PREFERRED WIRELESS 401(k) PLAN

Notes to Financial Statements

December 31, 2014 and 2013

Plan Description

The following description of the Preferred Wireless (the Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a profit sharing 401(k) savings plan subject to and amended by the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was formed for the purpose of providing retirement benefits to employees of Preferred Wireless.

Employees of the Company are eligible to participate in the Plan the beginning of the month following their hire date.

The Company pays the majority of administrative expenses and professional fees related to the Plan.

Contributions

Participants may contribute up to 100% of pretax annual compensation as defined in the Plan agreement. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Company makes safe harbor matching contributions equal to 100% of the first 3% of compensation, and 50% of contributions up to 5%, that a participant contributes to the Plan. The Company may also make additional contributions to the Plan at the option of the Board of Trustees.

Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) employer contributions and (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants are permitted to allocate contributions between the available investment funds. Each fund provides different investment objectives and degrees of risk. Income from the funds is allocated based on participant account balances adjusted for contributions, distributions and fund transfers in the current year.

PREFERRED WIRELESS 401(k) PLAN

Notes to Financial Statements

December 31, 2014 and 2013

Plan Description (continued)

Vesting

Participants are immediately vested in their elective contributions and safe harbor employer contributions, plus actual earnings thereon. Employer profit sharing and other matching contributions are subject to the below vesting schedule.

Years of Service	Vesting Percentage
Less than 3	0%
3 or more	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000, or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions. At December 31, 2014 and 2013, there were no outstanding notes receivable balances.

Payment of Benefits

Upon termination of service due to death, disability, retirement or other reasons, a participant's vested account balance may be distributed as a lump sum amount.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the plan administrator to make estimates and assumptions that affect certain reported assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

PREFERRED WIRELESS 401(k) PLAN

Notes to Financial Statements

December 31, 2014 and 2013

Summary of Significant Accounting Policies

Investment Valuation and Income Recognition (continued)

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recognized on the ex-dividend date, and interest is recognized on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. At December 31, 2014 and 2013, there were no outstanding notes receivable balances.

Payment of Benefits

Benefits are recognized when paid.

Fair Value Measurements

GAAP established a fair value hierarchy that prioritizes the inputs to measure the fair value of the assets or liabilities being measured. Fair value is defined as the exchange value that would be received on the measurement date to sell an asset or to value the amount paid to transfer a liability in the principal or most advantageous market available to the entity in an orderly transaction between market participants. The three levels of the fair value hierarchy are as follows:

Level 1	Inputs are unadjusted quoted market prices in active markets for identical assets or liabilities that the entity has the ability to access at the measurement date. Level 1 inputs provide the most reliable measure of fair value as of the measurement date.
Level 2	Inputs are based on significant observable inputs, including unadjusted quoted market prices for similar assets and liabilities in active markets, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability.
Level 3	Level 3 are significant unobservable inputs for the asset or liability.

PREFERRED WIRELESS 401(k) PLAN

Notes to Financial Statements

December 31, 2014 and 2013

Fair Value Measurements (continued)

The level of the fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled Separate

Accounts: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31.

Assets at Fair Value as of December 31, 2014:

	Level 1	Level 2	Level 3	Total
<i>Pooled Separate Accounts:</i>				
Target Date Funds	\$ -	\$ 449,941	\$ -	\$ 449,941

The custodian also certified to the completeness and accuracy of the \$12,288 of net appreciation for the year ended December 31, 2014.

Transactions with Parties-in-Interest

American National Insurance Company is the custodian of the Plan, and therefore, these transactions qualify as party-in-interest. Administrative fees paid to American National Insurance Company totaled \$725 and \$650 during 2014 and 2013, respectively.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Tax Status

The Plan has applied for, but has not received, a determination letter from the Internal Revenue Service (IRS) stating the Plan is qualified under Internal Revenue Code (IRC) Section 401(a). However, the plan administrator believes that the Plan is qualified, and therefore, the related trust is exempt from taxation.

December 31, 2014 and 2013

Tax Status (continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the 2014 statement of net assets available for benefits.

Subsequent Events – Date of Management's Evaluation

The Plan has evaluated subsequent events through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.
