As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Lincoln Financial Group, the trustee of the Plan, except for comparing such information with the related information included in the 2014 financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2014, that the information provided to the plan administrator by the trustee is complete and accurate.

1. DESCRIPTION OF THE PLAN:

The following brief description of the Employees' Retirement Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan intended to meet the requirements of Section 401(k) of the Internal Revenue Code (IRC) covering employees of AluChem, Inc. AluChem of Jackson, Inc. Porocel Industries, LLC, Catalyst Recovery of Louisiana, LLC, AluChem of Little Rock, LLC and Quanta Technologies, LLC (the Companies) who have 90 days of service and are age twenty-one or older. Porocel Industries, LLC came under common control with the other companies on May 7, 1996, and the employees of Porocel Industries, LLC became eligible to participate in the Plan on September 1, 1996. Employees of Catalyst Recovery of Louisiana, LLC became eligible to participate in the Plan on October 7, 2004. Employees of AluChem of Little Rock, LLC became eligible to participate in the Plan on November 3, 2008. Employees of Quanta Technologies, LLC became eligible to participate in the Plan on April 27, 2012. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Companies are the plan administrators.

Contributions

Each year, participants may contribute up to a dollar limitation permissible under IRC. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Effective January 1, 2014, the Companies contribute 50% of every 1% of base compensation that a participant contributes to the Plan, up to a maximum of 5%. The Company also matches participant's catch up deferral contributions to the Plan.

The Companies elected to make a discretionary contribution equal to 1.5% of participants' gross annual eligible earnings (floor contributions) for those participants employed at the end of the Plan year. Contributions are subject to certain limitations as defined by the Plan.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the employer's contributions and (b) Plan's earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the amount that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and the Employer's Safe Harbor contributions plus actual earnings thereon. Employer contributions become 100% vested after six years of service.

Notes receivable from participants

Participants may obtain a loan through the Plan for a maximum of 50% of their vested balance, but not to exceed \$50,000. The minimum loan amount is \$1,000. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates at the date of issuance as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive periodic installments or a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Participants may also make withdrawals of their vested account balance upon attainment of the Plan's normal retirement age of 65.

Forfeited accounts

At December 31, 2014 and 2013, forfeited nonvested accounts totaled \$2,998 and \$4,984, respectively. Forfeitures are available to offset plan expenses or as additional employer contributions. Forfeitures were used to reduce plan fees by \$12,336 and \$13,633 during 2014 and 2013, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following are the significant accounting policies of the Plan:

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

In accordance with accounting principles generally accepted in the United States of America requires investment contracts held by a defined contribution plan to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts, which Lincoln National Life Insurance Company has indicated approximates contract value. The Statements of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in the net appreciation of fair value of investments. Expenses associated with obtaining a loan are paid by the Plan participants.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenue and expenses during the reporting period. Accordingly, actual results may differ from those estimates.

Subsequent events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through September 24, 2015, the date on which the financial statements were available to be issued.

3. INVESTMENTS:

Participants may direct contributions into several pooled separate accounts or an insurance company general account investment offered by Lincoln Financial Group. Due to certain surrender charges, the insurance company general account is not considered to be fully-benefit responsive.

All financial data related to investments used in the preparation of the statements of net assets available for benefits as of December 31, 2014 and 2013, statement of changes in net assets available for benefits, for the year ended December 31, 2014, and the supplemental schedule of assets (held at end of year) as of December 31, 2014, have been certified as to accuracy and completeness by the Plan's trustee, Lincoln Financial Group.

The fair values of individual investments that represent 5 percent or more of the Plan's net assets at December 31, 2014 and 2013 are as follows:

	2014	2013
Pooled separate accounts:		
Federated Government Ultrashort Duration Fund	\$ 581,985	745,890
Invesco Growth and Income	586,798	**
MFS VIT Growth	791,658	806,582
LVIP SSgA S&P 500 Index	691,364	539,243
SSgA S&P MidCap Index Non-Lending Series	1,326,459	1,291,471
Insurance company general account	1,963,454	1,668,128

** - Investment did not represent 5% or more of the Plan's net assets.

4. FAIR VALUE MEASUREMENTS:

Financial Accounting Standards Board (FASB) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts: The Plan's pooled separate accounts do not have readily determinable market values. The Plan, as permitted by accounting principles generally accepted in the United States of America, has valued this investment based on the net asset value reported by the investment manager, which is based on the underlying securities. These securities consist primarily of registered investment companies, which are valued based on quoted market prices.

Insurance company general account: Management has determined that contract value approximates fair value due to the contract crediting interest rates being comparable to similar contracts with equivalent credit risk.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

Assets at fair value as of December 31, 2014

5. TAX STATUS:

The Plan obtained its latest determination letter dated September 26, 2013, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

6. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Companies have the right to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, all benefits will be distributed to participants and beneficiaries in proportion to their respective account balances.

7. RELATED PARTY TRANSACTIONS:

Pooled separate accounts and the insurance company general account are issued by Lincoln Financial Group. Since Lincoln Financial Group is the trustee of the Plan, these transactions qualify as party-in-interest. Fees paid by the Plan for the trustee services amounted to \$43,448 and \$48,952 for the years ended December 31, 2014 and 2013, respectively.

8. RISK AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
