Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Alerus Financial N.A. and Voya Retirement Insurance and Annuity Company, the trustees of the Plan, except for comparing such information with the related information included in the 2014 financial statements. We have been informed by the plan administrator that Alerus Financial N.A. held the Plan's investment assets and executed investment transactions from January 1, 2014 to December 1, 2014 and that Voya Retirement Insurance and Annuity Company held the Plan's investment assets and executed investment transactions as of December 31, 2014 and for the period December 1, 2014 to December 31, 2014. The Plan administrator has obtained certifications from the trustees as of and for the year ended December 31, 2014, that the information provided to the Plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2014 financial statements. Accordingly, we do not express an opinion on the accompanying 2014 financial statements.

Other Matter – Supplemental Schedule

The supplemental schedule of Form 5500 Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2014 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Other Matter – 2013 Financial Statements

The financial statements of the Plan as of December 31, 2013 were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed the predecessor auditors not to perform, and they did not perform any auditing procedures with respect to the information certified by the trustee. Their report, dated October 15, 2014, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and, accordingly, they did not express an opinion on the financial statements taken as a whole and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the 2014 financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF PLAN

General

The following plan description of the Intercept Interactive Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. Effective October 1, 2002, Intercept Interactive Inc. (dba Undertone Inc., the "Employer" or the "Company") established the Plan. The Plan is a defined contribution 401(k) plan covering substantially all employees of the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Eligibility

Employees must be twenty-one years of age or more and complete one month of service to be eligible to participate in elective deferrals. Employees who meet those requirements and are enrolled in the Plan become eligible to receive Employer matching contributions and non-elective discretionary contributions after a one year service requirement. Non-resident aliens and part-time/temporary/seasonal employees, as defined, are excluded from participation.

Elective Deferral Contributions

The Plan allows each participant to contribute in any amount up to the maximum annual contribution as determined by law. After-tax contributions, rollovers from other qualified plans, and catch up contributions are allowed. Through March 1, 2013 the Plan included an auto-enrollment provision whereby all newly eligible employees were automatically enrolled in the Plan, at a 3% deferral rate, unless they affirmatively elected not to participate in the Plan. During 2013, the Plan was amended to remove this provision.

Employer Contributions

The Employer, at its discretion, may make a matching contribution. Qualified non-elective contributions ("QNEC") may be made at the discretion of the Employer. Qualified matching contributions ("QMAC") are not allowed.

For the year ended December 31, 2014, the Employer did not make any contributions.

Participant Accounts

The Plan is a participant-directed account plan. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants' accounts are credited with participant contributions, Employer contributions and rollovers. Plan earnings and administrative expenses are allocated based upon a participant's account balance in proportion to the balances of all participants' accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participants' vested account.

Vesting

Participants are always 100% vested in their elective deferrals, rollovers, catch-up contributions, after-tax contributions and QNEC's, plus actual earnings thereon. The Company's discretionary contributions vest over a period of five years, at 20% per year starting after one year of credited service, and ending with 100% vesting after five years of service.

Participants who reach the normal retirement age, as defined by the Internal Revenue Code (the "IRC"), and who are still employed with the Company at that time, become 100% vested in their account balance. In addition, participants who die or become disabled while still employed with the Company become 100% vested in their account balance.

1. DESCRIPTION OF PLAN (CONTINUED)

Investment Options

Contributions are invested by Voya Retirement Life Insurance and Annuity Company ("Voya") according to the options elected by the participants. All participant and Employer contributions are directed by the participant among the available investment options. Investment earnings are automatically reinvested into the fund or portfolio from which they were derived. At December 31, 2014 the Plan offers investment options in a fixed income fund (a group annuity contract), and a separate account, which permits participants to select among 26 underlying publicly traded mutual funds and one money market fund.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 not to exceed a maximum of $50,000 or 50% of the participant's vested account balance, whichever is less. The notes are secured by the participant's vested account balances and bear interest at 4.25%. The fixed interest rate is based on the prime rate plus 1% at the time of the loan. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Participants' benefits under the Plan are payable to participants or their beneficiaries upon termination of employment, normal retirement, disability, financial hardship or death. On termination of service, for reasons other than normal retirement, death or disability, a participant will receive a lump-sum payment equal to the value of his or her account. Hardship withdrawals are available, as are in-service distributions to participants who have attained the age of 59½. Corrective distributions are made, returning contributions to participants, in order to comply with the Department of Labor regulations. If a participant employment terminates with the Employer, the Plan permits distribution of the participant's account, not in excess of $5,000, to be cashed out or transferred to an IRA without the participant's additional consent.

Forfeited Accounts

Forfeitures may be used to reduce Employer contributions or to pay Plan expenses. The balance of forfeited accounts was $3,658 and $10,628 at December 31, 2014 and 2013, respectively. During the year ended December 31, 2014, no amounts were forfeited by withdrawing participants, $7,028 was used to pay plan expenses and the forfeiture account earned $58 in dividend income.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Consequently, the statements of net assets available for benefits would present the fair value of the investment contracts as well as the adjustment of the fully benefit responsive investment contracts from fair value to contract value and the statement of changes in net assets available for benefits is prepared on a contract value basis. In this Plan, fair value of the investment contracts held by the Plan at December 31, 2014 equaled contract value. Accordingly, there is no adjustment to contract value in the statement of net assets available for benefits.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation and Income Recognition

Investments in publicly traded mutual funds were measured at fair value based upon quoted market prices. Fund transactions are accounted for on the trade date (date the securities are purchased or sold). Interest income is accounted for on the accrual basis. Dividend income is accounted for on the ex-dividend date. The Plan presents in the statement of changes in net assets available for benefits the net appreciation/depreciation in the fair value of its investments, which consists of realized gains and losses and the unrealized appreciation/depreciation of investments bought and sold as well as held during the year.

Investments in the separate account are valued at the net asset value ("NAV") of units of the separate account. The NAV, as provided by Voya, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the separate account, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurement* defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The codification establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring the most observable units to be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Plan. Unobservable inputs reflect the Plan's assumption about inputs market participants would use at the measurement date.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (continued)

The fair value hierarchy is categorized into three levels based on inputs as follows:

Level 1 – Valuation based on unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Valuation based on quoted prices for similar assets or liabilities in active markets; for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the financial instrument has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the financial instrument.

Level 3 – Valuation based on inputs that are unobservable and significant to the overall fair value measurement.

Level 3 assets and liabilities are measured at fair value based on one or more of three approaches noted in accounting pronouncements. The three approaches are as follows:

- Market approach - Uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities;
- Cost approach – Based on the amount that currently would be required to replace the service capacity of an asset (i.e. current replacement cost); and
- Income approach – Uses valuation techniques to convert future amounts to a single present discounted amount based on market expectations about those future amounts (including present value techniques, option-pricing models, and lattice models).

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Investment Management Fees and Operating Expenses

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation/depreciation in fair value of investments.

Administrative Expenses

The Employer has elected to pay administrative expenses incurred by the Plan except for certain transaction fees such as loan and distribution requests, which are paid by the Plan. The Plan recognized direct expenses totaling $28,889 for the year ended December 31, 2014.

Subsequent Events

The Plan has evaluated subsequent events through October 7, 2015, which is the date the financial statements were available to be issued.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Recent Accounting Pronouncements

In May 2015, the FASB issued accounting standards update ("ASU") 2015-07 which amends the requirements for disclosures for investments in certain entities that calculate NAV per share (or its equivalent). This update removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. It also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The update is effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. The Plan is currently evaluating the effect the update will have on its financial statements.

In July 2015, the FASB issued ASU 2015-12 which, in three parts, amends the requirements for disclosures related to fully benefit-responsive investment contracts and to plan investments, and provides a practical expedient for the measurement date of an employer's defined benefit obligation and plan assets. Part I of this update requires fully benefit-responsive investment contracts to be measured, presented and disclosed only at contract value. Part II eliminates the required disclosures of individual investments that represent five percent or more of net assets available for benefits, and requires the disclosure of the net appreciation or depreciation for investments only be presented in the aggregate. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal-year end, when the fiscal period does not coincide with a month-end. The update is effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. The Plan is currently evaluating the effect the update will have on its financial statements.

3. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEES

Effective December 1, 2014, the Plan changed its trustee from Alerus Financial N.A ("Alerus") to Voya Retirement Insurance and Annuity Company ("Voya"). Alerus, the trustee of the Plan at December 31, 2013 and Voya, the trustee of the Plan at December 31, 2014, certified as to the completeness and accuracy of the investment transactions, income and expenses, and schedules of investment assets as of December 31, 2014 and 2013 and for the year ended December 31, 2014.

The following information, included in the accompanying financial statements and supplemental schedule at December 31, 2014 and 2013, was obtained from data that has been prepared and certified by Alerus and Voya.

4. FAIR VALUE MEASUREMENTS

In accordance with FASB ASC 820, investment assets are classified in their entirety based upon the lowest level of input that is significant to the fair value measurement. There have been no changes to the valuation methodologies used at December 31, 2014 and 2013.

Total Plan investment assets at fair value classified within level 2 was $5,482,632 and $91,848 as of December 31, 2014 and 2013, respectively, which consists of the Plan's separate account at December 31, 2014 and the common collective trust at December 31, 2013. Such amounts were approximately 99.7% and 2.0% of total investment assets in the Plan's statements of net assets available for benefits at fair value as of December 31, 2014 and 2013, respectively.

Total Plan investment assets at fair value classified within level 3 were $13,344 as of December 31, 2014, which consist of the Plan's fixed income fund. Such amount was approximately 0.2% of total investment assets in the Plan's statements of net assets available for benefits at fair value as of December 31, 2014.

4. FAIR VALUE MEASUREMENTS (CONTINUED)

The following tables present by level, within the fair value hierarchy, the Plan investment assets at fair value, as of December 31, 2014 and 2013.

	Fair Value Measurements at December 31, 2014			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Other	326,680	326,680	-	-
	$ 5,308,871	$ 5,217,023	$ 91,848	$ -

Mutual funds were valued at the quoted market prices of shares held by the Plan at year end December 31, 2013.

The common collective trust was valued at the NAV of units held by the Plan at year end as reported by the fund manager on the last day of the Plan year. The NAV, as reported by the trustee, was used as a practical expedient to estimate fair value. The NAV was based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

The separate account is valued at the NAV of units held by the Plan at year end as reported by the trustee on the last day of the Plan year. The fund's net asset value is determined by the bank sponsoring such funds by dividing the fund's net assets at fair value by its units outstanding at the valuation date.

4. FAIR VALUE MEASUREMENTS (CONTINUED)

The fixed income fund is valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the user.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent):

December 31, 2014

Investment	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Separate account	$ 5,482,632	$ -	Daily	None to 30 days

December 31, 2013

Investment		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common collective trusts	$ 91,848	$ -	Daily	None to 30 days

The separate account was established to support the operations of variable annuity contracts, with holdings of 23 lifestyle funds and 1,677 investment divisions (1,342 of which invest in independently managed mutual funds and 335 of which invest in mutual funds managed by an affiliate of Voya) at December 31, 2014. The account provides for variable accumulation and benefits under the contracts by crediting annuity considerations to one or more divisions within the account as directed by the contract owners who bear the investment risk.

Level 3 Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 investment assets for the year ended December 31, 2014.

Fair Value Measurements Using Significant Other Observable Inputs (Level 3)

	Year Ended December 31, 2014
Beginning Balance	$ -
Purchases and transfers-in	13,339
Earnings	5
Ending Balance	$ 13,344

The amount of total investment gains or losses for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ 5

5. TAX STATUS

The Plan obtained the latest determination letter for the prototype plan it has adopted on March 31, 2014, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

6. RISKS AND UNCERTAINTIES

The Plan provides for various investment options in a group annuity contract and a separate investment account that invests in publicly traded mutual funds. These investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with these investments, it is at least reasonably possible that changes in the values of these investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right at any time to terminate the Plan in accordance with ERISA by delivering to the trustee and third party administrator written notice of such termination. Upon termination of the Plan, no further contributions will be made to the Plan and all amounts credited to participants' accounts will become fully vested.

8. RELATED PARTY/PARTY IN-INTEREST

Certain Plan investments are managed by Voya. Voya is the trustee and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid through profit sharing rather than direct payment.

9. CORRECTIVE DISTRIBUTIONS PAYABLE

Contributions received from participants are net of payments for excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. For the year ended December 31, 2013, $78,493, was returned to participants. Those amounts have been included in the Plan's statements of net assets available for benefits as corrective distributions payable for the applicable Plan year.

10. RECONCILIATION TO FORM 5500

The following is a reconciliation of net assets available for benefits according to the financial statements to Form 5500:

	December 31, 2014	December 31, 2013
Net assets available for benefits per the financial statements	$ 5,592,621	$ 5,337,976
Plus corrective distributions payable	-	78,493
Net assets available for benefits per Form 5500	$ 5,592,621	$ 5,416,469

The following is a reconciliation of net increase in net assets available for benefits per the financial statements and net income per Form 5500:

	December 31, 2014
Net increase in net assets available for benefits per the financial statements	$ 254,645
Plus corrective distributions payable at December 31, 2014	-
Less corrective distributions payable at January 1, 2014	(78,493)
Net income per Form 5500	$ 176,152

Other Indirect Compensation

Float

Voya and its affiliated companies ("Voya") earn income in the form of bank service credits on contributions awaiting investment and on payments awaiting distribution from the bank accounts that Voya maintains (or "float"). The bank service credits are applied against the bank service fees that apply to the bank accounts that Voya maintains and may not be redeemed for cash. Specifically, the bank accounts have been established to receive and hold for a reasonable time:

- contributions or other amounts to be invested in your retirement plan, or
- amounts redeemed to pay a distribution or disbursement from your plan.

Your Voya service provider will receive income in the form of bank service credits (as described below) and offset such credits against bank service fees that are charged to Voya for the use of such bank accounts and for services provided by the banks for processing receipts or disbursements.

Float Generated by Contributions:

Your Voya service provider uses a bank account to receive and hold contributions or other Plan deposit amounts to be invested. Contributions or other deposit amounts are held until Authorized Instructions are received in good order. Income in the form of bank service credits are earned on the bank account during any waiting period for Authorized Instructions. For Authorized Instructions received in good order by the close of the New York Stock Exchange (normally 4:00 p.m. Eastern Time), contributions or other deposit amounts will be invested on that business day. For Authorized Instructions received in good order after the close of the New York Stock Exchange, contributions or other deposit amounts will be processed on the next business day.

Float Generated by Distributions:

Your Voya service provider and/or one or more of its corporate affiliates receives income in the form of bank service credits in connection with distributions or disbursements that Voya pays on the plan's behalf. The service credits accrue during the period beginning when an amount is redeemed from the Plan's investment to fund a distribution or disbursement check and ending when the check is presented for payment.

Additionally, from time to time, the corporate affiliate of your Voya service provider may receive money market like rates of return on other deposit or short term investment products in which distributions may be held until such time as the check is presented for payment.

Transaction Processing Errors

Voya processes your Plan's investment instructions on an "omnibus" or aggregated basis. If Voya's correction of a Voya processing error results in a loss to your Plan or its Participants, Voya will absorb the loss. If any gain results in connection with the correction of a Voya processing error, Voya will net any such gain against other losses absorbed by Voya and retain any resulting net gain as a component of its compensation for transaction processing services, including its agreement to make Plan and Participant accounts whole for losses resulting from Voya processing errors. For more information on our error correction policy, please refer to Voya Retirement Insurance and Annuity Company's Policy for Correction of Processing Errors ("VRIAC Policy"). The VRIAC policy is posted in the Sponsor Disclosure section of the Sponsor Web.

Revenue Sharing

In addition, to the extent former or current Affiliates of Voya perform services for the Plan, such Affiliate may share any revenue received with Voya or may credit Voya for such revenue against amounts due from Voya to such Affiliate. Such revenue sharing may include, but it is not limited to, revenue sharing in connection with investment management, brokerage or trustee/custodial services.

Conference Support

Some fund families provide financial support to Voya companies in connection with training and education events attended by Voya employees and representatives. This financial support may include expenses associated with meals. For calendar year 2014 such amount was approximately $2.50 per plan. This estimate was determined by dividing the total amount received from all fund families by the number of plans for which Voya provides investment services.

Appendix: Definitions for Indirect Fees

- **Fund No:** The fund number assigned by Voya
- **Fund Name:** The name of the Fund

Please note that some of the funds available under your plan may include Voya proprietary funds. Proprietary funds are funds which are owned by Voya companies. The mutual funds listed for your plan which start with Voya's name are Voya proprietary funds.

FUND EXPENSES

- **Management Fees**: Fees paid to the Fund for investment advisory activities related to the selection and management of fund investments. These fees may include fees paid to the trustee of a collective investment trust.
- **12b-1 Fees**: Fees paid to the Fund for distribution services provided on behalf of a fund. If the fund imposes 12b-1 fees, such payments are made out of fund assets.
- **Other Expenses**: Fees paid to the Fund for other expenses associated with maintenance of a fund, such as: accounting, audit, recordkeeping, prospectus delivery, proxy support, periodic fund reports printing and/or mailing, etc.
- **Gross Fund Expense:** The sum of the management fees, 12b-1 fees and other expenses paid by the Fund.
- **Waivers and Adjustments**: An adjustment to a portion of the mutual fund fees as stated in the fund's most current prospectus. For certain funds, the investment adviser or other service provider to the fund may waive a portion of its fees or reimburse certain fund expenses, which will reduce the expense ratio of the fund for the period of the waiver or adjustment. These waivers and adjustments may not necessarily continue in the future. Please refer to the footnotes at the end of this report for further information regarding any Waivers and Adjustments shown.
- **Net Fund Expense**: The Gross Fund Expense reduced by any waiver or adjustment in effect.
- **Prospectus Date**: The date of the fund prospectus from which the fund fees have been provided.

VOYA CONTRACT CHARGES

- **Daily Asset Charge**: A Voya contract charge assessed against the variable funds for marketing and sales expenses as well as the costs of various services (e.g., call centers, websites, daily valuation systems, regulatory information, transaction processing, communication, education and enrollment support) in support of your program. This fee paid to Voya may be comprised of a base contract charge as well as additional charges for optional services selected by the plan.

- **Total Net Fund Expense**: The Net Fund Expense plus the Daily Asset Charge.
- **Total Revenue to Voya:** The sum of the Total Daily Asset Charge plus amounts received by Voya from the Fund or fund custodian for Sub TA Expense Reimbursement, 12b-1 Fees and other services.

REVENUE TO VOYA

- **Total Daily Asset Charge**: The Daily Asset charge.
- **Sub Transfer Agent (Sub TA) Expense Reimbursement**: The amount paid to Voya Retirement Insurance and Annuity Company ("VRIAC") or its affiliates by the Fund Family or Fund Transfer Agent for plan and participant level recordkeeping services.
- **12b-1 Fees:** The amount paid to VRIAC or its affiliates by the fund family from the fund's 12b-1 fees for distribution services.
- **Service Fee:** The amount paid to VRIAC or its affiliates by the Fund Family or Fund Transfer Agent for other services provided in connection with the investment option. If your plan uses the Voya Fixed Account or Voya Guaranteed Accumulation Account (GAA), the amount shown in the "Service Fee" column represents our reasonable and good faith estimate of the cost of the recordkeeping and other administrative services being offset through a reduction in the rates of interest that would otherwise be credited. In developing our estimate, we applied guidance issued by the Department of Labor in connection with Form 5500 Schedule C reporting. Under that guidance, if the rate of return on a fixed rate investment contract is net of the expense of recordkeeping and similar administrative services, then the amount so "netted" should be reported as a fee charged against the Plan's investment in order to avoid the inference that the Plan services were being provided free of charge. Estimates of those amounts are permitted so long as the estimate is reasonable, and the methodology and assumptions used to prepare the estimate are disclosed.

  The rate credited to your Plan's Fixed Account and/or GAA ("fixed accounts") balance is a "net" rate that reflects the costs of the recordkeeping and other administrative services we provide. We have estimated the amount of that rate reduction and reported it in the "Service Fee" column of our indirect compensation report in order to inform your understanding of the costs of our recordkeeping and administrative services. Set forth below is a description of the method we used in developing our estimate:

  First, we determined the ratio of (1) our estimated internal costs for providing plan recordkeeping, trusteeship and similar services to all of our Plan customers as of the prior calendar year end, to (2) our average total assets during the same calendar year. We applied that ratio to your Plan's fixed account(s) to arrive at an estimate of the dollar amount of reportable compensation attributable to netting the costs of providing such services against the Fixed Account/GAA rate.

- **Total Revenue to Voya:** The sum of the Total Daily Asset Charge plus amounts received by Voya from the Fund or fund custodian for Sub TA Expense Reimbursement, 12b-1 Fees and other services.

Eligible Indirect Compensation Received by Janney Montgomery Scott LLC
For January 1, 2014 – December 31, 2014
(Information for Form 5500, Schedule C)

General

This information summarizes the Eligible Indirect Compensation (EIC) received by Janney Montgomery Scott LLC (Firm) for certain services related to your plan (Plan). The information provided is for the period shown above or for the portion of the year that the Firm provided services for the Plan.

Services Provided by Firm

The Firm has received the EIC described below in exchange for providing investment-related consulting services and other related assistance (Investment-Related Services) that are intended to assist you with your duties in your capacity as the sponsor and fiduciary of the Plan.

EIC Received by Firm and Identity of Payer(s)

As a registered broker-dealer, the Firm receives payments from the Plan's investment funds (Funds) as indirect compensation for the Investment-Related Services provided on behalf of the Plan, including certain related brokerage services, such as effecting securities transactions in connection with investments in the Plan's investment options. Funds may include mutual funds, stable value funds, bank collective funds and other similar investment products.

When the Plan invests in a Fund that is a mutual fund, such indirect compensation may include 12b-1 fees paid by the Funds for providing distribution-related services as well as administrative and informational services, as applicable, to the Plan. The 12b-1 fees paid by any applicable mutual funds are described in its prospectus. Depending on the particular share class, the purchase of Fund shares by the Plan may be subject to a front-end sales charge, resulting in additional compensation for the Firm as described in the Fund's prospectus. (Investments in the Fund may be subject to other charges that are not payable to the Firm, such as a contingent deferred sales charge payable to a Fund affiliate as described in the Fund's prospectus.) For more information about any sales charges, please refer to the relevant mutual fund prospectuses previously provided to you or when investments are selected, and which are generally available at the relevant Fund's website and your record keeper's or plan administrator's website.

When the Plan invests in any Fund, the Firm may receive separate compensation payable from the issuer or manager of the Fund or one of its affiliates (Manager). Such compensation, also referred to as revenue sharing, is paid from the Manager's assets and does not reduce the amount invested by the Plan or the Plan's investment earnings. The amount of any revenue sharing payments from the Manager of any of the Plan's Funds is described on the Firm's website at the following website address: **www.janney.com/408b2**. The Firm may also receive revenue sharing payments from the Manager of a Fund in the form of a fixed dollar amount that does not depend on the amount of the Plan's investment in any Fund. A Fund's Manager may also pay the Firm's expenses, or provide non-cash items and services, to facilitate training and educational meetings for the Firm's financial advisors, which similarly do not depend on the amount of the Plan's investment in any Fund.
