Benefit Limits

Projected benefits are limited by the current IRC section 415 maximum benefit of \$210,000.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets
2012 Plan Year

Lesser of 7.50% and the third segment rate.
Actual rate of 7.50%.

2013 Plan Year

Lesser of 7.50% and the third segment rate.
Actual rate of 7.16%.

Trust Expenses Included in Target Normal Cost

The Target Normal Cost includes estimated administrative expenses (based on the prior years' actual amounts) plus the estimated PBGC premiums for the current year. For 2014, this amount is \$150,000.

Actuarial Method

Standard unit credit cost method.

Valuation Date

January 1, 2014.

Benefit Limits

Projected benefits are limited by the current IRC section 415 maximum benefit of \$210,000.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets
2012 Plan Year

Lesser of 7.50% and the third segment rate.
Actual rate of 7.50%.

2013 Plan Year

Lesser of 7.50% and the third segment rate.
Actual rate of 7.16%.

Trust Expenses Included in Target Normal Cost

The Target Normal Cost includes estimated administrative expenses (based on the prior years' actual amounts) plus the estimated PBGC premiums for the current year. For 2014, this amount is \$150,000.

Actuarial Method

Standard unit credit cost method.

Valuation Date

January 1, 2014.

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Denver Newspaper Pressmen's Union Pension Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a collectively bargained, single-employer defined benefit plan established on January 1, 1961 and subsequently amended and restated. The Plan is under an agreement between the Denver Post, LLC (the "Company") and the Denver Newspaper Pressmen's Union No. 22 to provide pension, disability, retirement, and death benefits to eligible employees with qualifying years of credited service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Company has elected committees that administer the Plan. Prudential Retirement Insurance and Annuity Company ("Prudential") serves as trustee, manages Plan investments, and maintains the Plan's records.

Effective December 31, 2007 ("Freeze Date"), the Plan was frozen. Current participants will not accrue benefit credits but will continue to accrue vesting credits.

Funding Policy

The funding target attainment percentage is obtained by dividing the Plan's net plan assets by the plan liabilities on the valuation date. The funding target attainment percentage was 80.16% at January 1, 2014 and 79.83% at January 1, 2013.

Contributions to the Plan are based on actuarial determinations provided by the Plan's actuary. All contributions are made by the Company in cash in amounts adequate to meet the minimum funding requirement of ERISA. Contributions of \$905,000 and \$600,000 were made to the Plan for the years ended December 31, 2014 and 2013, respectively.

Vesting and Payment of Benefits

A participant who has completed five years of vesting service or who has attained the age 62 while employed is fully vested and is entitled to receive benefits upon retirement based upon length of employment, as provided by the Plan. Participants earn one year of vesting service for each Plan year in which the participant is credited with 220 or more Shifts plus Shift Equivalents. Partial credit is earned for participants with fewer than 220 Shifts plus Shift Equivalents during a Plan year. A Shift is a period of employment as defined by the Plan document. A participant who terminates employment after achieving vested status is entitled to a deferred vested benefit. Payments of the deferred vested benefit begin at the participant's normal retirement date and consist of all benefits accrued prior to termination. Upon election, a participant may receive his or her deferred vested benefit in a reduced amount commencing on or after age 55.

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting and Payment of Benefits (continued)

The normal retirement date is the first day of the month coinciding with or following the participant's attainment of age 62. A vested participant may terminate employment and commence receiving a reduced benefit on the first day of any month on or after age 55. The pension formula for the benefit payable at normal retirement date (in the form of a life annuity) is equal to a dollar amount dependent upon the participant's termination date, as described more fully in the following paragraphs, multiplied by the number of years of Benefit Service

The Plan provides for varying pension benefit formula dollar amounts based on employment termination dates.

For participants whose employment terminated before January 1, 1987, the monthly dollar amount is (i) \$6.00 times the participant's years of benefit service plus (ii) \$6.00 times the participant's years of benefit service from January 1, 1961 through December 31, 1973 plus (iii) \$10.75 times the participant's years of benefit service after December 31, 1973.

For participants whose employment terminated on or after January 1, 1987, but before January 1, 1991, the monthly dollar amount is (i) \$6.50 times the participant's years of benefit service plus (ii) \$6.50 times the participant's years of benefit service from January 1, 1961 through December 31, 1973 plus (iii) \$11.75 times the participant's years of benefit service after December 31, 1973.

For participants whose employment terminated on or after January 1, 1991, but before January 1, 1992, the monthly dollar amount is (i) \$6.50 times the participant's years of benefit service plus (ii) \$6.50 times the participant's years of benefit service from January 1, 1961 through December 31, 1973 plus (iii) \$13.75 times the participant's years of benefit service after December 31, 1973.

For participants whose employment terminated on or after January 1, 1992, but before January 1, 1995, the monthly dollar amount is (i) \$6.50 times the participant's years of benefit service plus (ii) \$6.50 times years of benefit service from January 1, 1961 through December 31, 1973 plus (iii) \$17 times the participant's years of benefit service from January 1, 1974 through December 31, 1991 plus (iv) \$20.00 times years of benefit service after December 31, 1991.

For participants whose employment terminated on or after January 1, 1995, but before January 1, 1999, the monthly dollar amount is (i) \$6.50 times the participant's years of benefit service plus (ii) \$6.50 times the participant's years of credited future service from January 1, 1961 through December 31, 1979 plus (iii) \$17.00 times the participant's years of benefit service from January 1, 1974 through December 31, 1991 plus (iv) \$23.00 times the participant's years of benefit service after December 31, 1991.

For participants whose employment terminated on or after January 1, 1999, but before January 1, 2001, the monthly dollar amount is (i) \$7.50 times the participant's years of benefit service plus (ii) \$7.50 times the participant's years of benefit service from January 1, 1961 through December 31, 1973 plus (iii) \$19.00 times the participant's years of benefit service from January 1, 1974 through December 31, 1991, plus (iv) \$25.00 times the participant's years of benefit service after December 31, 1991.

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting and Payment of Benefits (continued)

For participants whose employment terminated on or after January 1, 2001, but before January 1, 2008, the monthly dollar amount is (i) \$10.00 times the participant's years of benefit service plus ii) \$10.00 times the participant's years of benefit service from January 1, 1961 through December 31, 1973 plus (iii) \$22 times the participant's years of benefit service from January 1, 1974 through December 31, 1991 plus (iv) \$26 times the participant's years of benefit service after December 31, 1991.

For participants whose employment terminated on or after January 1, 2008, the monthly dollar amount is (i) \$10.00 times the participant's years of benefit service plus ii) \$10 times the participant's years of benefit service from January 1, 1961 through December 31, 1973 plus (iii) \$22 times the participant's years of benefit service from January 1, 1974 through December 31, 1991 plus (iv) \$26 times the participant's years of benefit service from January 1, 1992 through December 31, 2000 plus (v) \$27 times participant's years of benefit service after December 31, 2000.

The spouse of a participant who dies while employed and after completing five years of vesting service, or after terminating with normal, early, late, deferred, or disability retirement benefits but before the participant's annuity starting date, as defined in the Plan document, is entitled to a death benefit. The death benefit is payable in the form of a qualified joint and 50% survivor annuity. However, if the spouse is more than five years younger than the participant, the amount of the benefit is reduced because of the difference in age. The death benefit becomes payable no earlier than the date the participant would have been eligible to receive benefits.

Prior to January 1, 1998, if the participant is unmarried at the time of death, the designated beneficiary will receive a death benefit in an amount equal to \$100 times the number of years of credited future service. On and after January 1, 1998, the designated beneficiary will receive a death benefit in an amount equal to \$325 times the number of years of credited future service.

The spouse, or the designated beneficiary if the proper elections have been made, of a participant who dies after normal, early, late, deferred, or disability benefits have commenced is entitled to death benefits payable as elected when the participant became eligible for the benefit, as defined in the Plan document. However, if the participant is unmarried, the designated beneficiary is eligible for death benefits, as described in the Plan document, payable in a single lump sum.

Benefit payments to participants are recorded when paid.

Plan Termination

Although the Company has not expressed any intention to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth by ERISA. In the event the Plan terminates, assets would be set aside first for the payment of benefits to retirees and then for other participants. The Pension Benefit Guaranty Corporation guarantees the payment of all non-forfeitable (vested) benefits subject to certain limitations prescribed by ERISA.

DENVER NEWSPAPER PRESSMEN'S UNION PENSION PLAN

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition

Investments are reported at fair value as reported to the Plan by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

The investments of the Plan are comprised of a mutual fund, pooled separate accounts, and a master trust, which are stated at fair value.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statements of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. The most significant of these estimates relates to the determination of the accumulated plan benefits and the Plan's funded status. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' benefits and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by the Plan are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of comparable U.S. companies.

Subsequent Events

The Plan has evaluated subsequent events through the auditors' report date, which is the date the financial statements were available for issuance. There were no material subsequent events that required recognition or disclosure in the financial statements.

DENVER NEWSPAPER PRESSMEN'S UNION PENSION PLAN

Notes to Financial Statements

Note 2 - Assets Certified by the Trustee

Prudential has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of December 31, 2014 and 2013 the income earned or losses incurred on the investments for the years ended December 31, 2014 and 2013, as reflected in the accompanying financial statements, the supplemental schedule of assets (held at end of year), and the supplemental schedule of reportable transactions, are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the trustee except for comparing the information contained therein to information included in the financial statements, the supplemental schedule of assets (held at end of year), and the supplemental schedule of reportable transactions.

The fair value of investments greater than 5% of net assets available for benefits was as follows:

	December 31,		
	2014	2013	
Vanguard Institutional Index Fund	\$ 4,689,850	\$ -	*
Prudential Dryden S&P 500 Index Fund	\$ 4,154,018	\$ -	*
Prudential International Blend/Thornburg Fund	\$ -	\$ 2,923,728	
Prudential Growth Stock Strategy Fund/T. Rowe Price	\$ -	\$ 1,266,732	
Prudential Large Cap Growth/Columbia Management Fund	\$ -	\$ 1,223,171	
Prudential Large Cap Value/LSV Asset Management Fund	\$ -	\$ 1,197,177	
Prudential Large Cap Value Fund/Wellington Management	\$ -	\$ 1,163,314	

* Amount does not represent greater than 5% of net assets available for benefits at the respective date.

The Plan's investments (including investments bought, sold, and held for the year) appreciated in fair value as follows:

	December 31,	
	2014	2013
Mutual fund	\$ 396,918	\$ -
Pooled separate accounts	215,735	2,064,086

Notes to Financial Statements

Note 3 - Fair Value Accounting

GAAP requires disclosure about how fair value is determined and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis as of December 31, 2014 and 2013.

Investments measured at fair value as of December 31, 2014 are as follows:

<u>Description</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

Large-capital fund	<u>\$ 4,689,850</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 4,689,850</u>

Note 3 - Fair Value Accounting (continued)

Investments measured at fair value as of December 31, 2013 are as follows:

<u>Description</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Pooled separate accounts				
Large-capital funds (a)	\$ -	\$ 4,850,394	\$ -	\$ 4,850,394

- (a) Large-capital funds seek long-term growth of capital by investing primarily in equity and equity-related securities of large companies believed to be strategically positioned for consistent long-term growth and to provide long-term growth of capital and, secondarily, to increase dividend income by investing primarily in common stocks of well-established growth companies.
- (b) Fixed-income funds seek to preserve capital by investing in a short-term diversified portfolio of fixed-income securities along with preservation of capital and prudent investment management.
- (c) Master trust funds seek to preserve capital while delivering high risk-adjusted absolute returns.
- (d) International funds seek to invest primarily in non-U.S. mid- to large-capitalization stocks.
- (e) Small-capital funds seek to provide long-term capital appreciation and income by investing primarily in small-capitalization companies that pay regular income dividends and are undervalued in the opinion of the sub-adviser.
- (f) Mid-capital funds seek to provide long-term total returns while managing portfolio risk.

The valuation technique used to measure fair value of the mutual fund is based upon the quoted market price at the close of business on the reporting period date.

DENVER NEWSPAPER PRESSMEN'S UNION PENSION PLAN

Notes to Financial Statements

Note 3 - Fair Value Accounting (continued)

The Plan's investments in pooled separate accounts ("separate accounts") are recorded at net asset value ("NAV") reported by the funds' managers as a practical expedient to estimating the fair value as these investments do not have readily determinable fair values. Due to the nature of the investments held by the separate accounts, changes in market conditions and the economic environment may significantly impact the NAV of the separate accounts, and consequently, fair values of the funds' interest in the funds. The fair value of these investments are measured using the NAV per share of the Plan's ownership interest in separate accounts on an equivalent measure where it is not probable that the fund will sell a separate account at a price other than NAV. The separate accounts are redeemable daily and have a one-day notice period. There were no separate accounts with redemption restrictions or unfunded commitments as of December 31, 2014 and 2013.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in different fair value measurements at the reporting date.

The Plan's management reaffirms its understanding of the valuation techniques used by its pricing services at least annually.

There were no changes to the valuation techniques used during the years ended December 31, 2014 and 2013.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The Plan's Level 3 financial instruments as of December 31, 2014 and 2013 include hedge funds whose underlying investments are comprised of Level 1, Level 2, and Level 3 investments. Due to certain redemption restrictions, these investments have been classified within Level 3 of the fair value hierarchy. The fair value of the hedge funds as of December 31, 2014 and 2013 was \$3,503,539 and \$2,901,448, respectively. The valuation technique used to measure fair value of the hedge funds is based on the fair value of the funds' underlying investments determined by the investment advisor using the financial statements of the funds at the measurement date.

Interest in Master Trust

A portion of the Plan's investments is in the Denver Post Defined Benefit Plans Master Trust ("Master Trust"), which was established for the investment of assets of the Plan and two other Company-sponsored defined benefit retirement plans during the current year. Each participating retirement plan has an undivided interest in the Master Trust. The Plan's interest in the net assets of the Master Trust are invested in various hedge funds.

The amounts disclosed in the statements of net assets available for benefits represent the Plan's 21% undivided interest in the net assets of the Master Trust as of December 31, 2014 and 2013. Interest, dividends, net appreciation (depreciation) in fair value of investments, and investment expenses are allocated to the Plan based upon its pro-rata share in the net assets of the Master Trust. Administrative expenses incurred that relate to individual plans were specifically allocated to each plan.

The following table presents the net assets in the Master Trust:

	December 31,	
	2014	2013
Assets		
Investments, at fair value		
Hedge funds	<u>\$ 16,392,542</u>	<u>\$ 13,691,092</u>

The following table presents the net investment income for the Master Trust:

	For the Years Ended December 31,	
	2014	2013
Net unrealized and realized (depreciation) appreciation in fair value of Master Trust	<u>\$ (1,384,262)</u>	<u>\$ 1,353,607</u>
Net unrealized and realized (depreciation) appreciation in fair value of interest in Master Trust	<u>\$ (301,603)</u>	<u>\$ 286,859</u>

The Plan's fair value of investments greater than 5% of net assets in the Master Trust was as follows:

	December 31,	
	2014	2013
Alden Global Adfero BPI Fund, Limited	\$ 2,295,135	\$ 2,014,674
KLS Diversified Fund, Limited	\$ 946,649	\$ 886,774

The following tables set forth by level, within the fair value hierarchy as described above, the Master Trust's investment assets measured at fair value on a recurring basis as of December 31, 2014 and 2013.

Master Trust assets at fair value as of December 31, 2014 are as follows:

Description	Level 1	Level 2	Level 3	Total
Hedge funds	\$ -	\$ -	\$ 16,392,542	\$ 16,392,542

Master Trust assets at fair value as of December 31, 2013 are as follows:

Description	Level 1	Level 2	Level 3	Total
Hedge funds	\$ -	\$ -	\$ 13,691,092	\$ 13,691,092

Note 4 - Income Taxes

The IRS has determined and informed the Plan, in a letter dated June 14, 2012, that the Plan is qualified and the trust established under the Plan is tax exempt under the appropriate sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the accompanying financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Administration of the Plan

The Plan pays the cost of certain administrative, accounting, and legal services.

Note 6 - Related Party and Party-in-Interest Transactions

Certain Plan investments include pooled separate accounts managed by Prudential. Other Plan investments include two hedge funds that are managed by an owner of the Company. There are no fees charged to the Plan associated with these funds. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

Note 7 - Accumulated Plan Benefits

The Plan's actuary, Aon Hewitt ("Hewitt"), estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries and present employees or their beneficiaries are based on varying pension benefit formulas as outlined in the Plan document. Benefits payable under all circumstances (retirement, death, disability, or termination of employment) are included to the extent they are deemed attributable to employee service rendered to the Freeze Date. The actuarial valuation was performed as of January 1, 2014 and 2013. Had the valuation been performed as of December 31, 2013 and 2012, there would be no material difference.

The following table sets forth the accumulated plan benefits:

	January 1,	
	2014	2013
Actuarial present value of accumulated plan benefits		
Vested benefits		
Participants currently receiving benefits	\$ 7,607,912	\$ 7,646,058
Vested benefits for other participants	<u>5,126,613</u>	<u>4,800,401</u>
Total vested benefits	12,734,525	12,446,459
Non-vested benefits	<u>44,096</u>	<u>62,617</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 12,778,621</u>	<u>\$ 12,509,076</u>

The change in present value of accumulated plan benefits was as follows:

Actuarial present value of accumulated plan benefits as of January 1, 2013	\$ 12,509,076
Increase (decrease) during the year attributable to:	
Interest accumulation	905,482
Assumption changes (1)	130,418
Other changes (2)	121,674
Benefit payments	<u>(888,029)</u>
Actuarial present value of accumulated plan benefits as of January 1, 2014	<u>\$ 12,778,621</u>

- (1) Changes in actuarial assumptions relate to changes in the mortality rate assumptions as noted in the following table.

DENVER NEWSPAPER PRESSMEN'S UNION PENSION PLAN

Notes to Financial Statements

Note 7 - Accumulated Plan Benefits (continued)

- (2) Other changes represent the normal operation of the Plan, consisting primarily of the increase due to ongoing benefit accruals and those items of Plan experience that are not associated with Plan asset performance.

The significant actuarial assumptions used by Hewitt in its January 1, 2014 and 2013 calculations are as follows:

Assumed rate of return on investments 7.60% (2014) and 7.50% (2013)

Probability of retirement 5% at ages 55-61, 50% at ages 62-64, and 100% at ages 65+ (2014)

Mortality basis 2014 Static Mortality Table for Annuitants and Non-Annuitants (2014) and 2013 Static Mortality Table for Annuitants and Non-Annuitants (2013)

Actuarial cost method Standard Unit Credit Cost Method (2014 and 2013)

The effective interest rate assumption changed to 6.44% as of January 1, 2014 from 6.62% as of January 1, 2013.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.
