NOTE A - DESCRIPTION OF THE PLAN

The following description of The PMC 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan covering all full-time employees of the Company who have completed three months of service and are age twenty-one or older. Upon satisfying this requirement, the employee will become eligible to participate in the Plan on the first day of each month. To qualify for the employer matching contribution and the employer non-elective contribution, the participant must attain age twenty-one and complete one year of service with at least 1,000 hours. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees oversees governance of the Plan. The Plan's investment committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Plan's Board of Trustees.

2. Contributions

Each year, participants may contribute up to 60% of their pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual and money market funds as investment options for participants. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan, unless they affirmatively elect not to participate, with a default deferral rate set at 2% of eligible compensation. Effective April 22, 2014, the automatic enrollment deferral rate changed to 3%. Contributions are automatically invested in a designated fund until changed by the participant. Contributions are subject to certain statutory limits. The participant may change the withholding percentage the first day of each month.

The Company may make matching contributions in an amount equal to the percentage declared for the contribution period. The employer matching contribution was 100% of employee deferrals subject to a maximum of 2% of eligible annual compensation. As of April 1, 2014, the employer matching contribution was changed to 100% of employee deferrals up to 2%, plus 50% of the next 1%.

The Company may also make additional discretionary profit sharing contributions to the Plan. These contributions are determined annually at the discretion of the Company's management. The Company may designate all or a portion of discretionary profit sharing contributions as qualified non-elective contributions. The Company made no discretionary contributions during 2014 or 2013.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

3. Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's discretionary matching contributions, (b) allocation of the Company's discretionary profit sharing contribution, and (c) plan earnings (losses), and charged with an allocation of any administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

4. Vesting

Participants are immediately vested in their contributions, employer match, rollovers, qualified non-elective employer contributions, plus actual earnings thereon.

Vesting in the employer's non-elective contributions to the Plan is based on years of continuous service. A participant is 100% vested after three years of credited service.

Vesting in the employer's discretionary profit sharing contributions for participants with account balances derived from non-elective employer contributions for plan years beginning prior to January 1, 2007 is based upon the elapsed time method. Hours of service are not counted and instead periods of service are computed, with only whole years of service being counted. A participant is 100% vested after five years of credited service.

5. Forfeited Accounts

At December 31, 2014 and 2013, forfeited nonvested accounts totaled $397 and $394, respectively. In accordance with the plan document, forfeitures may be first used to pay administrative expenses and any remaining amount used to reduce future employer contributions. The Company did not use any of the cumulative forfeitures to fund the administrative expenses or employer contributions in 2014 and 2013, respectively.

6. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the vested account balance. Participants may have only one loan outstanding at any given time. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loan fund. All loans are repaid in equal payments on at least a quarterly basis over a five-year period unless it is for the purchase of the participant's principal residence. Then the loan may be repaid over a ten-year period.

NOTE A - DESCRIPTION OF THE PLAN (Continued)

6. Notes Receivable from Participants (Continued)

The loans are secured by the balance in the participant's account. Interest rates are set by the plan administrator upon the date of the loan application based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances.

7. Payment of Benefits

Upon termination of service due to death, disability, retirement or termination of employment, a participant may elect to receive a lump sum amount equal to the participant's vested interest in his or her account. Vested account balances less than $1,000 can be automatically distributed to participants upon termination.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

2. Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's valuation policies. See Note I for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gain and losses on investments bought and sold as well as held during the year.

3. Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

4. Payment of Benefits

Benefits are recorded when paid.

5. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2014 and 2013, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the plan document.

NOTE C - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their accounts.

NOTE D - ADMINISTRATIVE EXPENSES

The Company provides certain administrative and accounting services to the Plan at no cost. Administrative expenses including audit fees and legal fees are paid directly by the Company. Other administrative expenses directly incurred by the Plan include investment management fees and loan and distributions fees charged directly to the participant's accounts. These administrative expenses are presented as a deduction to net assets on the Statements of Changes in Net Assets Available for Benefits.

NOTE E - TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

NOTE E - TAX STATUS (Continued)

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and to recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for tax years prior to 2011.

NOTE F - RELATED PARTY TRANSACTIONS

Certain plan investments are shares of mutual funds managed by Fidelity Investments. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to $2,314 and $2,126 for the years ended December 31, 2014 and 2013, respectively. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

NOTE I - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices in active markets for similar assets, and Level 3 inputs consist of significant unobservable inputs and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs and Level 3 inputs were only used when Level 1 inputs were not available.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Level 1 Fair Value Measurements

Registered investment companies (mutual funds) - Valued at the net asset value (NAV) of shares held by the Plan at year end using prices quoted by the relevant pricing agent.

NOTE I - FAIR VALUE MEASUREMENTS (Continued)

Level 2 Fair Value Measurements

Registered investment companies (money market funds) - The money market funds are valued using the NAV of the money markets as reported by the money market managers. The NAV is based on the fair value of the underlying assets in the money market funds, minus its liabilities, and then divided by the number of units outstanding. The NAV of the money markets is calculated based on a compilation of primarily observable market information.

The money market funds invest in securities determined to experience minimal credit risk, such as U.S. government securities and other short-term obligations of U.S. companies, states, and municipalities. The money market funds seek to maintain a stable NAV of $1.00 per share. Principal risks of the money market funds could cause deterioration in the stable NAV, which could result in increased redemption activity further adversely affecting the NAV. The money market funds have no redemption features or restrictions.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013:

NOTE J - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

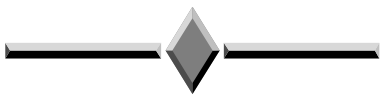
NOTE L - DATE OF MANAGEMENT'S REVIEW & SUBSEQUENT EVENTS

Subsequent events were evaluated through October 8, 2015, which is the date the financial statements were available to be issued.

Effective January 1, 2015, the Plan was amended to allow each active participant, having automatic enrollment contributions, to be automatically increased annually by the whole percentage of compensation, subject to a maximum of 10% of compensation.


No other subsequent events were identified that would require an adjustment to the accompanying financial statements.
