INDEPENDENT AUDITORS' REPORT

Employee Stock Ownership Plan Committee
Consulting Engineers Group Employee Stock Ownership Plan
Mount Prospect, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of Consulting Engineers Group Employee Stock Ownership Plan (the Plan), which comprise the statement of net assets available for benefits as of December 31, 2014, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2014, and the changes in net assets available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Comparative Information

We have compiled the accompanying statement of net assets available for benefits of the Plan as of December 31, 2013. We have not audited or reviewed the accompanying statement of net assets available for benefits and, according, do not express an opinion or provide any assurance about whether the financial statement is in accordance with accounting principles generally accepted in the United States of America.

Management is responsible for the preparation and fair presentation of the financial statement in accordance with accounting principles generally accepted in the United States of America and for designing, implementing, and maintaining internal control relevant to the preparation and fair presentation of the financial statement.

Our responsibility is to conduct the compilation in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. The objective of a compilation is to assist management in presenting financial information in the form of a financial statement without undertaking to obtain or provide any assurance that there are no material modifications that should be made to the financial statement.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2014, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTE 1 DESCRIPTION OF PLAN

The following description of the Consulting Engineers Group Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Consulting Engineers Group, Inc. established The Consulting Engineers Group, Inc. Employee Stock Ownership Plan effective January 1, 1985 as a money purchase plan and the Plan was restated effective January 1, 1989 as a defined contribution plan intended to constitute a leveraged employee stock ownership plan (the "ESOP"). The Plan was last restated January 1, 2013 and was amended on January 1, 2014 to change the sponsor of the Plan to CEG Group, Inc. and change the name of the Plan to Consulting Engineers Group Employee Stock Ownership Plan. Other participating employers include The Consulting Engineers Group, Inc., the former sponsor, The Consulting Engineers Group, Inc. (Texas), CEG-West Precast Services, Inc., CEG International, Inc., and The Consulting Engineers Group – NM, P.C., collectively with the sponsor, CEG Group, Inc., (the "Company"). The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC). The Plan covers all employees of the Company, excluding collectively bargained employees unless covered under a bona fide collective bargaining agreement, certain leased employees and non-resident aliens, who have completed the eligibility requirements including the completion of 1,000 hours of service and attainment of age 21. An eligible employee will begin participation on the first day of each Plan year during which the employee completes the eligibility requirements. The Plan is designed to invest primarily in securities issued by the Company and is authorized to borrow money for such investments. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by an Employee Stock Ownership Plan committee comprising up to eight persons appointed by the sponsor Company's board of directors. A member of the Sponsor's Board of Directors is the Plan's trustee.

The Plan purchased Company common stock using the proceeds of various notes payable to the Company and holds the stock in a trust established under the Plan (see Note 5). As the Plan made debt payments, an appropriate percentage of stock was allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing was collateralized by the unallocated shares of common stock and was guaranteed by the Company. The lender had no rights against shares of common stock once they were allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2014 and 2013 and for the year ended December 31, 2014, present separately the assets and liabilities and changes therein pertaining to:

(a) the accounts of employees with vested rights in allocated common stock (Allocated) and
(b) common stock not yet allocated to employees (Unallocated).

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Contributions

Each year, the Company may contribute to the Plan up to a discretionary amount of covered compensation as determined annually by the Company's Board of Directors. Contributions may be in the form of shares of common stock or cash. Contributions for each year are never less than the amount required to enable the Plan to discharge its current obligations, without regard to whether some or all of such contribution may fail to qualify for an income tax deduction by the Company. In order to receive an allocation of Company contributions, a participant must complete 1,000 hours of service and be employed on the last day of the Plan year unless termination is due to death, disability or retirement. Contributions by Plan participants are not permitted by the Plan. Contributions are subject to Internal Revenue Service (IRS) limitations.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who have completed 1,000 hours of service during the Plan year and are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation, as defined. Plan earnings or losses are allocated based on each participant's share of the investment at the beginning of the year. The benefit to which a participant is entitled is the benefit that can be provided by the participant's account.

Vesting

Vesting of participant's accounts is based on years of credited service with the Company. A participant's account becomes fully vested after six years of credited service with the Company, under a graded vesting schedule. A participant is fully vested upon reaching normal retirement age, death, or permanent disability.

Voting Rights

Each participant is entitled to exercise certain voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant or the Plan Administrator. The Plan Administrator shall direct the Trustee to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation service in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution, or can elect to have the cash transferred to another qualified plan maintained by the Company, or elect a rollover distribution, if applicable.

Payment of Benefits

Upon termination of service, a participant will receive a lump sum distribution of their account balance without the participants consent if their balance does not exceed $1,000. For accounts of not more than $50,000, the distribution will be made in a lump sum payment. For stock accounts exceeding $50,000, the distribution will be made in substantially equal annual installments over a period not to exceed five years with the first installment being paid no later than one year after the close of the Plan year which is the fifth Plan year following the Plan year in which the participant terminates employment. The amount to be distributed is based upon the account valuation date immediately preceding the distribution. Distributions are made in cash, as the Company has elected tax treatment under the IRC as a Subchapter S corporation.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan. During 2014, the Plan repurchased from participants' stock accounts 837 shares for the payment of benefits and diversifications, at prices determined from the independent appraisal.

Forfeited Accounts

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Forfeitures of terminated nonvested account balances allocated to remaining participants at December 31, 2014 were $5,527. There were no balances in forfeited non-vested accounts at December 31, 2014 and 2013.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The shares of Company common stock and the money market fund are valued at estimated fair value. See Note 4 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

As provided in the Plan document, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

Subsequent Events

The Plan has evaluated subsequent events through October 9, 2015, the date the financial statements were available to be issued.

NOTE 3 INVESTMENTS

The Plan's initial investment in Company securities consisted of 3,639 shares of the outstanding common stock of The Consulting Engineers Group, Inc., the prior Plan sponsor, which effective January 1, 2014, became a subsidiary of CEG Group, Inc., the current Plan sponsor. The shares were acquired in 1989 for $166.13 per share, which was the estimated fair market value, as determined by independent appraisal, at that time. Subsequently, shares totaling 5,994 were acquired between the years of 1994 and 1999, ranging from $165 to $340 per share, which was the estimated fair market value, as determined by independent appraisal, at the respective time. The estimated fair market value, as determined by independent appraisal as of December 31, 2014 and 2013 was $1,245 and $981 per share.

During 2014, 40 shares were released and allocated to participants.

NOTE 3 INVESTMENTS (CONTINUED)

The Plan's investments in Company stock, at December 31, are presented in the following table:

	2014		2013 (Unaudited)	
	Allocated	Unallocated	Allocated	Unallocated
CEG Group, Inc. Common Shares:				
Number of Shares	9,633	-	9,593	40
Cost	$ 2,208,805	$ -	$ 2,195,355	$ 13,450
Estimated Fair Value	$ 11,992,501	$ -	$ 9,412,066	$ 38,839

NOTE 4 FAIR VALUE OF INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 4 FAIR VALUE OF INVESTMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2014 and 2013.

The fair value of the Sponsor Company's common stock held by the Plan is valued at fair value based on an independent third-party appraisal. This appraisal is based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and estimated fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The valuation process involves the Plan Trustee's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the compiled financial statements of the Company. The appraiser prepares a preliminary report which Plan management, along with the ESOP Trustee, reviews in detail, discusses, and approves.

The money market fund is valued at a stable $1.00 net asset value (NAV), which is the value at which the fund is traded and approximates fair value of the underlying investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2014			
	Level 1	Level 2	Level 3	Total
Common Stock	$ -	$ -	$ 11,992,501	$ 11,992,501
Money Market Fund	911,324	-	-	911,324
Total Investments at Fair Value	$ 911,324	$ -	$ 11,992,501	$ 12,903,825

	2013 (Unaudited)			
	Level 1	Level 2	Level 3	Total
Common Stock	$ -	$ -	$ 9,450,905	$ 9,450,905
Money Market Fund	273,893	-	-	273,893
Total Investments at Fair Value	$ 273,893	$ -	$ 9,450,905	$ 9,724,798

NOTE 4 FAIR VALUE OF INVESTMENTS (CONTINUED)

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2014:

	Common Stock
Balance, Beginning of Year	$ 9,450,905
Unrealized Gains Relating to Instruments Still Held at the Reporting Date	2,541,596
Balance, End of Year	$ 11,992,501

NOTE 5 NOTE PAYABLE

On June 1, 1999, the Plan entered into a $567,026 term loan agreement with the Company. The proceeds of the loan were used to purchase 1,669 shares of the Company's common stock. The loan was paid in full in June 2014. The Plan also entered into multiple loan agreements between the years of 1989 and 1998 in order to purchase shares of the Company's common stock. All of these loans were paid in full prior to December 31, 2013. Unallocated shares were collateral for the loan. Shares were released from collateral and allocated to participants as payments of principal and interest were made. The Plan had a note payable related to the purchase of Company stock on December 31 as follows:

Description	2014	2013 (Unaudited)
Note Payable - CEG Group, Inc., Interest fixed at 5.66%, Due June 1, 2014, Secured by unallocated CEG Group, Inc. Common stock purchased with proceeds from this note and cash contributions from the Company.	$ -	$ 18,901

NOTE 6 PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Employee Stock Ownership Plan Committee shall direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such a sale to be necessary in order to repay the loan. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 7 PLAN TAX STATUS

The IRS has determined and informed the Company by a letter dated December 5, 2014 that the Plan and related trust are designed in accordance with the applicable requirements of the IRC and, therefore, the related trust is exempt from taxation.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 8 RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumption process, it is at least reasonably possible that changes in the value of common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 9 RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan's assets, which consist primarily of Company common shares, are held by the Trustee of the Plan.

The Plan is administered by CEG Group, Inc. and the Plan Administrator, the Employee Stock Ownership Plan committee, and certain administrative functions are outsourced to a third party administrator. A certain officer of the Company is Plan trustee. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

The Plan invests in Company common stock and had indebtedness guaranteed by the Company. These are related party and party-in-interest transactions. As the Company is the Plan Sponsor, transactions involving Company common stock qualify as party-in-interest transactions. At December 31, 2014 and 2013, the Plan held 9,633 shares of Company common stock. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.
