PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2014 and 2013

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Hamilton Beach Brands, Inc. Pension Plan (the "Plan") provides only general information. Reference should be made to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is sponsored by Hamilton Beach Brands, Inc. (the "Company") and is a defined benefit pension plan subject to provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") (as amended).

The assets of the plan are invested in the NACCO Industries, Inc. Defined Benefit Master Trust (the "Master Trust"). The Company is a wholly-owned subsidiary of NACCO Industries, Inc. (the "Parent Company"). The Master Trust is sponsored by the Parent Company.

The Company established the Plan effective January 1, 2013. The Plan was formed by a spin-off of the net assets and obligations of The Combined Defined Benefit Plan for NACCO Industries, Inc. and Its Subsidiaries Plan (the "Combined Plan") which were attributable to participants and beneficiaries of the Company who were covered under Part II of the Combined Plan. Assets totaling \$29,169,627 and accumulated benefit obligations of \$22,014,736 were transferred from the Combined Plan to the Plan as a result of the spin-off.

The Plan is frozen for purposes of eligibility and benefit accruals, except for interest credits on theoretical cash balances.

Plan Administration: The Company is the Plan sponsor and Plan administrator. Vanguard Fiduciary Trust Company ("Trustee") is the trustee of the Plan and Master Trust. Investment decisions are made by the NACCO Industries, Inc. Retirement Funds Investment Committee.

Vesting: Plan participants are 100% vested in their benefits under the Plan.

Contributions: The Company intends to contribute, at a minimum, amounts necessary to provide the Plan with sufficient assets to meet or exceed the minimum funding requirement under ERISA. No Company contributions were required for the plan years ended December 31, 2014 and 2013 to meet the ERISA minimum funding requirements.

Benefits: Plan benefits are equal to the sum of prior plan benefits plus cash balance pension benefits. Under the cash balance formula, a separate account was established for each participant in the Plan. The interest credited to the cash balance accounts is indexed to the one-year constant maturity yield published by the Federal Reserve as in effect on the last business day of the preceding plan year, subject to a 12% maximum. Various minimum benefits and prior plan benefits also apply. The Plan permits early retirement with reduced benefits at age 55 with 5 or more years of service.

Various pre-retirement and post-retirement death benefits are payable under the Plan. In the event of a participant's death prior to distribution of such benefits, such benefits are distributed, as provided by the Plan, to the participant's beneficiary. In general, benefits are distributed in the form of monthly or lump sum payments.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Allocation of Contributions, Investment Income, and Gains and Losses: The trust assets attributable to each of the plans participating in the Master Trust are maintained by the Trustee. Employer contributions received and benefits paid to participants are tracked by specific plan in the Master Trust. Investment income, gains, and losses of the Master Trust are allocated to the individual plans based on the beginning of the month plan balances.

Expenses: Certain expenses of administering the Plan, principally actuarial fees, accounting fees and some investment management fees, are paid by the Plan. These costs are reflected on the accompanying financial statements. Other administrative expenses, such as legal fees and miscellaneous costs, are paid by the Company and are not reflected in the accompanying financial statements. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income reported by the Plan.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. Therefore, it is reasonably possible that a significant change may occur in the near term for the estimate of the actuarial present value of accumulated plan benefits.

Benefit Payments: Benefits are recorded when paid.

Risk and Uncertainties: The Plan, through the Master Trust, invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. The fair value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and expenses. The underlying investments of the Master Trust are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Fair value is defined as the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

(Continued)

HAMILTON BEACH BRANDS, INC.
PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2014 and 2013

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held as underlying investments of the Master Trust.

Registered Investment Companies and Common Stocks: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present eligible employees or their beneficiaries. Benefits under the Plan are based on the accumulation of the cash balance account as well as frozen prior plan benefits. Benefits payable under all circumstances (retirement, death, full and permanent disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated Plan benefits is determined by actuaries from Towers Watson, the Plan's actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, full and permanent disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The more significant actuarial assumptions used by the Plan's actuaries to arrive at the valuation of the Plan's accumulated plan benefit obligation as of December 31, 2013 are as follows:

Assumed rate of return	7.75%
Mortality basis	RP/MP 2014
Retirement age	Rates vary by age, ranging from 3% (age 55) to 100% (age 70+)
Cash balance crediting rate	2.50%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The \$1,032,704 increase in the present value of accumulated plan benefits in 2013 that is due to the change in actuarial assumptions was attributable to the change in the mortality basis from the IRS prescribed mortality table to the Gender-distinct RP2014 table with no collar or quartile adjustments, projected generationally using Scale MP2014; the change in the cash balance crediting rate from 3.25% to 2.5%; and an increase in the retirement age assumption to 100% at age 70 rather than age 65+. The \$1,810,865 increase in the present value of accumulated plan benefits in 2013 due to plan amendments is attributed to the Plan allowing participants to receive their entire prior plan benefit as a lump sum effective January 1, 2014.

NOTE 4 - INVESTMENTS (UNAUDITED INFORMATION)

Vanguard Fiduciary Trust Company, the Trustee of the Plan, holds investment assets and executes transactions therein, and substantially all information pertaining to the Plan's investments included in the financial statements has been certified by them. This information has not been audited by independent accountants.

The following table presents the fair value of investments. Investments that represent 5% or more of the Plan's net assets are separately identified.

	<u>2014</u>	<u>2013</u>
Investments at estimated fair value:		
Interest in investments of the Master Trust	\$ 30,627,690	\$ 31,032,086

During 2014 and 2013, the Plan's net investment gain in the Master Trust (including gains and losses on investments bought and sold, as well as held during the year and interest and dividend income) was \$2,383,998 and \$5,195,694, respectively.

NOTE 5 - MASTER TRUST – (UNAUDITED)

The investments of the Plan, along with assets of certain other defined benefit plans sponsored by the Parent Company and its subsidiaries are held in the Master Trust. Each participating Plan has an undivided interest in the Master Trust.

NOTE 6 - INCOME TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated May 13, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related trust is exempt from taxation. Subsequent to the determination application, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

NOTE 6 - INCOME TAX STATUS (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The Plan is subject to federal income tax examinations for all periods subsequent to its inception.

NOTE 7 - PLAN TERMINATION

The Company has the right to terminate the Plan at any time within the constraints of ERISA and its related regulations. In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed in the Plan document and by ERISA and its related regulations. Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. However, benefit improvements attributable to plan amendments may not be fully guaranteed by the PBGC. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

NOTE 8 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. Certain investments of the Master Trust are shares of registered investment companies managed by Vanguard Group, Inc. Vanguard Fiduciary Trust Company is a wholly-owned subsidiary of the Vanguard Group, Inc. Vanguard Fiduciary Trust Company is the Trustee, as defined by the Plan, therefore, these investments and investment transactions qualify as party-in-interest transactions. Amounts paid by the Plan to parties-in-interest included fees for investment management, actuarial, audit and trustee services. However, these investments and transactions are not considered prohibited transactions.

NOTE 9 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through September 28, 2015, which is the date the financial statements were available to be issued.

Data sources

Towers Watson used asset data supplied by the trustee. NACCO furnished participant data as of the valuation date. NACCO also provided the dates and amounts of the plan year 2013 contributions paid in 2014. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the company, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Summary of plan provisions

Plan Provisions

The most recent amendment reflected in the following plan provisions was adopted September 3, 2013 and effective January 1, 2014.

Covered Employees	All regular, full-time employees on the U.S. payroll hired prior to January 1, 1997.
Participation Date	The January 1 coinciding with or next following the date of becoming a covered employee.

Definitions

Participant	An employee eligible to participate in the plan or a former employee receiving or eligible to receive a benefit under the plan.
Vesting service	One year for each 12-month period of employment.
Pensionable pay	Base pay, bonuses, overtime, shift differentials, commissions, vacation and holiday pay and pre-tax contributions for other benefits.
Normal retirement date (NRD)	First of month coinciding with or next following the attainment of age 65.
Frozen accrued benefit	Benefit accrued under plan provisions prior to the December 31, 1991, merger and plan change.
Account balance	The account balance consists of automatic retirement contributions and profit sharing retirement contributions accumulated with interest until December 31, 1996, when the plan was frozen. The automatic retirement contribution percentage was age-based according to the following table:

<i>Age</i>	<i>Percentage of Compensation</i>	<i>Percentage of Compensation Exceeding Social Security Wage Base</i>
34 & under	2.00%	2.00%
35-39	2.33	2.33
40-44	2.83	2.83
45-49	3.50	3.50
50-54	4.33	4.33
55-59	5.33	5.33
60 & over	6.33	5.70

The profit sharing retirement contribution percentage is age-based and will vary from year to year.

Interest will be credited for each plan year up to the benefit commencement date. The interest credited will be based on the one-year U.S. Treasury Bill “ask yield” rate as of the last business day of the prior plan year plus 1%, subject to a maximum of 12%.

Monthly pension benefit

The account balance converted to an annuity plus the frozen accrued benefit.

Monthly preretirement death benefit

The actuarial equivalence of the account balance at participant’s death plus the frozen accrued benefit determined as if the participant quit work on the earlier of his or her date of death or date of determination and elected a 50% joint and survivor option.

Eligibility for Benefits

Normal retirement

Retirement on NRD.

Early retirement

Retirement before NRD and on or after both attaining age 55 and completing five years of vesting service.

Postponed retirement

Retirement after NRD.

Vested termination

Termination for reasons other than death or retirement after completing five years of Vesting Service.

Preretirement death benefit

For the frozen accrued benefit, death while eligible for normal, early, postponed or deferred vested retirement benefits, with a surviving spouse. The account balance is payable at death under any circumstance to the beneficiary.

Benefits Paid Upon the Following Events

Normal retirement

Monthly pension benefit determined as of NRD.

Early retirement

Monthly pension benefit determined as of early retirement date with the frozen accrued benefit reduced for early retirement.

Postponed retirement

Monthly pension benefit determined as of actual retirement date.

Vested termination

Monthly pension benefit determined as of termination date, payable at NRD or as early as age 55 if participant has at least five years of service.

Preretirement death

Monthly preretirement spouse benefit is payable.

Other Plan Provisions

Forms of payment	The normal form of retirement benefits provides for a life annuity for unmarried participants and, on an actuarially reduced basis, a 50% joint and survivor for married participants. Optional forms are a 75% or 100% joint and survivor annuity, ten-year certain and life annuity, lump sum or (for married participants) a life annuity.
Conversion factors for optional forms of payment	For the cash balance portion, the applicable interest rate(s) and mortality table. For the prior plan benefit, 7.50% or, with respect to benefits accrued prior to October 1, 1993, 6.00% (whichever produced the greater benefit) and the 1971 Group Annuity Mortality Table for males set back six years for beneficiaries.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the IRC. The plan provides for increasing the dollar limits automatically as such changes become effective.
Plan status for PBGC reporting purposes	Benefits frozen (interest credits on cash balance amounts only).

Future Plan Changes

No future plan changes were recognized in determining minimum required and maximum tax-deductible contributions. Towers Watson is not aware of any future plan changes that are required to be reflected.

Changes in Benefits Valued Since Prior Year

Effective January 1, 2014, a participant may elect to receive his prior plan benefit as a lump sum.

Significant Events

To the best of our knowledge, no significant events took place during the year.

2014 Form 5500

Schedule SB, Line 24 – Change in Actuarial Assumptions

The cash balance interest crediting rate was changed from 3.25% for plan year 2013 to 2.50% for plan year 2014 to better reflect anticipated experience under the plan.

Expected retirement rates were updated to better reflect anticipated experience of the plan, based on an experience study conducted in 2013.

The assumed form of payment for frozen prior plan benefits changed from 100% single life annuity to 100% lump sums as a result of the amendment introducing a permanent lump sum optional form of payment for these benefits.
