. TAX STATUS

The Plan is a non-standardized prototype plan sponsored by Voya Retirement Insurance and Annuity Company that has been adopted by the Company. The prototype plan obtained its latest opinion letter on March 31, 2008, by which the Internal Revenue Service has determined and informed the Company that the Plan and related trust, as then designed, were designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the U.S. Federal or Indiana taxing jurisdictions. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Mutual funds	$ 200,106
Contracts with insurance company	-
	$ 200,106

NOTE F. FAIR VALUE MEASUREMENTS

FASB ASC Topic 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

NOTE F. FAIR VALUE MEASUREMENTS: (Continued)

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2014, and 2013.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan as of the end of the year.

Contracts with insurance company: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. According to the Plan custodian, the fair value of the Plan's guaranteed investment contracts approximate the contract value as of the end of the year.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014, and 2013:

Assets, at Fair Value, as of December 31, 2014

NOTE G. INVESTMENT CONTRACTS WITH INSURANCE COMPANY

The Plan has entered into a benefit-responsive investment contract with Great West Life & Annuity Insurance Company (Great West). Great West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay principal and a specified interest rate that is guaranteed to the Plan. As described in Note B, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by the investment custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. According to the Plan's custodian, the fair value of the guaranteed investment contracts is equal to the contract value as of December 31, 2014, and 2013. The average yield and crediting interest rates were each 1.25% for 2014 and 1.26% for 2013. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: 1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), 2) change's to the Plan's prohibition on competing investment options or delegation of equity wash provisions, 3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or 4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administer does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

DECEMBER 31, 2014 AND 2013

NOTE G. INVESTMENT CONTRACTS WITH INSURANCE COMPANY: (Continued)

The Plan has entered into an investment contract with Voya Retirement Insurance and Annuity Company (Voya). The investment contract is not considered benefit-responsive. Voya maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment subject to certain restrictions. The guaranteed investment contract issuer is contractually obligated to repay principal and a specified interest rate that is guaranteed to the Plan. The effective yield was 1.65% for 2014. The minimum interest rate is 1.00% and the interest rate guaranteed not to drop below 1.60% through December 31, 2015.

NOTE H. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

NOTE I. RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are managed by Voya Retirement Insurance and Annuity Company and Great West Life & Annuity Insurance Company. Voya Retirement Insurance and Annuity Company and Great West Life & Annuity Insurance Company are the recordkeepers for the Plan and, therefore, these transaction qualify as party in interest transactions.
