Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITORS' REPORT

To the Trustees of the Cincinnati Financial
Corporation Retirement Plan
Fairfield, Ohio

We have audited the accompanying financial statements of the Cincinnati Financial Corporation Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding Cincinnati Financial Corporation Retirement Plan's net assets available for benefits as of December 31, 2014, and the changes therein for the year then ended and its financial status as of December 31, 2013, and the changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Schedule

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2014 is presented for the purpose of additional analysis is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Plan's management and was derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. This schedule has been subjected to the auditing procedures applied in our audits of the financial statements and certain additional procedures, including comparing and reconciling such schedule directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, such schedule is fairly stated in all material respects in relation to the financial statements as a whole.

CINCINNATI FINANCIAL CORPORATION RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2014 AND 2013

1. DESCRIPTION OF THE PLAN

The following description of the Cincinnati Financial Corporation Retirement Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General — The Plan is a defined benefit plan. Cincinnati Financial Corporation and subsidiaries (the “Company”) contribute such amounts annually as are necessary on an actuarial basis to provide the Plan with assets sufficient to meet the benefits to be paid to Plan members. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Employee Benefits Committee serves as administrator, trustee and recordkeeper of the Plan.

Pension Benefits — The Plan was amended and restated effective January 1, 2008. The Company froze entry into the Plan for new associates effective June 30, 2008. Participants in the Plan who were at least 40 years of age on August 31, 2008, had the option to either remain in the Plan or receive a payout of their accrued balances. Except for those participants over the age of 40 who elected to remain in the Plan, the Company froze benefit accruals under the Plan effective August 31, 2008. Vested participants under 40 years of age on August 31, 2008, automatically received a payout of their accrued balances. Those participants who remained in the Plan continued to have their pension benefits calculated as described below. The Plan allows for a lump sum distribution at any time for terminated participants with vested balances.

Under the Plan, prior to January 1, 2000, employees who retired at age 65 and employees with five or more years of service became fully vested and were entitled to monthly pension benefits, beginning at normal retirement age (65), equal to the sum of (a) nine-tenths of one percent of the participant’s final average earnings multiplied by years of service up to fifteen and (b) one and one-fifth percent of the participant’s final average earnings multiplied by years of service in excess of fifteen (not to exceed 40 years). Final average earnings are defined as the average of a participant’s highest five years of base pay during his/her last ten years of employment, ending with the year before a participant terminates employment.

The Board of Directors of the Company approved a change in the Plan’s pension benefit formula, effective January 1, 2000. Under the new formula, annual retirement benefits are calculated as the sum of (1) years of service up to fifteen multiplied by the sum of (a) nine-twentieths of one percent of the participant’s average earnings and (b) one and seven-twentieths percent of the participant’s average earnings up to \$35,000 and (2) years of service in excess of fifteen (not to exceed 40 years) multiplied by the sum of (a) three-fifths of one percent of the participant’s average earnings and (b) one and four-fifths percent of the participant’s average earnings up to \$35,000. (Benefits were increased for all employees earning under a certain level in base pay. The benefit increase was on a sliding scale where benefits were doubled for anyone earning under \$35,000. The benefit increase declines to zero at \$103,000 in base pay.) Participants retiring after January 1, 2000, may still receive benefits calculated under the old formula if that amount is greater. Also effective January 1, 2000, certain benefits that were previously provided under a nonqualified plan (supplemental employee retirement plan) are now included in this plan. These additional benefits paid by the Plan do not impact the tax qualified status of the Plan.

The Plan permits early retirement at ages 60 to 64, for which the participant is to receive benefit payments equal to the participant's accrued benefit reduced by one-half percent for each month by which the commencement date of the benefit precedes age 65.

If a participant has been married for at least one year prior to the commencement of benefit payments, benefit payments are to be paid in the form of a 50% joint and survivor annuity. The participant may elect to receive one of the following reduced benefit options: guaranteed five or 10 years of survivor payments to the spouse in the event of death, a 66 2/3%, 75% or 100% joint and survivor annuity, or the participant may elect to receive a lump-sum distribution upon retirement. The Plan provides for certain restrictions to the contingent annuity options if the participant designates a non-spouse beneficiary.

If employees terminate prior to rendering five years of service, they could forfeit the right to receive their nonvested accumulated plan benefits.

The Plan is amended periodically to update existing plan provisions based on recent Internal Revenue Service (IRS) guidelines or changes in laws affecting retirement plans, including most recently the Pension Protection Act of 2006 and Pension Relief Act of 2010.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan utilizes various investment instruments, including state, municipalities and political subdivision fixed maturities, corporate fixed maturities, common equities, and a money market fund. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition — The Plan's investments are stated at fair value. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for description of valuation methods.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments sold as well as held during the year.

Administrative Expenses — During 2013, the Plan began paying allowable legal expenses from Plan assets. All other administrative expenses are paid by the Company as permitted by the plan document. These expenses consist primarily of fees for actuarial services, asset management, recordkeeping and Pension Benefit Guaranty Corporation (PBGC) insurance.

Payment of Benefits — Benefit payments to participants are recorded upon distribution.

Subsequent Events — Subsequent events have been evaluated through October 12, 2015, which is the date on which the financial statements were available to be issued. There were no subsequent events requiring adjustment to, or disclosure in, the financial statements.

Recent Accounting Updates — In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient* (consensuses of the Emerging Issues Task Force). Part I of the ASU designates contract value as the measurement for fully benefit-responsive contracts. Part II of the ASU eliminates the requirements to disclose individual investments which represent 5% or more of net assets available for benefits and eliminates the required disclosure of net appreciation or depreciation for investments by general type. Part III establishes a practical expedient to permit plans to measure investments as of a month-end date closest to the plan's fiscal year end, when the fiscal period does not coincide with a month end. The ASU is effective for annual periods beginning after December 15, 2015. Parts I and II should be applied retrospectively while Part III should be applied prospectively. This ASU has not yet been adopted and will not have a material impact on the Plan's statement of net assets available for benefits or changes in net assets available for benefits.

3. FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make discretionary cash contributions to the Plan based on amounts recommended by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2014 and 2013.

4. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by an independent actuary using the traditional unit credit actuarial cost method. The amount results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of January 1 is as follows:

	2014	2013
Vested benefits:		
Participants and/or beneficiaries currently receiving benefits	\$ 20,425,042	\$ 18,163,445
Other participants	<u>226,826,918</u>	<u>254,904,278</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 247,251,960</u>	<u>\$ 273,067,723</u>

The changes in the actuarial present value of accumulated plan benefits for the years ended January 1 were as follows:

	2014	2013
Additions (deductions):		
Benefits accumulated	\$ 14,600,611	\$ 12,239,026
Interest due to decrease in discount period	11,484,181	11,980,874
Benefits paid — current payments	(28,766,773)	(15,020,493)
Actuarial (gains)/losses	3,760,928	(1,907,411)
Changes in discount rate assumption	(18,420,705)	18,019,428
Changes in lump sum rate assumption	(9,593,862)	17,496,609
Changes in mortality assumption	1,119,857	-
Changes in other assumptions	<u>-</u>	<u>162,760</u>
Net additions	(25,815,763)	42,970,793
Balance — beginning of year	<u>273,067,723</u>	<u>230,096,930</u>
Balance — end of year	<u>\$ 247,251,960</u>	<u>\$ 273,067,723</u>

The effect of Plan amendments on accumulated plan benefits is recognized during the year in which such amendments are adopted.

The significant actuarial assumptions used in the January 1, 2014 and 2013, valuations were:

- Mortality: Annuitants:
 - RP-2014 “Healthy Annuitants” table with scale MP-2014 generational projection for 2014
 - RP-2000 “Healthy Annuitants” table without collar or amount adjustments, projected to 2020, for 2013, using Scale AA
- Mortality: Non-annuitants:
 - RP-2014 “Employees” table with scale MP-2014 generational projection for 2014
 - RP-2000 “Employees” table without collar or amount adjustments, projected to 2028, for 2013, using Scale AA
- Retirement age: Average retirement age of 65 for 2014 and 2013

- Discount rate: 5.15% for 2014 and 4.20% for 2013
- Salary increase: 3.25% for under age 55 and 2.75% for at or beyond age 55 for 2014 and 2013
- Lump sum rates: A graded table is used to an ultimate rate of 4.00%
 - 1.75%-4.00% for 2014 and 0.75%-4.00% for 2013

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan was to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

5. INVESTMENTS

During 2014 and 2013, the Plan's investments (including gains and losses on investments sold, as well as held during the year) appreciated (depreciated) in value as follows:

	2014	2013
Common equities	\$ 18,683,392	\$ 50,238,350
States, municipalities and political subdivision fixed maturities	2,003,281	(2,458,102)
Corporate bond fixed maturities	<u>485,456</u>	<u>(1,251,145)</u>
Net appreciation in fair value of investments	<u>\$ 21,172,129</u>	<u>\$ 46,529,103</u>

At December 31, 2014 and 2013, investments with fair values representing 5 percent or more of the Plan's net assets available for benefits were as follows:

	2014	2013
Cincinnati Financial Corporation* — common equity	\$ 24,210,467	\$ 24,462,708

* Represents party-in-interest

6. FAIR VALUE MEASUREMENTS

In accordance with accounting guidance for fair value measurements and disclosures, the Plan categorized its financial instruments, based on the priority of the observable and market-based data for the valuation technique used, into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices with readily available independent data in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable market inputs (Level 3). When various inputs for measurement fall within different levels of the fair value hierarchy, the lowest observable input that has a significant impact on fair value measurement is used. There have been no changes in the methodologies used at December 31, 2014 and 2013. Financial instruments are categorized based upon the following characteristics or inputs to the valuation techniques:

- Level 1 – Financial assets and liabilities for which inputs are observable and are obtained from reliable quoted prices for identical assets or liabilities in active markets. This is the most reliable fair value measurement and includes, for example, active exchange-traded equity securities and funds.

- Level 2 – Financial assets and liabilities for which fair values are based on quoted prices in markets that are not active or for which values are based on similar assets and liabilities that are actively traded. This also includes pricing models for which the inputs are corroborated by market data.
- Level 3 – Financial assets and liabilities for which fair values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.

The Plan bases fair value for investments in common equities at the closing price reported in the active market in which the individual security is traded. Common equities are categorized as Level 1. The technique used for fixed-maturity securities is the application of market based modeling. The inputs used for all classes of fixed-maturity securities include relevant market information by asset class, trade activity of like securities, marketplace quotes, benchmark yields, spreads off benchmark yields, interest rates, U.S. Treasury or swap curves, yield to maturity and economic events. Fixed maturities are categorized as Level 2. All Level 2 fixed-maturity securities are priced by a nationally recognized pricing vendor. The methods described above may produce a fair value measurement that may not be reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

The following tables illustrate the fair value hierarchy for those assets measured at fair value on a recurring basis for the years ended December 31, 2014 and 2013. The Plan did not have any liabilities carried at fair value or any Level 3 assets at or during the years ended December 31, 2014 and 2013. The Plan's policy is to recognize significant transfers between levels at the end of the reporting period. There were no transfers between Level 1 and Level 2 or Level 2 and Level 3 during the years ended December 31, 2014 and 2013.

Excluded from the tables below are cash on hand of \$11,324,692 and \$19,107,789 at December 31, 2014 and 2013.

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

During 2013, the Plan invested in a money market fund managed by Fifth Third Bancorp, the custodian as defined by the Plan, and therefore, purchase and sale transactions qualified as party-in-interest transactions. At year-end December 31, 2014 and 2013, the Plan was not invested in this money market fund. The Company paid immaterial fees for custodial services to Fifth Third Bancorp during 2014 and 2013.

At both December 31, 2014 and 2013, the Plan held 467,113 shares of common stock of Cincinnati Financial Corporation, the sponsoring employer, with a fair value of \$24,210,467 and \$24,462,708, respectively, and a cost basis of \$128,766 at both December 31, 2014 and 2013. During 2013, the Plan

sold 100,000 shares of the Company's common stock for a realized gain of \$5,156,434. During the years ended December 31, 2014 and 2013, the Plan recorded dividend income from this stock of \$812,777 and \$889,483, respectively.

8. FEDERAL INCOME TAX STATUS

The IRS has determined and informed the Company by a letter dated September 12, 2012, that the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code (the "Code"). The Company and the Plan administrator believe the Plan is currently designed and operated as a tax-qualified plan in compliance with the applicable requirements of the Code, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

9. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested, normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive the benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide these benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Benefit commencement date:

- Preretirement death benefit The later of the death of the active participant or the date the participant would have attained age 60
- Deferred vested benefit The later of age 60 or termination of employment
- Retirement benefit Upon termination of employment

Form of payment 100% of participants are assumed to elect a lump sum at retirement for all benefits other than the preretirement death benefit. Preretirement death benefits are assumed to be paid as a life annuity.

Percent married 80% of males and females

Spouse age Wife three years younger than husband

Covered pay Annualized 2013 base pay increased one year by the salary increase assumption indicated above

Administrative expenses \$0; the plan sponsor pays administrative expenses directly

Loads To value death benefits after termination, the termination liability was loaded by 0.7%.

At-risk assumptions For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year. In addition, these participants are assumed to elect a lump sum.

Timing of benefit payments Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods	
Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430
Actuarial value of assets for determining minimum required contributions	<p>Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of fair value, including contributions receivable.</p> <p>The method of computing the actuarial value of assets complies with the rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than market value. As a result, the actuarial value of assets will be lower than the market value in some years and higher in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	<p>All benefits were valued except the minimum benefit for former participants of the Inter-Ocean Home Office; the difference in liabilities and results is negligible.</p> <p>Towers Watson has reviewed the plan provisions with Cincinnati Financial Corporation and, based on that review, is not aware of any significant benefits required to be valued that were not.</p>

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2012 to September 2013 and subsequently revised by applying the corridors of HATFA to determine minimum funding requirements and benefit restrictions.
- The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.
- The lump sum rates were changed to a graded table beginning at 1.75% in 2014, increasing to 4.00% in 2019 and later.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The original effective date of this plan was December 28, 1966. This plan was restated effective January 1, 2008, and the provisions summarized below reflect the plan as amended through the valuation date.

Covered employees	Employees of the company who became participants prior to June 30, 2008, were over the age of 40 on August 31, 2008, and elected to remain in this plan
Participation date	First day of the plan year and the date six months after completion of one year of vesting service and attainment of age 21. No new participants after June 30, 2008

Definitions

Vesting service	One year for each 1,000-hour calendar year of employment, excluding plan years completed prior to age 18
Pension service	One year for each 1,000-hour calendar year of employment, up to a maximum of 40 years
Pensionable pay	Base rate of salary in effect on the last day of the plan year (limited by IRS requirements)
Average earnings	One-twelfth of the average of the highest five consecutive calendar years of pensionable pay during the 10-year period ending on the earlier of the participant's termination date or retirement date
Normal retirement date (NRD)	First of month coinciding with or next following the attainment of age 65

Monthly pension benefit

As of any date, the larger of (1), (2), (3), and (4) below, payable monthly as a life annuity from NRD:

- (1) Sum of (a) and (b) below:
 - (a) 0.45% of average earnings plus 1.35% of average earnings up to \$35,000, multiplied by pension service not in excess of 15 years
 - (b) 0.60% of average earnings plus 1.8% of average earnings up to \$35,000, multiplied by pension service greater than 15 years, but not in excess of 40 years
- (2) 0.9% of average earnings multiplied by pension service not in excess of 15 years, plus 1.2% of average earnings multiplied by pension service greater than 15 years but not in excess of 40 years
- (3) The accrued benefit as of December 31, 1988, based on the prior benefit formula of:

0.75% of average earnings below the Social Security integration level times pension service projected to NRD not in excess of 40 years, plus 1.25% of the average earnings in excess of the Social Security integration level times pension service projected to NRD not in excess of 40 years, multiplied by the ratio of service at the date of termination to pension service projected to NRD
- (4) For former Inter-Ocean Home Office employees, the minimum monthly benefit is 1% of highest average earnings multiplied by pension service not in excess of 50 years.

Special monthly pension benefit

For certain employees, an additional accrued benefit is being provided through the plan. This benefit is added to the Monthly Pension Benefit.

Monthly preretirement death benefit

50% of the monthly pension benefit that would have been paid to the participant:

- (1) From the first of the month following his death if eligible for early retirement at death, assuming he had retired and commenced payments on the first of the month in which he died under the 50% joint and survivor option with his spouse as the survivor;
- (2) From the earliest retirement age if not eligible for early retirement at death, assuming he had terminated on the day he died, survived to the earliest retirement age, retired and commenced payments under the 50% joint and survivor option with his spouse as the survivor, and died the day after retirement.

Eligibility for Benefits

Normal retirement	Retirement on NRD
Early retirement	Retirement before NRD and on or after both attaining age 60 and completing five years of vesting service
Postponed retirement	Retirement after NRD
Vested termination	Termination for reasons other than death or retirement after completing five years of vesting service
Preretirement death benefit	Death while employed and while otherwise eligible for normal, early, postponed, or deferred vested retirement benefits, with a surviving spouse

Benefits Paid Upon the Following Events

Normal retirement	Monthly pension benefit determined as of NRD
Early retirement	Monthly pension benefit determined as of early retirement date, reduced 0.5% for each month that commencement of payments precedes the participant's NRD
Postponed retirement	Greater of the monthly pension benefit determined as of actual retirement date or the monthly pension benefit determined as of NRD, actuarially increased to the actual retirement date
Vested termination	<p>For payments commencing after age 60, monthly pension benefit determined as of termination date, reduced 0.5% for each month that commencement of payments precedes the participant's NRD</p> <p>For payments commencing prior to age 60, monthly pension benefit determined as of termination date, reduced to be the actuarial equivalent (using the assumptions contained in IRC Section 417(e)(3)) of the participant's normal retirement benefit</p>
Preretirement death	Monthly pre-retirement spouse benefit is payable

Other Plan Provisions

Forms of payment

Pre-retirement spouse benefits are payable only as described above. Monthly pension benefits are paid as described above, if the participant has no spouse as of the date payments begin, or if the participant so elects. Participants terminating employment prior to age 60 can receive the immediate lump sum that is the actuarial equivalent of the normal retirement benefit using the assumptions mandated by IRC Section 417(e)(3). As required by law, these participants can also elect an immediate life annuity (for single participants) or a 50% joint survivor annuity (for married participants). Otherwise, benefits are paid in the form of the 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan.

Actuarially equivalent optional forms of payment (based on the 1983 Group Annuity Mortality Tables for males, set back 1 year and 8% interest) include:

- 50%, $66\frac{2}{3}\%$, 75%, and 100% contingent annuity.
- Five and ten-year certain and life.
- Single life (for married participants).
- Lump sum on retirement (determined using PBGC interest rates and the 1983 GAM male (setback one year) mortality assumptions)
- Lump sum on termination (determined using IRC Section 417(e)(3) assumptions).

Maximum on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions. Towers Watson is not aware of any future plan changes which are required to be reflected.

Changes in Benefits Valued Since Prior Year

There were no changes in benefits valued since the prior year.

Benefit commencement date:

- Preretirement death benefit The later of the death of the active participant or the date the participant would have attained age 60
- Deferred vested benefit The later of age 60 or termination of employment
- Retirement benefit Upon termination of employment

Form of payment 100% of participants are assumed to elect a lump sum at retirement for all benefits other than the preretirement death benefit. Preretirement death benefits are assumed to be paid as a life annuity.

Percent married 80% of males and females

Spouse age Wife three years younger than husband

Covered pay Annualized 2013 base pay increased one year by the salary increase assumption indicated above

Administrative expenses \$0; the plan sponsor pays administrative expenses directly

Loads To value death benefits after termination, the termination liability was loaded by 0.7%.

At-risk assumptions For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year. In addition, these participants are assumed to elect a lump sum.

Timing of benefit payments Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods	
Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430
Actuarial value of assets for determining minimum required contributions	<p>Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of fair value, including contributions receivable.</p> <p>The method of computing the actuarial value of assets complies with the rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than market value. As a result, the actuarial value of assets will be lower than the market value in some years and higher in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	<p>All benefits were valued except the minimum benefit for former participants of the Inter-Ocean Home Office; the difference in liabilities and results is negligible.</p> <p>Towers Watson has reviewed the plan provisions with Cincinnati Financial Corporation and, based on that review, is not aware of any significant benefits required to be valued that were not.</p>

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2012 to September 2013 and subsequently revised by applying the corridors of HATFA to determine minimum funding requirements and benefit restrictions.
- The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.
- The lump sum rates were changed to a graded table beginning at 1.75% in 2014, increasing to 4.00% in 2019 and later.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The original effective date of this plan was December 28, 1966. This plan was restated effective January 1, 2008, and the provisions summarized below reflect the plan as amended through the valuation date.

Covered employees	Employees of the company who became participants prior to June 30, 2008, were over the age of 40 on August 31, 2008, and elected to remain in this plan
Participation date	First day of the plan year and the date six months after completion of one year of vesting service and attainment of age 21. No new participants after June 30, 2008

Definitions

Vesting service	One year for each 1,000-hour calendar year of employment, excluding plan years completed prior to age 18
Pension service	One year for each 1,000-hour calendar year of employment, up to a maximum of 40 years
Pensionable pay	Base rate of salary in effect on the last day of the plan year (limited by IRS requirements)
Average earnings	One-twelfth of the average of the highest five consecutive calendar years of pensionable pay during the 10-year period ending on the earlier of the participant's termination date or retirement date
Normal retirement date (NRD)	First of month coinciding with or next following the attainment of age 65

Monthly pension benefit

As of any date, the larger of (1), (2), (3), and (4) below, payable monthly as a life annuity from NRD:

- (1) Sum of (a) and (b) below:
 - (a) 0.45% of average earnings plus 1.35% of average earnings up to \$35,000, multiplied by pension service not in excess of 15 years
 - (b) 0.60% of average earnings plus 1.8% of average earnings up to \$35,000, multiplied by pension service greater than 15 years, but not in excess of 40 years
- (2) 0.9% of average earnings multiplied by pension service not in excess of 15 years, plus 1.2% of average earnings multiplied by pension service greater than 15 years but not in excess of 40 years
- (3) The accrued benefit as of December 31, 1988, based on the prior benefit formula of:

0.75% of average earnings below the Social Security integration level times pension service projected to NRD not in excess of 40 years, plus 1.25% of the average earnings in excess of the Social Security integration level times pension service projected to NRD not in excess of 40 years, multiplied by the ratio of service at the date of termination to pension service projected to NRD
- (4) For former Inter-Ocean Home Office employees, the minimum monthly benefit is 1% of highest average earnings multiplied by pension service not in excess of 50 years.

Special monthly pension benefit

For certain employees, an additional accrued benefit is being provided through the plan. This benefit is added to the Monthly Pension Benefit.

Monthly preretirement death benefit

50% of the monthly pension benefit that would have been paid to the participant:

- (1) From the first of the month following his death if eligible for early retirement at death, assuming he had retired and commenced payments on the first of the month in which he died under the 50% joint and survivor option with his spouse as the survivor;
- (2) From the earliest retirement age if not eligible for early retirement at death, assuming he had terminated on the day he died, survived to the earliest retirement age, retired and commenced payments under the 50% joint and survivor option with his spouse as the survivor, and died the day after retirement.

Eligibility for Benefits

Normal retirement	Retirement on NRD
Early retirement	Retirement before NRD and on or after both attaining age 60 and completing five years of vesting service
Postponed retirement	Retirement after NRD
Vested termination	Termination for reasons other than death or retirement after completing five years of vesting service
Preretirement death benefit	Death while employed and while otherwise eligible for normal, early, postponed, or deferred vested retirement benefits, with a surviving spouse

Benefits Paid Upon the Following Events

Normal retirement	Monthly pension benefit determined as of NRD
Early retirement	Monthly pension benefit determined as of early retirement date, reduced 0.5% for each month that commencement of payments precedes the participant's NRD
Postponed retirement	Greater of the monthly pension benefit determined as of actual retirement date or the monthly pension benefit determined as of NRD, actuarially increased to the actual retirement date
Vested termination	<p>For payments commencing after age 60, monthly pension benefit determined as of termination date, reduced 0.5% for each month that commencement of payments precedes the participant's NRD</p> <p>For payments commencing prior to age 60, monthly pension benefit determined as of termination date, reduced to be the actuarial equivalent (using the assumptions contained in IRC Section 417(e)(3)) of the participant's normal retirement benefit</p>
Preretirement death	Monthly pre-retirement spouse benefit is payable

Other Plan Provisions

Forms of payment

Pre-retirement spouse benefits are payable only as described above. Monthly pension benefits are paid as described above, if the participant has no spouse as of the date payments begin, or if the participant so elects. Participants terminating employment prior to age 60 can receive the immediate lump sum that is the actuarial equivalent of the normal retirement benefit using the assumptions mandated by IRC Section 417(e)(3). As required by law, these participants can also elect an immediate life annuity (for single participants) or a 50% joint survivor annuity (for married participants). Otherwise, benefits are paid in the form of the 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan.

Actuarially equivalent optional forms of payment (based on the 1983 Group Annuity Mortality Tables for males, set back 1 year and 8% interest) include:

- 50%, $66\frac{2}{3}\%$, 75%, and 100% contingent annuity.
- Five and ten-year certain and life.
- Single life (for married participants).
- Lump sum on retirement (determined using PBGC interest rates and the 1983 GAM male (setback one year) mortality assumptions)
- Lump sum on termination (determined using IRC Section 417(e)(3) assumptions).

Maximum on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions. Towers Watson is not aware of any future plan changes which are required to be reflected.

Changes in Benefits Valued Since Prior Year

There were no changes in benefits valued since the prior year.
