Note 1 – Plan Description

The following description of the Ivy Rehabilitation Network Inc. 401(k) Profit Sharing Plan & Trust (the “Plan”) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan’s provisions.

General: The Plan is a defined contribution plan covering all employees of Ivy Rehabilitation Network Inc. (the “Company”) who have completed three months of service and are twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions: Each year, participants may contribute a percentage of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants. The Company may decide to make a matching contribution to the Plan, although the Company is not required to make this contribution. A participant must make elective deferrals to the Plan to receive this matching contribution. The percentage of elective deferrals to be matched will be determined by the Company and allocated to participants at the end of the Plan year. The Company may decide to make a nonelective contribution to the Plan, although the Company is not required to do so. The nonelective contribution will be allocated to all employees eligible to participate in the Plan. Contributions are subject to certain limitations.

Participant Accounts: Each participant’s account is credited with the participant’s contributions and Company matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company’s portion of their accounts is based on years of continuous service, as follows:

<u>Years of Service</u>	<u>Vesting %</u>

At least 2 years, but less than 3	20%
At least 3 years, but less than 4	40%
At least 4 years, but less than 5	60%
At least 5 years, but less than 6	80%
6 years or more	100%

Notes Receivable From Participants: Participants may borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The terms of the loans range from one to five years. However, if the loan is used to acquire a primary residence, the payment term may be no more than 30 years. The loans are secured by the balance in the participant's account and bear interest at the Prime rate plus 2%. Principal and interest are paid through payroll deductions.

Payment of Benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum equal to the value of the participant's vested interest in his or her account. The Plan also permits installment distributions. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Note 2 – Summary of Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 – Summary of Accounting Policies (continued)

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment adviser and custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits: Benefits are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013:

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Note 4 - Fair Value Measurements (continued)

The categorization of an investment within the fair value hierarchy is based upon the pricing transparency of the investment and does not necessarily correspond to Plan management's perceived risk of that investment.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. While Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

<i>Assets at Fair Value as of December 31, 2014</i>

Note 5 – Related-Party Transactions and Party In Interest Transactions

Management believes that fees paid during the year for administrative and managerial services rendered by Reliance Trust Company, the trustee as defined by the Plan, and ADP Retirement Services, the recordkeeper as defined by the Plan, were based on customary and reasonable rates for such services. These transactions qualify as exempt party-in-interest transactions. Notes receivable from participants are also considered exempt party-in-interest transactions.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in the company contribution portion of their account.

Note 7 – Tax Status

The Plan uses a prototype plan document sponsored by ADP, Inc. ADP, Inc. obtained an opinion letter on March 31, 2008, in which the IRS stated that the prototype adopted by the Plan, as then designed, qualifies under Internal Revenue Code (“IRC”) Section 401(a).

The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator and the Plan’s tax counsel believe that the Plan was designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants’ account balances and the amounts reported in the statement of net assets available for benefits.

Note 9 – Plan Assets Transferred Out

On January 6, 2014, the Plan transferred \$1,102,395 of its net assets to the IVYREHAB Physical Therapy PLLC 401(k) Profit Sharing Plan and Trust. The transferred net assets have been recognized in the accounts of the IVYREHAB Physical Therapy PLLC 401(k) Profit Sharing Plan and Trust as of January 6, 2014 at their balances previously carried in the accounts of the Plan. A summary of the transferred net assets follows:
