Report on the Financial Statements

We have audited the accompanying financial statements of the Riesbeck Employees Profit Sharing Plan and Trust (Also an Employee Stock Ownership Plan), which comprise the statements of net assets available for plan benefits - modified cash basis as of December 31, 2014 and 2013, and the related statements of changes in net assets available for plan benefits - modified cash basis for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits - modified cash basis of the Riesbeck Employees Profit Sharing Plan and Trust (Also an Employee Stock Ownership Plan) as of December 31, 2014 and 2013, and the changes in its net assets available for plan benefits - modified cash basis for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis of Accounting

We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements and supplemental schedule are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) - modified cash basis as of December 31, 2014, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Riesbeck Employees Profit Sharing Plan and Trust (Also an Employee Stock Ownership Plan)

Notes to the Financial Statements

1. Plan Description

The following description of the Riesbeck Employees Profit Sharing Plan and Trust (Also an Employee Stock Ownership Plan) (the Plan) provides only general information. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

General

On January 28, 1986, Riesbeck Food Markets, Inc. (the Company) adopted the Plan effective January 1, 1986 for eligible employees. The Plan qualifies as a leveraged employee stock ownership plan (ESOP), but the leverage feature of the Plan is not in effect. The Plan, as amended, is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) of 1986, as amended and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan was last amended in October 2012. The Plan is administered by a Committee appointed by the Board of Directors of the Company. The Committee includes trustees selected by the Board of Directors to receive, hold and distribute plan assets.

Contributions

Employer contributions to the Plan are at the discretion of the Company's Board of Directors. Participants are not required or permitted to make contributions to the Plan. Contributions may be invested in common stock of the Company or in other qualified investments.

Effective January 1, 2012, the Company, with the consent of its stockholders, elected under the IRC to be an S Corporation for federal and state tax purposes. In 2014, in addition to dividends of \$152,229, the Company made discretionary contributions of \$295,558. The Company paid dividends of \$594,701 and made discretionary contributions of \$740,000 to the Plan in 2013.

Eligibility

Employees of the Company are generally eligible to participate in the Plan at the age of twenty-one, providing they have completed one year of service in which they have worked at least 1,000 hours. Eligible employees become participants in the Plan as of January 1 of the plan year in which both requirements are met. Participants who do not have 1,000 hours of service during a plan year or are not employed on the last working day of the plan year are generally not eligible for plan allocations for that year.

Payment of Benefits

No distributions from the Plan are made prior to a participant's death, normal retirement date, or without his or her prior written consent. Upon the death of a participant, his or her capital accumulation will be distributed to a named beneficiary or, if none, their legal representative. A participant who is at least age 59½, and who is fully vested in their capital accumulation may elect to make an in-service withdrawal of all or a portion of such capital accumulation. A participant may make only one such withdrawal in any single calendar year. Distributions are to be made in cash or, if the participant elects, in the form of Company common shares plus cash for any fractional share.

(Also an Employee Stock Ownership Plan)

Notes to the Financial Statements (Continued)

1. Plan Description (Continued)

Voting Rights

Each participant is entitled to instruct the trustees as to the manner in which shares of Company stock allocated to their account shall be voted in respect to corporate transactions specified in the Plan's provisions or similar to those prescribed by Treasury Regulation under Section 409(e) of the IRC. In all other circumstances, and where no voting instructions are received, all shares of Company stock shall be voted at the discretion of the trustees.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to plan provisions. Upon termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the plan terms and the IRC.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock, employer contributions, forfeitures and net income (loss) of the Plan, as determined by the provisions of the Plan. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation.

Vesting

Upon termination of employment, a participant has a vested interest in their account balance based on their years of vested service. Vested service consists of each plan year in which 1,000 hours of service were completed, with credit given to service starting at age 18. Participants' accounts vest according to the terms of the Plan with full vesting occurring after three years of vested service. Participants who have ended employment due to death, permanent disability, or retirement after their normal retirement date also have a fully vested interest in their account.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair value of the stock. The purpose of the put option is to ensure that participants have the ability to ultimately obtain cash.

Notes to the Financial Statements (Continued)

1. Plan Description (Continued)

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period.

Forfeitures

Non-vested account balances of terminated participants are forfeited and re-allocated to the accounts of remaining participants according to the Plan's provisions. There were no forfeitures of terminated non-vested account balances allocated to remaining participants during the years ended December 31, 2014 and 2013.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are maintained on the modified cash basis of accounting. Accordingly, the financial statements are not intended to present the net assets and changes in net assets of the Plan in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment Valuation, Income Recognition and Risks

Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at a measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers the assumptions that market participants would use when pricing the asset or liability.

The three levels of inputs that may be used to measure fair value are as follows:

- Level 1 - Observable inputs such as quoted prices in active markets for identical investments that the Plan has the ability to access.

Riesbeck Employees Profit Sharing Plan and Trust (Also an Employee Stock Ownership Plan)

Notes to the Financial Statements (Continued)

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation, Income Recognition and Risks (Continued)

- Level 2 - Inputs include:
 - a. Quoted prices for similar assets or liabilities in active markets;
 - b. Quoted prices for identical or similar assets or liabilities in inactive markets;
 - c. Inputs, other than quoted prices in active markets, that are observable either directly or indirectly;
 - d. Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.
- Level 3 - Unobservable inputs in which there is little or no market activity for the asset or liability, which require the reporting entity to develop its own estimates and assumptions relating to the pricing of the asset or liability including assumptions regarding risk.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

The common shares of the Company are valued at estimated fair value on December 31, 2014 and 2013 (Level 3 within the fair value hierarchy). Fair value is determined annually through independent appraisal. The appraisal is based on a combination of the market and income valuation methods consistent with prior years. The appraiser considered historical and projected cash flow and income, return on assets, return on equity, market comparables and estimated fair value of the Company's assets and liabilities.

The valuation process involves management's selection of an independent appraiser who is engaged annually. Plan management accumulates the data for the appraiser using the audited financial statements of the Company along with projected financial results which consider market growth and other factors. The appraiser prepares a preliminary report which plan management, along with the ESOP Trustees, reviews in detail, discusses and approves. The results of this process are documented in the minutes of the ESOP Trustees.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Riesbeck Employees Profit Sharing Plan and Trust
(Also an Employee Stock Ownership Plan)

Notes to the Financial Statements (Continued)

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation, Income Recognition and Risks (Continued)

The Plan's investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with these investments and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in the near term could materially affect the amounts reported in the statements of net assets available for plan benefits and the statements of changes in net assets available for plan benefits.

Administrative Expenses

Administrative expenses are paid by the Company or the Plan, as provided in the plan document.

Benefit Payments

Benefits are recorded when paid.

Recent Accounting Pronouncements

In July 2015, the Financial Accounting Standards Board (FASB) issued updated guidance on investment valuation and presentation. This three-part update simplifies current benefit plan accounting and requires (i) fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value and, accordingly, removes the requirement to reconcile their contract value to fair value; (ii) benefit plans to disaggregate their investments measured using fair value by general type, either on the face of the financial statements or in the notes to the financial statements; (iii) the net appreciation or depreciation in investments for the period to be presented in the aggregate rather than by general type, and removes certain disclosure requirements relevant to individual investments that represent five percent or more of net assets available for benefits. Further, the amendments in this update eliminate the requirement to disclose the investment strategy for certain investments that are measured using Net Asset Value (NAV) per share. These amendments are effective retrospectively for fiscal years beginning after December 15, 2015 and early adoption is permitted. This update also provides a practical expedient to permit employee benefit plans to measure investments and investment-related accounts as of the month end that is closest to the plan's fiscal year end, when the fiscal period does not coincide with a month end, while requiring certain additional disclosures. This portion of the update is effective prospectively for fiscal years beginning after December 15, 2015 and early adoption is permitted. The Plan is currently evaluating the impact of this standard on its financial statements.

Subsequent Events

The Plan's management evaluated subsequent events and transactions for potential recognition or disclosure in the financial statements through October 6, 2015, the day the financial statements were approved and authorized for issue.

3. Investments

The following table sets forth the fair value of the Plan's assets measured on a recurring basis, by level, as described in Note 2:

		Significant Unobservable Inputs (Level 3)
	2014	2013
Riesbeck Food Markets, Inc. common stock	\$ 15,443,120	\$ 16,134,683

The following table reconciles the change in fair value of the Plan's Level 3 assets for the years ended December 31:

	2014	2013
Beginning balance	\$ 16,134,683	\$ 16,093,272
Repurchase of shares by the plan sponsor	(500,000)	-
Total unrealized gains (losses)	(191,563)	41,411
Ending Balance	\$ 15,443,120	\$ 16,134,683

The Plan's investment in Riesbeck Food Markets, Inc. common stock is comprised of both Class A and Class B shares, which are identical in all respects, except for voting rights. The Class B shares are non-voting except for major Company decisions as defined in the Articles of Incorporation, and have no vote in the selection of directors.

Effective December 31, 2014, 2,087 Class A and 1,160 Class B shares held by the Plan were repurchased by the Company for \$500,000.

The fair value of individual investments that represents 5% or more of the Plan's net assets at December 31 is as follows:

Common Stock of Riesbeck Food Markets, Inc.	2014	2013
Class A		
Cost	\$ 2,928,179	\$ 3,022,940
Fair Value	\$ 9,931,460	\$ 10,376,025
Class B		
Cost	\$ 1,191,662	\$ 1,230,285
Fair Value	\$ 5,511,660	\$ 5,758,658

Riesbeck Employees Profit Sharing Plan and Trust (Also an Employee Stock Ownership Plan)

Notes to the Financial Statements (Continued)

3. Investments (Continued)

At December 31, 2014 and 2013, the Plan held 64,490 and 66,577 shares, respectively, of Class A Common Stock of Riesbeck Food Markets, Inc.

At December 31, 2014 and 2013, the Plan held 35,790 and 36,950 shares, respectively, of Class B Common Stock of Riesbeck Food Markets, Inc.

Unrealized appreciation (depreciation) in fair value of investments is the result of increases (decreases) in the appraised fair value of the common stock of Riesbeck Food Markets, Inc.

4. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 15, 2002, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a taxing authority. The Company has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2014 and 2013, there are no uncertain tax positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company believes the Plan is no longer subject to income tax examinations for years prior to 2011.

5. Parties-in-interest

Certain general and administrative expenses are paid by the Company on behalf of the Plan. The amount paid by the Company on behalf of the Plan amounted to approximately \$99,000 for 2014 and \$110,000 for 2013.

The plan investments in Riesbeck Food Markets, Inc. common stock are disclosed in Note 3.
