## 1. Description of Plan

The following description of the NSG Technology, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

### *General*

The Plan was adopted by NSG Technology, Inc. (the "Company") on January 1, 2003, and was most recently amended and restated, effective March 1, 2013. The Plan is defined as a contribution retirement plan arrangement described in the Internal Revenue Code ("IRC") Section 401(a). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and certain provisions of the IRC.

### *Plan Administration*

The Company is the administrator of the Plan. As administrator, the Company has exclusive authority and responsibility for all matters in connection with the operation and administration of the Plan. Reliance Trust Company ("Reliance") was the appointed trustee of the Plan. The trustee of the Plan acts at the direction of the Plan's administrator. The Company paid the majority of all necessary and proper expenses incurred in the administration of the Plan. Such expenses were primarily comprised of legal fees, auditing fees, and expenses relating to the maintenance of the Plan's records.

### *Eligibility*

All non-excluded employees, as defined by the Plan document, are eligible to participate in the Plan after three months of service (minimum 1,000 hours), provided that they are at least age 21.

### *Contributions*

Employees may begin deferring a portion of their compensation into the Plan on a before-tax basis pursuant to Code Section 401(k) up to the limits imposed by Section 402(g) of the IRC. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. However, the Plan will not accept rollovers of designated Roth contributions. Participants direct their investments into various investment options offered by the Plan. The Company matches 100% of the participant deferral contributions up to a maximum of 4% of employee compensation. Elective profit sharing contributions may also be made at the discretion of the Company. For the year ended December 31, 2014, matching contributions were approximately $640,000. The Company did not make or approve any elective profit sharing contributions for 2014.

### *Participant Accounts*

Each participant's account is credited with the participant's contributions, employer contributions, Plan earnings or losses, and rollovers from other qualified plans. Plan earnings or losses are allocated based upon each participant's account balance. Certain fees are charged to the fund investments and are offset against Plan investment income and loss as presented on the statement of changes in net assets available for benefits. Participants should refer to the prospectuses of these funds for details on the various types and amounts of investment fees charged to the Plan and their individual accounts.

### *Vesting*

Participant contributions, employer matching contributions, employer profit sharing contributions (if any), and rollovers, as well as all earnings on these contributions, are fully vested when made or earned.

Continued

**1. Description of Plan**, continued

*Participant Notes Receivable*

Participants are allowed three loans at any time and may borrow from their fund accounts a minimum of $1,000 up to 50% of the value of their account balance, or $50,000, whichever is less. Loan terms range from one to five years, except for loans used to purchase a primary residence, which have a maximum term of thirty years. Loans are secured by no more than 50% of the balance in the participant's account and bear interest at a rate computed using the prime rate (as specified in the Wall Street Journal) plus 1% at the time the loan originates. The interest rates on participant notes receivable at December 31, 2014 was 4.25%. Principal and interest are paid in equal installments through semi-monthly payroll deductions.

*Payment of Benefits*

When participants leave the employer, upon retirement or for any other reason, those participants (or their beneficiaries) may receive the value of their salary deferrals, vested employer contributions, rollovers, and the net earnings thereon in a single lump-sum payment. In-service or hardship withdrawals are also permitted as outlined in the Plan document.

In order to receive distributions, participants (or their beneficiaries) are required to file the appropriate forms with the Plan administrator. Account values will be determined as of the day the distribution is made.

The Plan allows for automatic lump sum distributions of participant vested account balances that do not exceed $1,000. In the event of a mandatory distribution greater than $1,000, but less than $5,000, for which the participant does not elect to have such distribution paid directly to an eligible retirement plan specified by the participant in a direct rollover or to receive the distribution directly, then the Plan administrator will pay the distribution in a direct rollover to an individual retirement account designated by the Plan administrator.

*Investment Options*

Upon enrollment in the Plan, a participant may direct his or her contributions in percentage increments into a series of mutual and money market funds offered by the Plan. Participants may change their investment options at any time.

*Forfeitures*

Forfeitures that occur during a Plan year will be used to reduce plan administration fees or to reduce future employer contributions. At December 31, 2014, there were no forfeitures or forfeiture activity.

*Reclassification*

Certain investment information for 2013 has been reclassified to conform to the 2014 presentation.

## 2. Summary of Significant Accounting Policies

### *Basis of Accounting*

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of investment contracts, as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

### *Use of Estimates*

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

### *Recent Accounting Pronouncements*

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date Practical Expedient* (consensuses of the FASB Emerging Issues Task Force). Under Part I of the new ASU, fully benefit-responsive investment contracts are to be measured, presented, and disclosed at contract value only. Part II of the ASU eliminates the disclosure requirements for 1) individual investments that represent 5 percent or more of net assets available for benefits and 2) the net appreciation or depreciation for investment by general type (disclosure in the aggregate is still required), for both participant-directed investments and nonparticipant-directed investments. Part III of the ASU permits the election of a practical expedient to measure investments and investment-related accounts as of a month-end date that is closest to the Plan's fiscal year-end, when the fiscal period does not coincide with the month-end. Any significant contribution, distribution or other event that occurs between these two measurement dates is required to be disclosed. The amendments in all three parts of the ASU take effect for fiscal years beginning after December 15, 2015, with earlier application permitted. Parts I and II are required to be presented retrospectively for all periods presented, while Part III is to be applied prospectively. The Plan is currently evaluating the impact of this new guidance on its financial statements and related disclosures.

### *Investment Valuation and Income Recognition*

Investments of the Plan consist of mutual funds, a money market fund and a common collective trust. All investments are reported at fair value based upon active market values determined by investment advisors as required under ERISA regulations.

Investments in securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the valuation period. In accordance with the policy of stating investments at fair value, net realized and unrealized appreciation for the year is reflected in the statement of changes in net assets available for benefits.

*Investment Valuation and Income Recognition,* continued

Purchases and sales of securities are recorded on a trade date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

*Participant Notes Receivable*

Participant notes receivable are measured at their unpaid principal balance, which approximates fair value, plus any accrued but unpaid interest. Delinquent participant notes receivable are reclassified as distributions based upon the terms of the Plan document.

*Payment of Benefits*

Benefits are recorded when paid.

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by Reliance as of December 31, 2014 and 2013, and for the year ended December 31, 2014:

| | 2014 | 2013 |
|---|---|---|
| Investments at fair value: | | |
| Mutual Funds | $ 14,070,768 | $ 11,089,267 |
| Money Market Fund | 2,904,770 | - |
| Common/Collective Trust * | - | 3,262,837 |

| Interest and dividends | $ 733,833 | |
| Interest on participant notes receivable | $ 10,816 | |

* Investment reported at contract value

## 5. Common/Collective Trust

The Plan held a common/collective trust ("CCT") investment in Federated Investors Trust Company – the Capital Preservation Fund (the "Fund"). This CCT held fully benefit-responsive investment contracts. These contract contributions are maintained in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The CCT is included in the statements of net assets available for benefits at the redemption value of the underlying fund. The adjustment from fair value to contract value for the underlying investment contracts is based on the contract value as reported to the Plan by Federated Investors Trust Company. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. This CCT was liquidated during 2014.

The average yields earned by the CCT are as follows:

| Average Yields | 2014 | 2013 |
|---|---|---|
| Based on actual earnings | 1.10% | 1.21% |
| Based on interest rate credited to participants | 1.14% | 1.46% |

Certain events may limit the ability of the Fund to transact at contract value with contract issuers for participant benefit payments or investment transfers such as premature termination of the contract by the Plan or termination of the Plan; such events are not probable of occurring.

The adjustment from fair value to contract value related to the investment contracts at December 31, 2014 and 2013, is as follows:

| | 2014 | 2013 |
|---|---|---|
| Investment, at fair value | $ - | $ 3,272,256 |
| Adjustment to contract value | - | (9,419) |
| Investment at contract value | $ - | $ 3,262,837 |

## 6. Fair Value Measurements

Accounting Standards for fair value measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under these accounting standards are described below:

- Level 1: inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include: quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3: inputs are unobservable inputs for the asset or liability.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

| | Assets at Fair Value as of December 31, 2014 | | | |

**6. Fair Value Measurements,** continued

The Plan's valuation methodology used to measure the fair values of mutual and money market funds was derived from quoted market prices, as all of these instruments have active markets. The CCT invests primarily in stable value products, such as guaranteed investment contracts ("GIC") (also known as traditional GICs), separate account GICs and synthetic GICs. The fair value of traditional GICs is determined based on the present value of the contract's expected cash flows, discounted by current market interest rates for like-duration and like-quality investments. The fair value of a separate account GIC and a synthetic GIC is determined based on the fair value of the securities underlying each GIC.

**7. Tax Status**

The Plan sponsor adopted a prototype plan document. The prototype plan document obtained its latest opinion letter on March 31, 2008, in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving its opinion letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

**8. Plan Termination**

The Company has established the Plan with the intention and expectation that the Plan will continue indefinitely. However, the Company reserves the right at any time to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their account balance, and will be entitled to take entire balance from the Plan following termination.

**9. Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market fluctuations, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks will occur in the near term that could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

**10. Subsequent Events**

Effective January 1, 2015, participants may also make after tax basis (Roth) contributions subject to the same IRC limits when combined with their pre-tax contributions.

In accordance with accounting standards affecting disclosures of subsequent events, the Plan evaluated subsequent events for recognition and disclosure through October 8, 2015, the date which these financial statements were available to be issued. Management concluded that no material subsequent events have occurred, other than listed above, since December 31, 2014 that require recognition or disclosure in such financial statements.
