Report on the Financial Statements

We were engaged to audit the accompanying financial statements of ThyssenKrupp Materials NA, Inc. Pension Plan (the "Plan"), which comprise the statement of net assets available for benefits - modified cash basis as of December 31, 2014 and 2013 and the related statement of changes in net assets available for benefits - modified cash basis for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by The Bank of New York Mellon/BNY Mellon, N.A. (the "Trustee"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes related transactions. The plan administrator has obtained certifications from the Trustee as of and for the years ended December 31, 2014 and 2013 that the information provided to the plan administrator by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements are prepared on a modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

ThyssenKrupp Materials NA, Inc. Pension Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 1 - Plan Description

The following brief description of ThyssenKrupp Materials NA, Inc. Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan, as amended and restated through January 1, 2010, is a noncontributory defined benefit pension plan sponsored by ThyssenKrupp Materials NA, Inc. (the "Company").

All employees of the Company hired prior to January 1, 1997 who are not covered by a collective bargaining agreement are eligible to participate in the Plan. Due to a plan merger in prior years, the Plan also includes separate prior benefit structures for the former salaried and nonunion hourly employees of Copper and Brass Sales. All former salaried and nonunion hourly employees of Copper and Brass Sales employed during 1997 who remained in service as of January 1, 1998 became participants in the Plan as of that date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility and Vesting - The Plan is frozen to new participants. Employees became fully vested upon completion of five years of service.

Pension Benefits - Normal retirement is permitted at age 65 with five years of continuous service. The Plan permits early retirement based on certain age and credited service requirements. Monthly benefits are based on an annualized average of the participants' compensation and years of credited service, as described in the plan document. The Plan also contains provisions for disability, deferred vesting, and surviving spouse benefits.

Death Benefits - In certain circumstances, if an active or terminated employee who has a vested interest in the Plan dies prior to his or her normal retirement age, the surviving spouse or designated beneficiary shall receive a survivor benefit, as defined in the Plan.

Funding Policy - Contributions are made by the Company in actuarially determined amounts. The Company's policy is to make contributions necessary to satisfy ERISA funding standards. The Company will also make additional contributions, from time to time, with the total not to exceed the maximum contribution deductible under the Internal Revenue Code (IRC). Annual contributions meet the minimum funding requirements of ERISA.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation - The accompanying financial statements have been prepared on the modified cash basis of accounting. Under the modified cash basis of accounting, contributions and investment income are recorded when received, benefit payments and expenses are recorded when paid, and investments are recorded at fair market value.

ThyssenKrupp Materials NA, Inc. Pension Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 2 - Summary of Significant Accounting Policies (Continued)

Investment Valuation - The Plan's investments are stated at fair value. The fair value of the Plan's interest in the investment units held by the ThyssenKrupp North America, Inc. Master Trust (formerly known as ThyssenKrupp USA Master Trust) (the "Master Trust") is based on the beginning of year value of the Plan's interest in the investment units held by the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. The common collective trust funds are valued at net asset value per share (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets.

The government securities and corporate obligations are valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. Investments in partnerships are valued at net asset value per share (or its equivalent) of the funds based on audited financial statements of the funds, where available, with adjustments to account for partnership activity and other applicable valuation adjustments. The money market funds and interest-bearing cash are valued at fair value based on their outstanding balances. All other investments are valued based on quoted market prices. See Note 6 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Certain administrative expenses associated with the Plan are paid by the Company. Expenses paid by the Company were approximately \$37,000 and \$50,000 for 2014 and 2013, respectively.

Risks and Uncertainties - Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risk. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the statement of net assets available for benefits.

ThyssenKrupp Materials NA, Inc. Pension Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates - The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through September 30, 2015, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Investment Information

The Bank of New York Mellon/BNY Mellon, N.A. (the "Trustee") holds the Master Trust's investments and executes all related investment transactions. The investment balances and related investment results included in the accompanying financial statements, including information summarized in Note 5, are based solely on information provided by the Trustee.

Certain assets of the Master Trust are in investment funds managed by The Bank of New York Mellon/BNY Mellon, N.A. or its affiliates. Since The Bank of New York Mellon/BNY Mellon, N.A. is the trustee of the Plan, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines. The market value of these investments was approximately \$91,000,000 and \$95,000,000 at December 31, 2014 and 2013, respectively.

Note 4 - Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable, under the Plan's provisions, to the service employees have rendered to the valuation date. These include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present employees or their beneficiaries.

The normal individual retirement benefit is calculated based on the participant's years of credited service and an annualized average of the participant's compensation as defined in the plan document.

The actuarial present value of accumulated plan benefits is determined by the independent actuary, Towers Watson, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts and interest) and probability of payment (by means of decrements such as for death, disability, withdrawal, and retirement) between the valuation date and the expected date of payment. The valuation was made as of January 1, 2014.

ThyssenKrupp Materials NA, Inc. Pension Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 4 - Actuarial Present Value of Accumulated Plan Benefits (Continued)

The more significant actuarial assumptions underlying the actuarial computations at January 1, 2014 is as follows:

Actuarial cost method	- Unit credit method
Interest rate	- 8.10 percent
Mortality rates	- RP-2014 white collar mortality rates at 2012, increased by 5 percent and based on employee rates for non-annuitants and annuitant rates for those in payment
Retirement	- Based upon a defined table of ages and percentages
Salary projection	- 3.0 percent weighted average salary increase

The foregoing actuarial assumptions are based on the presumption that the Plan will continue indefinitely. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of January 1, 2014 was as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving benefit payments	\$ 13,592,755
Other vested participants	41,395,722
Total vested benefits	54,988,477

Nonvested benefits	1,451,003
--------------------	-----------

Total actuarial present value of accumulated plan benefits	\$ 56,439,480
--	---------------

The following schedule summarizes the components of net increase in actuarial present value of accumulated plan benefits for the year ended January 1, 2014:

Actuarial present value of accumulated plan benefits - Beginning of year	\$ 55,769,678
Increase (decrease) during the year attributable to:	
Benefits accumulated including actuarial gains and losses	1,770,539
Interest due to the decrease in the discount period	4,292,007
Benefits paid	(3,841,837)
Change of assumptions	(1,550,907)
Net increase	669,802
Actuarial present value of accumulated plan benefits - End of year	\$ 56,439,480

ThyssenKrupp Materials NA, Inc. Pension Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 4 - Actuarial Present Value of Accumulated Plan Benefits (Continued)

The following are significant changes to the actuarial assumptions:

The interest discount rate was changed from 7.70 percent in 2013 to 8.10 percent in 2014, and the mortality assumption was changed from using the generational mortality table option under IRC Section 430(h)(3)(A) in 2013 to using the modified RP-2014 white collar mortality tables in 2014 to better reflect anticipated plan experiences.

Note 5 - Interest in Master Trust

The Plan's investments are in various investment units held by the Master Trust, which was established for the investment of assets of the Plan and several other pension plans sponsored by affiliated participating employers of ThyssenKrupp North America, Inc. Each participating retirement plan has an ownership interest in the investment units which are described below. The assets of the Master Trust are held by the Trustee. Investment income is allocated to the individual plans based upon the plans' individual ownership of that associated investment unit. Administrative expenses relating to the Master Trust are allocated to the individual plans based upon their share in the net assets of the Master Trust.

The following table represents the fair value of the investment units held by the Master Trust, including the Plan's ownership interest in each investment unit, at December 31, 2014 and 2013:

	<u>2014 Fair Value</u>	<u>2014 Plan Ownership Interest</u>	<u>2013 Fair Value</u>	<u>2013 Plan Ownership Interest</u>

Note 5 - Interest in Master Trust (Continued)

Securities Lending - The Master Trust participates in a securities lending program with the Trustee for its U.S. and non-U.S. securities held in custody with the Trustee. The program allows up to \$100,000,000 of the qualified assets to be on loan at any given time. These securities are lent to certain unrelated third-party brokers in exchange for cash and noncash collaterals. U.S. assets and non-U.S. assets on loan are collateralized at 102 percent and 105 percent, respectively, of the assets' market value.

The net assets of the investment units of the Master Trust reflect, as an asset, the collateral received under the securities lending arrangement with an offsetting liability representing the Master Trust's obligation to return the collateral to the borrower. The collateral received from borrowers totaled \$90,579,998 and \$95,374,435 as of December 31, 2014 and 2013, respectively. This consisted of cash collateral received of \$86,323,172 and \$80,991,413, which was invested in a money market fund and noncash collateral of \$4,256,826 and \$14,383,022 at December 31, 2014 and 2013, respectively. The noncash collateral received primarily consisted of fixed-income securities and letters of credit. In the event that a loaned security is called, the Master Trust will receive the market value of the asset in cash. The market value of loaned securities totaled \$88,635,260 and \$93,337,986 at December 31, 2014 and 2013, respectively.

Derivative Instruments - The Master Trust is party to certain agreements, which are designed to manage exposures to foreign exchange and interest rate risks. The interest rate and foreign currency instruments are used for the purpose of hedging changes in the fair value of assets that result from interest rate changes and currency fluctuations, or as an efficient substitute for traditional securities. The notional amount represents the contract amount, not the amount at risk. The notional amount of interest rate instruments was approximately \$14,200,000 and \$13,400,000 at December 31, 2014 and 2013, respectively. The notional amount of foreign currency instruments was \$0 at December 31, 2014. The notional amount of foreign currency instruments was approximately \$100,000 at December 31, 2013. Management has elected to present derivative information on a gross basis when subject to master netting arrangements. The estimated fair value of derivative instruments at December 31, 2014 and 2013 is insignificant. For the years ended December 31, 2014 and 2013, a gain of \$2,986,001 and a loss of \$1,927,094, respectively, attributable to derivative instruments was recognized as investment income in the statement of changes in net assets available for benefits.

The investment managers, on behalf of the Master Trust, manage its interest rate and foreign currency risks by limiting exposure to and by monitoring the financial condition of each counterparty. In the unlikely event that a counterparty fails to meet the terms of an interest rate or foreign currency agreement, the Master Trust's risk is limited to the fair value of the instrument.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Master Trust's assets measured at fair value on a recurring basis at December 31, 2014 and 2013.

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2014 and 2013.

The Plan and Master Trust also hold other assets and liabilities not measured at fair value on a recurring basis, including accrued income, receivables for security sales, accrued liabilities, and payables and unsettled trades. The fair value of these assets and liabilities approximates the carrying amounts in the accompanying financial statements due to the short maturity of such instruments. Under the fair value hierarchy, these financial instruments are valued primarily using Level 3 inputs.

Investments in Entities that Calculate Net Asset Value per Share

The Master Trust holds shares or interests in investment companies at year end whereby the fair value of the investment held is estimated based on the net asset value per share (or its equivalent) of the investment company.

At December 31, 2014 and 2013, the fair value, unfunded commitments, and redemption rules of those investments are as follows:

Investments Held at December 31, 2014

	Fair Value	Unfunded Commitments	Redemption Frequency, if Eligible	Redemption Notice Period (in Business Days)
Common collective trust funds - Equity investments (1)	\$ 187,047,230	\$ -	Daily	1

Note 6 - Fair Value Measurements (Continued)

- (3) GMO Multi-Strategy Fund (Offshore), L.P. invests in various investment funds seeking a variety of investment strategies, including common stock, depository receipts, bonds (including sovereign debt of emerging countries), commodities, currencies, forwards, futures, options, and swap agreements.
- (4) Western Asset Global Multi-Strategy, LLC invests primarily in global fixed-income securities in both developed and emerging market countries that are generally rated at least BBB by Standard & Poor's, or equivalent quality.

Note 7 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated November 21, 2011 indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although, the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2011.

Note 8 - Plan Termination

Should the Plan terminate at some future time, its net assets generally will not be available on a pro-rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

Form of payment

Active participants:

100% of participants are assumed to elect a lump sum.

Deferred vested participants:

50% of participants are assumed to elect a lump sum and 50% of participants are assumed to elect an annuity.

Marriage

For purposes of valuing the pre-retirement surviving spouse's benefit, 80% of eligible participants are assumed to be married and male spouses are assumed to be 3 years older than female spouses.

Employees

It was assumed that there will be no new or rehired employees.

At-risk assumptions

For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan, which is usually the lump sum form of payment.

In the event that the plan is considered at-risk for the current plan year, special at-risk loads and transition rules specified by the Internal Revenue Code may apply to determine the funding target and target normal cost.

Funding target

Present value of accrued benefits as required by regulations under IRC §430.

Target normal cost

Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2013 plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Participant data

Data was supplied electronically by the employer.

Benefits not included in valuation

We believe that we have reflected all significant Plan provisions in this valuation.

PBGC Premium Funding Target

The Alternative Premium Funding Target was determined using the assumptions described above.

Changes in assumptions and methods since last actuarial valuation

- The mortality table used to determine the funding target was updated to project mortality improvement an additional year, as prescribed by the IRC.
- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2012 to September 2013 and subsequently revised by applying the corridors of HATFA to determine minimum funding requirements and benefit restrictions.
- The interest rate was increased from 3.10% to 3.30% based on continued use of the average of the December 30 year Treasury rates for the last five plan years.

 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Social Security Covered Compensation

The average of the Social Security Taxable Wage Base for the 35 year period ending with the last day of the calendar year the employee attains Social Security Retirement Age, based on the Social Security law in effect on the earliest of:

1. The Participant's severance from service date or
2. The Participant's Normal Retirement Date or

The date as of which the calculation of an Accrued Benefit is being made.

Plan Compensation

Steel & Auto

Pensionable pay defined as Total Compensation, excluding imputed taxable income and perquisites; "Highest Average Compensation" defined as average Compensation over the five consecutive calendar years during which participant was compensated on a salaried basis, which produces the highest average. Compensation for this purpose is W-2 pay, including elective contributions and excluding in-kind payments, perquisites and company contributions to other benefit plans. For accruals between January 1, 1989 and December 31, 1993, compensation limited to \$235,840. For accruals between January 1, 1994 and December 31, 2001, compensation limited to \$150,000 per year, subject to cost-of-living adjustments. For accruals after January 1, 2002, compensation limited to \$200,000 per year, subject to cost-of-living adjustments

Copper & Brass Salaried

Pensionable pay is base pay, which excludes overtime, bonuses, imputed taxable income and prerequisites ("Base Salary"). Compensation for accruals between January 1, 1994 and December 31, 2001 is limited to \$150,000 per year, subject to cost-of-living adjustments. Compensation for accruals after January 1, 2002 is limited to \$200,000, subject to cost of living adjustments.

For Participants classified as "Outside Sales Personnel" compensation shall mean the Participant's Total Recognized Compensation ("TRC"). The Participant's TRC is the Participant's "Base Salary" plus the Participant's commissions up to his Maximum Recognized Commissions ("MRC"). The MRC is that portion of the commissions that does not cause the sum of his commissions plus his Base Salary for the current year to exceed his TRC for the previous year. Beginning October 1, 2005, the Participant's MRC shall be increased each year by two percent (2%) of the Participant's TRC for the previous year.

Accrued Benefit

Steel & Auto

For Service on or after January 1, 1994:

1.2% of Highest Average Compensation (HAC) up to Covered Compensation (at later of termination or calculation) plus 1.45% of such average in excess thereof, all multiplied by up to 35 years of service (reduced by length of service credited before 1994). HAC is the highest 5 consecutive year average with annual compensation limited to \$150,000 (indexed) after 1993 and before 2002; limited to \$200,000 (indexed) after 2001.

For Service between January 1, 1989 and December 31, 1993:

1.2% of HAC up to Covered Compensation (for 1993) plus 1.45% of such average in excess thereof, all multiplied by up to 35 years of service (reduced by length of service credited before 1989). Compensation for all Pre-1994 years for this benefit accrual period is limited to \$235,840.

Note: For purposes of this section, HAC is the highest 5 consecutive year average as of December 31, 1993, with annual compensation limited to \$235,840, multiplied by the ratio (not less than 1) of the highest annual compensation earned after 1993 (limited as in the post 1993 benefit formula) to the 1993 compensation (annualized if partial year of pay) limited to \$235,840.

For Service prior to 1989:

26% of Highest Average Compensation up to Social Security Covered Compensation plus 50% of such average in excess of Social Security Covered Compensation (for 1988), reduced proportionately for less than 25 years projected service at age 65. Such benefit is then prorated based on the ratio of credited service at 12/31/1988 to projected credited service at age 65. (The 25 year amount is only 15 years for participants as of 7/01/1976.)

Note: For purposes of this section, HAC is the highest 5 consecutive year average as of December 31, 1988, multiplied by the ratio (not less than 1) of the highest annual compensation earned in the period from 1989 through 1993, limited to \$235,840, to the 1988 unlimited compensation (annualized if partial year of pay); and then multiplied by the ratio (not less than 1) of the highest annual compensation earned after 1993 (limited as in the post-1993 benefit formula) to the 1993 compensation (annualized if partial year of pay) limited to \$235,840.

Copper & Brass Salaried

Former Salaried Plan Proper:

1.45% of Compensation earned in each calendar year after 1988, plus benefit accrued as of 12/31/88.

Former FitzSimons Manufacturing Plan:

\$23.00 per month per year of service (effective for terminations on or after September 16, 1995).

Former Big Rapids Tube Division Plan:

\$13.00 per month per year of service (effective for terminations on or after January 1, 1994).

Former Vanguard Plan Benefit:

Participants previously covered for Vanguard plan benefits receive additional amount of 33% of frozen final average pay (highest 60 month average prior to 1984 for salaried employees, or 1990 for hourly employees) prorated for credited service less than 15 years. Such benefit is converted from a 10 year certain and life option to a life only option prior to combining with the regular benefit.

The additional Vanguard Plan benefit is based on service projected to age 65 (limited to 15 years), then prorated based on the ratio of (unlimited) service at termination date to (unlimited) service projected to age 65.

Normal or Late Retirement Benefit

Eligibility: Age 65.

Benefit: Accrued Benefit at Normal or Late Retirement Date.

Early Retirement Benefit

Eligibility: Age 55 with five years of vesting service; or age 50, provided age plus vesting service is at least 80.

Benefit: Accrued Benefit at Early Retirement date multiplied by an early retirement factor due to earlier commencement of payments.

Accrued normal retirement benefit determined as in Accrued Normal Retirement Benefit and reduced by 5/9% for each month that commencement precedes age 62 down to age 55. Actuarially equivalent reduction (based on the normal form of payment) is applied for commencement prior to age 55.

Vested Deferred Benefit

Eligibility: 5 years of Vesting Service.

Benefit: Accrued benefit payable at age 65, or reduced for early commencement at any age. Reduction is actuarially equivalent, based on the normal form of payment.

Disability Retirement Benefit

Eligibility: At any age or service upon total and permanent disability that has continued for at least 6 months.

Benefit: Accrued Normal Retirement Benefit, with continuing benefit accruals during the period of disability leave assuming that Compensation remains at the level in effect in the calendar year prior to disability.

Pre-Retirement Death Benefit

Eligibility: After completion of five years of Vesting Service, and married at time of death.

Benefit: 50% of the pension he would have been eligible to receive had the participant retired on the first day of the month in which he died. There is no charge for coverage.

Optional Forms

As elected by Participant, actuarially equivalent to normal form including:

- Joint & 50%, 55%, 66-2/3%, 75% or 100% Survivor
- Ten- Year Certain & Life
- Lump Sum

Actuarial equivalence for annuity options is based on a 7.5% interest rate and the 1983 GAM (unisex) table. Lump sum distributions are based on the GATT rate for the December preceding payment, rounded down to the next lowest 0.5%, using the 1983 GAM (unisex) mortality table for lump sums prior to 2003, and the RR2001-62 mortality table beginning in 2003. The lump sum will reflect the normal form of payment. Lump sums for participants eligible for early retirement are based on the accrued benefit reduced for immediate payment, otherwise based on the accrued benefit deferred to age 65.
