NOTE 1 - DESCRIPTION OF PLAN

The following description of Metal Powder Products 401(k) Plan (the "Plan"), provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan that covers employees of Metal Powder Products and its participating subsidiaries ("the Company"), upon completion of three consecutive months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan was established as of January 1, 2014 when the assets within the Revere Industries, LLC 401(k) Plan that were associated with participating Metal Powder Products employees, were spun off and transferred into the Plan. The transfer of $8,431,538 in net assets was completed on January 1, 2014.

Contributions: Each year, participants may elect to contribute up to 50% of their compensation per payroll period, as defined in the Plan. Participants over age 50 are eligible to make catch-up contributions. The Company makes a qualified matching contribution up to 3% of the participant's annual compensation, plus 50% of each participant's deferrals in excess of 3%, but not in excess of 5% of the participant's compensation. In addition, the Company may, at its discretion, make profit sharing contributions to the Plan. There were no discretionary contributions made in 2014.

Participant Accounts: Each participant's account is credited with the participant's contributions, the Company's matching contributions, an allocation of the Company's profit sharing contributions, and Plan earnings and is charged with his or her withdrawals and an allocation of administrative expenses. Allocations are based on participant contributions, participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investment of his or her account to any of the investment options available under the Plan.

Vesting: Participants are immediately vested in their own contributions plus earnings thereon. Employees are 100% vested in the Company's qualified matching contributions. Vesting in the Company's profit sharing contribution portion of participant accounts plus actual earnings thereon is based upon years of continuous service and begins after two years of service. A participant is 100% vested over five years graded period of credited service.

Retirement, Death and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death or disability.

Forfeitures: Forfeitures of Company contributions are used to offset future employer contributions. During the Plan year ended December 31, 2014, forfeitures of $1,762 were used to offset employer matching contributions. At December 31, 2014, there were no forfeitures available to reduce future employer contributions.

Notes Receivable from Participants: A participant may borrow up to the lesser of $50,000 or 50% of his or her vested account balance. The loan will bear interest at a rate commensurate with market rates for similar loans. All loans are covered by demand notes and are repayable through payroll withholding or periodic payments.

(Continued)

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Payment of Benefits: Upon termination of service, a participant is eligible to receive an amount equal to the value of the participant's vested interest in his or her account. Benefit amounts under $1,000 are automatically distributed to participants. Participants (or their beneficiaries upon the death of the participant) may elect to receive their vested account balances as a single lump sum of the entire account balance or a portion of the account balance. In certain circumstances, participants may make “hardship withdrawals” as defined in the Plan. Active participants may also take distributions from the Plan upon attainment of age 59½.

Plan Termination: Although it has not expressed any intent to do so, the Company has the right under the plan agreement to discontinue contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of plan termination, participants would become 100% vested in their accounts.

Administration of the Plan: Custodians are appointed by the plan sponsor to administer the Plan. Certain administrative expenses of the Plan are paid by the Company. Investment management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation: The accompanying financial statements are prepared on the accrual basis of accounting.

Adoption of New Accounting Standards: In July 2015, the Financial Accounting Standards Board (FASB) amended existing guidance related to the measurement, reporting and disclosure of fully benefit-responsive investment contracts (FBRICs), and they amended various other disclosure requirements applicable to investments held by defined contribution pension plans. The new guidance requires FBRICs to be measured, presented, and disclosed only at contract value. The new guidance also eliminates or simplifies various disclosure requirements applicable to plan investments including the reporting of investments within the fair value hierarchy by general type rather than by classes of investments. The Plan elected to early adopt these standards.

Investment Valuation and Income Recognition: The Plan’s investments, other than fully benefit responsive investment contracts, are reported at fair value. Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan’s principal or most advantageous market for the asset or liability. Contract value is the relevant measure of the Plan's fully benefit-responsive investment contracts, because contract value is the amount Plan participants generally receive when executing transactions under the terms of the contract and Plan provisions.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan’s gains and losses on investments bought and sold as well as held during the year.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held by the Plan.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	Fair Value Measurements at December 31, 2014 Using		
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 8,608,496	$ -	$ -
Total Investment at Fair Value	$ 8,608,496	$ -	$ -

Payment of Benefits: Benefits are recorded when paid.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Risks and Uncertainties: The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 3 - CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS – UNAUDITED INFORMATION

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income (loss) and interest earned on notes receivable from participants, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Great-West Trust Company, LLC and Great-West Life and Annuity Insurance Company ("Great West Life"). This information has not been audited by independent accountants.

NOTE 4 - **FULLY BENEFIT-RESPONSIVE TRADITIONAL INVESTMENT CONTRACT**

The Plan holds a fully benefit-responsive traditional investment contract that is reported at contract value, which is generally the amount a participant would receive if he or she would initiate a withdrawal or transfer from the contract under the provisions of the Plan. Contract value represents contributions made to the contract, plus earnings, less participant withdrawals and administrative expenses. The contract value of the Plan's fully benefit-responsive investment contract (traditional guaranteed investment contract) was $589,897 as December 31, 2014.

The Plan holds the fully benefit-responsive investment contract with Great West Life. Great West Life maintains the contributions in its general account. Great-West Life's general account is credited with earnings on the underlying investments and is charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. There are no reserves against contract value for credit risk of the Issuer or otherwise. Benefit payments from the contract is paid as an annuity or a lump sum, as defined in the contract and as elected by the participant upon meeting the eligibility requirements.

The Plan's investment contract specifies certain conditions under which distributions from the contract would be payable at amounts below contract value. Such circumstances include Plan termination, Plan merger, premature contract termination initiated by the Company, and certain other Company-initiated events that result in distributions exceeding a set amount. The contract limits the circumstances under which the Issuer may terminate the contract. Examples of circumstances which would allow the Issuer to

(Continued)

NOTE 4 - INVESTMENT CONTRACT WITH INSURANCE COMPANY (Continued)

terminate the contract include the Plan's loss of its qualified status, uncured material breaches of responsibilities, or material and adverse changes to the provisions of the Plan. If one of these events were to occur, the Issuer could terminate the contract at an amount less than contract value. Currently, management believes that the occurrence of an event that would cause the Plan to transact distributions at less than contract value is not probable.

NOTE 5 - TAX STATUS

The Internal Revenue Service issued an opinion letter dated March 31, 2008 indicating that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has been amended from the original prototype document, Plan management believes that the Plan is currently being operated in accordance with the Internal Revenue Code

Accounting principles generally accepted in the United States of America, require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the Company and certain others. The Plan holds a traditional investment contract issued by Great West Life; therefore, these transactions and the Plan's payment of fees to Great West Life qualify as party-in-interest transactions The Plan holds party-in-interest transactions in the form of notes receivable from participants at December 31, 2014 of $105,288.

NOTE 7 - SUBSEQUENT EVENT

Plan management has evaluated subsequent events for recognition and disclosure through October 12, 2015, the date these financial statements were available to be issued.
