Notes to the Financial Statements

1. Description of Plan

The following description of the Weatherly Inn at Tacoma LP 401(k) Profit Sharing & Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan, which became effective January 1, 1998, is a defined contribution retirement plan covering substantially all full-time employees of Weatherly Inn at Tacoma, LP, Weatherly Inn – Kent, LLC and Dove Development, Inc., a controlled group of companies (collectively, the "Company") who have one year of service and are age twenty-one or older and not subject to a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company has elected to merge the Plan's assets and liabilities into the My Future 401k Plan, as a participating employer in the multiple employer plan. All eligibility service, vesting service, accrual service, participant accounts, vested interest in accounts, rights and obligations and all other assets and liabilities of the Plan with respect to the employees of the Company without any reduction in or loss thereof, are transferred to the My Future 401k Plan.

Contributions – Each year, participants may contribute a percentage of annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover).

The Company may make matching contributions as well as discretionary profit sharing contributions. Participants enrolled in the Plan are eligible for matching and discretionary profit sharing contributions. Matching contributions are limited to 50% of employee contributions with a maximum of up to 3% of the participant's compensation. During 2014, employer matching contributions totaled $17,472, including forfeitures of $1,082. There were no discretionary profit sharing contributions for the years ending December 31, 2014, and 2013.

Participant and Company contributions may not exceed Internal Revenue Code (IRC) limitations.

Participant Accounts - Each participant's account is credited with the participant's contribution and Company contributions, and an allocation of investment earnings (losses) and administrative expenses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's

vested account. All amounts in participants' accounts are participant-directed into various investment option offered by the Plan.

Vesting – Participants are fully (100%) vested in their voluntary and rollover contributions plus actual earnings thereon. A participant becomes 20% vested in Company matching contributions after two years of service and vests ratably thereafter until 100% vested after six years of credited service. A participant becomes fully vested in Company profit sharing contributions after three years of credited service.

Notes Receivable from Participants - Participants may borrow from their fund accounts. The amount the plan may loan to a participant is limited by rules under the Internal Revenue Code. The maximum amount a participant may borrow is equal to the lesser of $50,000 or 50% of their vested account balance. The minimum loan amount is $1,000. Loan terms generally range from one to five years. If used to acquire a principal residence, the plan administrator can permit a longer repayment period. The loans are secured by the balance in the participant's account, bear interest at the prime rate plus 1% and are fixed over the life of the loan. The plan requires repayment on the loan obligation through payroll deductions and the loan can be repaid at any time.

Payment of Benefits – On termination of service due to death, disability, or retirement, a participant or beneficiary may elect to receive either a single lump-sum distribution equal to the value of the participant's vested interest in his or her account, or an annuity to be paid in equal installments over a period of not more than the participant's assumed life expectancy at the date of distribution. Participants with a vested balance under $5,000 must receive a distribution in a lump sum upon termination.

Hardship Withdrawals – Participants are permitted to withdraw, in a single sum, the vested portion of their account balance under certain conditions. These conditions include unreimbursed medical expenses, the purchase of the participant's principal residence, the payment of post-secondary education tuition, the payment of funeral expenses or casualty losses or to prevent eviction or foreclosure from the participant's principal residence. A participant's right to make deferrals will be suspended for six months after the receipt of a hardship withdrawal.

Forfeited Accounts – Forfeitures of nonvested Company contributions will be used to reduce Company contributions and pay plan administration expenses in the plan year they occur. At December 31, 2014 and 2013, forfeited nonvested accounts totaled $0 and $19, respectively. During the year ended December 31, 2014, forfeitures of $1,802 were used to offset Company matching contributions.

2. Summary of Significant Accounting Policies

Date of Management's Review - Subsequent events were evaluated through October 5, 2015, which is the date the financial statements were available to be issued.

Weatherly Inn at Tacoma LP 401(k) Profit Sharing Plan & Trust

Basis of Accounting - The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014, or 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses – The Plan's administrative expenses are paid by the Plan or the Company, as provided by the Plan document. Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment management fees and operating expenses charged to the Plan are deducted from investment earnings. Consequently, certain investment management fees and operating expenses are not separately reflected in the statement of changes in net assets available benefits and are included in net appreciation or depreciation in the fair value of investments.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted process in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under ASC Topic 820, "Fair Value Measurements and Disclosures", are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the assets or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014, and 2013.

Mutual funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts - Valued at the NAV of units held in collective investment trusts. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The NAV is not a publicly quoted price in an active market. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective investment trusts, the investment advisor reserves the

right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value:

	Assets at Fair Value as of December 31, 2013			
	Level 1	Level 2	Level 3	Total
Mutual funds -

4. Investments

The December 31, 2014 (Date of Merger), and 2013, statements of net assets available for benefits, the investment activities included on the statement of changes in net assets available for benefits for the year ended December 31, 2014, and the accompanying notes to the financial statements were prepared in part or entirely from information certified as complete and accurate by State Street Bank and Trust Company, the Plan’s trustee, in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The information certified includes: total investments at fair value, notes receivable from participants, total investment income and interest income on notes receivable from participants.

The Plan’s independent accountant did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

T. Rowe Price Retirement 2025 Fund R		$83,096
T. Rowe Price Retirement 2030 Fund R		$144,994

During 2014, the Plan’s investments (including gains and losses on investments purchased and sold, as well as held during the year) appreciated in fair value as follows:

Mutual funds	$34,075
Common/collective trusts	1,299
	$35,374

Balanced funds - Combine a stock component, a bond component and, sometimes, a money market component in a single portfolio. These funds generally stick to a relatively fixed mix of stocks and bonds that reflects either a moderate (higher equity component) or conservative (higher fixed-income component) orientation. A balanced fund's purpose is to provide a mixture of safety, income and modest capital appreciation.

Equity funds - Invest primarily in stocks. They are principally categorized according to the size of the companies in which they invest (small cap, mid cap, large cap), the investment style of the holdings in the portfolio (growth, value, core) and geography (domestic, international).

Target date funds - A mutual fund in the hybrid category that automatically resets the asset mix (stocks, bonds, cash equivalents) in its portfolio according to a selected time frame that is appropriate for a particular investor. A target-date fund is similar to a life-cycle fund except that a target-date fund is structured to address some date in the future, such as retirement.

5. Related Party Transactions

Parties-in-interest are defined under Department of Labor regulation as any fiduciary of the Plan, any party rendering service to the Plan, the Employer and certain others.

ADP, Inc., the Plan's third party administrator, provides recordkeeping and administration services to the Plan and, therefore, qualifies as a party-in-interest.

State Street Bank and Trust Company is the trustee as defined by the Plan and, therefore, qualifies as a party-in-interest.

Fees paid directly from the Plan to service providers amounted to $575 for the year ended December 31, 2014.

Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provision of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

6. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

7. Tax Status

During 2012, the Company adopted a prototype non-standardized profit sharing plan sponsored by Automatic Data Processing. The prototype plan sponsor has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by the Plan. The plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions on the Internal Revenue Code and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the Plan to recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
