Note 1 - Description of the Plan and Significant Accounting Policies

The following description of JAB Wireless DBA Skybeam, Inc. 401(k) Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 2014 and covers all U.S. employees except union employees, who are covered by a collective bargaining agreement. Effective January 1, 2014, the Plan was available to employees who had completed three consecutive months of employment. On September 1, 2014, the Plan was amended to require completion of 60 consecutive days of employment for eligibility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

JAB Wireless DBA Skybeam, Inc. (the "Company") is the Plan sponsor. Great-West Trust Company ("Great-West") serves as custodian, manages Plan assets, and maintains the Plan's records. Group Health and Benefit Administrators, Inc. ("GHBA") serves as a third-party administrator. Great-West offers Plan participants a variety of investment options through various mutual funds and a guaranteed interest contract. Individual accounts are invested in the various investment options at the direction of the participants.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted the United States of America.

Contributions

Participants may make before-tax contributions up to the maximum amount allowed by law, subject to annual limitations established by the IRS, which are adjusted annually by the Secretary of the Treasury for inflation. This maximum percentage may be reduced by the Plan administrator in certain circumstances. The Plan allows Roth contributions and permits rollover contributions from other qualified retirement plans. Participants who are age 50 or older during the Plan year are eligible to make catch-up contributions based on IRS limits. The Plan also includes a traditional automatic contribution arrangement, which consists of 3% of compensation for each payroll period and a scheduled increase of 1%, up to a maximum of 5%, on the first day of each Plan year. Employee contributions to the Plan are made through regular payroll deductions.

The Company may also choose to make discretionary profit sharing and matching contributions to the Plan equal to a discretionary percentage, to be determined by the Company, of the participants' elective deferrals. The Company chose to make no discretionary contributions to the Plan for the year ended December 31, 2014.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participants' Accounts

Each participant's account is credited or charged with the participant's contribution and an allocation of the Company's contribution, if any; Plan earnings or losses; forfeitures; and Plan expenses. Allocations are based upon Plan earnings or losses and account balances, as defined. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are 100% vested in their voluntary contributions plus allocated earnings or losses thereon. Vesting in the Company's contributions, if any, is based on years of continuous service. The vesting for the employer discretionary profit sharing and matching contributions, if any, is as follows:

Years of Service	Vested Interest
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age (the age of 65 or, if later, the fifth anniversary date of the first day of the Plan year during which the participant entered the Plan), retirement due to disability, or if the Plan is terminated.

Participant Loan Receivable

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. The maximum number of Plan loans that participants may have outstanding at any one time is one. The loans are secured by the vested balances in the participants' accounts and bear interest at prime plus 1% (4.25% at December 31, 2014), which is commensurate with local prevailing rates at loan inception as determined quarterly by the Plan administrator. As of December 31, 2014, there was only one loan in the Plan, which matures October 2019. Principal and interest are paid ratably through payroll deductions. Participant loans are recorded in the financial statements at amortized cost plus accrued interest.

Payment of Benefits

Upon termination of service, death, disability, or attainment of retirement age of 65, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested account balance or installments sufficient to satisfy required minimum distribution amounts. A participant may withdraw benefits from the Plan in certain hardship situations as specified in the Plan document. Accounts with balances less than $5,000 are immediately distributed as a lump-sum payment upon a distribution event. Benefits are recorded when paid.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account. Forfeitures can be used to pay Plan expenses, reduce employer contributions, or shall be allocated to participants in the same manner as the employer's matching contributions. The balance of this account at December 31, 2014 was $9,758. During the year ended December 31, 2014, forfeitures in the amount of $9,581 were used to offset Plan administrative expenses.

Valuation of Investments and Income Recognition

Investments are recorded at fair value as reported to the Plan by Great-West. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Investments in mutual funds are reported at the last reported sales price at the end of the respective periods using quoted market values.

During 2014, a guaranteed interest contract was added as an investment option. In accordance with generally accepted accounting principles, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is a relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by generally accepted accounting principles, the statement of net assets available for benefits presents the fair value of the investment. No adjustment of the investment from contract value to fair value was required as contract value approximated the fair value as of December 31, 2014.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected on the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported on the statement of net assets available for benefits.

Additionally, some investments held by Great-West are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Note 2 - Investments

Great-West has certified in writing to the Plan administrator that the stated amounts for investments at fair value and the participant loan at amortized cost as of December 31, 2014 and the income earned on the assets for the year ended December 31, 2014, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the custodian, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

The fair value of investments greater than 5% of net assets was the following at December 31, 2014:

Great-West Lifetime 2045 Fund II T1	$	236,686
Great-West Lifetime 2035 Fund II T1	$	141,659
Great-West Lifetime 2055 Fund II T1	$	130,543
Great-West S&P 500 Index Fund I	$	57,643
Great-West Lifetime 2025 Fund II T1	$	51,047

Note 3 - Fair Value Accounting

Generally accepted accounting principles require disclosure about how fair value is determined and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets measured at fair value on a recurring basis.

Assets at fair value as of December 31, 2014 are as follows:

Description	Level 1	Level 2	Level 3	Total
Mutual funds				
Target date	$ 570,315	$ -	$ -	$ 570,315
Blend	125,966	-	-	125,966
Specialty	40,312	-	-	40,312
International	17,168	-	-	17,168
Bond	3,982	-	-	3,982
Total mutual funds	757,743	-	-	757,743
Guaranteed interest contract	-	16,125	-	16,125
Total	$ 757,743	$ 16,125	$ -	$ 773,868

Certain Level 1 assets in the Plan are mutual funds with quoted market prices that are directly observable in the marketplace by market participants. The fair value of the mutual funds is equivalent to the net asset values at the close of business on the reporting date.

Note 3 - Fair Value Accounting (continued)

The guaranteed interest contract is valued by Great-West based upon the fair value of the Plan's assets credited to the general account along with interest credited at rates set periodically by Great-West based upon underlying investments. The Plan's Level 2 investments with a reported net asset value can be redeemed immediately and are valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

There were no changes to the valuation techniques used during the period.

Note 4 - Guaranteed Interest Contract

In 2014, the Plan had a fully benefit-responsive investment contract with Great-West ("guaranteed interest contract"). Great-West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and is charged for participant withdrawals and administrative expenses. The guaranteed interest contract is included in the financial statements at contract value as reported to the Plan by Great-West. Contract value represents contributions made under the guaranteed interest contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal of transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rate earned by the Key Guaranteed Portfolio Fund was 1.25% for 2014. The Key Guaranteed Portfolio Fund is a general account product. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long-term new portfolio compared to the minimum interest crediting rate, as stated in the guaranteed interest contract, and prevailing market conditions. The interest crediting rate is reset quarterly.

Note 5 - Income Taxes

The Plan did not obtain a plan-specific determination letter as it operates with GHBA's determination letter from the IRS dated March 31, 2014, which was issued on the basic Plan document. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, no provisions for federal or state income taxes have been included in the accompanying financial statements.

Generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 8 - Related Party and Party-in-Interest Transactions

Certain Plan investments are mutual funds, managed by Great-West, which serves as the asset custodian and maintains the Plan records, as defined by the Plan; therefore, these transactions qualify as party-in-interest and are exempt from the prohibited transaction rules.

The Plan's participant loan is a receivable from a participant in the Plan; therefore, this receivable qualifies as a party-in-interest transaction, which is exempt from the prohibited transaction rules.

Note 9 - Subsequent Events

The Plan administrator has evaluated all subsequent events through the auditors' report date, which is the date the financial statements were available for issuance. There were no material subsequent events that required recognition or disclosure in the financial statements.
