ARDAGH METAL USA 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Ardagh Metal USA 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General - The Plan is a defined contribution 401(k) plan covering the salaried and hourly employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is sponsored by Ardagh Metal Packaging USA Inc. (Company).

Eligibility - All salaried employees of the Company and its participating affiliates are eligible for participation in the Plan upon date of employment. Employees are permitted to make deferred elections; however, if the salaried employee does not make an election on his/her eligibility date, he/she is enrolled at a 0% salary reduction, until changed by the participant. Hourly employees at the Bloomsburg, Pennsylvania location are eligible for participation in the Plan if they are covered under the collective bargaining agreement between the Company and U.F.C.W. Local 38 and after they complete 90 days of employment. Hourly employees at the Terminal Island, California location are eligible for participation in the Plan if they are covered under the collective bargaining agreement between the Company and UIW Local No. 24 and after they complete six months of service. Hourly employees at the Weirton, West Virginia location are eligible for participation in the Plan if they are covered under the collective bargaining agreement between the Company and U.F.C.W. Local 325 and after they complete six months of employment. Hourly nonrepresented employees at the Reno, Nevada; Roanoke Virginia; and Conklin, New York locations are eligible for participation in the Plan after 30 days of employment. Hourly employees at the American Samoa affiliate are not eligible to participate in the Plan. The American Samoa Affiliate was sold effective October 31, 2014, and all salaried employees' balances were distributed.

Contributions - Participants may contribute up to 20% of their compensation in any combination of pre-tax or after-tax dollars during each plan year provided the contributions do not exceed limitations established by the Internal Revenue Code (IRC). Participants may also contribute amounts representing distributions from other qualified retirement plans (Rollovers). Participants direct the investment of their contributions into various investment options offered under the Plan. The Plan currently offers a money market, various mutual funds and guaranteed interest accounts as investment options for participants. The Company will make contributions according to the following schedule by location:

Salaried (Carnegie, Bloomsburg, Weirton, American Samoa, Conklin, Chicago, Reno, Roanoke and Terminal Island) - 100% of the participant's pre-tax contribution that does not exceed 3% of the participant's eligible pay each payroll period. In addition to Company matching contributions, the Company also makes age-related contributions to participants on a semimonthly basis.

Bloomsburg, Conklin, Reno, and Roanoke (Hourly) - 50% of the participant's pre-tax contribution that does not exceed 6% of the participant's eligible pay each payroll period. In addition to Company matching contributions, the Company also makes age-related contributions to participants on a semimonthly basis.

Terminal Island (Hourly) - 50% of the participant's pre-tax contribution that does not exceed 6% of the participant's eligible pay each payroll period.

Weirton (Hourly) - No employer contributions.

Participant Accounts - Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Plan earnings. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

ARDAGH METAL USA 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

Vesting - Participants are fully vested at all times with respect to their contributions plus actual earnings thereon. All participants are fully vested in matching employer contributions, if applicable, after three years of service.

Participants become fully vested in age-related contributions according to the following schedule:

Salaried (Carnegie, Bloomsburg, Weirton, American Samoa, Chicago, Conklin, Reno, Roanoke and Terminal Island) - Graduated two- to six-year schedule.

Bloomsburg, Conklin, Reno, and Roanoke (Hourly) - Graduated two- to five-year schedule with three or more years of service as of January 1, 2009 or two- to six-year schedule with less than three years of service as of January 1, 2009 or hired after January 1, 2009.

In addition, participants will become fully vested with respect to employer matching and age-related contributions if the participant reaches the age of 65, dies, becomes disabled, is terminated after reaching the age of 55 or is discharged without cause at any time.

Forfeitures - At December 31, 2014 and 2013, forfeited nonvested accounts totaled approximately \$47,000 and \$86,000, respectively. These accounts will be used to reduce future employer contributions. Also, in 2014, employer contributions were reduced by approximately \$47,000 from forfeited nonvested accounts.

Payment of Benefits - Benefits are payable upon retirement, death, disability or termination of employment in a lump-sum payment equal to the vested value in the participant's account.

Hardship Withdrawals - The Plan administrator may direct the trustee to distribute up to 100% of a participant's vested account balance, excluding age-related, in the event of immediate financial need. Withdrawals will be authorized only if the distribution is for the payment of unreimbursed medical care expenses, costs directly related to the purchase of the participant's principal residence, tuition payments or payment to prevent eviction from his or her principal residence. Participants will be suspended from making any pre-tax and after-tax contributions to the Plan for a period of six months after the hardship withdrawal.

Administrative Expenses - All administrative expenses of the Plan are paid by the Company.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of significant accounting policies consistently applied by the Plan administrator in the preparation of the accompanying financial statements follows:

Basis of Accounting - The financial statements of the Plan are presented on the accrual basis of accounting.

Fully Benefit-Responsive Investment Contracts - Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

ARDAGH METAL USA 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investment transactions are recorded on a trade date basis. MassMutual Retirement Services, a division of MassMutual Financial Group (MassMutual) reported that the investment contracts held in the Guaranteed Interest Accounts (see Note 3) are fully benefit-responsive. Fully benefit-responsive investment contracts are valued at fair value under investments with a corresponding adjustment to contract value for purposes of reporting net assets available for benefits. Mutual fund investments are valued at fair value based upon quoted market prices. The Plan presents in the statement of changes in net assets available for benefits, the net appreciation (depreciation) in the fair value of investments, which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments. Interest and dividend income is recorded as earned on an accrual basis and includes dividends from investments in mutual funds.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions - Contributions from the Company are accrued in the period in which they become obligations of the Company in accordance with the Plan document. Employee contributions, as designated by each employee, are accrued as of the date they are withheld from payroll.

Payment of Benefits - Benefits payments are recorded when paid.

Recent Accounting Pronouncements - In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07 Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). This ASU removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share as a practical expedient. Currently, investments valued using the practical expedient are categorized within the fair value hierarchy on the basis of whether the investment is redeemable with the investee at net asset value on the measurement date, never redeemable with the investee at net asset value, or redeemable with the investee at net asset value at a future date. The ASU also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. This ASU is effective for nonpublic entities for fiscal years beginning after December 15, 2015 and interim periods within those fiscal years. A reporting entity should apply amendments retrospectively to all periods presented. Early application is permitted. The Plan administrator is currently assessing the impact of this ASU.

ARDAGH METAL USA 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In July 2015, the FASB issued Accounting Standards Update (ASU) 2015-12 Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. This ASU reduces the complexity in employee benefit plan reporting. Part I designates contract value as the only required measure for fully benefit-responsive investment contracts. Currently, fully benefit-responsive investment contracts are required to be measured at contract value with a reconciliation of contract value to fair value, when these measures differ, on the face of the plan financial statements. Part II eliminates the requirement to disclose individual investments representing 5% or more of net assets available for benefits for both participant-directed investments and nonparticipant-directed investments. Additionally, net appreciation or depreciation in investments for the period is no longer required to be disaggregated and disclosed by general type, however, should still be presented in the aggregate. Part II also requires that investments of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts (e.g., a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. This ASU is effective for nonpublic entities for fiscal years beginning after December 15, 2015. A reporting entity should apply the amendments to Parts I and II retrospectively to all periods presented, while Part III should be applied prospectively. Early application is permitted. The Plan administrator is currently assessing the impact of this ASU.

Subsequent Events - The Plan administrator has evaluated subsequent events through October 7, 2015, the date the financial statements were issued.

NOTE 3 - GUARANTEED INVESTMENT CONTRACT WITH AN INSURANCE COMPANY

The Plan has entered into a fully benefit-responsive guaranteed investment contract with MassMutual, which maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2014 and 2013 was \$15,653,885 and \$13,992,617, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3%. Such interest rates are reviewed on a semiannual basis for resetting.

ARDAGH METAL USA 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

NOTE 3 - GUARANTEED INVESTMENT CONTRACT WITH AN INSURANCE COMPANY (Continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable of not occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yields earned by the guaranteed investment contract are as follows:

Average Yields	2014	2013
Based on actual earnings	2.60%	2.56%
Based on interest rate credited to participants	2.60%	2.56%

NOTE 5 - FAIR VALUE MEASUREMENT

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three Levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable or substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed Interest Account - These investments are principally valued using a market value formula approach. The market value of the account is determined to be the estimated liquidation value of the contract. The liquidation value is derived considering factors such as:

- (i) the observable interest rate being earned by investments underlying the contract
- (ii) the unobservable "assumed interest rate" obtainable by MassMutual on new investments where a proxy is the Barclays Capital U.S. Aggregate Index (excluding Treasuries) with an adjustment made to duration; and

ARDAGH METAL USA 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

NOTE 5 - FAIR VALUE MEASUREMENT (Continued)

- (iii) the unobservable comparison between investments supporting the contract and current market rates where historic investments are either at a premium or discount to current market rates (i.e., the “experience rate”).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan’s investments at fair value as of December 31, 2014 and 2013:

NOTE 5 - FAIR VALUE MEASUREMENT (Continued)

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2014.

Balance, beginning of year	\$ 13,992,617
Contributions deposited	1,115,993
Forfeitures	35,990
Interest income credited	385,325
Change in adjustment from fair value to contract value	343,071
Transfers	821,510
Disbursements paid to participants	<u>(1,040,621)</u>
Balance, end of year	<u>\$ 15,653,885</u>

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements - The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments as of December 31, 2014, and the significant unobservable inputs and the ranges of values for those inputs:

Instrument	Fair Value	Principal Valuation Technique	Significant Unobservable Inputs	Range of Significant Value
Guaranteed Investment Contract	\$15,653,885	Market Value Formula	Assumed Interest Rate Experience Rate	0.69% - 5.15% 0.94% - 6.59%

In estimating fair value of the investments in Level 3, the Pension Committee may use third-party pricing sources or appraisers. In substantiating the reasonableness of the pricing data provided by third parties, the Pension Committee evaluates a variety of factors, including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments and overall credit ratings.

NOTE 6 - INFORMATION CERTIFIED BY PLAN TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments held at December 31, 2014 and 2013, and investment income for the year ended December 31, 2014, including investment information related to the Guaranteed Interest Account (See Notes 3 and 5), that are disclosed in the accompanying financial statements and supplemental schedule, were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by State Street Bank and Trust Company, the trustee of the Plan.

NOTE 7 - INCOME TAX STATUS

The Internal Revenue Services (IRS) has determined and informed the Company by a letter dated July 8, 2010 that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to 2011.

NOTE 8 - RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by State Street Bank & Trust and its subsidiaries and affiliates (State Street). State Street is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 9 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA or any collective bargaining agreements. In the event of Plan termination, participants would become 100% vested in their company contribution portion of their account.

NOTE 10 - RISK AND UNCERTAINTIES

The Plan invests in various investment securities that are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term. Such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Schedule C Soft Dollar Compensation Eligible Indirect Compensation Statement

Mutual fund investments of the plan (whether direct or indirect through a separate investment account) may have soft dollar arrangements pursuant to which the investment advisor or sub-advisor to the mutual fund (and/or its affiliates) may direct trades to certain brokers in exchange for research and other services, other than just trade execution. For plans investing directly or indirectly in the MassMutual Premier or Select Funds, MassMutual provided the required written disclosure regarding soft dollar compensation on the Schedule C Formula Description and/or EIC Statement Description Attachment. For all other mutual funds, MassMutual provided the required written disclosure in the Statement of Additional Information ("SAI").

For additional information on the soft dollar compensation, refer to the section of the mutual fund's SAI that discusses brokerage allocation and other practices.
