NOTE 1. DESCRIPTION OF THE PLAN

The following description of the Sunroad Enterprises Employees' 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General and Eligibility

The Plan, which became effective in July 1986, is sponsored by Sunroad Holding Corporation and is a defined contribution plan covering all eligible employees of Sunroad Holding Corporation, Sunroad Asset Management, Inc., PH Automotive Holding Corporation, Sunroad Marina Partners, LP, Sunroad KMI Auto, Inc., Sunroad HS Auto, Inc., Sunroad CV Auto, Inc., Sunroad Auto Shared Services, Inc., Maderas Partners L.P., Sunroad Auto, LLC, Sunroad MV Auto, Inc. and Sunroad BCV Auto, Inc. (collectively referred to as the "Company") who have completed 90 days of service and are age eighteen or older. Leased and union employees are ineligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Participant Contributions

Eligible employees may elect to defer up to 90% of their pre-tax annual compensation, as defined by the Plan. In addition, participants who have attained age 50 or older before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified sources. Participants direct their contributions into various investment options offered by the Plan. All participant contributions are subject to limitations imposed by the Internal Revenue Code ("IRC").

Eligible employees, except those who affirmatively elected to not participate or who chose to contribute a specified amount to the Plan, will automatically have 2% of their compensation deferred into the Plan.

Employer Contributions

The Company may make discretionary matching and profit sharing contributions into the Plan. The matching and profit sharing contributions, if any, are made only to participants employed with the Company as of the last day of the Plan year, or the last day of the applicable eligibility period. For 2014, the Company did not make a discretionary profit sharing contribution, but made a matching contribution of 10% of the participants' contributions in the amount of $199,445. This amount was remitted to the Plan on March 11, 2015 and is reflected as an employer contribution receivable on the statement of net assets available for benefits as of December 31, 2014.

Participant Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Company's contribution, if any, and allocations of Plan earnings or losses. Allocations are based on participant earnings or account balances, as defined.

NOTE 1. DESCRIPTION OF THE PLAN (Continued)

Administrative charges related to participant loans and distributions are deducted directly from the respective participant's account. Investment expenses charged by the mutual funds and common/ collective trusts in which the Plan invests are paid directly from the underlying assets of the respective investment and are included in net realized and unrealized appreciation (depreciation) in fair value of investments in the statement of changes in net assets available for benefits. All other expenses related to the administration of the Plan are paid by the Company.

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. In the event of termination due to death, total and permanent disability, or retirement, participants shall become 100% vested in the Company contribution portion of their account. For all other participants, vesting in the Company contribution portion of their account is based on years of credited service, as defined in the Plan, according to the following schedule:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Notes Receivable from Participants

Participants may borrow against their accounts a minimum of $500 up to a maximum equal to the lesser of $50,000, or 50% of their vested account balance. Participants may have only one loan outstanding at a time. Loan transactions are treated as transfers between the investment fund and the loan account balance using the same allocation method as contributions. Loan terms may not exceed 5 years unless the loan is to be used to acquire the principal residence of the participant, for which a reasonable is determined by the Plan administrator. Loans are secured by the participant's vested account balance and bear interest at the prime rate plus 1%. The interest rates on outstanding loans at December 31, 2014, ranged from 4.25% to 9.75%. Principal and interest are paid regularly through payroll deductions.

Payment of Benefits

Participants are entitled to a distribution of their vested benefits in the event of death, disability, retirement, termination of employment, or termination of the Plan. Early retirement is available upon attaining age 55 and completing 6 years of service. Generally, distributions may not be deferred later than April 1 of the calendar year following the year in which a participant reaches age 70½ or retires, whichever is later.

NOTE 1. DESCRIPTION OF THE PLAN (Continued)

Upon termination of employment, the Plan may roll over a participant's vested account balance greater than $1,000 and less than $5,000 into an individual retirement account ("IRA") selected by the Company, if the participant has not elected to receive a cash distribution or have the balance rolled over into an IRA of his/her choosing. Also at its discretion, the Plan may elect to distribute accounts with vested balances of less than $1,000. If a terminated participant's vested account exceeds $5,000, the participant may elect to receive a lump sum or may defer receipt of payments according to Plan provisions.

Pre-retirement distributions are allowed upon either attaining age 59½ or experiencing a financial hardship as defined by the IRC and are subject to applicable income taxes and the approval of the Plan administrator. After making a hardship withdrawal, a participant is suspended from making additional contributions for a period of six months from the effective date of the withdrawal.

Forfeitures

If a participant terminates employment with the Company before becoming fully vested, the unvested portion of employer contributions and related earnings are forfeited. Forfeitures of unvested employer contributions and related earnings are transferred from the terminated participant's account to a forfeiture account. Forfeitures of unvested employer contributions may be used to pay administrative expenses and reduce employer contributions to the Plan. During 2014, $8,855 was added to the forfeiture account, $3,979 was used to reduce employer matching, and there was $1,121 of investment gains and $4,355 of other income. As of December 31, 2014 and 2013, forfeited amounts totaled $26,895 and $16,543, respectively.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are presented on the accrual basis of accounting and have been prepared in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through common/collective trusts, one of which is fully benefit-responsive. Therefore, the statements of net assets available for benefits present the fair value of the investments in the common/collective trust as reported to the Plan by the trustee of the investment, as well as the adjustment of the investment in the common/collective trust from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when earned. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation (depreciation) in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Subsequent Events

The Plan management has evaluated subsequent events through the date of the independent auditors' report, which is the date these financial statements were available to be issued.

NOTE 3. INFORMATION CERTIFIED BY THE TRUSTEE

All investment information disclosed in the accompanying financial statements and supplemental schedule (Schedule H, Part IV, Line 4i) including investments held at December 31, 2014 and 2013, net realized and unrealized appreciation in fair value of mutual funds, net realized and unrealized appreciation in contract and fair value of common/collective trusts, dividend income and other income for the year ended December 31, 2014, were obtained or derived from information provided to the Plan administrator and certified as complete and accurate by the trustee of the Plan, State Street Bank and Trust Company.

NOTE 4. INVESTMENTS

The Plan's investments are held by the Plan's trustee, State Street Bank and Trust Company, as of December 31, 2014 and 2013. All investments are participant-directed. The following investments represent the Plan's net assets as of December 31:

	2014	2013

Invesco Stable Value Trust at contract value (fair value at $2,042,373 and $2,094,170, respectively)	2,006,852	2,068,520

* As of the date indicated, the balance in this investment represented less than 5% of the Plan's net assets available for benefits or is not an investment option.

NOTE 5. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – inputs are unadjusted, quoted market prices in active markets for identical assets or liabilities at the measurement date.

Level 2 – inputs are either directly or indirectly observable for the asset or liability through correlation with related market data at the measurement date and for the duration of the instrument's anticipated life.

Level 3 – inputs are both unobservable and significant to the overall fair value measurement for the asset or liabilities at the measurement date. These inputs reflect Plan management's best estimate of what market participants would use in pricing the asset or liability at the measurement date. Consideration is given to the risk inherent in the valuation technique and the risk inherent in the inputs to the model.

NOTE 5. FAIR VALUE MEASUREMENTS (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2014 and 2013:

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Common/Collective Trusts: Valued at fair value as determined by the trustee based on the market value of the underlying investment assets.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013:

	December 31, 2014

NOTE 6. RELATED PARTY TRANSACTIONS

Substantially all of the Plan's operating expenses are paid by the Company and the Company provides administrative services for the Plan at no cost to the Plan. Certain investments are managed by the trustee or the record-keeper of the Plan. In addition, the Plan allows participants to take loans against their account balances. These transactions are considered exempt party-in-interest transactions.

NOTE 7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their account balances.

NOTE 8. TAX STATUS

The Company has adopted a prototype plan and relies upon the prototype plan's opinion letter from the Internal Revenue Service ("IRS"), which stated that the plan and related trust are designed in accordance with applicable sections of the IRC. The Company has not applied for a determination letter from the IRS specific to the Plan. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the accompanying financial statements.

The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no tax audits in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:
