FARWEST CORROSION CONTROL COMPANY
401(k) SALARY REDUCTION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014

NOTE 1 - DESCRIPTION OF THE PLAN:

The following description of the Farwest Corrosion Company 401(k) Salary Reduction Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan.

General

The Plan is a defined contribution plan covering the eligible employees of Farwest Corrosion Control Company (the "Company", "Employer" or "Plan Administrator") after completing one year of service and 1,000 hours.

Contributions

Participants may make voluntary pretax contributions to a traditional 401(k) account or after tax contributions to a Roth 401(k) account from eligible compensation, as defined in the Plan document, subject to limitations imposed by applicable Internal Revenue Service ("IRS") regulations. Additionally participants who attain age 50 by the end of the year may elect to make certain make-up contributions subject to limitations imposed by applicable IRS regulations.

The plan provides for discretionary employer contributions including matching contributions of 50% of participant deferrals up to a maximum of four percent of eligible compensation. Total employer matching contributions amounted to $109,632 for the year ended December 31, 2014.

NOTE 1 - DESCRIPTION OF THE PLAN (continued):

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and plan earnings, reduced by withdrawals and certain administrative fees. Allocations are based on participant earnings or account balances, as defined.

The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their voluntary contributions and rollovers plus actual earnings thereon. Vesting in the employer contribution portion of their accounts is based upon years of credited service. Participants become fully vested in the employer contribution portion of their accounts after six years of credited service.

Investment Options

Investments held under the Plan are participant-directed and consist of various investment fund alternatives available under the Plan. The investment fund alternatives available during the plan year 2014 included: aggressive growth, growth, growth and income, income and asset allocation-lifestyle series funds. Participants may change the investment allocation in their accounts, both as to existing investments and future contributions, at any time, subject to any restrictions that may be imposed by the particular investment or investment fund selected by the participant.

NOTE 1 - DESCRIPTION OF THE PLAN (continued):

Participant Loans

A participant may borrow from his or her account an amount not in excess of fifty percent of the participant's vested interest or $50,000, whichever is less. Loan transactions are treated as transfers between the investment and participant loan accounts. The loans are secured by the balance in the participant's account and bear interest at prime plus two percent. Principal and interest is paid ratably not less frequently than quarterly, and generally must be repaid through payroll withholding. If loan payments are not made in accordance with the terms of the loan, a deemed distribution may occur in the amount of the unpaid loan balance.

Payment of Benefits

Participants in the Plan may make a complete or partial withdrawal of the vested amounts held in the participant's account upon termination, retirement, death, disability, as a result of hardship, or attainment of age 59 ½.

Upon termination, the participants may elect to receive the vested current value of his or her account in a lump sum distribution. If the vested account value is less than $5,000, the account is rolled over into an IRA unless the participant elects otherwise. If the vested account value is more than $5,000, the account will remain in the Plan unless the participant elects otherwise.

NOTE 1 - DESCRIPTION OF THE PLAN (continued):

Forfeited Accounts

Forfeitures are used to reduce employer contribution to the plan and were insignificant for the plan year ended December 31, 2014.

Plan Expenses

Expenses of maintaining the Plan are generally paid by the Company. The Plan provides that administrative expenses not paid by the Company are charged to the Plan. Fees charged to the Plan totaled $13,046 for the year ended December 31, 2014.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of accounting

The accompanying financial statements of the Plan as of December 31, 2014 and for the year then ended have been prepared on the accrual basis of accounting and are in conformity with accounting principles generally accepted in the United States of America. Accordingly, contributions to the Plan and interest and dividend income are recognized as earned, and realized gains and losses and net unrealized appreciation (depreciation) of fair value of investments are recognized as they occur. Plan benefit payments and withdrawals are recognized when paid.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued):

Investment Valuation and Income Recognition

Investments of the Plan are recorded at fair value. See Note 3 for further discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis and dividends, if applicable, are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board issued Accounting Standard Update ("ASU") 2015-07, "Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)". ASU 2015-07 eliminates the requirement to categorize investments measured using the net asset value ("NAV") method in the fair value hierarchy table. ASU 2015-07 will be applied retrospectively and is effective for fiscal years beginning after December 31, 2016. Plan management is currently evaluating the impact ASU 2015-07 will have on the Plan's financial statements.

NOTE 3 - FAIR VALUE MEASUREMENTS:

Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

NOTE 3 - FAIR VALUE MEASUREMENTS (continued):

The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability through corroboration with market data at the measurement date.

Level 3: Unobservable inputs that are supported by little or no market data and require the use of significant management judgment and best estimate of what market participants would use in pricing the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014.

Investments in Pooled separate accounts: Value determined in a manner similar to mutual fund NAV calculations, based on the value of the underlying net assets divided by the number of units outstanding.

Stable Value Fund: Fair value is calculated as the number of units of the sub-account held on a particular date multiplied by the unit value on that date, and generally is the value that would be paid out for participant-initiated or benefit withdrawals.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 3 - FAIR VALUE MEASUREMENTS (continued):

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013:

Note 6 - PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in all amounts credited to their accounts.

Note 7 - TAX STATUS:

The prototype plan sponsor has obtained an opinion letter dated March 31, 2014, in which the IRS stated that the form of the plan was in compliance with applicable requirements of the Internal Revenue Code ("IRC") and that an employer that adopts this plan may rely on the letter with respect to the qualification of its plan under Code section 401(a). Subsequent to December 31, 2014, the standardized prototype and adoption agreement have been amended (see Note 8). The plan administrator believes that the plan is designed and is being operated in compliance with the applicable requirements of the IRC.
