The Wiremold Company Savings and Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The Wiremold Company Savings and Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Prudential Retirement Insurance and Annuity Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of December 31, 2014 and 2013 and for the year ended December 31, 2014, that the information provided to the Plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) (Schedule H, Line 4i) as of December 31, 2014 is required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The Wiremold Company Savings and Retirement Plan

Notes to Financial Statements December 31, 2014

Note 1 - Description of Plan

The following brief description of The Wiremold Company Savings and Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document, and any amendments thereto, for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by The Wiremold Company (the "Company") on January 1, 1985, to provide a convenient method for Company employees to save on a regular and long-term basis. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Under the Plan, eligible participants are employees with six months of service whose customary employment is for 1,000 hours or more per Plan year. However, any participant who completes 1,000 hours of service in any year following the date of hire shall be eligible to participate in the Plan. Effective August 1, 2006, only employees who are members of the International Brotherhood of Electrical Workers Union No. 1040 or the International Association of Machinists and Aerospace Workers Local Union No. 2077 are eligible to participate in the Plan. The Retirement Committee is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

Each year, participants may make salary deferral contributions to the Plan based upon a percentage of their pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may make post tax contributions up to 6% of compensation. Participants may also contribute amounts representing distributions from other qualified (and certain nonqualified) defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a variety of insurance company pooled separate accounts, mutual funds and a guaranteed income fund as investment options for participants. The Company makes a matching contribution of 50% of the participant's deferral contributions, not to exceed a maximum matching contribution equal to 3% of the participant's compensation. Contributions are subject to certain Internal Revenue Service ("IRS") limitations. Participants direct the investment of Company contributions.

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances or specific participant transactions, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

The Wiremold Company Savings and Retirement Plan

Notes to Financial Statements December 31, 2014

Vesting

Participants are fully vested immediately in their contributions plus actual earnings thereon. Participants are also fully vested in any matching contributions.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balances. The notes are secured by the vested balance in the participant's account and bear interest at rates between 4.25% and 8.75% which is based on the prime rate plus 1.00% at the loan origination date. Principal and interest are paid ratably through payroll deductions.

Payment of benefits

On termination of service for any reason, a participant/beneficiary may elect to receive a lump-sum amount equal to the value of the participant/beneficiary's vested interest in his or her account. Alternatively, a participant/beneficiary may elect to utilize the balance in his or her account for the purchase of an annuity contract from an insurance company which provides for monthly payments of a fixed amount, or for a fixed amount of time, until the available funds have been exhausted. This annuity may not require the survival of the participant or the participant's beneficiaries as a condition of payment.

Withdrawals from a participant's salary deferral, who are less than 59½ years of age, may also be made in the event of a financial hardship, in accordance with the provisions specified in the Plan.

Participants who are at least 59½ years of age may withdraw all or a portion of the balance in their account prior to termination for any reason.

Revenue credit account

The Plan has established a revenue credit account to cover plan expenses. The revenue credit account is treated as a Plan asset and must be used only for legitimate Plan expenses. Unused amounts for expenses may be allocated to participant accounts. During 2014, the custodian contributed \$10,893 into the revenue credit account. The balance in the account totaled \$438 and \$429 at December 31, 2014 and 2013, respectively. During 2014, the Company used \$10,893 from the account to pay Plan expenses.

The Wiremold Company Savings and Retirement Plan

Notes to Financial Statements December 31, 2014

Note 2 - Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts. At December 31, 2014 and 2013, contract value represents fair value.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Committee determines the Plan's valuation policies utilizing information provided by the custodian. See Note 9 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefit payments are recorded when paid.

Administrative expenses

Certain expenses to maintain the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and distributions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in the net appreciation in fair value of investments. Administrative expenses paid by the Plan are paid net of any revenue credits that reimburse or pay directly the fees of a service provider or other expense of administering the Plan.

The Wiremold Company Savings and Retirement Plan

Notes to Financial Statements December 31, 2014

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent events

The Plan has evaluated events and transactions for potential recognition or disclosure through October 1, 2015, the date the financial statements were available to be issued.

Note 3 - Investments

The following investments represent 5% or more of the Plan's net assets as of December 31:

	2014	2013
Prudential Retirement Guaranteed Income Fund	\$ 14,935,268	\$ 15,734,633
PIMCO Total Return Fund	-*	1,803,828
Prudential Retirement Dryden S&P 500 Index	1,867,866	1,692,377

Prudential Retirement Oakmark Equity & Income Fund	1,321,916**	1,469,154

* Investment was not offered as of December 31, 2014 and 2013.

** Investment represents less than 5% of the Plan's net assets.

Note 4 - Certified investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments and notes receivable from participants held at December 2014 and 2013, and investment income and interest income on notes receivable from participants for the year ended December 31, 2014, that are disclosed in the accompanying financial statements and supplemental schedule, were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Prudential Retirement Insurance and Annuity Company ("PRIAC"), the custodian of the Plan.

The Wiremold Company Savings and Retirement Plan

Notes to Financial Statements December 31, 2014

Note 5 - Investment contract with insurance companies

The Plan participates in a guaranteed general account contract with PRIAC via investments in the Guaranteed Income Fund (the "GIF").

The GIF is a group annuity product issued by PRIAC. Amounts contributed to the contract are deposited in PRIAC's general account. Payment obligations and the fulfillment of any guarantees specified in the group annuity contract are insurance claims supported by the full faith and credit of PRIAC.

The concept of a value other than contract value does not apply to this insurance company issued general account backed evergreen (no maturity date) group annuity spread product even upon a discontinuance of the contract in which case contract value would be paid no later than 90 days from the date the sponsor provides notice to discontinue. This contract's operation is different than many other evergreen group annuity products in the market by virtue of the fact that a market value (fair value) adjustment does not apply upon discontinuance. There are not any specific securities in the general account that back the liabilities of this annuity contract and it would be inappropriate to look to the market value of the securities within the insurer's general account to determine a fair value.

The Plan owns a promise from PRIAC to pay interest at crediting rates which are announced in advance and guaranteed for a specified period of time as outlined in the group annuity contract. This product is not a traditional guaranteed investment contract and therefore there are not any known cash flows that could be discounted. As a result, the fair value amount shown is equal to the contract value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. Contract value is also often referred to as "book value".

PRIAC commingles the assets of the GIF with other assets. In certain instances when total distributions or transfers in the GIF within a calendar year exceed predetermined thresholds (e.g. 10% of the balance of the GIF on the first day of the year), transactions in the GIF may face certain restrictions, in accordance with the terms of the contract. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable of occurring. The average yield and the average crediting yield rate of the GIF was 1.90% and 2.10% for each of the years ended December 31, 2014 and 2013, respectively. The minimum crediting interest rate is 1.50%.

Note 6 - Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 7 - Tax status

The Plan obtained its latest determination letter on January 2, 2013 in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (the "IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan currently is designed

The Wiremold Company Savings and Retirement Plan

Notes to Financial Statements December 31, 2014

and being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 8 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balance and amounts reported in the statements of net assets available for benefits.

Note 9 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the assets or liabilities;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The Wiremold Company Savings and Retirement Plan

Notes to Financial Statements December 31, 2014

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts: Valued based on information reported by the investment custodian using the financial statements of the pooled separate account funds at year end. The unit value is based on the value of the underlying assets owned by the funds, minus its liabilities, and then divided by the number of units outstanding.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed interest account: Valued based on contributions made to the fund, plus interest credited, less fees and withdrawals.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

Quantitative information about significant unobservable inputs used in Level 3 fair value measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value as of December 31, 2014	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Guaranteed Income Fund	\$14,935,268	Fair Value = Contract Value	Earnings at Guaranteed Crediting Rate	Gross Guaranteed Crediting Rate must be greater than contractual minimum crediting rate of 1.50%

Instrument	Fair Value as of December 31, 2013	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Guaranteed Income Fund	\$15,734,633	Fair Value = Contract Value	Earnings at Guaranteed Crediting Rate	Gross Guaranteed Crediting Rate must be greater than contractual minimum crediting rate of 1.50%

Note 10 - Related party and party-in-interest transactions

Plan investments include units of participation in pooled separate accounts and a guaranteed income fund account managed by PRIAC. PRIAC is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Fees incurred by the Plan for administrative fees amount to \$1,024 for the year ended December 31, 2014. The Plan allows participants to take loans against their account balances, which are also considered exempt party-in-interest transactions.
