REPORT ON THE FINANCIAL STATEMENTS

We were engaged to audit the accompanying financial statements of the Museum of Flight Tax-Sheltered Annuity Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by The Variable Annuity Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2014 and 2013, and for the year ended December 31, 2014, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

MUSEUM OF FLIGHT TAX-SHELTERED ANNUITY PLAN

Notes to Financial Statements For the Year Ended December 31, 2014

Note 1 - Description of Plan

The following description of the Museum of Flight Tax-Sheltered Annuity Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's definitions, benefits, eligibility and other matters.

General - The Plan is a defined contribution plan that was established effective January 1, 1988 for the benefit of employees of the Museum of Flight Foundation (the Sponsor or Foundation). The Plan is intended to be a plan that meets requirements under Section 403(b) of the Internal Revenue Code (IRC). The Variable Annuity Life Insurance Company (VALIC) serves as the Plan's custodian and recordkeeper. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility - All employees of the Foundation are eligible to make elective deferrals into the Plan and receive employer matching contributions upon completion of one year of service. Employees must work at least 1,000 hours in order to fulfill the one year service requirement. Before meeting the one year service requirement, employees are eligible to contribute elective deferrals into a separate tax-sheltered annuity plan.

Contributions - Participants are permitted to make elective deferrals to the Plan only if their salary reduction agreement calls for annual contributions of 50% of the employer matching contribution made on their behalf. Any elective deferrals less than, or greater than this, amount shall automatically be contributed to a separate tax-sheltered annuity plan in lieu of the Plan. Contributions can be made as pre-tax contributions or Roth contributions. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants are also allowed to contribute amounts representing distributions from other eligible retirement plans.

The Foundation made matching contributions at a rate equal to 4% of the employee's compensation, plus one-tenth of 1% (0.1%) of the employee's compensation times the employee's years of service, provided that the employee has agreed to make elective deferrals at a rate equal to 50% of the employer matching contributions made on their behalf.

Contributions are subject to certain regulatory limitations under the IRC.

Participant Accounts - Participant contributions to the Plan are voluntary. Participants are allowed to direct the investment of all contributions into various investment options that offer a diversity of investment risk and return. Each participant's account is credited with the participant's contribution, if applicable, and allocations of (a) the Foundation's contribution and, (b) Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Allocation Provisions - Interest income and net realized and unrealized investment gain or loss of each investment shall be allocated to the accounts of each participant based on the participant's proportionate share of the various investments held in their investment account.

Vesting - Participants are immediately vested in their elective deferral contributions and employer matching contributions plus actual earnings thereon.

Notes to Financial Statements For the Year Ended December 31, 2014

Note 1 - Continued

Policy Loans - Participants may borrow from funds owned by VALIC (not directly from a participant's account). Accordingly, policy loans are not reported on the statements of net assets available for benefits and related interest income is not reported on the statements of changes in net assets available for benefits. When a participant takes a loan, the participant account is not reduced; however, a portion of the participant account serves as collateral for the loan. The amount is equal to the original principal of the loan requested plus the first quarter interest due and potential surrender charges. The participant pays interest to VALIC at the loan interest rate. The loan interest rate is determined at the end of each quarter based on Moody's Average Corporate Yield. There were \$25,146 and \$1,342 in outstanding plan loans as of December 31, 2014 and 2013, respectively.

Payment of Benefits - Upon termination of service, death, disability, or retirement, a participant may receive a lump-sum amount equal to the vested portion of his or her account. The distribution may also be in the form of installment payments or annuity distribution options. The Plan also provides for hardship withdrawals.

Note 2 - Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan's fixed annuity contracts are recorded at contract value. Reporting the fixed annuity contracts at fair value would not have a material effect on the Plan's financial statements as interest rates are periodically adjusted to market. Accordingly, contract value, which represents accumulated cash contributions plus interest, less any withdrawals, approximates fair value.

Use of Estimates - The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation or depreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits Paid to Participants - Benefits paid to participants are recognized when they are paid. No amounts had been allocated to accounts of participants who had elected to withdraw from the Plan but had not yet been paid as of December 31, 2014 and 2013.

MUSEUM OF FLIGHT TAX-SHELTERED ANNUITY PLAN

Note 2 - Continued

Administrative Expenses - The Plan's investment options are subject to investment and administrative fees based on a percentage of invested assets. All such fees are charged directly against investment performance and not separately disclosed in the accompanying financial statements. Certain fees and expenses of the Plan for legal, accounting, and other administrative services are paid directly by the Foundation on behalf of the Plan.

Subsequent Events - The Sponsor has evaluated subsequent events through October 8, 2015, the date on which the Plan's financial statements were available to be issued.

Note 3 - Fair Value Measurements

U.S. GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 - Unadjusted quoted prices available in active markets for identical assets or liabilities;

Level 2 - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

Level 3 - Unobservable inputs that are significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Variable Annuity Accounts - Variable annuity accounts are valued daily by multiplying the number of units held with the accumulation unit value (AUV). The AUV is determined based on the net asset value of shares of the underlying fund, the fund's dividends and any charges to the accounts.

Fixed Annuity Contract - Valued at contract value which is the aggregation of contributions, plus interest, less any withdrawals. Contract value approximates a discounted cash flow value calculated using an appropriate risk-adjusted market discount rate which correlates closely with the fixed annuity contract's historical crediting rates. Fair value is determined annually for financial statement reporting purposes since participants normally transact at contract value. In determining the reasonableness of the methodology, the Plan's management evaluates a variety of factors including review of existing contracts, historical returns, market conditions, and overall credit ratings. Certain unobservable inputs are determined through review of contract terms (e.g. historical crediting rates) while others are substantiated utilizing available market data (e.g. Treasury yields).

Note 3 - Continued

The valuation methodologies used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

Note 3 - Continued

Fair values of the Plan's variable annuity accounts are estimated using their net asset value per accumulation unit. Participants may transfer all or a portion of their account value among the Plan's variable annuity accounts. VALIC allows eligible participants to withdraw the fair value of their variable annuity accounts, in whole or in part, at any time without penalty. Investment strategies of the Plan's primary variable annuity accounts are as follows:

Vanguard Windsor II - The fund seeks to provide long-term capital appreciation and income. The fund invests mainly in large and mid-cap companies whose stocks are considered by an advisor to be undervalued.

Stock Index Fund - The fund seeks long-term capital growth through investment in common stocks that, as a group, are expected to provide investment results closely corresponding to the performance of the S&P 500 Index (the Index). The fund invests, under normal circumstances, at least 80% of net assets in stocks that are in the Index, and up to 20% in investments that are not on the Index, including common stock and related securities, and high quality money market securities.

Vanguard Wellington Fund, Inc. - The fund seeks to provide long-term growth for investors willing to accept stock market volatility. The fund invests in about 100 stocks and 500 bonds across all economic sectors, and maintains a portfolio ratio of stocks to bonds of two to one.

Note 4 - Investments

Investments that represent 5% or more of total Plan assets as of December 31 are as follows:

	2014	2013
Variable annuity accounts-		
Stock Index Fund	\$ 188,143	\$ 171,970
Vanguard Wellington Fund	248,122	164,417
Vanguard Windsor II	185,777	151,462
Fixed annuity contracts-		
Fixed Account Plus	588,016	558,842
Short-Term Fixed Account	157,690	123,736

Note 5 - Investment in Fixed Annuity Contracts

Participants may choose to invest in fixed annuity contracts issued by VALIC. VALIC maintains contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. VALIC is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Certain fixed annuity contracts allow participants to initiate transactions at contract value and, therefore, are considered fully benefit-responsive. The Plan's other fixed annuity contracts are not fully benefit-responsive since they contain liquidity restrictions.

MUSEUM OF FLIGHT TAX-SHELTERED ANNUITY PLAN

Notes to Financial Statements For the Year Ended December 31, 2014

Note 5 - Continued

The rate of credited interest for any period of time will be determined by VALIC. The rate credited is the rate in effect on the day when each deposit is directed to the fixed annuity contracts. The average yield for all fixed annuity accounts was 3.2% for the year ended December 31, 2014. At December 31, 2014, crediting interest rates ranged from 1.0% to 4.5% depending on the type of contract (2013 - 1.0% to 4.5%).

Note 6 - Information Certified by the Custodian

The Plan's management elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Under this provision of ERISA, certain information certified by an insurance company or trust company need not be subjected to independent audits. The Plan's management has obtained a certification from VALIC that the following information included in the Plan's financial statements and supplementary information is complete and accurate:

- Fair value and, if applicable, contract value of investments as of December 31, 2014 and 2013;
- Investment income earned for the year ended December 31, 2014; and
- Investment transactions for the year ended December 31, 2014.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to terminate the Plan subject to the provisions of the ERISA.

Note 8 - Exempt Party-in-Interest Transactions

Plan investments are variable and fixed annuity contracts issued by VALIC and, therefore, transactions with the Plan's investments qualify as party-in-interest transactions which are exempt from prohibited transaction rules.

Note 9 - Federal Income Taxes

The Plan has been designed to qualify under Section 403(b) of the IRC. The Plan is required to operate in conformity with the IRC to maintain the tax-exempt status for plan participants under Section 403(b). Management believes it has operated the Plan in a manner that did not jeopardize the tax benefits associated with these arrangements.

The Plan is subject to audits by the Internal Revenue Service; however, there are currently no audits for any tax periods in progress.

Note 10 - Risks and Uncertainties

The Plan allows participants to direct contributions into various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
