Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, common stocks, bonds, government securities, and an insurance investment contract as investment options for participants. During 2014 and 2013, matching contributions were limited to 6% of an eligible participant's qualified wages and the Company matched 50%. One full year of service must be completed before an employee qualifies for matching contributions from the Company.

Participant Accounts – Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contribution and, (b) Plan earnings/(losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will be 100% vested in the matching portion of the balances in his or her account after six years of service.

Notes Receivable from Participants – Participants may borrow from their fund accounts at a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance, whichever is less. The notes are secured by the balance in the participant's account and bear interest at a rate equal to prime + 1%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through payroll deductions. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document. Participants defaulting on loans totaled \$55,309 and \$3,076 for the years ended December 31, 2014 and 2013.

Payment of Benefits – On termination of service due to disability, retirement, or other reasons, a participant may receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. In the event of death, the benefits will be paid pursuant to the election of the participant or the beneficiary.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

NOTE A - DESCRIPTION OF PLAN (Cont'd):

Forfeited Accounts – At December 31, 2014 and 2013, forfeited nonvested accounts totaled \$10,551 and \$14,359, respectively. These accounts will first be used to pay any administrative expenses and any remaining forfeitures will be allocated to all eligible participants. Forfeitures of matching contributions will be used to reduce the employer's matching contribution. Also, in 2014 and 2013, employer contributions were reduced by \$14,359 and \$6,674, respectively, from forfeited nonvested accounts.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Date of Management's Review – Subsequent events were evaluated through September 25, 2015, which is the date the financial statements were available to be issued.

Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Basis of Accounting – The financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value for the fully benefit-responsive investment contract.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2014 and 2013, no allowance for credit losses has been recorded. Delinquent participant loans are reclassified as distributions after a payment is not paid within the grace period. The grace period is the first day of the third month after the end of the quarter in which the required payment was due but not made.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are record on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits – Benefits are recorded when paid.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd):

Operating Expenses – All expenses of maintaining the Plan are paid from the Trust Fund unless paid by the Sponsor.

Excess Contributions Payable – Amounts payable to participants totaling \$2,167 for contributions in excess of amounts allowed by the IRS are recorded as accounts payable, with a corresponding reduction to 2014 contributions. The Plan distributed 2014 excess contributions prior to March 15, 2015. There were no excess contributions for the year ended December 31, 2013.

NOTE D - FAIR VALUE MEASUREMENTS:

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

NOTE D - FAIR VALUE MEASUREMENTS (Cont'd):

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurement*, are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If an asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Money markets: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the plan at year-end.

Fully benefit-responsive investment contract: Partially valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Also, partially valued at the net asset value (NAV) of shares held by the plan at year-end.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE E - INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN ON BEHALF OF THE RECORD KEEPER:

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, MG Trust Company, LLC, the custodian of the Plan as agent for CPI Qualified Plan Consultants, the record keeper of the plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2014 and 2013, the Supplemental Schedule H-line 4i-Schedule of Assets (Held at End of Year) as of December 31, 2014, and the related investment activity in the statements of changes in net assets available for benefits for the years ended December 31, 2014 and 2013. At December 31, 2014 and 2013, the information certified includes total investments of \$9,912,002 and \$9,117,870, notes receivable from participants of \$104,699 and \$109,276, interest income on the notes receivable from participants totaled \$6,170 and \$2,485, and related investment income of \$427,230 and \$1,488,813, respectively.

NOTE F - PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

NOTE G - RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500:

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

NOTE H - TAX STATUS:

The Internal Revenue Service has determined and informed the Company by a letter dated August 7, 2001, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC and therefore believe that the plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE I - RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE J - INVESTMENTS REPORTED AT CONTRACT VALUE:

The Plan invests in a collective investment fund with Federated Investors Trust Company (Federated) that is fully benefit-responsive. The investments are held in the Federated Capital Fund ("Fund"). The Fund invests in stable value products, including Guaranteed Investment Contracts (GIC's), synthetic GIC's, and money market funds. The Fund seeks to outperform money market funds in a normal yield curve environment and attempts to maintain a stable value unit value of \$10.00. Valuation occurs daily and dividends are declared daily and paid monthly. This investment is reported at contract value in the financial statements, which represents contributions made to the account, plus earnings on the underlying investment, less participant withdrawals and administrative expenses. Recording such investments at contract value rather than fair value, to the extent that they are fully benefit-responsive, is in accordance with the FSP disclosed above. The fair value of the fully benefit-responsive investment contracts are calculated using a discounting method developed by the custodian. The fair value of the Fund at December 31, 2014 and 2013 was \$1,296,333 and \$1,284,913, respectively. For the years ended December 31, 2014 and 2013, the average yield was 1.10% and 1.21%, and the average yield credited to participants in the Plan was 1.14% and 1.46%, respectively. There were no valuation reserves recorded that were associated with the collective investment fund in 2014 and 2013. The crediting interest rate is based upon an agreed-upon formula with the issuer, but cannot be less than zero.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

NOTE J - INVESTMENTS REPORTED AT CONTRACT VALUE (Cont'd):

In certain circumstances, the amount withdrawn from the Fund would be payable at fair value rather than at contract value. These circumstances include, but are not limited to, the following: mergers, mass layoffs, plan terminations, implementation of early retirement incentive programs, or other events within the control of the Fund or the Plan sponsor resulting in a material and adverse financial impact on the issuer's obligations under the GIC. Based on prior experience, the Fund custodian believes that it is not probable that such circumstances would be of sufficient magnitude to limit the ability of the Fund to transact at contract value with Participants.

Participants may redeem units of the Fund for the purpose of funding a bona fide benefit payment, making a Participant loan, honoring an employee-directed transfer of the employee's interest in the Plan to another investment election, or paying record keeper fees. Participants may make withdrawals from the Fund for other purposes only upon twelve months' advance written notice to the Fund custodian. The Fund custodian, in its discretion, may waive the twelve month notice requirement.

The GIC's into which the Fund has entered limit the circumstances under which the issuer may unilaterally terminate the GIC on short notice. These circumstances include, but are not limited to, the following: (1) the Fund loses its qualified status under the Internal Revenue Code or is otherwise terminated, (2) the custodian fails to meet its material obligations under the GIC, attempts to assign the GIC, or engages in fraud or misrepresentation that materially affects the risk profile of the GIC, or (3) if the fixed-income securities underlying the synthetic GIC fail to meet certain criteria as specified in the synthetic GIC. If one of these events were to occur, the issuer could terminate the synthetic GIC at the market value of the underlying fixed-income securities (or in the case of a traditional GIC, at the hypothetical market value based upon a contractual formula).

NOTE K - RELATED PARTY TRANSACTIONS:

Certain Plan investments are managed by CPI Qualified Plan Consultants. CPI is the record keeper as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services amounted to \$2,000 and \$3,014 for the years ended December 31, 2014 and 2013, respectively.

NOTE L - COMPARATIVE STATEMENTS:

The financial statements include certain summarized comparative information from the prior year. Such information should be read together with the Company's financial statement for the year ended December 31, 2013 from which the summarized information was extracted. Certain amounts in the prior year financial statements may have been reclassified for comparison purposes to conform to the current year presentation.

NOTE M - PROHIBITED TRANSACTIONS:

As reported on Form 5500, Schedule H, Line 4a – Schedule of Delinquent Participant Contributions, certain participant contributions were not remitted to the Plan within the time frame specified by the Department of Labor's Regulation 29 CFR 2510.3-102, thus constituting prohibited transactions between the Plan and the Company during the 2014 and 2013 Plan year. Late remittances for 2014 and 2013 amounted to \$-0- and \$53,328, respectively. Delays in remitting contributions to the custodian were due to administrative errors, and the company has or will make contributions to the affected participants' accounts to compensate those participants an aggregate amount for potential lost income due to the delays.
