Note 1: Description Of Plan

The following description of the Haraden Motor Car Corp. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Haraden Motor Car Corp. 401(k) Retirement Plan was established to provide retirement benefits for employees of Haraden Motor Car Corp. d/b/a Mohawk Honda (the Company). Eligible employees become participants in the Plan following one year of eligible service and attainment of age 21, as defined in the Plan Agreement. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year, eligible participants may contribute up to 50% of their annual compensation on a pre-tax basis, subject to Internal Revenue Code limitations as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants have the option of making after tax Roth contributions to the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Prior to July 1, 2014, the Company's matching contribution was equal to 25% of the participants' elective deferral contributions that were not in excess of 50% of their compensation. Effective July 1, 2014, the Company's matching contribution is equal to 50% of the participants' elective deferral contributions that are not in excess of 100% of their compensation. The total amount of matching contributions allocated to a participant in any Plan Year will not exceed $500. The Company may also make a discretionary profit sharing contribution as determined each plan year. Contributions are subject to certain limitations.

Participants' accounts - Each participant's account is credited or charged, as applicable, with the participant's contribution and allocations of the Company's contribution, plan earnings, and forfeitures of terminated participants' nonvested accounts, or transfers and distributions made to or from such accounts during the period. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's portion of their accounts is based on years of continuous service. As defined by the Plan Document, a participant is 100% vested after three years of credited service.

Payment of benefits - On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in their account, substantially equal installments over a period of time, or elect to defer payment until a later date. A hardship provision allows for distributions up to 100% of a participant's elective deferral vested account balance for specific purposes as denoted in the Plan.

Note 1: Description Of Plan (Continued)

Participant loans - Participants may borrow from their fund accounts. The loans must be adequately secured and made in accordance with the terms of the Plan. Principal and interest is paid ratably through weekly payroll deductions.

Plan termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Forfeited accounts - At December 31, 2014 and 2013, the Plan had forfeitures from terminated, non-vested participant accounts of $4,409 and $72, respectively. These amounts can be used to offset future plan expenses or reduce future employer contributions.

Note 2: Summary Of Significant Accounting Policies

Investment valuation - Accounting principles generally accepted in the United States of America establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs are not available. The three levels of the fair value hierarchy in accordance with accounting principles generally accepted in the United States of America are described below:

(a) Level 1: Unadjusted quoted prices in active markets for identical, unrestricted assets, or liabilities that the Plan has the ability to access at the measurement date;

(b) Level 2: Quoted prices which are not active, quoted prices for similar assets or liabilities in active markets, or inputs other than quoted prices that are observable (either directly or indirectly) for substantially the full term of the asset or liability; and

(c) Level 3: Significant unobservable prices or inputs (including the Plan's own assumptions in determining the fair value of investments) where there is little or no market activity for the asset or liability at the measurement date.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 2: Summary Of Significant Accounting Policies (Continued)

The Plan's investments are held by an independent trust company. Investments, except for the Collective Investment Fund, are valued at quoted market prices reported on the last day of the Plan Year. The Collective Investment Fund is valued based on quoted market prices of the underlying investments on the last day of the Plan Year.

Interest and dividend income is recorded on the accrual basis of accounting. Purchases and sales of securities are recorded on a trade date basis with the gain or loss based upon the actual cost of the securities.

Notes receivable from participants - Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Income taxes - The Plan is exempt from federal income tax under the Internal Revenue Code. Tax positions are evaluated and recognized in the financial statements when it is more-likely-than-not the position will be sustained upon examination by the tax authorities.

The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The application of these accounting principles involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates. The Plan periodically evaluates estimates and assumptions used in the preparation of the financial statements and makes changes on a prospective basis when adjustments are necessary.

Presentation - Certain reclassifications, when applicable, are made to the prior year financial statement presentation to correspond to the current year's format. Reclassifications, when made, have no effect on net assets available for benefits or changes in net assets available for benefits.

Note 3: Investments

The statements of net assets available for benefits, the investment activities included in the statement of changes in net assets available for benefits for the year ended December 31, 2014, and the accompanying notes to the financial statements (other than the assignment of levels) were prepared in part or entirely from information certified by Hand Benefits & Trust Company, the Custodian, in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes investments and notes receivable from participants of $3,723,777 and $3,106,253 at December 31, 2014 and 2013, respectively, and related investment income of $271,254 for the year ended December 31, 2014.

Note 4: Fair Value Measurements

The following is a description of the valuation methodologies used for assets at fair value at December 31, 2014 and 2013:

Mutual funds: Valued at quoted market prices.

Collective Investment Fund: Valued based on quoted market prices of the underlying investments.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

All assets have been valued using a market approach. There were no changes in the valuation techniques during the current year.

Note 4: Fair Value Measurements (Continued)

Fair Value Measurements At Reporting Date Using:

	Quoted Prices In Active Markets For Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
December 31, 2014				
Mutual funds	$ 3,513,349	$ -	$ -	$ 3,513,349
Collective Investment Fund	-	95,925	-	95,925
Total Investments	$ 3,513,349	$ 95,925	$ -	$ 3,609,274
December 31, 2013				
Mutual funds	$ 2,972,764	$ -	$ -	$ 2,972,764
Collective Investment Fund	-	76,734	-	76,734
Total Investments	$ 2,972,764	$ 76,734	$ -	$ 3,049,498

As part of its investment selection process, the Plan entered into a fully benefit-responsive Collective Investment Fund with MetLife. The account is credited with contributions, plus interest, less participant-initiated withdrawals or transfers. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. However, this investment generally provides that withdrawals associated with certain events which are not in the ordinary course of fund operations, and are determined by the issuer to have a material adverse effect on the issuer's financial interest, will be paid with a market value adjustment to the contract value amount of such withdrawal.

The crediting interest rate for the Collective Investment Fund is typically reset every quarter. The initial crediting interest rate is established based on the market interest rates at the time the initial asset is purchased and it will have an interest crediting rate of no less than 0%.

Average Yields:	**2014**
Based On Actual Earnings	3.50%
Based On Interest Rate Credited To Participants	1.85%

Note 5: Related Party Transactions

Certain fees of the Plan for administrative services are paid by the Plan Sponsor.

Note 6: Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 7: Significant Plan Amendment

Effective July 1, 2014, the Plan was amended to change the entry date for eligible participants to 'immediate' for all Contribution types, and the Matching Contribution Formula was changed to 50% of Employee Contributions that are not in excess of 100% of Compensation. The amount of Matching Contribution allocated to a Participant in any Plan Year will not exceed $500. Additionally, effective January 1, 2015, an Eligible Automatic Enrollment Arrangement has been added to the Plan.

Note 8: Commitments And Contingencies

The Plan follows the guidance for uncertainty in income taxes. As of December 31, 2014, the Plan believes that it has appropriate support for the income tax positions taken and to be taken on its returns based on an assessment of many factors including experience and interpretations of tax laws applied to the facts of each matter. The Plan has concluded that there are no significant uncertain tax positions requiring disclosure, and there are no material amounts of unrecognized tax benefits. The Plan is no longer subject to federal, state, or local income tax examination by tax authorities for years before 2011.

Note 9: Subsequent Events

Subsequent events have been evaluated through October 7, 2015, which is the date the financial statements were available to be issued.
