NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Savings and Retirement Plan for First Citizens Banc Corp and Affiliates (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a self-directed, defined contribution salary deferral 401(k) plan in which employees of First Citizens Banc Corp and Affiliates (the "Company") will become eligible to participate on the first day of employment. The Plan includes a 401(k) before-tax savings feature, which permits participants to defer compensation under Section 401(k) of the Internal Revenue Code. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Compensation Committee is responsible for oversight of the Plan, which determines the Plan's valuation policies utilizing information provided by investment advisors, custodians, and insurance company.

Contributions: Plan participants may contribute a portion of their annual eligible compensation to the Plan. The Plan allows participants to contribute a percentage of their wages up to the maximum allowed by law and allows participants who have attained age 50 by the end of the year to make catch-up contributions in accordance with Code Section 414(v). Participants may also make rollover contributions, which represent distributions from other qualified plans. The Company may make discretionary matching contributions to the Plan as defined in the Plan document. For the year ended December 31, 2014, the Company elected to contribute a matching contribution of 25 percent of the first 6 percent that the participant contributes to the Plan for the period of January 1 through June 30. Effective July 1 though the end of the year, the Company elected to make a matching contribution of 100 percent of the first 3 percent, and 50 percent of the next 2 percent, that the participant contributes to the Plan. Contributions are subject to certain limitations.

Participant Accounts: Each participant's account is credited with the participant's own contribution, an allocation of the Company's discretionary matching contribution, and an allocation of the investment earnings or loss for the funds in which the participant chooses to invest. Allocations are based on participant earnings, deferrals, and account balances as defined by the Plan. Participants may change their investment allocation at any time. The benefit to which a participant is entitled is the benefit that can be provided from the balance of the participant's vested account. Certain plan expenses may be paid by the employer; however, absent payment by the employer, the expenses are allocated every quarter to participants' accounts existing on the allocation date in the same proportion that the balance of the participant account bears to the sum of all accounts.

Retirement, Death, or Disability: A participant is entitled to 100 percent of his or her account balance upon retirement, death, or disability.

Vesting: Participants are immediately 100 percent vested in their compensation deferral contributions, rollover contributions, and any investment earnings or loss on such contributions. The contributions made by the Company to the Plan on behalf of the participants are fully vested after completion of three years of credited service. Participants with less than three years of credited services are not vested in the Company's contribution to the Plan.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Forfeitures: Forfeitures of employer matching contributions are used to offset future employer matching contributions or administrative expenses of the Plan. As of December 31, 2014 and 2013, forfeitures available to reduce future employer contributions totaled $9,704 and $4,946, respectively. During the year ended December 31, 2014, there were no forfeitures used to reduce the employer contribution.

Notes Receivable from Participants: Participants may borrow from their vested account amounts ranging from a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan transactions are treated as a transfer between the participant's investment funds and the participant's loan fund. Loan terms generally range from 1 to 5 years or up to 30 years for the purchase of a primary residence. The loans are secured by the balance in the participant's vested account and bear interest at a rate equal to the prime rate plus 1 percent. Principal and interest are paid ratably through biweekly payroll deductions.

Benefits and Withdrawals: Distributions of a participant's interest will be made upon death, permanent disability, retirement, or termination. A participant may receive his or her distribution in the form of a lump sum. A participant may also request a distribution from the participant's vested account to meet an immediate financial hardship pursuant to guidelines by the Internal Revenue Code.

Investments: Participants may direct the investment of assets in their individual accounts into various investment funds which have been approved by the Compensation Committee. Such assets are invested in mutual funds or common/collective funds offered by Hand Benefits & Trust Company (the "Trustee").

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The policies and principles that significantly affect the determination of net assets and changes in net assets are summarized below.

Basis of Presentation: The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition: The Plan's investments in mutual funds are stated at fair value based on the net asset value ("NAV") of shares held by the Plan at year-end. Net realized gains or losses on investment transactions represent the difference between proceeds received and cost.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan invests in the Federated Capital Preservation Fund, which invests in fully benefit-responsive investment contracts. These investment contracts are recorded at fair value; however, since these contracts are fully benefit-responsive, an adjustment is reflected in the Statement of Net Assets Available for Benefits to present these investments at contract value. Certain events could limit the ability of the Plan to transact at contract value with the issuers of the contracts held by the Federated Capital Preservation Fund. These events include, but are not limited to, layoffs, bankruptcy, plant closings, Plan termination, mergers, and early retirement incentives. These events may cause liquidation of all or a portion of a contract at a market value adjustment. As of December 31, 2014, the occurrence of any of these events, which could limit the Plan's ability to transact at contract value with participants, is not considered probable.

For the Federated Capital Preservation Fund, participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment daily at contract value without any redemption notice or restrictions. Plan-level initiated transactions require a 12-month redemption notice in order to withdraw at full book value. Plan-level initiated transactions with less than a 12-month redemption notice may incur an adjustment to book value.

The average yield for the Federated Capital Preservation Fund based on actual earnings for the year ended December 31, 2014, was 0.95 percent. This represents the annualized earnings of all investments in the Federated Capital Preservation Fund divided by the average balance of all investments, at fair value, in the Federated Capital Preservation Fund for the year ended December 31, 2014.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. Interest income is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess Contributions Payable: Amounts payable to participants for contributions in excess of amounts allowed by the IRS is recorded as a liability with a corresponding reduction to contributions. There were no contributions payable as of December 31, 2014 or 2013.

(Continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Expenses: Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from these estimates.

Risks and Uncertainties: The Plan provides for certain investment options in a combination of mutual funds or common/collective investment funds. The underlying investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statement of Net Assets Available for Benefits and participants' individual account balances.

Payment of Benefits: Benefits are recorded when paid.

NOTE 3 - INCOME TAX STATUS

The Plan adopted a Non-Standardized Prototype Plan Document. The Internal Revenue Service has informed the Non-Standardized Prototype Plan Document sponsor, by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has not received a determination letter specific to the Plan itself; however, the Plan Administrator and the Plan's tax counsel believe that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

The Plan Administrator has obtained certifications from the Trustee that information provided to the Plan Administrator by the Trustee related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor ("DOL")'s Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information, which appears throughout the financial statements and supplemental schedule, related to the following investments:

NOTE 5 - PLAN TERMINATION

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their employer contributions and earnings thereon.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under the DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Participant loans held by the Plan reflect party-in-interest transactions. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Certain fees related to the operation of the Plan are paid on the Plan's behalf by the Company and amounted to $8,500.

NOTE 7 - FAIR VALUE MEASUREMENTS

The following disclosures show the hierarchal disclosure framework associated with the level of pricing observations utilized in measuring assets and liabilities at fair value. The three broad levels defined by U.S. generally accepted accounting principles are as follows:

Level I: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level II: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level II input must be observable for substantially the full term of the asset or liability.

(Continued)

NOTE 7 - FAIR VALUE MEASUREMENTS (Continued)

Level III: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds
Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective funds
Valued at the NAV of shares held by the Plan at year-end adjusted for any cash held for liquidity purposes and any fees imposed by the fund. The net asset value per unit is determined by dividing the net assets by the number of units outstanding on the day of valuation. In accordance with the terms of the Plan of Trust, the net asset value of the fund is determined daily. Units are issued and redeemed daily, at the daily net asset value. Also, the net investment income and realized and unrealized gains on investments are not distributed. The fair value of the Federated Capital Preservation Fund, which primarily holds investments in fully benefit-responsive contracts, is calculated by the issuer using a discounted cash flow model, which considers: (i) recent fee bids as determined by recognized dealers; (ii) discount rate; and (iii) the duration of the underlying portfolio securities. This investment attempts to stabilize (NAV of its shares at $10.00) by valuing its portfolio securities using the amortized cost method. A market-based NAV per share is calculated on a periodic basis. The issuer does not guarantee that the NAV will always remain the $10.00 per share. The fair value of the Plan's investment in the Federated Capital Preservation Fund is based on its proportionate ownership of the underlying investments. There are no imposed restrictions as to the redemption of these investments. However, Plan-level initiated transactions require a 12-month redemption notice in order to withdraw at full book rate.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 8 - FAIR VALUE OF FINANCIAL INSTRUMENTS

The Plan discloses the fair value of its financial instruments. Financial instruments are defined as cash, evidence of ownership interest in an entity, or a contract which creates an obligation or right to receive or deliver cash or another financial instrument from/to a second entity on potentially favorable or unfavorable terms. Fair value is defined as the amount at which a financial instrument could be exchanged in a current transaction between willing parties other than in a forced liquidation or sale. If a quoted market price is available for a financial instrument, the fair value would be calculated based upon the market price per trading unit of the instrument.

Investments in mutual funds, notes receivable from participants, contributions receivable from employer and participants, and common/collective funds would be considered financial instruments. At December 31, 2014 and 2013, the carrying amounts of these financial instruments approximate fair value.

NOTE 9 - SUBSEQUENT EVENTS

The Plan assessed events occurring through October 9, 2015, the date the financial statements were issued. Effective January 1, 2015, the Plan amended its vesting requirements for Company matching contributions. From that date forward, participants will immediately vest in any Company matching contributions. All discretionary contributions and Company matching contributions made prior to January 1, 2015, will continue to vest under the existing vesting schedule, in which Company contributions made to the Plan on are fully vested upon completion of three years of credited service. No additional subsequent events occurred requiring accrual or disclosure.
