Note 1 – Plan Description

The following description of Swaggart Brothers 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan, as amended, or summary Plan description for a more complete description of the Plan's provisions.

General – The Plan is a 401(k) salary deferral and profit sharing plan covering all eligible employees of Swaggart Brothers, Inc. (Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan's trustee and record keeper responsibilities are performed by John Hancock and third party administrative duties are performed by Randall & Hurley. The Company's human resources and payroll departments manage day-to-day operations of the Plan.

Eligibility – Employees of the Company are eligible to participate in the Plan upon reaching the age of 21 and after completing one year of service in which the employee is credited with 1,000 hours. Excluded employees are not eligible for participation in the Plan and include union employees whose employment is governed by a collective bargaining agreement under which retirement benefits were the subject of good faith bargaining, certain nonresident aliens who have no earned income from sources within the United States, and leased employees.

Contributions – Participants may elect to contribute up to 100% of eligible compensation to the Plan each year. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Plan is a safe harbor 401(k) Plan. To maintain safe harbor status the Company makes a safe harbor matching contribution equal to 100% of employee contributions, up to 4% of eligible compensation deferred to the Plan. The Company may elect to make discretionary matching and profit sharing contributions. A participant must work 1,000 hours and be employed on the last day of the Plan year to be eligible to receive a profit sharing contribution. There were no discretionary matching or profit sharing contributions made during 2014. In addition, employees who work on certain federal or state funded projects are eligible to receive an additional contribution, which is regulated under the terms of the Davis Bacon Act of 1935 (Davis Bacon).

Contributions are subject to regulatory limitations.

Note 1 – Plan Description (continued)

Participants' accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, and (b) Plan earnings, and charged with any fees directly incurred by the participant. Participants may direct the investment of their account balances into various investment options offered by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are fully vested in their salary deferrals and prevailing wage (Davis Bacon) contributions plus actual earnings thereon. Vesting in Company contributions is based on years of service starting with 20% vesting at 2 years of service and increases in increments of 20% per year until fully vested after six years. Participants are fully vested in Company contributions on or after normal retirement age or upon death or disability.

Payment of benefits – Upon death, disability, or retirement, a participant or the participant's beneficiary is entitled to receive 100% of the participant's account balance. Normal retirement age is 65; however, participants are allowed in-service withdrawal at age 59 1/2. If a participant is terminated for a reason other than retirement, death, or total and permanent disability prior to 100% vesting, the participant retains only the vested portion of their account balance. Benefits are paid as lump-sum or installment payments, either in cash or as a direct rollover to a qualified plan or individual retirement account.

Forfeitures – Forfeitures are the nonvested portion of a participant's account lost upon termination of employment. Forfeitures are retained in the Plan and are used to pay Plan expenses and reduce future Company contributions. As of December 31, 2014, there was no balance in the unused forfeited nonvested accounts and no forfeitures were used to pay Plan expenses in 2014.

Note 2 – Significant Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Administrative expenses – Administrative expenses related to operating and maintaining the Plan are paid by the Company. Certain investment and transaction fees are paid by participants in the Plan.

Note 2 – Significant Accounting Policies (continued)

Investment valuation – The investments are stated at fair value. The Plan's trustee, John Hancock Life Insurance Company, certifies the fair market value of all investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (exit price) in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation of those investments.

Payment of benefits – Benefits are recorded when paid.

Subsequent events – Subsequent events are events or transactions that occur after the statements of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statements of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statements of net assets available for benefits but arose after the statements of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through October 8, 2015, which is the date the financial statements were available to be issued.

Note 3 – Investments

Investments held – Investments representing 5% or more of net assets available for benefits consist of the following as of December 31:

	2014	2013
John Hancock Stable Value	$ 119,991	$ 99,434
Retirement Living through 2025	98,842	73,608
Retirement Living through 2030	216,324	132,252
Retirement Living through 2035	367,876	280,290
Retirement Living through 2040	146,387	129,141
Retirement Living through 2045	164,034	130,209
Retirement Living through 2050	147,465	131,425
Lifestyle Growth	157,668	*

* Presented for comparative purposes only. Investment does not represent 5% or more of the fair value of the Plan's net assets as of December 31.

Note 4 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4 – Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts – Units held in separate accounts invested directly in mutual funds are valued using the net asset value (NAV) of the fund. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV of a separate account is calculated based on a compilation of primarily observable market information. The number of units of the fund that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund. Accordingly, the unit value for a separate account invested directly in mutual funds is classified within Level 2 of the valuation hierarchy.

The Plan invests in the various target retirement date funds. These funds invest substantially all of their assets in underlying funds using an asset allocation strategy designed for investors expected to retire in the target year of each respective fund.

The Plan invests in the following pooled separate accounts that represent 5% or more of the Plan's net assets at December 31, 2014:

John Hancock Stable Value – The fund seeks to preserve capital and provide stability of principal while earning current income that exceeds money market rates over the long term.

Retirement Living through 2025 – The investment seeks high total return through its target retirement date, with a greater focus on income beyond the target date.

Retirement Living through 2030 – The investment seeks high total return through its target retirement date, with a greater focus on income beyond the target date.

Retirement Living through 2035 – The investment seeks high total return through its target retirement date, with a greater focus on income beyond the target date.

Retirement Living through 2040 – The investment seeks high total return through its target retirement date, with a greater focus on income beyond the target date.

Retirement Living through 2045 – The investment seeks high total return through its target retirement date, with a greater focus on income beyond the target date.

Note 4 – Fair Value Measurements (continued)

Retirement Living through 2050 – The investment seeks high total return through its target retirement date, with a greater focus on income beyond the target date.

Lifestyle Growth – The investment seeks long-term growth of capital by investing primarily in equity securities and a portion in fixed-income securities.

These funds have no redemption restrictions and/or required notice periods.

The following tables discloses by level, the fair value hierarchy, of the Plan's assets at fair value as of December 31:

Note 5 – Information Certified by the Plan's Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company, the trustee of the Plan, has certified to the completeness and accuracy of:

- Net appreciation in fair value of investments reflected on the accompanying statement of changes in net assets available for benefits for the years ended December 31, 2014 and 2013.
- Pooled separate accounts reflected on the accompanying statement of net assets available for benefits as of December 31, 2014.
- Investments reflected on the supplementary schedule of assets (held at end of year).

Note 6 – Party in Interest Transactions

Plan investments include units of pooled separate accounts managed by John Hancock Life Insurance Company. John Hancock Life Insurance Company is the trustee of the Plan and an affiliate of John Hancock and, therefore, transactions with these entities qualify as exempt party in interest transactions. Fees paid by the Plan to the trustee amounted to $9,555 for the year ended December 31, 2014.

Note 7 – Tax Status

The Plan document is a volume submitter defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been subsequently amended. However, the Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, management has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Note 9 – Plan Termination

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.
