DEFINED BENEFIT RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS**

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Vertellus Specialties Inc. Defined Benefit Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document and the summary plan description for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan providing for retirement, disability, death and survivor benefits to all eligible employees. The Plan's sponsor is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. See the Frozen Plan Note for eligible participants of the Plan.

The Plan is administered by the Company's Employee Benefits Plan Committee (Committee). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, and monitors investment performance.

Participant Accounts

Under the Plan provisions, amounts are credited by the Company to the participants' hypothetical accounts. The accounts are allocated compensation credits and investment credits at the end of every year. The compensation credits are allocated based on a percentage of the participants' certified compensation as defined in the Plan document for that particular year. The applicable percentage rates are in Note 3 and are based on the participants' age plus years of credited service (as defined in the Plan document) at the end of the year. Age and credited service are determined in whole years at the end of the year.

Participants' hypothetical accounts also receive investment credits at the end of every year. See the Actuarial Present Value of Accumulated Benefits note for more discussion.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. During 2014 and 2013, the Company made contributions of \$2,039,384 and \$3,196,069, respectively. The Company's contributions for 2014 and 2013 exceeded the minimum funding requirements of ERISA.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth under ERISA.

Pension Benefits

Benefits are determined based on the participant's hypothetical account balance. Plan participants are eligible for their plan benefit after terminating employment with vested rights. See the Plan document for the vesting schedule for various categories of participants. Upon termination of employment, participants have the option of receiving their vested benefit in the form of a one-time lump sum payment or a monthly annuity payable for their lifetime.

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

Administrative Expenses

A portion of the administrative expenses, which include audit fees, are paid by the Plan's Sponsor.

Death and Disability Benefits

If an active employee dies, a death benefit equal to the value of the employee's accumulated pension benefit is paid to the employee's beneficiary. Active employees who become totally disabled receive annual disability benefits that are equal to the equivalent normal retirement benefit they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age, at which time disabled participants will receive the normal retirement benefit computed as though they had been employed to normal retirement age, with their annual compensation remaining the same as at the time they became disabled.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan prepares its financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The process of preparing financial statements in conformity U.S. GAAP requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and expenses. Certain estimates relate to unsettled transactions and events as of the date of the financial statements. Other estimates relate to assumptions about the ongoing operations and may impact future periods. Accordingly, upon settlement, actual results may differ from estimated amounts.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Employee Benefit Plan Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians and insurance company. See the Fair Value Measurements note to the financial statements for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Payments of benefits are recorded when paid.

Net Assets Available for Benefits

Net assets available for benefits at both December 31, 2014 and 2013 included \$-0- allocated to the accounts of persons who, prior to that date, had withdrawn from participating in earnings and operations of the Plan.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

Tax Status

The Plan obtained its latest determination letter on August 13, 2012, in which the Internal Revenue Service states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provisions for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more than likely would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of both December 31, 2014 and 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. Currently, the prior three years are open under Federal statutes of limitations and remain subject to review and change. Neither the Plan nor the Company are currently under audit nor have they been contacted by any taxing authority.

Subsequent Events

Plan management has evaluated subsequent events through October 8, 2015, which is the date the financial statements were available to be issued.

Reclassification

Certain accounts relating to the prior year have been reclassified to conform to the current year presentation with no effect on previously reported income.

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered.

Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the plan are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The significant actuarial assumptions used in the valuations were as follows:

	<u>December 31, 2013</u>
Assumed rate of return on investments	4.99% - 6.99%
Mortality assumption	IRS 2014 Applicable Table
Value of assets	Market value
Normal Retirement Age	Age 65

The interest rates used to discount the obligation for 2013 were 6.45%.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits made as of January 1, 2014. Had the valuations been performed as of December 31, there would be no material differences.

The actuarial present value of accumulated plan benefits is as follows:

	<u>December 31, 2013</u>
Actuarial Present Value of Accumulated Plan Benefits:	
Vested Benefits:	
Participants Currently Receiving Payments	\$ 42,146,772

Nonvested Benefits	<u>80,738</u>
 Total Actuarial Present Value of Accumulated Plan Benefits	 <u>\$ 70,531,848</u>

The following is a summary of the changes in actuarial present value of accumulated plan benefits:

NOTE 5 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurement and Disclosures, provided a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

LEVEL 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

LEVEL 2 – Inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

LEVEL 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at either December 31, 2014 or 2013.

Mutual funds - Valued at the Net Asset Value (NAV) of shares held by the Plan at year end.

Other Investments - Valued at the net assets per share of the entities, without further adjustment. The entities' underlying investments consist of marketable securities.

The Common Sense Long Biased Offshore LTD CL investment can be redeemed at a rate of 25% quarterly with a 70 day notice period. The Saville Row Managed Futures T, LLC, investment can be redeemed monthly with a 30 day notice period.

The preceding methods described may provide a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

NOTE 6 – LIMITED SCOPE AUDIT

Certain information related to investments disclosed in the accompanying financial statements and supplementary schedule, including investments held at both December 31, 2014 and 2013, and the net appreciation (depreciation) in fair value of investments, interest, and dividends for the years then ended, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by JPMorgan Chase Bank, N.A., the trustee of the Plan.

NOTE 7 – PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving or that employees eligible to retire would have been receiving if they had retired with benefits in the normal form of annuity under the Plan.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
3. All other vested benefits (that is vested benefits not insured by the PBGC).
4. All nonvested benefits.

A full description of the defined benefit plan termination priorities is available in the Plan document.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 8 - FROZEN PLAN

The Board of Directors elected to freeze the Plan effective December 31, 2005 for salary employees and September 30, 2008 for hourly employees. However, the retirement plans for collectively bargained employees of the CasChem Facility and Nepera Facility of Rutherford Chemicals, LLC, were adopted and not frozen. In 2005, the Nepera Facility of Rutherford Chemicals, LLC closed. See Note 12 for further discussion of Plan Merger.

Employees of the CasChem Facility of Rutherford Chemicals, LLC shall become a participant on the first day of the calendar month following one year service.

NOTE 9 – PARTY-IN-INTEREST TRANSACTIONS

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

NOTE 9 – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds or other investments managed by JPMorgan Chase Bank, N.A. JPMorgan Chase Bank, N.A. is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees for services and administrative expenses paid by the Plan to the Plan's trustee include \$116,884 and \$108,334 for 2014 and 2013, respectively. There may be additional fees paid with Plan assets included in the net appreciation in fair value of investments line items on the statements of changes in net assets available for benefits.

NOTE 10 – SUBSEQUENT EVENTS

In January 2015, the Plan changed the trustee to Wells Fargo Bank.

NOTE 11 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible, that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net assets Available for Benefits.

NOTE 12 – PLAN MERGER

Effective December 31, 2009, Vertellus Specialties Inc. merged the assets of the plans known as Vertellus Specialties Inc. Employees' Pension Plan, Retirement Plan for Collectively Bargained Employees of the CasChem Facility of Rutherford Chemicals, LLC, and Retirement Plan for Collectively Bargained Employees of the Nepera Facility of Rutherford Chemicals, LLC, into this Plan. Sponsors of the plans that are merged into the Plan are considered adopting employers as of the Merge Date; moreover, the merging into this Plan by the various plans noted, and assets thereof, shall be considered to constitute a single plan with a single pool of assets that are available to pay any and all benefits accrued under the merged Plan. With respect to the calculation of all accrued benefits earned as of the Merge Date, the merger shall result only in Participants' entitlement to benefits calculated in accordance with the provisions of the respective plans under which they participated immediately prior to the Merge Date. The merged Plan will contain four separate benefit structures which mirror the benefit structures in place in the prior four respective plans.

In addition, non-highly compensated employees whose normal retirement date is on or before December 31, 1992 will continue to accrue benefits under a prior formula and receive the greater of that benefit or the benefit accrued under the current formula.

Notwithstanding the above, the retirement benefit for married participants shall be an actuarially equivalent reduced monthly pension which provides for a 50% continuation of monthly payments to a surviving spouse. Participant may elect to receive the standard retirement benefit or various optional benefits in lieu of this form of an annuity.

Late Retirement Benefit

The participant shall be entitled to a monthly amount which shall be the standard retirement benefit otherwise payable upon normal retirement date but based upon benefit service and Monthly Plan Compensation as of late retirement date.

If a participant whose late retirement date is after January 1, 1988 and who is not a highly compensated employee and who was working after January 1, 1989, the late retirement benefit shall not be less than the greater of:

- (1) The standard retirement benefit determined under the provisions of the plan using the prior benefit formula but based on benefit service and Monthly Plan Compensation as of late retirement date, or

(2) Actuarially equivalent benefit determined as of the earlier of the late retirement date or December 31, 1990, of the accrued retirement benefit determined as of December 31, 1988.

Early Retirement & Disability

The early retirement and disability benefit is the accrued retirement determined as of early retirement date (or disability date) payable commencing at normal retirement date. However, participant may elect to have his benefit commence prior to normal retirement date in a reduced monthly amount. Benefits are reduced 1/180th for each month of the first 5 years, 1/360th for each month of the next 5 years, and actuarially thereafter for each month that the commencement date precedes the normal retirement date.

Death Benefit

If a participant dies after he has become eligible for a deferred vested benefit but before benefits have commenced, either before termination of employment or after termination of employment, his surviving spouse shall be entitled to a benefit which is actuarially equivalent to the Qualified Survivor Benefit. The Qualified Survivor Benefit is payable commencing at the participant's earliest retirement date (or date of death, if later) and is equal in amount to the benefit that would have been payable, based on the participant's accrued benefit at his date of death or termination, if he had retired with a joint and 50% survivor annuity and then died before benefits commenced.

If a participant dies after completing 20 years of vesting service before his termination of employment or if he dies after his actual retirement but before benefits have commenced, his surviving spouse shall be entitled to a benefit that is actuarially equivalent to the benefit that would be payable if the participant had retired the day before his death with a joint and 100% survivor annuity. If the participant had not attained age 55 as of his date of death, the Early Retirement Benefit on which the death benefit is computed will be computed as though he was age 55.

Termination Benefit	After completion of at least 5 years of vesting service, a participant shall be 100% vested in his accrued benefit.

Accrued Benefit (Unit Credit)

The funding target is equal to the sum of the individual accrued liabilities for all participants. The individual's accrued liability is the present value of the benefit accrued in prior plan years. The target normal cost is the present value of benefits accruing in the plan year. Experience gains and losses are included in the calculation of the funding target and are amortized as part of the shortfall amortization.

Projected Unit Credit

Under this method, the actuarial accrued liability is calculated for each participant as the actuarial present value of the portion of the projected benefit earned to date calculated by applying the plan's benefit formula to service for all plan years before the current plan year and the average earnings projected to retirement or other termination date. The normal cost is the portion of the accrued liability allocated to the current plan year.
