Fulton County Health Center Employees' Pension Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 1 - Plan Description

The following description of Fulton County Health Center Employees' Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan that covers substantially all employees of Fulton County Health Center (the "Center"), excluding physicians. An employee becomes a participant upon attaining age 21 and completing two years of service of at least 750 hours of service per year, as defined in the plan document.

Contributions - The Center makes contributions for each participant in the amount of 5 percent of the participant's eligible compensation. Employees may invest amounts transferred from other qualified plans. The transferred amounts are held for the benefit of the participant and are accounted for separately in the individual participant's account.

Vesting - Participants are 100 percent vested in their account balances at all times. Amounts allocated to accounts belonging to participants who have elected to withdraw from the Plan, but have not yet been paid, were approximately \$280,000 and \$576,000 at December 31, 2014 and 2013, respectively.

Payment of Benefits - Upon termination of employment, retirement (generally at normal retirement age of 65), permanent disability, or death, a participant is entitled to receive a distribution of the entire balance of his or her individual account or monthly payments upon retirement until death. Effective February 19, 2013, the Plan was amended to permit participants to elect in-service withdrawals upon reaching the age of 67.

Party-in-interest Transactions - Certain administrative expenses are paid by the Center. Certain plan assets are in investment funds managed by American United Life Insurance Company (AUL). AUL is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - While it has not expressed any intent to do so, the Center has the right under the Plan to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA.

Participant Accounts - Contributions are maintained in individual accounts for each participant, which may not be used for the benefit of any other account or participant. The account value includes the employer contributions earned by the participant and received by the Plan, employee rollovers, and a pro-rata share of earnings, gains, and losses from investments, net of expenses.

Fulton County Health Center Employees' Pension Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value, except for the investment contracts. The investment contracts are a group of annuity contracts issued by AUL that invest in the general assets of AUL. AUL considers these contracts to be benefit responsive; however, since there are no specific securities in AUL's general account related to these contracts, and due to the contract terms, including the frequency of the interest rate reset intervals, contract value approximates fair value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees (for additional information refer to Note 5). The registered investment companies are valued at net asset value per share (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets. All other investments are valued based on quoted market prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including August 25, 2015, which is the date the financial statements were available to be issued.

Fulton County Health Center Employees' Pension Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 3 - Unaudited Information

American United Life Insurance Company (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustee.

Investments that exceed 5 percent of end of year net assets are as follows:

	2014	2013
Mutual funds:		
State Street Equity 500 Index Fund	\$ 2,150,061	\$ 1,964,943
Fidelity (VIP II) Asset Manager Fund	1,311,563	1,290,130
Fidelity (VIP) Growth Fund	1,662,300	1,523,208
American Century Strategic Allocation Moderate Fund	1,299,497	1,083,934
Investment contracts:		
AUL Fixed Account	8,481,308	8,318,300
AUL Alternate Fixed Account	3,043,189	3,091,019

Note 4 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes it is no longer subject to tax examinations for years prior to 2011.

Note 5 - Investment Contracts

The Plan has benefit-responsive investment contracts with AUL. AUL maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contracts issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contracts issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer and has a 4 percent minimum guarantee.

Fulton County Health Center Employees' Pension Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 5 - Investment Contracts (Continued)

Interest rates are established and declared for new contributions that will be received in a calendar quarter. The rate is based on the return AUL expects on new investments made by it and held with the AUL general account. When establishing interest credit rates for these contracts, AUL considers past general account investments, adjusted for portfolio turnover and withdrawals for benefit payments. The crediting rate will always equal or exceed the contractually guaranteed rate.

Liquidation of the entire contract may cause a one-time adjustment to the aggregate contract value, resulting in a fair value different from the contract value. This total liquidation is a contingent event, which cannot be initiated by the plan participants and can only be initiated by the plan trustee upon termination of the Plan or complete termination of the contract.

Average yields on these contracts are as follows:

	December 31, 2014	December 31, 2013
Average yield earned by the Plan	4.00 %	4.00 %
Average yield credited to participants	4.00 %	4.00 %

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2014 and 2013.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

Fulton County Health Center Employees' Pension Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 6 - Fair Value Measurements (Continued)

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Fulton County Health Center Employees' Pension Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 6 - Fair Value Measurements (Continued)

T. Rowe Price International Growth and Income Fund - Withdrawals from the fund for benefit payments and participant transfers to other investment options to be paid to plan participants shall be made within 90 days after written notification has been received and are considered to be made immediately after the next valuation date subsequent to the Trustee's approval. Withdrawals from the fund are also subject to a 2 percent redemption fee. There are no other investment restrictions or unfunded commitments as of December 31, 2014.

Other Redemption Restrictions - There are no other investment restrictions, redemption restrictions, or unfunded commitments as of December 31, 2014.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of fair value hierarchy during 2014 and 2013.

Plan Number	004	Plan Year End	12/31/2014
EIN	34-4428214		

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
