Note 1 - Plan Description

The following description of Autoform Tool & Mfg., Inc. 401(k) & Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all full-time employees of Autoform Tool & Mfg., Inc. (the "Company") who have completed two months of service and are age 21 or older. Autoform Tool & Mfg., Inc. was acquired by General Aluminum Mfg. Company on October 10, 2014. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for employee salary 401(k) contributions up to the annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

Effective January 1, 2014, the Plan was amended to adopt safe harbor provisions. As amended, the Plan provides for employer matching contributions of 100 percent of the participant's contribution up to 3 percent of a participant's compensation and an additional 50 percent of the next 2 percent of the participant's compensation, not to exceed 4 percent of the employee's annual compensation. In 2013, the Company provided a discretionary employer matching contribution of 25 percent of the first 6 percent of the participant's contribution.

Certain participant contributions in 2013 were paid after the time frame required by the Department of Labor. The Company remitted these contributions and lost earnings during 2014.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting - Participants are immediately 100 percent vested in employee salary and rollover contributions and any income or loss thereon. Vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants vest in contributions made by the Company 20 percent per year until they become fully vested after five years of service.

Note 1 - Plan Description (Continued)

Payment of Benefits - Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions or pay administrative expenses of the Plan.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Lincoln National Life Insurance Company or its affiliates. Lincoln National Life Insurance Company is the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan document and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Participant Notes Receivable - Participants may borrow from their accounts subject to certain maximum and minimum amounts as prescribed in the Plan and in the Internal Revenue Code. Notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Administration - The Company is the sponsor of the Plan. The plan administrator, as provided in the plan agreement, has responsibility for the administration of the Plan.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition - Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Benefit Payments - Benefits are recorded when paid.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Administrative Expenses - Various administrative costs are paid by the Company.

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 8, 2015, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Lincoln National Life Insurance Company (the "Custodian") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Custodian.

Significant investments as of December 31 are as follows:

	2014	2013
Pooled separate accounts:		
LVIP Vanguard Domestic Equity	$ 221,989	$ 184,862
American Funds New Perspective	152,109	135,417
American Funds Growth Fund of America	115,536	144,760
American Funds Investment Company of America	272,748	231,538
LVIP Delaware Bond	151,816	166,366
Franklin Growth	163,017	118,968
Unallocated insurance contract - Guaranteed Account	119,838	105,946

Note 4 - Tax Status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) indicating that the prototype plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2011.

Note 5 - Reconciliation to Form 5500

The net assets available for benefits on the financial statements were equal to those on the Form 5500 at December 31, 2014 and higher than those on Form 5500 by $78 at December 31, 2013. Additionally, the contribution revenue on Form 5500 for the year ended December 31, 2014 is higher than contribution revenue on the financial statements by $78.

Note 6 - Unallocated Insurance Contract

The Plan has a benefit-responsive investment contract with Lincoln National Life Insurance Company (Lincoln). Lincoln maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Interest is credited on contract balances using a single “portfolio rate” approach. Under this methodology, a single interest rate is applied to all contributions made to the product regardless of the timing of those contributions. Interest crediting rates are reviewed on a semiannual basis for resetting. When establishing interest credit rates for this product, Lincoln considers many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the issuer's general account. The minimum crediting rate under the contract before fees is 4.0 percent. The average yield earned by the Plan and credited to participants net of fees for the years ended December 31, 2014 and 2013 was 4.0 percent.

Note 6 - Unallocated Insurance Contract (Continued)

Generally, there are no events that could limit the ability of the plan to transact at contract value paid within 90 days or, in rare circumstances, contract value paid over time. There are no events that allow the issuer to terminate the contract and which require the plan sponsor to settle an amount different than contract value paid either within 90 days or over time.

Note 7 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2014 and 2013.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Pooled Separate Accounts - The pooled separate accounts are valued at net asset value per share (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets.

Note 7 - Fair Value Measurements (Continued)

Unallocated Contract - The unallocated contract is a group annuity contract with Lincoln that invests in the general assets of Lincoln. Lincoln considers this contract to be benefit responsive; however, since there are no specific securities in Lincoln's general account related to this contract and due to the contract terms, including the frequency of the interest rate reset intervals, contract value approximates fair value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments in Entities that Calculate Net Asset Value per Share

The Plan holds shares or interests in investment companies at year end whereby the fair value of the investment held is estimated based on the net asset value per share (or its equivalent) of the investment company. At year end, there were no unfunded commitments or redemption rules on those investments.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2014.
