INDEPENDENT AUDITORS' REPORT

To the YSI Incorporated
Salary Reduction Profit Sharing Plan and Trust:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the YSI Incorporated Salary Reduction Profit Sharing Plan and Trust (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2014 and 2013 and for the year ended December 31, 2014, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

As described in Note 1 to the Plan's financial statements, effective December 31, 2014, all assets and participant accounts were merged into another plan. Our opinion is not modified with respect to this matter.

Report on Form and Content in Compliance with Department of Labor Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

YSI INCORPORATED

SALARY REDUCTION PROFIT SHARING PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2014 AND 2013, AND FOR THE YEAR ENDED DECEMBER 31, 2014

1. DESCRIPTION OF THE PLAN

The following description of the YSI Incorporated Salary Reduction Profit Sharing Plan and Trust (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General—The Plan was a voluntary defined contribution plan. All employees were eligible to participate after completing one month of service and attaining age 18. Fidelity Management Trust Company served as trustee for the Plan. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective July 4, 2011, YSI Incorporated (the “Company” or “Plan Sponsor”) entered into a definitive agreement to be acquired by O.I. Corporation, a subsidiary of ITT Corporation. The acquisition was completed on September 1, 2011. On October 31, 2011, ITT Corporation completed the spin-off of Xylem Inc. and Exelis Inc. As part of the spin-off, O.I. Corporation became a subsidiary of Xylem Inc. YSI Incorporated continues as a subsidiary of O.I. Corporation, whose parent company is Xylem, Inc.

Transfers and Plan Merger—Effective December 31, 2014, the Plan was merged into the Xylem Retirement Savings Plan (the “Xylem Plan”), another plan maintained by the parent company of YSI. All of the participants in the Plan were 100% vested in the Xylem Plan upon the merger. An aggregate amount of \$28.0 million was transferred out of the Plan and into the Xylem Plan as of December 31, 2014, and is included in transfers to another plan on the statement of changes in net assets available for benefits. As of December 31, 2014, this Plan merger was completed.

Contributions—Each year, participants could have contributed up to 75% of eligible compensation, subject to certain Internal Revenue Service (IRS) limitations. Participants could have contributed, on an individual or combined basis, on a tax-deferred basis pursuant to Internal Revenue Code (IRC) section 401(k) or on an after-tax basis pursuant to IRC section 402A. Participants could also have contributed amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Plan provided for a quarterly matching contribution by the Company, equal to 100% of the first 3% of employee deferrals and an additional 50% of employee deferrals between 3% and 5%.

Additional amounts could have been contributed at the discretion of the Company management, generally up to an additional 25%. No additional discretionary match was contributed during the year ended December 31, 2014. In addition, for the year ended December 31, 2013, the Company approved, and paid in 2014, an additional total profit sharing contribution of \$1,081,330 to all eligible participants of the Plan. Such contribution was allocated ratably to participant accounts based on each participant’s eligible compensation as a percentage of total compensation.

Participant Accounts—Individual accounts were maintained for each Plan participant. Each participant’s account was credited with the participant’s contributions, the Company’s contribution, and an allocation of Plan earnings and charged with withdrawals and an allocation of Plan losses.

Allocations were based on participant earnings or account balances, as defined. The benefit to which the participant was entitled was the benefit that could have been provided from the participant's vested account. All participant accounts were 100% vested upon the Plans merger with Xylem Plan.

Investments—Participants could have designated investment of their account balance into any of the various mutual funds and stable value fund offered by the trustee. In addition, the Plan had established a brokerage account allowing participants to invest their Plan assets into individual securities. Participants could have reallocated their investments at any time during the year.

Vesting—Participants were immediately vested in their contributions plus actual earnings on those contributions. Employees were 100% vested in employer contributions and related earnings after one year of service.

Payment of Benefits—Upon a participant's death, total and permanent disability, or retirement (at or after age 55), the participant's account became fully vested and could have been paid to the participant or the designated beneficiary as a lump-sum distribution. For termination due to other reasons, the participant's vested account could have been paid to the participant or designated beneficiary as a lump-sum distribution. Subject to certain restrictions, participants could have withdrawn all or part of their account without terminating employment.

Forfeitures—At December 31, 2013, forfeited nonvested accounts totaled \$893.

Notes Receivable from Participants—Notes receivable from participants were not permitted under the terms of the plan document. Notes receivable from participants on the statement of net assets were merged into the Plan from a previously terminated plan. They were measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans would have been recorded as distributions based on the terms of the former plan document.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The financial statements of the Plan have been prepared in accordance with the accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates—The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties—The Plan utilized various investment instruments, including mutual funds, common stock and a common collective trust fund. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities could have occurred in the near term and that such changes could have materially affected the amounts reported in the financial statements.

Investment Valuation and Income Recognition—The Plan's investments were stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion on fair value measurements.

Investment contracts held by a defined contribution plan were required to be reported at fair value; however, contract value was the relevant measurement attribute for that portion of the net assets available for benefits that was attributable to fully benefit-responsive investment contracts. Contract value was the amount Plan participants would have received if they were to have initiated permitted transactions under the terms of the Plan. The statements of net assets available for benefits presented the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits was prepared using the contract value basis.

Purchases and sales of securities were recorded on the trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net depreciation included the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in the mutual funds and the common collective trust fund were deducted from income earned on a daily basis and were not separately reflected. Consequently, management fees and operating expenses were reflected as a reduction of investment return for such investments.

Administrative Expenses—Certain administrative functions were performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. All administrative expenses for the Plan were paid directly by the Company.

Payment of Benefits—Benefit payments were recorded when paid. There were no participants, who had elected to withdraw from the Plan, but had not yet been paid at December 31, 2014 and 2013.

Subsequent Events—For the year ended December 31, 2014, subsequent events were evaluated through October 9, 2015, the date the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes inputs to the valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Asset Valuation Techniques—Valuation technologies maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used.

Mutual Funds—Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan were open-ended mutual funds that were registered with the Securities and Exchange Commission. These funds were required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan were deemed to be actively traded.

Common Stock—Valued at the closing price reported on the active market on which the individual securities are traded.

Common Collective Trust Fund—Valued at the net asset value of units of a common collective trust. The net asset value was provided by the trustee and was used as a practical expedient to estimate fair value. The net asset value was based on the fair value of the underlying investments held by the fund less its liabilities.

The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis at December 31, 2013.

	Fair Value Measurements at December 31, 2013, Using			Total
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Mutual funds:				
Equity funds	\$ 16,664,780	\$ -	\$ -	\$ 16,664,780
Target date funds	8,414,959	-	-	8,414,959
Personal directed brokerage account—				
Common stock	75,637	-	-	75,637
Common collective trust fund—				
Managed Income Fund	-	2,591,063	-	2,591,063
Total assets at fair value	<u>\$ 25,155,376</u>	<u>\$ 2,591,063</u>	<u>\$ -</u>	<u>\$ 27,746,439</u>

Transfers between Levels—The availability of observable market data was monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may have required the transfer of financial instruments from one fair value level to another. In such instances, the transfer would have been reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended, December 31, 2014 and 2013, there were no transfers between levels.

4. STABLE VALUE FUND

The Fidelity Management Trust Company Managed Income Portfolio was a stable value fund (the "Fund") that was a common collective trust fund sponsored by Fidelity Trust Company. The beneficial interest of each participant was represented by units. Units were issued and redeemed daily at the Fund's constant net asset value (NAV) of \$1 per unit. Distribution to the Fund's unit holders was declared daily from the net investment income and was automatically reinvested in the Fund on a monthly basis, when paid. It was the policy of the Fund to use its best efforts to maintain a stable net asset value of \$1 per unit, although there was no guarantee that the Fund would have been able to maintain this value.

Participants ordinarily could have directed the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represented contributions made to the Fund, plus earnings, less participant withdrawals and administrative expenses. The Fund imposed certain restrictions on the Plan, and the Fund itself could have been subject to circumstances that impacted its ability to transact at contract value, as described in the following paragraphs. Plan management believed that the occurrence of events that would cause the Fund to transact at less than contract value was not probable.

Limitations on the Ability of the Fund to Transact at Contract Value

Restrictions on the Plan—Participant-initiated transactions were those transactions allowed by the Plan, including withdrawals for benefits, loans, or transfers to noncompeting funds within a plan, but excluding withdrawals that were deemed to be caused by the actions of the Plan Sponsor. The following employer-initiated events could have limited the ability of the Fund to transact at contract value:

- A failure of the Plan or its trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA
- Any communication given to Plan participants designed to influence a participant not to invest in the Fund or to transfer assets out of the Fund
- Any transfer of assets from the Fund directly into a competing investment option
- The establishment of a defined contribution plan that competes with the Plan for employee contributions
- Complete or partial termination of the Plan or its merger with another plan

Circumstances That Affect the Fund—The Fund invested in assets, typically fixed income securities or bond funds, and entered into “wrapper” contracts issued by third parties. A wrap contract is an agreement by another party, such as a bank or insurance company to make payments to the Fund in certain circumstances. Wrap contracts are designed to allow a stable value portfolio to maintain a constant NAV and protect a portfolio in extreme circumstances. In a typical wrap contract, the wrap issuer agrees to pay a portfolio the difference between the contract value and the market value of the underlying assets once the market value has been totally exhausted.

The wrap contracts generally contain provisions that limit the ability of the Fund to transact at contract value upon the occurrence of certain events. These events included:

- Any substantive modification of the Fund or the administration of the Fund that is not consented to by the wrap issuer
- Any change in law, regulation, or administrative ruling applicable to a plan that could have a material adverse effect on the Fund’s cash flow
- Employer-initiated transactions by participating plans as described above

In the event that wrap contracts failed to perform as intended, the Fund’s NAV may have declined if the market value of its assets declined. The Fund’s ability to receive amounts due pursuant to these wrap contracts was dependent on the third-party issuer’s ability to meet their financial obligations. The wrap issuer’s ability to meet its contractual obligations under the wrap contracts may have been affected by future economic and regulatory developments.

The Fund was unlikely to maintain a stable NAV if, for any reason, it could not obtain or maintain wrap contracts covering all of its underlying assets. This could have resulted from the Fund’s inability to promptly find a replacement wrap contract following termination of a wrap contract. Wrap contracts were not transferable and had no trading market. There were a limited number of wrap issuers. The Fund may have lost the benefit of wrap contracts on any portion of its assets in default in excess of a certain percentage of portfolio assets.

5. INVESTMENTS

The Plan's investments that represented 5% or more of the Plan's net assets available for benefits as of December 31, 2013, were as follows:

	2013
** Fidelity Managed Income Portfolio *	\$ 2,552,008
** Fidelity U.S. Bond Index Fund	1,817,819
Janus Advisers Forty Fund S	1,505,062
Baron Growth Fund	1,498,436
** Fidelity Freedom 2030 Fund	1,977,973
** Fidelity Freedom 2025 Fund	1,533,317
* Investment stated at contract value	
** Party-in-interest	

During 2014, the Plan's mutual fund investments (including investments bought, sold, and held during the year) depreciated in value as follows:

Mutual funds:	
Equity funds	\$ (218,523)
Target funds	<u>(341,447)</u>
Total depreciation	<u>\$ (559,970)</u>

6. INFORMATION CERTIFIED BY THE TRUSTEE

The following is a summary of the unaudited information regarding the Plan as of December 31, 2014 and 2013, and for the year ended December 31, 2014, included in the Plan's financial statements, that was prepared by or derived from information prepared by the trustee and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that such information is complete and accurate:

	2014	2013
Statements of net assets—investments at fair value:		
Mutual funds	\$ -	25,079,739
Common stock	-	75,637
Common collective trust fund	-	2,591,063
Adjustments from fair value to contract value for fully benefit-responsive investment contract	-	(39,055)
Statement of changes in net assets—investment income:		
Net (depreciation) appreciation in fair value of investments	\$ (559,970)	\$ 3,566,799
Interest and dividends	<u>2,404,712</u>	<u>1,406,431</u>
Net investment income	<u>\$ 1,844,742</u>	<u>\$ 4,973,230</u>

All investment balances and investment information in Notes 3 and 5, excluding the classification and level of investments in Note 3, were certified by the trustee as complete and accurate.

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

The Plan invested in shares of common stocks and mutual funds and units of a common collective trust fund managed by Fidelity Investments Institutional Operations Company, Inc., which is an affiliate of Fidelity Management Trust Company, the trustee of the Plan. Transactions in such investments qualified as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

8. NET ASSET VALUE (NAV) PER SHARE

In accordance with ASU No. 2009-12, the Plan should include disclosures to include the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the net asset value per share as of December 31, 2013. The estimated fair value of the stable value fund was net asset value. The use of net asset value as a fair value was deemed appropriate as the stable value fund did not have a finite life, unfunded commitments or significant restrictions on redemptions. The investment objective of the stable value fund was to seek the preservation of capital and to provide a competitive level of income over time that was consistent with the preservation of capital. To achieve this objective, the stable value fund invested in assets (typically, fixed-income securities or bond funds and may include derivative investments such as futures contracts and swap agreements), entered into “wrap” contracts issued by third parties and invested in cash equivalents represented by shares in money market funds. The stable value fund sought to minimize exposure of the stable value fund and to wrap credit risk through, among other means, diversification of the wrap contracts across an approved group of issuers.

9. FEDERAL INCOME TAX STATUS

Effective September 22, 2009, the Plan Sponsor adopted a volume submitter plan document sponsored by Fidelity Management & Research Company. The IRS had approved the volume submitter plan document by an opinion letter dated March 31, 2008, but the Plan had not yet received its own IRS determination letter. However, the Plan’s management believes that the Plan was designed and was operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan’s financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan was subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

A reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2013, is as follows:

	2013
Net assets available for benefits per the financial statements	\$29,127,860
Adjustment from contract value to fair value for fully benefit-responsive stable value fund	<u>39,055</u>
Total net assets per the Form 5500	<u><u>\$29,166,915</u></u>

For the year ended December 31, 2014, the following is a reconciliation of net investment income per the financial statements to the Form 5500:

Total net investment income per the financial statements	\$ 1,844,742
Plus adjustment from contract value to fair value for fully benefit-responsive investment contracts for the year ended December 31, 2013	<u>39,055</u>
Total net investment income per the Form 5500	<u>\$ 1,883,797</u>
