INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Administrator of the
SCA Tissue Hourly 401(k) Plan for Collectively-Bargained Employees at Menasha and Neenah

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the SCA Tissue Hourly 401(k) Plan for Collectively-Bargained Employees at Menasha and Neenah (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Vanguard Fiduciary Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2014 and 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2014 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of Plan

The following description of the SCA Tissue Hourly 401(k) Plan for Collectively-Bargained Employees at Menasha and Neenah (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 1987, which was most recently amended and restated effective January 1, 2014. The Plan covers all hourly employees of SCA Tissue North America, LLC (the "Company") who have attained age 18, completed 90 days of service, and are hourly employees of the Company at the Menasha, Wisconsin and Neenah, Wisconsin facilities who are members of the Paper, Allied-Industrial Chemical, Energy Workers International Union, Locals #1279 or #324. The Plan's assets are held by Vanguard Fiduciary Trust Company (the "Trustee"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

During 2014, assets of \$8,172 and \$1,108 were transferred to and from the SCA Americas, Inc. Investment and Retirement Plan, respectively. During 2013, assets of \$70,556 were transferred to the SCA Americas, Inc. Investment and Retirement Plan.

Contributions

Participants may elect to contribute up to 75% of eligible compensation, subject to Internal Revenue Code ("IRC") limitations. The Plan provides for an automatic enrollment of salary deferral contributions of 3% per payroll period for new employees, increasing by 1% annually on the participant's employment commencement date anniversary up to a maximum of 5%, unless otherwise elected by the participant. Participants may also contribute qualified distributions from other plans as rollovers into the Plan. For participants who have attained age 50 prior to the end of the Plan year, they may elect to contribute additional elective deferral contributions, subject to IRC limitations. Effective November 1, 2014, participant may elect to designate deferrals as Roth after-tax contributions.

The Company makes a matching contribution in an amount equal to 50% of the first 5% of the participant's compensation contributed to the Plan, up to \$1,100 per participant for the year ended December 31, 2014 and \$1,000 per participant for the year ended December 31, 2013 (See Note 8).

Investment Options

Participants may direct the investment of their account balances in 1% increments to any of the defined investment options. Participants may change their investment options on a daily basis. All investments are participant-directed. For participants who do not make an affirmative election, the Company designates the age-appropriate "Target Fund" as the default investment fund. A Target Fund is an investment fund that provides a mixture of fixed income and equity investments that are matched to an individual's age and presumed retirement age. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and allocations of plan earnings. Allocations of earnings are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balances. Loans are payable through payroll deductions over periods ranging from one to five years or up to fifteen years for the purchase of a primary residence. The loans are

Collectively-Bargained Employees at Menasha and Neenah

secured by the balance in the participant's account and bear interest at a rate commensurate with the prevailing interest rate charged on similar commercial loans, as determined by the plan administrator.

Vesting

Participants have, at all times, a fully vested and non-forfeitable interest in the amount of their voluntary contributions. Upon death, disability, or retirement while employed by the Company, participants become fully vested in their entire account balances. Upon termination of employment for any other reason, participants vest in Company matching contributions according to the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 1 year	0%
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years or more	100%

If a former participant is re-employed by the Company within five years of the termination date, previously forfeited amounts are first used to reinstate the participant's account, then are used to reduce future Company contributions, and lastly to reduce administrative expenses. At December 31, 2014 and 2013, forfeited nonvested accounts totaled \$47,461 and \$46,313, respectively. No amounts were used to reduce employer contributions during 2014 or 2013.

Payment of Benefits

In the event of a participant's death, retirement, disability or termination of employment for other reasons, the participant or his beneficiary may elect to receive the entire account balance in either lump sum or installment payments. Account balances which do not exceed \$1,000 will automatically be paid in a lump sum as soon as administratively feasible. Any mandatory distribution that is greater than \$1,000 and less than \$5,000 is to be paid in a direct rollover to an individual retirement account designated by the Plan Administrator, unless the participant previously elected to have such distribution paid directly to an eligible retirement plan in a direct rollover or to receive the distribution directly. Prior to termination of employment, a participant's voluntary contributions may also be withdrawn upon attainment of age 59½ or in the case of financial hardship, as defined.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts held by the Vanguard Retirement Savings Trust, as well as the adjustment of the fully benefit-responsive investment contracts held by the Vanguard Retirement Savings Trust from fair value to contract value. The statements of changes in net assets available for benefits include changes in net assets attributable to fully benefit-responsive investment contracts held by the Vanguard Retirement Savings Trust on a contract value basis.

Collectively-Bargained Employees at Menasha and Neenah
Notes to Financial Statements
As of and for the Years Ended December 31, 2014 and 2013**

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America, requires Plan management to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in net assets available for benefits during the reporting period, and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The benefits steering committee of the Plan sponsor determines the Plan's valuation policies utilizing information provided by trustees, custodians and investment advisors. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Net appreciation or depreciation in the fair value of investments consists of the realized gains or losses and the unrealized appreciation or depreciation of those investments.

Notes Receivable from Participants

Notes receivable from participants (participant loans for Form 5500 reporting purposes) are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Risks and Uncertainties

The Plan's investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the values of investments, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Payments of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment management fees, fees related to the administration of notes receivable and other participant specific fees are charged directly to the participant's account and are included in administrative expenses. Certain investment related expenses are included in the net appreciation (depreciation) of fair value of investments.

Recently Issued Accounting Guidance

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2015-07, "Fair Value Measurement (Topic 820), Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)" ("ASU 2015-07"). ASU 2015-07 will require an entity to no longer categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. ASU 2015-07 is effective for non-public business entities for fiscal

years beginning after December 15, 2016 (2017 calendar years). A reporting entity should apply the amendments retrospectively to all periods presented. Earlier application is permitted. The Plan's management does not expect the amendments to have any effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In July 2015, the FASB issued Accounting Standards Update No. 2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): I. Fully Benefit-Responsive Investment Contracts, II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient (consensuses of the Emerging Issues Task Force)" ("ASU 2015-12"). ASU 2015-12 will simplify accounting and reporting for employee benefit plans, by among other matters:

- designating contract value as the only required measure for fully benefit-responsive investment contracts.
- requiring that participant-directed and nonparticipant-directed investments of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways.
- removing the requirement to disclose investments that represent 5 percent or more of net assets available for benefits.
- eliminating the requirement to disclose the investment strategy for investments measured using the net asset value per share (or its equivalent) if that investment is in a fund that files a U.S. Department of Labor Form 5500, as a direct filing entity.
- permitting the Fair Value measurement footnote to be presented by only general type.

ASU 2015-12 is effective for plans with fiscal years beginning after December 15, 2016 (2017 calendar years). The amendments in Parts I and II should be applied retrospectively for all financial statements presented. The amendments in Part III should be applied prospectively. Earlier application is permitted. The Plan's management is evaluating the provisions of ASU 2015-12 but does not expect the adoption to have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through October 6, 2015, the date the financial statements were available to be issued.

3. Unaudited Information Certified by the Plan Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information included in the accompanying financial statements and supplemental schedule of assets (held at end of year) was certified by Vanguard Fiduciary Trust Company, the trustee, as complete and accurate:

- Registered investment companies, common/collective trusts and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2014 and 2013.
- Investment activity, including interest and dividend income, interest income on notes receivable from participants, and net appreciation (depreciation) in fair value of investments for the years ended December 31, 2014 and 2013, as follows:

	For the Years Ended December 31,	
	<u>2014</u>	<u>2013</u>
Investment income:		
Net appreciation in fair value of registered investment companies	\$ 5,743,651	\$ 15,463,786
Net appreciation in fair value of common/collective trusts	242,026	-
Net appreciation (depreciation) in fair value of investments	<u>\$ 5,985,677</u>	<u>\$ 15,463,786</u>
Interest and dividends	\$ 3,013,028	\$ 2,610,465
Interest income on notes receivable from participants	\$ 57,958	\$ 68,378

- The information for all registered investment companies, common/collective trusts and participant loans listed in the schedule of assets (held at end of year) as of December 31, 2014 as shown in the supplemental schedule.

The following presents investments that represent 5 percent or more of the Plan's net assets available for benefits at December 31, 2014:

	<u>2014</u>
Vanguard Institutional Index Fund	\$ 34,044,802
Vanguard Retirement Savings Trust III*	14,852,067
American Funds Euro Pacific Growth Fund	9,288,885
Vanguard Extended Market Index Fund	7,508,095
Vanguard Target Retirement 2025 Trust II	6,949,018
Vanguard Total Bond Market Index Fund	5,804,436
Vanguard Long-Term Investment Grade Fund	6,415,543

*Investment at fair value. Contract value is \$14,409,729.

Notes to Financial Statements
As of and for the Years Ended December 31, 2014 and 2013**

The following presents investments that represent 5 percent or more of the Plan's net assets available for benefits at December 31, 2013:

	<u>2013</u>
Vanguard Institutional Index Fund	\$ 31,786,751
Vanguard Retirement Savings Trust III*	13,448,321
American Funds Euro Pacific Growth Fund	9,359,163
Vanguard Extended Market Index Fund	7,545,940
Vanguard Target Retirement 2025 Fund	5,565,286

*Investment at fair value. Contract value is \$13,083,704.

Target date common/collective trusts provide an age-based investment mix of stocks, bonds and short-term investments. The funds seek high total return until the target retirement dates and high income and capital appreciation thereafter. There are no unfunded commitments and the redemption frequency and redemption notice period are daily.

The Vanguard Retirement Savings Trust invests in high-quality fixed income securities with financial backing from insurance companies and banks. As described in Note 2, the Vanguard Retirement Savings Trust is fully benefit-responsive and therefore contract value is the relevant measurement attribute for that portion of net assets available for benefits. Contract value represents contributions made plus interest accrued at the contract rate less withdrawals and administrative expenses. Participants who invest in the Vanguard Retirement Savings Trust agree to limitations imposed by issuers of investment contracts. These limitations include restrictions on the timing and amounts which can be transferred from the Vanguard Retirement Savings Trust to short-term bond funds. Additionally, once money is transferred from the Vanguard Retirement Savings Trust into stock, balanced or bond funds with an average duration of more than four years, the money must remain in the fund for at least 90 days before it can be transferred into a shorter-term bond fund. Money, however, can always be transferred back into the Vanguard Retirement Savings Trust. The average annual yield earned was 2.30% and 1.98% for the years ended December 31, 2014 and 2013, respectively. The average annual yield paid to participants was 1.89% and 1.56% for the years ended December 31, 2014 and 2013, respectively.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

**SCA Tissue Hourly 401(k) Plan for
Collectively-Bargained Employees at Menasha and Neenah
Notes to Financial Statements
As of and for the Years Ended December 31, 2014 and 2013**

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2014 and 2013.

<i>Registered investment companies</i>	Valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.
<i>Retirement Savings Trust</i>	Valued at net asset value based on the units held at year-end. This common/collective trust fund is comprised of traditional contracts issued by insurance companies and banks, alternative investment contracts, and short-term investments. For traditional investment contracts, fair value is determined by calculating the present value of expected future cash flows for each contract. The fair value for alternative investment contracts is determined by aggregating the market value of the underlying investment in Vanguard mutual funds and bond trusts plus the value of the wrap contract, if any. The investments in mutual funds and bond trusts are valued at the net asset value of each fund or trust determined as of the close of the NYSE on the valuation date.
<i>Common/collective trusts</i>	Valued at the net asset value of units held at year-end. When available and believed by the trustee to be reliable, quoted market prices are used to value the underlying investments held by the collective trusts and consist primarily of certain equity securities and fixed income options traded in an active exchange market as well as investments in mutual funds. For underlying investments consisting of fixed maturities (municipal bonds, US bonds, Eurobonds/foreign bonds, certain equity securities, short-term investments, certain cash equivalents and over-the-counter derivatives), valuations are generally obtained from third-party pricing services for identical or comparable assets or liabilities, non-binding broker quotes (when pricing service information is not available) or through the use of valuation methodologies using observable inputs. For underlying investments where vender pricing is not available, internally developed valuations using one or more unobservable inputs or non-binding quotes are used to determine fair value primarily for certain private fixed maturities and equity securities, certain manually priced public equity securities and fixed maturities, including certain asset-backed securities and securities where the collective trusts chose to over-ride pricing information received from third-parties. Debt obligation securities maturing within 60 days of the time of purchase in certain collective trusts are valued at amortized costs.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated April 26, 2012, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The plan administrator and the plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

6. Related-Party and Party In Interest Transactions

The Plan invests in registered investment companies and common/collective trusts which are managed by affiliates of Vanguard Fiduciary Trust Company ("VFTC"). The Plan also pays to VFTC certain administrative, trustee, recordkeeping, and other expenses. VFTC is the trustee as defined by the Plan and, therefore, transactions in these securities qualify as party-in-interest transactions. Such transactions are not, however, considered prohibited transactions under 29 CFR 408(b) of the ERISA regulations. Additionally, for participants who have elected to take a participant loan, the loans are secured by the respective participant's account balance.

7. Plan Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the Plan provides that participants shall become fully vested in their accounts, and payment of such amounts will be made by the Trustee as directed by the Plan document.

8. Plan Amendments

Effective January 1, 2014, the Plan was amended and restated to incorporate past amendments, to modify certain administrative procedures and to update for recent regulatory changes. Additionally:

- Effective January 1, 2014, the Company shall contribute maximum matching contribution in accordance with provided schedule to a maximum of \$1,100 in 2014, \$1,200 in 2015 and \$1,300 in 2016 and subsequent years.
- Effective November 1, 2014, a participant may elect to designate deferrals as Roth after-tax contributions.
- For each plan year beginning on or after January 1, 2016, the Company shall make a non-elective contribution equal to 5.5% of the participant's compensation, subject to eligibility as of their date of hire. A participant becomes fully vested in their non-elective contributions after three years of service.

9. Reconciliation of Form 5500 to Financial Statements

The following is a reconciliation of net assets available for benefits per Schedule H of Form 5500 to the financial statements at December 31, 2014 and 2013:

	2014	2013
Net assets available for benefits per the Form 5500	\$ 114,952,808	\$108,303,856

INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Administrator of the
SCA Tissue Hourly 401(k) Plan for Collectively-Bargained Employees at Menasha and Neenah

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the SCA Tissue Hourly 401(k) Plan for Collectively-Bargained Employees at Menasha and Neenah (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Vanguard Fiduciary Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2014 and 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2014 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of Plan

The following description of the SCA Tissue Hourly 401(k) Plan for Collectively-Bargained Employees at Menasha and Neenah (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 1987, which was most recently amended and restated effective January 1, 2014. The Plan covers all hourly employees of SCA Tissue North America, LLC (the "Company") who have attained age 18, completed 90 days of service, and are hourly employees of the Company at the Menasha, Wisconsin and Neenah, Wisconsin facilities who are members of the Paper, Allied-Industrial Chemical, Energy Workers International Union, Locals #1279 or #324. The Plan's assets are held by Vanguard Fiduciary Trust Company (the "Trustee"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

During 2014, assets of \$8,172 and \$1,108 were transferred to and from the SCA Americas, Inc. Investment and Retirement Plan, respectively. During 2013, assets of \$70,556 were transferred to the SCA Americas, Inc. Investment and Retirement Plan.

Contributions

Participants may elect to contribute up to 75% of eligible compensation, subject to Internal Revenue Code ("IRC") limitations. The Plan provides for an automatic enrollment of salary deferral contributions of 3% per payroll period for new employees, increasing by 1% annually on the participant's employment commencement date anniversary up to a maximum of 5%, unless otherwise elected by the participant. Participants may also contribute qualified distributions from other plans as rollovers into the Plan. For participants who have attained age 50 prior to the end of the Plan year, they may elect to contribute additional elective deferral contributions, subject to IRC limitations. Effective November 1, 2014, participant may elect to designate deferrals as Roth after-tax contributions.

The Company makes a matching contribution in an amount equal to 50% of the first 5% of the participant's compensation contributed to the Plan, up to \$1,100 per participant for the year ended December 31, 2014 and \$1,000 per participant for the year ended December 31, 2013 (See Note 8).

Investment Options

Participants may direct the investment of their account balances in 1% increments to any of the defined investment options. Participants may change their investment options on a daily basis. All investments are participant-directed. For participants who do not make an affirmative election, the Company designates the age-appropriate "Target Fund" as the default investment fund. A Target Fund is an investment fund that provides a mixture of fixed income and equity investments that are matched to an individual's age and presumed retirement age. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and allocations of plan earnings. Allocations of earnings are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balances. Loans are payable through payroll deductions over periods ranging from one to five years or up to fifteen years for the purchase of a primary residence. The loans are

Collectively-Bargained Employees at Menasha and Neenah

secured by the balance in the participant's account and bear interest at a rate commensurate with the prevailing interest rate charged on similar commercial loans, as determined by the plan administrator.

Vesting

Participants have, at all times, a fully vested and non-forfeitable interest in the amount of their voluntary contributions. Upon death, disability, or retirement while employed by the Company, participants become fully vested in their entire account balances. Upon termination of employment for any other reason, participants vest in Company matching contributions according to the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 1 year	0%
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years or more	100%

If a former participant is re-employed by the Company within five years of the termination date, previously forfeited amounts are first used to reinstate the participant's account, then are used to reduce future Company contributions, and lastly to reduce administrative expenses. At December 31, 2014 and 2013, forfeited nonvested accounts totaled \$47,461 and \$46,313, respectively. No amounts were used to reduce employer contributions during 2014 or 2013.

Payment of Benefits

In the event of a participant's death, retirement, disability or termination of employment for other reasons, the participant or his beneficiary may elect to receive the entire account balance in either lump sum or installment payments. Account balances which do not exceed \$1,000 will automatically be paid in a lump sum as soon as administratively feasible. Any mandatory distribution that is greater than \$1,000 and less than \$5,000 is to be paid in a direct rollover to an individual retirement account designated by the Plan Administrator, unless the participant previously elected to have such distribution paid directly to an eligible retirement plan in a direct rollover or to receive the distribution directly. Prior to termination of employment, a participant's voluntary contributions may also be withdrawn upon attainment of age 59½ or in the case of financial hardship, as defined.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts held by the Vanguard Retirement Savings Trust, as well as the adjustment of the fully benefit-responsive investment contracts held by the Vanguard Retirement Savings Trust from fair value to contract value. The statements of changes in net assets available for benefits include changes in net assets attributable to fully benefit-responsive investment contracts held by the Vanguard Retirement Savings Trust on a contract value basis.

**SCA Tissue Hourly 401(k) Plan for
Collectively-Bargained Employees at Menasha and Neenah
Notes to Financial Statements
As of and for the Years Ended December 31, 2014 and 2013**

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America, requires Plan management to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in net assets available for benefits during the reporting period, and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The benefits steering committee of the Plan sponsor determines the Plan's valuation policies utilizing information provided by trustees, custodians and investment advisors. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Net appreciation or depreciation in the fair value of investments consists of the realized gains or losses and the unrealized appreciation or depreciation of those investments.

Notes Receivable from Participants

Notes receivable from participants (participant loans for Form 5500 reporting purposes) are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Risks and Uncertainties

The Plan's investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the values of investments, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Payments of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment management fees, fees related to the administration of notes receivable and other participant specific fees are charged directly to the participant's account and are included in administrative expenses. Certain investment related expenses are included in the net appreciation (depreciation) of fair value of investments.

Recently Issued Accounting Guidance

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2015-07, "Fair Value Measurement (Topic 820), Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)" ("ASU 2015-07"). ASU 2015-07 will require an entity to no longer categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. ASU 2015-07 is effective for non-public business entities for fiscal

**SCA Tissue Hourly 401(k) Plan for
Collectively-Bargained Employees at Menasha and Neenah
Notes to Financial Statements
As of and for the Years Ended December 31, 2014 and 2013**

years beginning after December 15, 2016 (2017 calendar years). A reporting entity should apply the amendments retrospectively to all periods presented. Earlier application is permitted. The Plan's management does not expect the amendments to have any effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In July 2015, the FASB issued Accounting Standards Update No. 2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): I. Fully Benefit-Responsive Investment Contracts, II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient (consensuses of the Emerging Issues Task Force)" ("ASU 2015-12"). ASU 2015-12 will simplify accounting and reporting for employee benefit plans, by among other matters:

- designating contract value as the only required measure for fully benefit-responsive investment contracts.
- requiring that participant-directed and nonparticipant-directed investments of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways.
- removing the requirement to disclose investments that represent 5 percent or more of net assets available for benefits.
- eliminating the requirement to disclose the investment strategy for investments measured using the net asset value per share (or its equivalent) if that investment is in a fund that files a U.S. Department of Labor Form 5500, as a direct filing entity.
- permitting the Fair Value measurement footnote to be presented by only general type.

ASU 2015-12 is effective for plans with fiscal years beginning after December 15, 2016 (2017 calendar years). The amendments in Parts I and II should be applied retrospectively for all financial statements presented. The amendments in Part III should be applied prospectively. Earlier application is permitted. The Plan's management is evaluating the provisions of ASU 2015-12 but does not expect the adoption to have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through October 6, 2015, the date the financial statements were available to be issued.

3. Unaudited Information Certified by the Plan Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information included in the accompanying financial statements and supplemental schedule of assets (held at end of year) was certified by Vanguard Fiduciary Trust Company, the trustee, as complete and accurate:

- Registered investment companies, common/collective trusts and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2014 and 2013.
- Investment activity, including interest and dividend income, interest income on notes receivable from participants, and net appreciation (depreciation) in fair value of investments for the years ended December 31, 2014 and 2013, as follows:

	For the Years Ended December 31,	
	<u>2014</u>	<u>2013</u>
Investment income:		
Net appreciation in fair value of registered investment companies	\$ 5,743,651	\$ 15,463,786
Net appreciation in fair value of common/collective trusts	242,026	-
Net appreciation (depreciation) in fair value of investments	<u>\$ 5,985,677</u>	<u>\$ 15,463,786</u>
Interest and dividends	\$ 3,013,028	\$ 2,610,465
Interest income on notes receivable from participants	\$ 57,958	\$ 68,378

- The information for all registered investment companies, common/collective trusts and participant loans listed in the schedule of assets (held at end of year) as of December 31, 2014 as shown in the supplemental schedule.

The following presents investments that represent 5 percent or more of the Plan's net assets available for benefits at December 31, 2014:

	<u>2014</u>
Vanguard Institutional Index Fund	\$ 34,044,802
Vanguard Retirement Savings Trust III*	14,852,067
American Funds Euro Pacific Growth Fund	9,288,885

Notes to Financial Statements
As of and for the Years Ended December 31, 2014 and 2013**

The following presents investments that represent 5 percent or more of the Plan's net assets available for benefits at December 31, 2013:

	<u>2013</u>
Vanguard Institutional Index Fund	\$ 31,786,751
Vanguard Retirement Savings Trust III*	13,448,321
American Funds Euro Pacific Growth Fund	9,359,163
Vanguard Extended Market Index Fund	7,545,940
Vanguard Target Retirement 2025 Fund	5,565,286

*Investment at fair value. Contract value is \$13,083,704.

Target date common/collective trusts provide an age-based investment mix of stocks, bonds and short-term investments. The funds seek high total return until the target retirement dates and high income and capital appreciation thereafter. There are no unfunded commitments and the redemption frequency and redemption notice period are daily.

The Vanguard Retirement Savings Trust invests in high-quality fixed income securities with financial backing from insurance companies and banks. As described in Note 2, the Vanguard Retirement Savings Trust is fully benefit-responsive and therefore contract value is the relevant measurement attribute for that portion of net assets available for benefits. Contract value represents contributions made plus interest accrued at the contract rate less withdrawals and administrative expenses. Participants who invest in the Vanguard Retirement Savings Trust agree to limitations imposed by issuers of investment contracts. These limitations include restrictions on the timing and amounts which can be transferred from the Vanguard Retirement Savings Trust to short-term bond funds. Additionally, once money is transferred from the Vanguard Retirement Savings Trust into stock, balanced or bond funds with an average duration of more than four years, the money must remain in the fund for at least 90 days before it can be transferred into a shorter-term bond fund. Money, however, can always be transferred back into the Vanguard Retirement Savings Trust. The average annual yield earned was 2.30% and 1.98% for the years ended December 31, 2014 and 2013, respectively. The average annual yield paid to participants was 1.89% and 1.56% for the years ended December 31, 2014 and 2013, respectively.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

**SCA Tissue Hourly 401(k) Plan for
Collectively-Bargained Employees at Menasha and Neenah
Notes to Financial Statements
As of and for the Years Ended December 31, 2014 and 2013**

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2014 and 2013.

<i>Registered investment companies</i>	Valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.
<i>Retirement Savings Trust</i>	Valued at net asset value based on the units held at year-end. This common/collective trust fund is comprised of traditional contracts issued by insurance companies and banks, alternative investment contracts, and short-term investments. For traditional investment contracts, fair value is determined by calculating the present value of expected future cash flows for each contract. The fair value for alternative investment contracts is determined by aggregating the market value of the underlying investment in Vanguard mutual funds and bond trusts plus the value of the wrap contract, if any. The investments in mutual funds and bond trusts are valued at the net asset value of each fund or trust determined as of the close of the NYSE on the valuation date.
<i>Common/collective trusts</i>	Valued at the net asset value of units held at year-end. When available and believed by the trustee to be reliable, quoted market prices are used to value the underlying investments held by the collective trusts and consist primarily of certain equity securities and fixed income options traded in an active exchange market as well as investments in mutual funds. For underlying investments consisting of fixed maturities (municipal bonds, US bonds, Eurobonds/foreign bonds, certain equity securities, short-term investments, certain cash equivalents and over-the-counter derivatives), valuations are generally obtained from third-party pricing services for identical or comparable assets or liabilities, non-binding broker quotes (when pricing service information is not available) or through the use of valuation methodologies using observable inputs. For underlying investments where vender pricing is not available, internally developed valuations using one or more unobservable inputs or non-binding quotes are used to determine fair value primarily for certain private fixed maturities and equity securities, certain manually priced public equity securities and fixed maturities, including certain asset-backed securities and securities where the collective trusts chose to over-ride pricing information received from third-parties. Debt obligation securities maturing within 60 days of the time of purchase in certain collective trusts are valued at amortized costs.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated April 26, 2012, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The plan administrator and the plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

6. Related-Party and Party In Interest Transactions

The Plan invests in registered investment companies and common/collective trusts which are managed by affiliates of Vanguard Fiduciary Trust Company ("VFTC"). The Plan also pays to VFTC certain administrative, trustee, recordkeeping, and other expenses. VFTC is the trustee as defined by the Plan and, therefore, transactions in these securities qualify as party-in-interest transactions. Such transactions are not, however, considered prohibited transactions under 29 CFR 408(b) of the ERISA regulations. Additionally, for participants who have elected to take a participant loan, the loans are secured by the respective participant's account balance.

7. Plan Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the Plan provides that participants shall become fully vested in their accounts, and payment of such amounts will be made by the Trustee as directed by the Plan document.

8. Plan Amendments

Effective January 1, 2014, the Plan was amended and restated to incorporate past amendments, to modify certain administrative procedures and to update for recent regulatory changes. Additionally:

- Effective January 1, 2014, the Company shall contribute maximum matching contribution in accordance with provided schedule to a maximum of \$1,100 in 2014, \$1,200 in 2015 and \$1,300 in 2016 and subsequent years.
- Effective November 1, 2014, a participant may elect to designate deferrals as Roth after-tax contributions.
- For each plan year beginning on or after January 1, 2016, the Company shall make a non-elective contribution equal to 5.5% of the participant's compensation, subject to eligibility as of their date of hire. A participant becomes fully vested in their non-elective contributions after three years of service.

9. Reconciliation of Form 5500 to Financial Statements

The following is a reconciliation of net assets available for benefits per Schedule H of Form 5500 to the financial statements at December 31, 2014 and 2013:

	2014	2013
Net assets available for benefits per the Form 5500	\$ 114,952,808	\$108,303,856

INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Administrator of the
SCA Tissue Hourly 401(k) Plan for Collectively-Bargained Employees at Menasha and Neenah

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the SCA Tissue Hourly 401(k) Plan for Collectively-Bargained Employees at Menasha and Neenah (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Vanguard Fiduciary Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2014 and 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2014 is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of Plan

The following description of the SCA Tissue Hourly 401(k) Plan for Collectively-Bargained Employees at Menasha and Neenah (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 1987, which was most recently amended and restated effective January 1, 2014. The Plan covers all hourly employees of SCA Tissue North America, LLC (the "Company") who have attained age 18, completed 90 days of service, and are hourly employees of the Company at the Menasha, Wisconsin and Neenah, Wisconsin facilities who are members of the Paper, Allied-Industrial Chemical, Energy Workers International Union, Locals #1279 or #324. The Plan's assets are held by Vanguard Fiduciary Trust Company (the "Trustee"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

During 2014, assets of \$8,172 and \$1,108 were transferred to and from the SCA Americas, Inc. Investment and Retirement Plan, respectively. During 2013, assets of \$70,556 were transferred to the SCA Americas, Inc. Investment and Retirement Plan.

Contributions

Participants may elect to contribute up to 75% of eligible compensation, subject to Internal Revenue Code ("IRC") limitations. The Plan provides for an automatic enrollment of salary deferral contributions of 3% per payroll period for new employees, increasing by 1% annually on the participant's employment commencement date anniversary up to a maximum of 5%, unless otherwise elected by the participant. Participants may also contribute qualified distributions from other plans as rollovers into the Plan. For participants who have attained age 50 prior to the end of the Plan year, they may elect to contribute additional elective deferral contributions, subject to IRC limitations. Effective November 1, 2014, participant may elect to designate deferrals as Roth after-tax contributions.

The Company makes a matching contribution in an amount equal to 50% of the first 5% of the participant's compensation contributed to the Plan, up to \$1,100 per participant for the year ended December 31, 2014 and \$1,000 per participant for the year ended December 31, 2013 (See Note 8).

Investment Options

Participants may direct the investment of their account balances in 1% increments to any of the defined investment options. Participants may change their investment options on a daily basis. All investments are participant-directed. For participants who do not make an affirmative election, the Company designates the age-appropriate "Target Fund" as the default investment fund. A Target Fund is an investment fund that provides a mixture of fixed income and equity investments that are matched to an individual's age and presumed retirement age. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and allocations of plan earnings. Allocations of earnings are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balances. Loans are payable through payroll deductions over periods ranging from one to five years or up to fifteen years for the purchase of a primary residence. The loans are

Collectively-Bargained Employees at Menasha and Neenah

As of and for the Years Ended December 31, 2014 and 2013**

secured by the balance in the participant's account and bear interest at a rate commensurate with the prevailing interest rate charged on similar commercial loans, as determined by the plan administrator.

Vesting

Participants have, at all times, a fully vested and non-forfeitable interest in the amount of their voluntary contributions. Upon death, disability, or retirement while employed by the Company, participants become fully vested in their entire account balances. Upon termination of employment for any other reason, participants vest in Company matching contributions according to the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 1 year	0%
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years or more	100%

If a former participant is re-employed by the Company within five years of the termination date, previously forfeited amounts are first used to reinstate the participant's account, then are used to reduce future Company contributions, and lastly to reduce administrative expenses. At December 31, 2014 and 2013, forfeited nonvested accounts totaled \$47,461 and \$46,313, respectively. No amounts were used to reduce employer contributions during 2014 or 2013.

Payment of Benefits

In the event of a participant's death, retirement, disability or termination of employment for other reasons, the participant or his beneficiary may elect to receive the entire account balance in either lump sum or installment payments. Account balances which do not exceed \$1,000 will automatically be paid in a lump sum as soon as administratively feasible. Any mandatory distribution that is greater than \$1,000 and less than \$5,000 is to be paid in a direct rollover to an individual retirement account designated by the Plan Administrator, unless the participant previously elected to have such distribution paid directly to an eligible retirement plan in a direct rollover or to receive the distribution directly. Prior to termination of employment, a participant's voluntary contributions may also be withdrawn upon attainment of age 59½ or in the case of financial hardship, as defined.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts held by the Vanguard Retirement Savings Trust, as well as the adjustment of the fully benefit-responsive investment contracts held by the Vanguard Retirement Savings Trust from fair value to contract value. The statements of changes in net assets available for benefits include changes in net assets attributable to fully benefit-responsive investment contracts held by the Vanguard Retirement Savings Trust on a contract value basis.

**SCA Tissue Hourly 401(k) Plan for
Collectively-Bargained Employees at Menasha and Neenah
Notes to Financial Statements
As of and for the Years Ended December 31, 2014 and 2013**

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America, requires Plan management to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in net assets available for benefits during the reporting period, and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The benefits steering committee of the Plan sponsor determines the Plan's valuation policies utilizing information provided by trustees, custodians and investment advisors. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Net appreciation or depreciation in the fair value of investments consists of the realized gains or losses and the unrealized appreciation or depreciation of those investments.

Notes Receivable from Participants

Notes receivable from participants (participant loans for Form 5500 reporting purposes) are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Risks and Uncertainties

The Plan's investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the values of investments, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Payments of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment management fees, fees related to the administration of notes receivable and other participant specific fees are charged directly to the participant's account and are included in administrative expenses. Certain investment related expenses are included in the net appreciation (depreciation) of fair value of investments.

Recently Issued Accounting Guidance

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2015-07, "Fair Value Measurement (Topic 820), Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)" ("ASU 2015-07"). ASU 2015-07 will require an entity to no longer categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. ASU 2015-07 is effective for non-public business entities for fiscal

**SCA Tissue Hourly 401(k) Plan for
Collectively-Bargained Employees at Menasha and Neenah
Notes to Financial Statements
As of and for the Years Ended December 31, 2014 and 2013**

years beginning after December 15, 2016 (2017 calendar years). A reporting entity should apply the amendments retrospectively to all periods presented. Earlier application is permitted. The Plan's management does not expect the amendments to have any effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In July 2015, the FASB issued Accounting Standards Update No. 2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): I. Fully Benefit-Responsive Investment Contracts, II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient (consensuses of the Emerging Issues Task Force)" ("ASU 2015-12"). ASU 2015-12 will simplify accounting and reporting for employee benefit plans, by among other matters:

- designating contract value as the only required measure for fully benefit-responsive investment contracts.
- requiring that participant-directed and nonparticipant-directed investments of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways.
- removing the requirement to disclose investments that represent 5 percent or more of net assets available for benefits.
- eliminating the requirement to disclose the investment strategy for investments measured using the net asset value per share (or its equivalent) if that investment is in a fund that files a U.S. Department of Labor Form 5500, as a direct filing entity.
- permitting the Fair Value measurement footnote to be presented by only general type.

ASU 2015-12 is effective for plans with fiscal years beginning after December 15, 2016 (2017 calendar years). The amendments in Parts I and II should be applied retrospectively for all financial statements presented. The amendments in Part III should be applied prospectively. Earlier application is permitted. The Plan's management is evaluating the provisions of ASU 2015-12 but does not expect the adoption to have a material effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through October 6, 2015, the date the financial statements were available to be issued.

3. Unaudited Information Certified by the Plan Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information included in the accompanying financial statements and supplemental schedule of assets (held at end of year) was certified by Vanguard Fiduciary Trust Company, the trustee, as complete and accurate:

- Registered investment companies, common/collective trusts and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2014 and 2013.
- Investment activity, including interest and dividend income, interest income on notes receivable from participants, and net appreciation (depreciation) in fair value of investments for the years ended December 31, 2014 and 2013, as follows:

	For the Years Ended December 31,	
	<u>2014</u>	<u>2013</u>
Investment income:		
Net appreciation in fair value of registered investment companies	\$ 5,743,651	\$ 15,463,786
Net appreciation in fair value of common/collective trusts	242,026	-
Net appreciation (depreciation) in fair value of investments	<u>\$ 5,985,677</u>	<u>\$ 15,463,786</u>
Interest and dividends	\$ 3,013,028	\$ 2,610,465
Interest income on notes receivable from participants	\$ 57,958	\$ 68,378

- The information for all registered investment companies, common/collective trusts and participant loans listed in the schedule of assets (held at end of year) as of December 31, 2014 as shown in the supplemental schedule.

The following presents investments that represent 5 percent or more of the Plan's net assets available for benefits at December 31, 2014:

	<u>2014</u>
Vanguard Institutional Index Fund	\$ 34,044,802
Vanguard Retirement Savings Trust III*	14,852,067

The following presents investments that represent 5 percent or more of the Plan's net assets available for benefits at December 31, 2013:

	<u>2013</u>
Vanguard Institutional Index Fund	\$ 31,786,751
Vanguard Retirement Savings Trust III*	13,448,321
American Funds Euro Pacific Growth Fund	9,359,163
Vanguard Extended Market Index Fund	7,545,940
Vanguard Target Retirement 2025 Fund	5,565,286

*Investment at fair value. Contract value is \$13,083,704.

Target date common/collective trusts provide an age-based investment mix of stocks, bonds and short-term investments. The funds seek high total return until the target retirement dates and high income and capital appreciation thereafter. There are no unfunded commitments and the redemption frequency and redemption notice period are daily.

The Vanguard Retirement Savings Trust invests in high-quality fixed income securities with financial backing from insurance companies and banks. As described in Note 2, the Vanguard Retirement Savings Trust is fully benefit-responsive and therefore contract value is the relevant measurement attribute for that portion of net assets available for benefits. Contract value represents contributions made plus interest accrued at the contract rate less withdrawals and administrative expenses. Participants who invest in the Vanguard Retirement Savings Trust agree to limitations imposed by issuers of investment contracts. These limitations include restrictions on the timing and amounts which can be transferred from the Vanguard Retirement Savings Trust to short-term bond funds. Additionally, once money is transferred from the Vanguard Retirement Savings Trust into stock, balanced or bond funds with an average duration of more than four years, the money must remain in the fund for at least 90 days before it can be transferred into a shorter-term bond fund. Money, however, can always be transferred back into the Vanguard Retirement Savings Trust. The average annual yield earned was 2.30% and 1.98% for the years ended December 31, 2014 and 2013, respectively. The average annual yield paid to participants was 1.89% and 1.56% for the years ended December 31, 2014 and 2013, respectively.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Collectively-Bargained Employees at Menasha and Neenah
Notes to Financial Statements
As of and for the Years Ended December 31, 2014 and 2013**

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2014 and 2013.

<i>Registered investment companies</i>	Valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.
<i>Retirement Savings Trust</i>	Valued at net asset value based on the units held at year-end. This common/collective trust fund is comprised of traditional contracts issued by insurance companies and banks, alternative investment contracts, and short-term investments. For traditional investment contracts, fair value is determined by calculating the present value of expected future cash flows for each contract. The fair value for alternative investment contracts is determined by aggregating the market value of the underlying investment in Vanguard mutual funds and bond trusts plus the value of the wrap contract, if any. The investments in mutual funds and bond trusts are valued at the net asset value of each fund or trust determined as of the close of the NYSE on the valuation date.
<i>Common/collective trusts</i>	Valued at the net asset value of units held at year-end. When available and believed by the trustee to be reliable, quoted market prices are used to value the underlying investments held by the collective trusts and consist primarily of certain equity securities and fixed income options traded in an active exchange market as well as investments in mutual funds. For underlying investments consisting of fixed maturities (municipal bonds, US bonds, Eurobonds/foreign bonds, certain equity securities, short-term investments, certain cash equivalents and over-the-counter derivatives), valuations are generally obtained from third-party pricing services for identical or comparable assets or liabilities, non-binding broker quotes (when pricing service information is not available) or through the use of valuation methodologies using observable inputs. For underlying investments where vender pricing is not available, internally developed valuations using one or more unobservable inputs or non-binding quotes are used to determine fair value primarily for certain private fixed maturities and equity securities, certain manually priced public equity securities and fixed maturities, including certain asset-backed securities and securities where the collective trusts chose to over-ride pricing information received from third-parties. Debt obligation securities maturing within 60 days of the time of purchase in certain collective trusts are valued at amortized costs.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated April 26, 2012, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The plan administrator and the plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

6. Related-Party and Party In Interest Transactions

The Plan invests in registered investment companies and common/collective trusts which are managed by affiliates of Vanguard Fiduciary Trust Company ("VFTC"). The Plan also pays to VFTC certain administrative, trustee, recordkeeping, and other expenses. VFTC is the trustee as defined by the Plan and, therefore, transactions in these securities qualify as party-in-interest transactions. Such transactions are not, however, considered prohibited transactions under 29 CFR 408(b) of the ERISA regulations. Additionally, for participants who have elected to take a participant loan, the loans are secured by the respective participant's account balance.

7. Plan Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the Plan provides that participants shall become fully vested in their accounts, and payment of such amounts will be made by the Trustee as directed by the Plan document.

8. Plan Amendments

Effective January 1, 2014, the Plan was amended and restated to incorporate past amendments, to modify certain administrative procedures and to update for recent regulatory changes. Additionally:

- Effective January 1, 2014, the Company shall contribute maximum matching contribution in accordance with provided schedule to a maximum of \$1,100 in 2014, \$1,200 in 2015 and \$1,300 in 2016 and subsequent years.
- Effective November 1, 2014, a participant may elect to designate deferrals as Roth after-tax contributions.
- For each plan year beginning on or after January 1, 2016, the Company shall make a non-elective contribution equal to 5.5% of the participant's compensation, subject to eligibility as of their date of hire. A participant becomes fully vested in their non-elective contributions after three years of service.

9. Reconciliation of Form 5500 to Financial Statements

The following is a reconciliation of net assets available for benefits per Schedule H of Form 5500 to the financial statements at December 31, 2014 and 2013:
