OPSPPro 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the OPSPPro 401(k) Plan, formerly known as the MBC 401(k) Plan, (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan that became effective January 1, 2010 covering the employees of Morgan Borszcz Consulting (The "Company"). The Plan was restated January 1, 2013 to cover all employees of Morgan Borszcz Consulting, LLC; OPSPPro, LLC; and TDI Human Capital Solutions, LLC. Employees who are full-time are eligible to participate in the Plan on the date of their employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Effective January 1, 2013, the Plan name changed to OPSPPro 401(k) Plan.

Participant contributions: Participant contributions to the Plan are made by employees within the limitations stipulated in Section 401(k) of the Internal Revenue Code. Each year eligible employees may contribute up to 100% of eligible compensation as defined by the Plan.

Rollovers: The Plan accepts rollovers from a qualified retirement plan of a prior employer with approval from the Plan Sponsor.

Employer contributions: The Company may make matching contributions for eligible employees, equal to a discretionary percentage to be determined by the Company, of each participant's elective deferrals. The Company may also make profit sharing contributions for eligible employees who are actively employed on the last day of the Plan year, equal to a discretionary percentage to be determined by the Company, of each participant's eligible wages.

Participant accounts: Each participant's account is credited with the participant's contribution, the Company's discretionary matching and profit sharing contributions, if any, and actual earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions and employer profit sharing contributions, plus actual earnings thereon. For employees hired prior to January 1, 2011, the Company's discretionary matching contribution portion of their account plus actual earnings thereon are fully vested. For employees hired after January 1, 2011, vesting in the Company's discretionary matching contribution portion of their account plus actual earnings thereon is based on years of continuous service. Participants vest 25% after one year of service, vest an additional 25% for each year following and are 100% vested after four years of service.

Notes receivable from participants: Participants may borrow from their fund accounts. The minimum loan is \$1,000 and loans may not exceed the lesser of \$50,000 or 50% of a participant's vested account balance and the repayment period shall not exceed five years unless the loan is used to purchase a primary residence in which the repayment period shall not exceed 30 years. Each loan is collateralized by the remaining balance in the participant's account. Interest charged to participants is set and reviewed by the Plan's management and is currently set at the prime rate plus two percentage points. Interest rates on participant loans were 5.25% as of December 31, 2014 and 2013 with maturity dates through December 2024.

Investment options: The participant directs the investment of their contributions and the Company's discretionary contribution into various investment options offered by the Plan.

OPSPRO 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Payment of benefits: On termination of service, times of hardship, upon death, disability, or retirement a participant, or their beneficiary in the case of death, may receive a lump sum or installment amounts equal to the value of the participant's vested interest in his or her account.

Forfeited accounts: Forfeiture funds are used to reduce administrative fees paid by Plan sponsor first and any remaining funds are used to reduce future employer contributions. Forfeited, non-vested accounts totaled \$3,702 at December 31, 2014 and \$2,212 at December 31, 2013, respectively.

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America in accordance with the Financial Accounting Standards Board Accounting Standards Codification.

Contributions: Participant contributions are recognized when withheld. Employer discretionary matching contributions are recognized concurrently with participant contributions although are not required to be contributed in the same manner due to their discretionary nature. These contributions are recalculated annually in order to determine any true-up adjustments. Employer discretionary matching contributions totaled \$550,480 for 2014. Employer profit sharing discretionary contributions are recognized on an annual basis and totaled \$22,566 for 2014.

Payment of benefits: Benefits are recorded when paid.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Administrative expenses: The Employer pays all administrative expenses of the Plan. The Plan is not charged for administrative services performed by employees of the Plan sponsor.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The investment in the insurance company general account is stated at contract value (see Note 7). Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in net appreciation.

Investment contracts: Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the Plan's investment contract as well as the adjustment of the investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract-value basis.

OPSPRO 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Subsequent events: The Plan administrator has evaluated subsequent events through October 12, 2015, the date the financial statements were available to be issued.

Note 3. Information Certified by the Plan's Custodian

The information related to investments that is included throughout the Plan's financial statements and supplemental schedule as of December 31, 2014 and for the year then ended was prepared by or derived from information provided by the custodian and furnished to the Plan administrator. The Plan administrator has obtained certifications from the custodian that information provided to the Plan administrator by the custodian related to these investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Notes 4 and 10 and the supplemental schedule related to the Plan's assets.

John Hancock Life Insurance Company also certified to the completeness and accuracy of \$464,160 of net appreciation in fair value of investments, \$35 of dividends related to the investments and \$7,128 of interest income from notes receivable from participants for the year ended December 31, 2014.

Note 4. Investments

The Plan's investment in pooled separate accounts (including investments bought, sold and held during the year) appreciated in fair value by \$464,160 during the year ended December 31, 2014.

The fair values of individual investments that represent 5% or more of the Plan's net assets at December 31 are as follows:

	2014	2013
John Hancock Retirement Living at 2025	\$ 753,985	\$ 579,016
John Hancock Retirement Living at 2035	635,554	687,999
John Hancock Retirement Living at 2045	518,432	552,060
John Hancock Lifestyle Fund - Balanced Portfolio	*	723,226
John Hancock Lifestyle Fund - Growth Portfolio	867,438	995,924
John Hancock Lifestyle Fund - Aggressive Portfolio	1,145,709	1,805,177

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

OPSPRO 401(k) Plan

Notes to Financial Statements

Note 6. Income Tax Status

The Plan has adopted a standardized form of a prototype plan sponsored by the custodian, John Hancock Life Insurance Company. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

The Plan administrator evaluated the Plan's tax positions and concluded that there are no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by tax authorities for years before 2011.

Note 7. Funds Held In Insurance Company General Accounts

The Plan has a benefit-responsive investment fund with John Hancock Life Insurance Company. Contributions are allocated to the guaranteed interest account, which is not, by definition, an investment contract, but rather is an investment option offered under the John Hancock Life Insurance Company group annuity contract. Such contributions are maintained in the John Hancock Life Insurance Company general account. The account guarantees the return of a principal amount plus compounds interest earned over the defined term, less any applicable contract or participant-level administrative expenses. The investment is included in the financial statements at contract value, which is the appropriate determination of fair value as reported to the Plan by John Hancock Life Insurance Company.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rate for the John Hancock Life Insurance Company 3-Year Guaranteed Interest Account was 0.11% and 0.10% for 2014 and 2013, respectively. The average yield and crediting interest rate for the John Hancock Life Insurance Company 10-Year Guaranteed Interest Account was 0.81% and 0.57% for 2014 and 2013, respectively. The crediting interest rate is established on the first day of each calendar month and applies to all regular ongoing contributions made to the guaranteed account in that month. There is no minimum rate under the group annuity contract and interest rates are not reset.

Note 8. Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for plan benefits.

Note 9. Related-Party Transactions

Certain Plan investments are managed by John Hancock Life Insurance Company. John Hancock Life Insurance Company is the custodian as defined by the Plan; and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to John Hancock Life Insurance Company for recordkeeping services amounted to \$310 for the year ended December 31, 2014.

Note 10. Fair Value Measurements

The Plan has determined the fair value of certain assets through application of accounting guidance that establishes a framework for measuring fair values. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

OPSPPro 401(k) Plan

Notes to Financial Statements

Note 10. Fair Value Measurements (Continued)

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts – Valued at the unit value as reported to the Plan by the custodian, which represents the fair value of the units held by the Plan.

Funds held in insurance company general accounts – Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 10. Fair Value Measurements (Continued)

Notes to Financial Statements

Note 10. Fair Value Measurements (Continued)

A summary of activity in Level 3 assets for the years ended December 31, 2014 and 2013 was as follows:

	2014	2013
Balance, beginning of year	\$ 51,941	\$ 40,465
Gain (loss)	153	(134)
Purchases	5,984	11,610
Sales	-	-
Balance, end of year	\$ 58,078	\$ 51,941

The quantitative unobservable inputs for the Plan's Level 3 assets are not readily available because the Plan is not provided access to the proprietary valuation models, inputs and assumptions used by John Hancock Insurance Company. Accordingly, the Plan is not able to disclose the significant unobservable inputs for the Level 3 assets.

Note 11. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the net increase in assets available for benefits per the financial statement and net income per the Form 5500 as of December 31, 2014:

Net increase in assets available for benefits per financial statements	\$ 337,565
Net transfers out of the Plan	<u>348,191</u>
Net income per Form 5500	<u>\$ 685,756</u>

Note 12. Recent Accounting Pronouncement

In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this Update is to simplify plan accounting.

The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as a direct filing entity, disclosure of that investment's strategy will no longer be required.

OPSPPro 401(k) Plan

Notes to Financial Statements

Note 12. Recent Accounting Pronouncement (Continued)

The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The Update may be adopted in whole or by part (I, II and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. Plan management is currently evaluating the impact this Update will have on the Plan's financial statements.
