SEBESTA, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2014 and 2013

Note 1 DESCRIPTION OF PLAN

The following description of the Sebesta, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

- A. General. The Plan is a defined contribution plan covering all employees of Sebesta, Inc. (the Company) who are the age of 18 or older. Temporary employees are eligible for the Plan who have one year of service and are the age of 18 or older. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA).
- B. Contributions. Each year, participants may contribute up to 85 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan. Automatically enrolled participants have their deferral rate set at 4 percent of their eligible compensation. The Company may make discretionary matching contributions. For the year ended December 31, 2014, the Company's discretionary match was calculated as 50 percent of the first 2 percent of base compensation that a participant contributes to the Plan. Contributions are subject to IRS limitations.
- C. Participant Accounts. Each participant's account is credited with the participant's contributions and Company's contributions, as well as allocations of the Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which the participant is entitled is the benefit that can be provided from the participant's vested account.
- D. Vesting. Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after five years of credited service.
- E. Notes Receivable from Participants. Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account. The loans bear interest at market rates. Principal and interest is paid ratably through payroll deductions.
- F. Payment of Benefits. On termination of service due to death, disability, retirement, or termination of employment, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account.
- G. Forfeited Accounts. At December 31, 2014 and 2013, forfeited nonvested accounts totaled \$13,557 and \$13,207, respectively. These accounts will be used to pay Plan expenses or to reduce future Company contributions. In 2014, the Plan expenses were reduced by \$17,951 from forfeited nonvested accounts.

Note 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- A. Basis of Accounting. The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully-benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefit presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

- B. Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of Plan assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

- C. Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

- D. Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

- E. Payment of Benefits. Benefits are recorded when paid.

- F. Expenses. Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

- G. Subsequent Events. The Plan has evaluated subsequent events through October 2, 2015, the date the financial statements were available to be issued.

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Common/collective trusts	\$176,639
Mutual funds	521,793
	<u>\$698,432</u>

Note 5 FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1- Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2- Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3- Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Common/collective trusts: Investments in common/collective trusts are valued at the net asset value of shares held by the Plan at year end, which is based on quoted prices for similar assets in active markets.

Mutual funds: Valued at quoted prices in an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

SEBESTA, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2014 and 2013

The following tables set forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31:

		2014		
		Fair Value	Unfunded Commitments	Redemption Frequency
				Redemption Notice Period
Common/collective trusts:				
Fixed-income funds		\$1,080,143	\$ -	Daily
				Up to 12 months
		2013		
		Fair Value	Unfunded Commitments	Redemption Frequency
				Redemption Notice Period
Common/collective trusts:				
Fixed-income funds		\$1,361,906	\$ -	Daily
				Up to 12 months

The objective of the fixed income funds is to maintain safety of principal while generating a level of current income generally exceeding that of a money market fund. To achieve this, the funds invest in traditional and synthetic investment contracts and fixed income funds.

Note 6 FULLY BENEFIT-RESPONSIVE CONTRACTS

The financial statements reflect the adoption of FASB's authoritative guidance regarding *Reporting of Fully Benefit-Responsive Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company guide and Defined-Contribution Health and Welfare and Pension Plans*. The Plan has adopted the guidance because of its investment in the BMO Employee Benefit Stable Principal Fund (the Fund), a fully benefit-responsive investment contract.

The Fund owns Traditional and Synthetic GIC contracts with various crediting rate formulas. Fixed rate Traditional GIC contracts have no reset and are deemed to remain at par. Monthly reset Traditional GIC contracts are credited off of one month LIBOR rate and a rolling twelve month Consumer Price Index (CIP). These contracts reset monthly at a spread to their index. Contracts are deemed to be par. Monthly reset Synthetic GIC contracts are credited off the internal rate of return, dollar duration, and dollar weighted duration of an underlying portfolio. The monthly reset contracts are maintained at contract value. The underlying portfolios are priced at market value. As rates rise, the market value falls versus contract value. Crediting rates will rise with a lag due to reinvestment. As rates fall, the market value will rise versus the contract value. Crediting rates will fall with lag due to reinvestment.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2014 and 2013 was \$1,080,143 and \$1,361,906, respectively. There is no minimum crediting interest rate and the rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a daily basis for resetting. The average yields for the years ended December 31, were as follows:

	2014	2013
Based on actual earnings	2.08%	2.15%
Based on interest rate credited to participants	1.81%	1.84%

The Fund could be limited in its ability to transact at contract value if the Fund raises its risk profile or is subjected to an extended period of significant cash outflow. BMO maintains strong risk parameters and works with its issuers

SEBESTA, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2014 and 2013

before any risk parameter changes are contemplated. The Fund maintains cash, internal cash flow and a maturity ladder of investments to offset cash withdrawals. Further, the Fund manager may limit withdrawals in order to maintain sufficient liquidity. Therefore, the probability of the Fund losing its access to contract value transactions is remote.

All issuer transactions are guaranteed at contract value unless the Fund is found to have acted negligently, fraudulently or with intent to mislead the issuer.

Note 7 PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares managed by BMO. BMO is the trustee as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made a direct payment to the third party administrator of \$54,566, which was not covered by revenue sharing. The Company pays directly any other fees related to the plan's operations.

Note 8 PLAN TERMINATION

Although they have not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Note 9 TAX STATUS

The IRS has determined and informed the Company by a letter dated September 3, 2009, that the Plan and related trust are designed in accordance with applicable sections of the Code. Although the Plan has been amended since receiving the determination letter; the Plan Administrator believes the Plan is designed, and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 10 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances, and the amounts reported in the statements of net assets available for benefits.
