Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Navajo Express 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established November 3, 2014 (inception). The Plan is available to employees age 18 years or older who have completed 90 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Board of Directors of Navajo Shippers, Inc. (the "Company") administers the Plan. Wells Fargo Bank, N.A. ("Wells Fargo") serves as trustee, manages Plan assets, and maintains the Plan's records. Wells Fargo offers Plan participants a variety of investment options through various mutual funds and a money market fund. Individual accounts are invested in the various investment options at the direction of the participants.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Contributions

Participants may make before-tax contributions up to 100% of their annual compensation, not to exceed $17,500 as limited by the IRS, which is adjusted annually by the Secretary of the Treasury for inflation. This maximum percentage may be reduced by the Plan administrator in certain circumstances. Participants who are 50 years of age or will turn 50 years of age within one calendar year may make additional "catch-up" contributions up to $5,500 during the year. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions. The Company will make a discretionary matching contribution of 33% of elective deferrals up to 1% of compensation. Discretionary matching contributions are funded on a payroll basis.

Employees are eligible to defer on an after-tax basis through payroll deductions up to 100% of eligible compensation as Roth 401(k) deductions. Provided requirements are met, withdrawals of contributions and any earnings are tax free. A participant's combined pre-tax and Roth 401(k) contributions cannot exceed the maximum annual amount allowed by law.

Participants' Accounts

Each participant's account is credited or charged with the participant's contribution and an allocation of the Company's contribution, Plan earnings or losses, forfeitures, and Plan expenses. Allocations are based upon Plan earnings or losses and account balances, as defined. The benefit to which a participant is entitled is the vested portion of the participant's account.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting

Participants are 100% vested in their voluntary contributions, allocated earnings or losses thereon, and any qualified matching contributions.

Any employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

Years of Service	Vested Interest
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age of 65, retirement due to disability, or if the Plan is terminated.

Participant Loans Receivable

Participants are not permitted to take loans from the Plan.

Payment of Benefits

Upon termination of service, death, disability, or attaining normal retirement age, a participant will receive a lump-sum amount equal to the value of the participant's vested account balance. The timing of the distribution will be as soon as administratively feasible with the exception of participants who are of normal retirement age and have an account balance over $5,000, who may elect to postpone the distribution, subject to legal minimum distribution requirements. Accounts with balances less than $5,000 will be immediately distributed upon a distribution event, while accounts over that threshold for participants prior to normal retirement age require consent to distribute the balance. If the distributed balance exceeds $1,000 (but does not exceed $5,000) and no election is made by the participant to either receive or roll the distribution, Wells Fargo will create an individual retirement account for the individual and roll the distribution into that account. In-service withdrawals are permitted with notice of hardship, subject to certain restrictions. Benefits are recorded when paid.

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account. Once the terminated participant has five consecutive breaks in service, the forfeited balance is non-reclaimable. Forfeitures may be used to pay Plan expenses, reduce employer contributions, or allocated to participants in the same manner as the employer's contributions. There were no forfeitures in the current Plan year; therefore, there was no balance in the forfeitures account at December 31, 2014.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition

Investments are recorded at fair value as reported to the Plan by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for Plan benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for Plan benefits.

Additionally, some investments held by Wells Fargo are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Subsequent Events

The Plan administrator has evaluated all subsequent events through the auditors' report date, which is the date the financial statements were available for issuance. There were no material subsequent events that required recognition or disclosure in the financial statements.

Note 2 - Investments

Wells Fargo has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of December 31, 2014 and the income earned or losses incurred on the investments for the period from November 3, 2014 (inception) through December 31, 2014, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the trustee, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

The fair value of investments greater than 5% of net assets was the following as of December 31, 2014:

Vanguard Target Retirement 2030 Fund	$	20,366
Vanguard Target Retirement 2020 Fund	$	15,519
Vanguard Target Retirement 2035 Fund	$	14,800
Vanguard Target Retirement 2025 Fund	$	11,213
Vanguard Target Retirement 2040 Fund	$	8,565
Vanguard Target Retirement 2045 Fund	$	6,422
Vanguard Target Retirement 2015 Fund	$	5,274

Note 3 - Fair Value Accounting

Generally accepted accounting principles require disclosure about how fair value is determined and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Note 3 - Fair Value Accounting (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets measured at fair value on a recurring basis as of December 31, 2014.

Assets at fair value as of December 31, 2014 are as follows:

Description	Level 1	Level 2	Level 3	Total
Mutual funds				
Balanced	$ 95,836	$ -	$ -	$ 95,836
Equity	3,276	-	-	3,276
Corporate	1,404	-	-	1,404
Total mutual funds	100,516	-	-	100,516
Money market fund	734	-	-	734
Total	$ 101,250	$ -	$ -	$ 101,250

The valuation technique used to measure the fair value of the mutual funds and the money market fund was based on quoted prices (unadjusted) in active markets for identical assets that the Plan has the ability to access at the measurement date (market approach).

The Plan's management reaffirms its understanding of the valuation techniques used by its pricing services at least annually.

Note 4 - Income Taxes

The Plan did not obtain a Plan-specific determination letter as it operates with the trustee's opinion letter, dated March 31, 2014, which was issued on the basic plan document. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the accompanying financial statements.

Generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of the period from November 3, 2014 (inception) through December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 7 - Related Party and Party-in-Interest Transactions

Certain Plan investments are mutual funds and a money market fund, which are managed by Wells Fargo. Wells Fargo is the asset trustee, as defined by the Plan; therefore, these transactions qualify as party-in-interest and are exempt from the prohibited transaction rules.

Note 8 - Reconciliation to Form 5500

Contributions and receivables for financial reporting purposes differ from amounts shown on the Plan's Form 5500 for the period from November 3, 2014 (inception) through December 31, 2014 due to the accrual of employer and employee contributions paid to the Plan subsequent to year-end.

Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Navajo Express 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established November 3, 2014 (inception). The Plan is available to employees age 18 years or older who have completed 90 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Board of Directors of Navajo Shippers, Inc. (the "Company") administers the Plan. Wells Fargo Bank, N.A. ("Wells Fargo") serves as trustee, manages Plan assets, and maintains the Plan's records. Wells Fargo offers Plan participants a variety of investment options through various mutual funds and a money market fund. Individual accounts are invested in the various investment options at the direction of the participants.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Contributions

Participants may make before-tax contributions up to 100% of their annual compensation, not to exceed $17,500 as limited by the IRS, which is adjusted annually by the Secretary of the Treasury for inflation. This maximum percentage may be reduced by the Plan administrator in certain circumstances. Participants who are 50 years of age or will turn 50 years of age within one calendar year may make additional "catch-up" contributions up to $5,500 during the year. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions. The Company will make a discretionary matching contribution of 33% of elective deferrals up to 1% of compensation. Discretionary matching contributions are funded on a payroll basis.

Employees are eligible to defer on an after-tax basis through payroll deductions up to 100% of eligible compensation as Roth 401(k) deductions. Provided requirements are met, withdrawals of contributions and any earnings are tax free. A participant's combined pre-tax and Roth 401(k) contributions cannot exceed the maximum annual amount allowed by law.

Participants' Accounts

Each participant's account is credited or charged with the participant's contribution and an allocation of the Company's contribution, Plan earnings or losses, forfeitures, and Plan expenses. Allocations are based upon Plan earnings or losses and account balances, as defined. The benefit to which a participant is entitled is the vested portion of the participant's account.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting

Participants are 100% vested in their voluntary contributions, allocated earnings or losses thereon, and any qualified matching contributions.

Any employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

Years of Service	Vested Interest
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age of 65, retirement due to disability, or if the Plan is terminated.

Participant Loans Receivable

Participants are not permitted to take loans from the Plan.

Payment of Benefits

Upon termination of service, death, disability, or attaining normal retirement age, a participant will receive a lump-sum amount equal to the value of the participant's vested account balance. The timing of the distribution will be as soon as administratively feasible with the exception of participants who are of normal retirement age and have an account balance over $5,000, who may elect to postpone the distribution, subject to legal minimum distribution requirements. Accounts with balances less than $5,000 will be immediately distributed upon a distribution event, while accounts over that threshold for participants prior to normal retirement age require consent to distribute the balance. If the distributed balance exceeds $1,000 (but does not exceed $5,000) and no election is made by the participant to either receive or roll the distribution, Wells Fargo will create an individual retirement account for the individual and roll the distribution into that account. In-service withdrawals are permitted with notice of hardship, subject to certain restrictions. Benefits are recorded when paid.

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account. Once the terminated participant has five consecutive breaks in service, the forfeited balance is non-reclaimable. Forfeitures may be used to pay Plan expenses, reduce employer contributions, or allocated to participants in the same manner as the employer's contributions. There were no forfeitures in the current Plan year; therefore, there was no balance in the forfeitures account at December 31, 2014.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition

Investments are recorded at fair value as reported to the Plan by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for Plan benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for Plan benefits.

Additionally, some investments held by Wells Fargo are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Subsequent Events

The Plan administrator has evaluated all subsequent events through the auditors' report date, which is the date the financial statements were available for issuance. There were no material subsequent events that required recognition or disclosure in the financial statements.

Note 2 - Investments

Wells Fargo has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of December 31, 2014 and the income earned or losses incurred on the investments for the period from November 3, 2014 (inception) through December 31, 2014, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the trustee, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

The fair value of investments greater than 5% of net assets was the following as of December 31, 2014:

Vanguard Target Retirement 2030 Fund	$	20,366
Vanguard Target Retirement 2020 Fund	$	15,519
Vanguard Target Retirement 2035 Fund	$	14,800
Vanguard Target Retirement 2025 Fund	$	11,213
Vanguard Target Retirement 2040 Fund	$	8,565
Vanguard Target Retirement 2045 Fund	$	6,422
Vanguard Target Retirement 2015 Fund	$	5,274

Note 3 - Fair Value Accounting

Generally accepted accounting principles require disclosure about how fair value is determined and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Note 3 - Fair Value Accounting (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets measured at fair value on a recurring basis as of December 31, 2014.

Assets at fair value as of December 31, 2014 are as follows:

Description	Level 1	Level 2	Level 3	Total
Mutual funds				
Balanced	$ 95,836	$ -	$ -	$ 95,836
Equity	3,276	-	-	3,276
Corporate	1,404	-	-	1,404
Total mutual funds	100,516	-	-	100,516
Money market fund	734	-	-	734
Total	$ 101,250	$ -	$ -	$ 101,250

The valuation technique used to measure the fair value of the mutual funds and the money market fund was based on quoted prices (unadjusted) in active markets for identical assets that the Plan has the ability to access at the measurement date (market approach).

The Plan's management reaffirms its understanding of the valuation techniques used by its pricing services at least annually.

Note 4 - Income Taxes

The Plan did not obtain a Plan-specific determination letter as it operates with the trustee's opinion letter, dated March 31, 2014, which was issued on the basic plan document. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the accompanying financial statements.

Generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of the period from November 3, 2014 (inception) through December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 7 - Related Party and Party-in-Interest Transactions

Certain Plan investments are mutual funds and a money market fund, which are managed by Wells Fargo. Wells Fargo is the asset trustee, as defined by the Plan; therefore, these transactions qualify as party-in-interest and are exempt from the prohibited transaction rules.

Note 8 - Reconciliation to Form 5500

Contributions and receivables for financial reporting purposes differ from amounts shown on the Plan's Form 5500 for the period from November 3, 2014 (inception) through December 31, 2014 due to the accrual of employer and employee contributions paid to the Plan subsequent to year-end.

Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Navajo Express 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established November 3, 2014 (inception). The Plan is available to employees age 18 years or older who have completed 90 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Board of Directors of Navajo Shippers, Inc. (the "Company") administers the Plan. Wells Fargo Bank, N.A. ("Wells Fargo") serves as trustee, manages Plan assets, and maintains the Plan's records. Wells Fargo offers Plan participants a variety of investment options through various mutual funds and a money market fund. Individual accounts are invested in the various investment options at the direction of the participants.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Contributions

Participants may make before-tax contributions up to 100% of their annual compensation, not to exceed $17,500 as limited by the IRS, which is adjusted annually by the Secretary of the Treasury for inflation. This maximum percentage may be reduced by the Plan administrator in certain circumstances. Participants who are 50 years of age or will turn 50 years of age within one calendar year may make additional "catch-up" contributions up to $5,500 during the year. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions. The Company will make a discretionary matching contribution of 33% of elective deferrals up to 1% of compensation. Discretionary matching contributions are funded on a payroll basis.

Employees are eligible to defer on an after-tax basis through payroll deductions up to 100% of eligible compensation as Roth 401(k) deductions. Provided requirements are met, withdrawals of contributions and any earnings are tax free. A participant's combined pre-tax and Roth 401(k) contributions cannot exceed the maximum annual amount allowed by law.

Participants' Accounts

Each participant's account is credited or charged with the participant's contribution and an allocation of the Company's contribution, Plan earnings or losses, forfeitures, and Plan expenses. Allocations are based upon Plan earnings or losses and account balances, as defined. The benefit to which a participant is entitled is the vested portion of the participant's account.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting

Participants are 100% vested in their voluntary contributions, allocated earnings or losses thereon, and any qualified matching contributions.

Any employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

Years of Service	Vested Interest
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age of 65, retirement due to disability, or if the Plan is terminated.

Participant Loans Receivable

Participants are not permitted to take loans from the Plan.

Payment of Benefits

Upon termination of service, death, disability, or attaining normal retirement age, a participant will receive a lump-sum amount equal to the value of the participant's vested account balance. The timing of the distribution will be as soon as administratively feasible with the exception of participants who are of normal retirement age and have an account balance over $5,000, who may elect to postpone the distribution, subject to legal minimum distribution requirements. Accounts with balances less than $5,000 will be immediately distributed upon a distribution event, while accounts over that threshold for participants prior to normal retirement age require consent to distribute the balance. If the distributed balance exceeds $1,000 (but does not exceed $5,000) and no election is made by the participant to either receive or roll the distribution, Wells Fargo will create an individual retirement account for the individual and roll the distribution into that account. In-service withdrawals are permitted with notice of hardship, subject to certain restrictions. Benefits are recorded when paid.

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account. Once the terminated participant has five consecutive breaks in service, the forfeited balance is non-reclaimable. Forfeitures may be used to pay Plan expenses, reduce employer contributions, or allocated to participants in the same manner as the employer's contributions. There were no forfeitures in the current Plan year; therefore, there was no balance in the forfeitures account at December 31, 2014.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition

Investments are recorded at fair value as reported to the Plan by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for Plan benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for Plan benefits.

Additionally, some investments held by Wells Fargo are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Subsequent Events

The Plan administrator has evaluated all subsequent events through the auditors' report date, which is the date the financial statements were available for issuance. There were no material subsequent events that required recognition or disclosure in the financial statements.

Note 2 - Investments

Wells Fargo has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of December 31, 2014 and the income earned or losses incurred on the investments for the period from November 3, 2014 (inception) through December 31, 2014, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the trustee, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

The fair value of investments greater than 5% of net assets was the following as of December 31, 2014:

Vanguard Target Retirement 2030 Fund	$	20,366
Vanguard Target Retirement 2020 Fund	$	15,519
Vanguard Target Retirement 2035 Fund	$	14,800
Vanguard Target Retirement 2025 Fund	$	11,213
Vanguard Target Retirement 2040 Fund	$	8,565
Vanguard Target Retirement 2045 Fund	$	6,422
Vanguard Target Retirement 2015 Fund	$	5,274

Note 3 - Fair Value Accounting

Generally accepted accounting principles require disclosure about how fair value is determined and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Note 3 - Fair Value Accounting (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets measured at fair value on a recurring basis as of December 31, 2014.

Assets at fair value as of December 31, 2014 are as follows:

Description	Level 1	Level 2	Level 3	Total
Mutual funds				
Balanced	$ 95,836	$ -	$ -	$ 95,836
Equity	3,276	-	-	3,276
Corporate	1,404	-	-	1,404
Total mutual funds	100,516	-	-	100,516
Money market fund	734	-	-	734
Total	$ 101,250	$ -	$ -	$ 101,250

The valuation technique used to measure the fair value of the mutual funds and the money market fund was based on quoted prices (unadjusted) in active markets for identical assets that the Plan has the ability to access at the measurement date (market approach).

The Plan's management reaffirms its understanding of the valuation techniques used by its pricing services at least annually.

Note 4 - Income Taxes

The Plan did not obtain a Plan-specific determination letter as it operates with the trustee's opinion letter, dated March 31, 2014, which was issued on the basic plan document. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the accompanying financial statements.

Generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of the period from November 3, 2014 (inception) through December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 7 - Related Party and Party-in-Interest Transactions

Certain Plan investments are mutual funds and a money market fund, which are managed by Wells Fargo. Wells Fargo is the asset trustee, as defined by the Plan; therefore, these transactions qualify as party-in-interest and are exempt from the prohibited transaction rules.

Note 8 - Reconciliation to Form 5500

Contributions and receivables for financial reporting purposes differ from amounts shown on the Plan's Form 5500 for the period from November 3, 2014 (inception) through December 31, 2014 due to the accrual of employer and employee contributions paid to the Plan subsequent to year-end.
