Independent Auditor's Report

To the Audit Committee
TimkenSteel Corporation Bargaining Unit Pension Plan
Canton, Ohio

Report on the Financial Statements

We have audited the accompanying financial statements of TimkenSteel Corporation Bargaining Unit Pension Plan, which comprise the statement of net assets available for benefits as of December 31, 2014, the related statement of changes in net assets available for benefits for the eight months then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of TimkenSteel Corporation Bargaining Unit Pension Plan as of December 31, 2014, and the changes in its financial status for the eight months then ended in accordance with accounting principles generally accepted in the United States of America.

TimkenSteel Corporation Bargaining Unit Pension Plan

Notes to Financial Statements

1. Description of the Plan

The following description of TimkenSteel Corporation Bargaining Unit Pension Plan (the Plan) provides only general information. Participants should refer to the March 2, 2012 Pension Agreement, amended as of May 1, 2014, between TimkenSteel Corporation and United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union (the Union) for a more complete description of the Plan, and the Plan's benefit and eligibility provisions. Copies of this agreement are available from the Plan Administrator, TimkenSteel Corporation (the Company and Sponsor). The Plan was established effective May 1, 2014 as a result of a spinoff of TimkenSteel Corporation from The Timken Company (Timken), whereby certain assets and liabilities of the Timken Pension Plan (the Prior Plan) attributable to the benefits accrued for the employees and retirees of the Company (Transferred Participants) were spun off from the Prior Plan and transferred to this Plan. In the spinoff, Timken transferred net assets of \$812,240,238 relating to the employees and retirees of the Company to the Plan sponsored by the Company.

General

The Plan is a defined benefit pension plan which provides for retirement, special and supplemental pension, disability, and surviving spouse and death benefits for all employees of the Company who are represented by the Union. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). A Plan Administrative Committee, as appointed by the Company, is responsible for assisting the Company with its duties with respect to administration of the Plan, while the Investment Committee is responsible for the management of investments on behalf of the Plan.

Eligibility and Vesting

An eligible employee becomes a participant in the Plan upon attaining the age of twenty-one years and completing at least one year of continuous service with the Company. All Transferred Participants shall automatically become participants in the Plan effective May 1, 2014. Active participants become fully vested upon the completion of five years of continuous service.

Funding

The Company contributes such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to Plan participants and to satisfy the Employee Retirement Income Security Act of 1974 (ERISA) minimum funding requirements. During 2014, the Company made no contributions due to meeting the ERISA minimum funding requirements and being in an over-funded status at December 31, 2014. In addition, the Company can contribute discretionary amounts from time to time. No discretionary contributions were made to the Plan during the eight months ended December 31, 2014.

TimkenSteel Corporation Bargaining Unit Pension Plan

Notes to Financial Statements

Pension Benefits

The Plan generally provides for normal retirement at age 65. The Plan allows for early retirement with various defined reductions in a participant's accrued benefit depending on the participant's age and years of continuous service upon retirement (as defined in the Plan). Participants vest entirely after five years of continuous service.

The Plan provides for payments of retirement, disability and death benefits to participants or their beneficiaries under various payment options. The determination of benefit payments depends primarily on age and years of continuous service as outlined in the Plan.

Plan Termination

Although it has not expressed any interest to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the net assets of the Plan will be allocated, as prescribed by the Plan document and ERISA and its regulations, generally to provide the following benefits in the order indicated: a) annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan; the priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years and the amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding the Plan's termination, b) other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) up to the applicable limits, c) all other vested benefits not insured by the PBGC, d) all nonvested benefits, and e) all other accrued benefits of active or terminated participants as to which an allocation has not been made to the above priorities.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated Plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

TimkenSteel Corporation Bargaining Unit Pension Plan

Notes to Financial Statements

Valuation of Investments in the Master Trust

The Plan's investments are stated at fair value and are held in TimkenSteel Corporation Collective Investment Trust for Retirement Plans (Master Trust) maintained by The Northern Trust Company (Trustee).

The valuation methods (Note 5) may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan incurs administrative expenses directly related to the Plan, which consist primarily of PBGC fees, actuarial fees, legal fees, investment management fees, and administrative expenses. These expenses are reported on the Statement of Changes in Net Assets Available for Benefits as administrative expenses. Administrative expenses related to the Master Trust are allocated to the Plan and are reflected in the net investment gain from the Master Trust. Expenses relating to purchases, sales or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the financial statements. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan has adopted this Update for the 2014 Plan year.

TimkenSteel Corporation Bargaining Unit Pension Plan

Notes to Financial Statements

In July 2015, the FASB issued ASU No. 2015-12, *(Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient – consensus of the Emerging Issues Task Force*. The amendments in this update (1) require a pension plan to use contract value as the only measure for fully benefit-responsive investment contracts, (2) simplify and increase the effectiveness of the investment disclosure requirements for employee benefit plans, and (3) provide benefit plans with a measurement-date practical expedient similar to the practical expedient provided to employers in ASU 2015-04, *Practical Expedient for the Measurement Date of an Employer's Defined Benefit Obligation and Plan Assets*. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Part I and Part II shall be applied retrospectively to all periods presented, while the amendments in Part III shall be applied prospectively. The Plan has adopted this Update for the 2014 Plan year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits (Note 3) represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered to the valuation date. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) present employees or their beneficiaries and (c) beneficiaries of employees who have died. Benefits under the Plan are accumulated based on an employee's final average earnings during their highest five consecutive years of compensation during their last ten calendar years of credited service. Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

Subsequent Events

The Plan has evaluated subsequent events through October 12, 2015, which is the date the financial statements were available to be issued, and has determined that there were no subsequent events that have occurred through that date that have not already been reflected in the financial statements and/or disclosed in the notes.

3. Accumulated Plan Benefits

The actuarial present value of accumulated Plan benefits under the Plan was calculated by the consulting actuary, Towers Watson, based on information provided by the Company. The actuary estimates the actuarial present value of accumulated Plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

TimkenSteel Corporation Bargaining Unit Pension Plan
Notes to Financial Statements

The accumulated Plan benefits as of December 31, 2014 were as follows:

Vested benefits:

Participants and beneficiaries currently receiving benefits	\$ 428,907,191
Other participants	<u>157,700,336</u>
	586,607,527

Nonvested benefits	<u>37,780,272</u>
Total actuarial present value of accumulated Plan benefits	<u><u>\$ 624,387,799</u></u>

The changes in the actuarial present value of accumulated Plan benefits from May 1, 2014 to December 31, 2014 were as follows:

Actuarial present value of accumulated Plan benefits at May 1, 2014	\$ 591,022,624
Net increase (decrease) during the year attributed to:	
Benefits paid	(31,029,762)
Decrease in the discount period	28,098,333
Assumption changes	25,929,210
Actuarial losses	4,530,315
Benefits accumulated	<u>5,837,079</u>
Net increase	<u>33,365,175</u>
Actuarial present value of accumulated Plan benefits at December 31, 2014	<u><u>\$ 624,387,799</u></u>

TimkenSteel Corporation Bargaining Unit Pension Plan
Notes to Financial Statements

The significant actuarial assumptions used in the valuation as of December 31, 2014 were:

Actuarial method	Projected Unit Credit Cost Method
Long-term rate of return	7.00% per annum, compounded annually for 2014
Rate of compensation increase	2.0% per year in 2015 3.0% per year for all years after 2015
Retirement age	Estimated at rate based upon becoming eligible for retirement at ages ranging between 50 and 65 and older
Mortality basis	For healthy, RP-2014 Separate Mortality Tables with blue collar adjustment for males and females, with mortality rates increased 10%, projected using Scale MP-2014 with generational projection For disabled, 1985 pension disability for males and females
Discount rate	7.00% in 2014

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

4. Master Trust Investments

As of December 31, 2014, the Plan is one of two defined benefit pension plans combined into the Master Trust, of which TimkenSteel Corporation is the sponsor. The Trustee holds the assets of the Master Trust and executes transactions therein. Each month the Master Trust investment income (loss) and appreciation (depreciation) is allocated among the participating Plans based on each Plan's ending assets available after contributions and distributions to participants as a percentage of total Master Trust assets available. The Plan's interest in the net assets of the Master Trust at December 31, 2014 was 74.7%. Annually, the Company reports the financial position and changes in assets of the Master Trust in accordance with Department of Labor requirements under employer identification number 46-4024951.

5. Fair Value Measurements

The ASC Topic *Fair Value Measurements and Disclosures* defines fair value and provides guidance for measuring fair value and expands disclosures about fair value measurements in accordance with U.S. GAAP. *Fair Value Measurements and Disclosures* does not require any new fair value measurements, but rather applies to all other accounting pronouncements that require or permit fair value measurements. *Fair Value Measurements and Disclosures* establishes a framework for measuring fair value that provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

TimkenSteel Corporation Bargaining Unit Pension Plan

Notes to Financial Statements

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets measured at fair value on a recurring basis as of December 31, 2014:

	Assets at Fair Value as of December 31, 2014

Total Assets of Master Trust	\$ 1,147,847,887	\$ 418,529,304	\$ 200,321,467	\$ -

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statement of Net Assets Available for Benefits.

Following is a description of the valuation methodologies used for assets measured at fair value.

Cash and cash equivalents are valued at redemption value.

U.S. Government and agency securities are valued at the closing price reported in the active market on which the individual securities are traded.

Corporate bonds are valued at the closing price reported in the active market in which the bond is traded. There are no redemption requirements on these investments.

Equity securities (both common and preferred stock) are valued at the closing price reported in the active market in which the individual security is traded. There are no redemption requirements on these investments.

Common collective funds are valued based on a net asset value per share. The primary objective of common collective funds: a) equities - is to approximate the risk and return characteristics of global equity markets; b) fixed income - is to maximize total return by investing primarily in a diversified portfolio of intermediate and long-term debt securities. Each of the fund's investments provides for daily redemptions by the Plan, with notice requirements ranging from same day to fifteen days.

Limited partnerships include investments in funds that invest primarily in private equity, venture capital, and distressed debt. Limited partnerships are valued based on the Plan's ownership interest in the net asset value of the investment, which is used as a practical expedient to fair value per the underlying investment fund, which is based upon the general partner's own assumptions about the assumptions a market participant would use in pricing the assets and liabilities of the partnership. Each of the fund's investments provides for weekly to quarterly redemptions by the Plan, with notice requirements ranging from five to 45 days.

TimkenSteel Corporation Bargaining Unit Pension Plan
Notes to Financial Statements

Real estate investments include funds that invest in companies that primarily invest in commercial and residential properties, commercial mortgage backed securities, debt and equity securities of real estate operating companies, and real estate investment trusts. Mutual funds real estate are valued based on the closing price reported in the active market in which the individual security is traded. Other real estate investments are valued based on the Plan's ownership interest in the net asset value of the investment, which is used as a practical expedient to fair value per the underlying investment fund, which is based on appraised values and current transaction prices. Each of the fund's investments provides for weekly to quarterly redemptions by the Plan, with notice requirements ranging from five to 45 days.

When such prices are unavailable, the Trustee determines a valuation from the market maker dealing in the particular security. Management may also estimate the value of an investment if no other information is available.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. Securities Lending

The Master Trust is authorized to engage in the lending of certain investments. Securities lending is an investment management enhancement that utilizes certain existing securities of the Master Trust to earn additional income. Securities lending involves the loaning of securities to approved banks and broker/dealers.

In return for the loaned securities, the Trustee, prior to or simultaneous with delivery of the loaned securities to the borrower, receives collateral in the form of cash or U.S. government securities as a safeguard against possible default of any borrower on the return of the loaned securities under terms that permit the Master Trust to re-pledge or sell the securities. Each securities lending transaction is initially collateralized to the extent of 105% of the market value of the loaned securities. The collateral is marked to market on a daily basis. In the event the counterparty is unable to meet its contractual obligation under the securities lending arrangement, the Master Trust may incur losses equal to the amount by which the market value of the securities differ from the amount of collateral held.

The Master Trust mitigates credit risk associated with securities lending arrangements by monitoring the fair value of the securities loaned on a daily basis with additional collateral obtained or refunded as necessary.

The Master Trust maintains full ownership rights to the securities loaned and accordingly, classifies loaned securities as investments. Since the securities received as collateral may be re-pledged or sold, the Master Trust recognizes the amount of collateral received and a corresponding obligation to return such collateral on the Statement of Net Assets Available for

TimkenSteel Corporation Bargaining Unit Pension Plan
Notes to Financial Statements

Benefits. The fair value of securities on loan was approximately \$237 million and the fair value of collateral was approximately \$242 million at December 31, 2014.

7. Income Tax Status

The Plan applied for a determination letter from the IRS in February 2015 and is awaiting its receipt at the filing date of the financial statements. The Plan Administrator and the Plan's counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code (IRC) and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the tax authorities. The Plan Administrator has concluded, as of December 31, 2014, that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan has recognized no interest or penalties related to uncertain tax positions.

8. Risks and Uncertainties

The Master Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

9. Plan Compliance

During 2015, the Company identified five instances from July 2014 through November 2014 whereby certain beneficiary payments in the net amount of \$5,085,799 were erroneously paid from the TimkenSteel Corporation Retirement Plan (Retirement Plan) versus the Plan. As such, this amount is recorded as a payable to the Retirement Plan on the Statement of Net Assets Available for Benefits at December 31, 2014. The Company, in coordination with the Trustee, has made the necessary corrections to the corresponding 2014 monthly payment amounts between the plans, including the corresponding adjustment to earnings and the accumulated plan benefits as of December 31, 2014 (see also Note 3).

SCHEDULE SB ATTACHMENTS

Demographic Assumptions

Inclusion date The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees It was assumed there will be no new or rehired employees. Employees on layoff are assumed to retire or terminate two years from the first valuation date after their date of layoff.

Mortality

● **Healthy** For funding purposes, the prescribed mortality assumption under Section 430(h)(3)(A) of the Internal Revenue Code using static tables with separate mortality rates for annuitants and non-annuitants.

● **Disabled** 1985 pension disability for males and females. For funding purposes, healthy mortality is used.

Termination

Percentage leaving during the year		
Attained Age	Males	Females
20	11.199	18.710
25	7.435	11.199
30	5.163	7.435
35	3.627	5.163
40	2.068	3.627

SCHEDULE SB ATTACHMENTS

Form of payment	Participants are assumed to elect the normal form.
Percent married	80% of males; 50% of females. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement.
Spouse age	Wife three years younger than husband.
Covered pay	Compensation assumed paid in the current year beginning on the valuation date is the current hourly rate of pay. Associates work 2,080 hours per year plus 5.00% overtime paid at time plus one-half time.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2013 plan year). The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	Shutdown Benefits: No contingent liability for potential plan shutdown benefits has been included.
Change in assumptions and methods since prior valuation	N/A

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

SCHEDULE SB ATTACHMENTS

Schedule SB Additional Information as of January 1, 2014

Effective May 1, 2014, the TimkenSteel Corporation Bargaining Unit Pension Plan (Bargaining Plan) was created from a spinoff from The Timken Company Pension Plan (Pension Plan, PN:001) sponsored by The Timken Company (EIN: 34-0577130). This resulted in a short plan year for the Bargaining Plan beginning May 1, 2014 and ending December 31, 2014. To the best of our knowledge, the spinoff was completed in compliance with the requirements of Section 401(a)(12) and Section 414(l) of the Code.

When available, we have relied on post-PPA guidance related to spinoffs. In other instances, we have applied reasonable interpretations based on pre-PPA guidance. As a result of this spinoff, we are providing additional information for the short plan year beginning May 1, 2014 as follows:

Lines 1 to 3, 6, 31 and 32: The most recent valuation date for the Pension Plan was January 1, 2014. Per available guidance, the plans were split based on the January 1, 2014 valuation and the minimum required contribution for the Bargaining Plan for the plan year beginning May 1, 2014 is based on a proration of the full year's results as of January 1, 2014 for the Bargaining Plan.

Lines 7 to 12: Because this is the first plan year for the plan, we have left these items blank.

Line 13: We have entered the amount of prefunding balance transferred to the Bargaining Plan as of the valuation date as a result of the spinoff.

Line 16: This percentage was inherited from the pre-spinoff Pension Plan for the prior plan year.

Normal Retirement Benefit

Normal Retirement Date: Age 65.

Normal Monthly Pension:

(a) For associates hired prior to November 1, 2009:

For up to 25 years of service, 1.165% of average monthly compensation during highest 130 out of the last 260 bi-weekly pay periods immediately preceding retirement per year of service. For service earned over 25 years but less than 35 years, 1.515% of such average compensation per year of service. For service earned at or above 35 years or more, 1.265% of such average compensation per year of service. Such benefit is subject to a minimum of:

\$56.25 per month per year of service for service up to 30 years for service earned prior to January 1, 2012.

\$75.00 per month per year of service for service at or beyond 30 years for service earned prior to January 1, 2012.

Effective January 1, 2012, the above dollar multiplier increases for future service only as follows:

\$67.00 per month per year of service for service up to 30 years.

\$85.00 per month per year of service for service at or beyond 30 years.

(b) For associates hired on or after November 1, 2009:

\$45.00 per month per year of service for service up to 30 years.

\$60.00 per month per year of service for service at or beyond 30 years.

Form of Payment

The benefit formula determines an amount of Life Annuity benefit; however, each married participant who does not elect otherwise will receive a Joint Annuity, in a reduced amount, with 50% continuation to a surviving spouse.

Retirement benefits, regardless of optional form, are payable as a 5 year certain benefit, in addition to the form of payment elected.

Disability Benefit

Eligibility:

If disabled after 15 years of service, such disability continuing at least 5 months, the associate is eligible for a pension as determined in the "Normal Retirement Benefit" section above. A disability pensioner hired prior to November 1, 2009 will receive an additional \$400 monthly supplement until such time as he is eligible for unreduced Social Security benefits or until age 62, if earlier.

Early Retirement

(a) For associates hired prior to November 1, 2009:

Permitted between age 60 and 65 if 15 or more years of service for normal pension benefits, subject to actuarial reduction for commencement prior to age 62, except reduction not applicable if service is 25 years or more. An associate may retire voluntarily on full pension if he has at least 30 years of service.

(b) For associates hired on or after November 1, 2009:

Permitted if associate has attained either:

- (i) age 62 with 15 or more years of service, or
- (ii) age 60 with 25 or more years of service, or
- (iii) 30 or more years of service.

The normal pension benefit is subject to a reduction of 3% per year for associates who retire before age 65, except the reduction is not applicable if, at retirement, age plus service is equal to or greater than 85 and age is at least 55.

Vested Benefits Upon Termination of Service

Associates terminating with at least 5 years of service are eligible for normal pension and payable without actuarial reduction commencing at age 65. If an associate hired before November 1, 2009 has at least 15 years of service at termination, benefits can commence at any time after age 60, but will be actuarially reduced if commencing before age 65. If an associate is hired on or after November 1, 2009 and has at least 15 years of service at termination, benefits can commence at any time after age 62 but will be actuarially reduced if commencing before age 65. If an associate has at least 25 years of service at termination, benefits can commence at any time after age 60 but will be actuarially reduced if commencing before age 65.

Rule of 70/80 Benefit

If an associate is laid off (1) after age 55 and 15 years of service with combined age and service equal to 70 or more, or (2) after 15 years of service with age and service equal to 80 or more, because of permanent plant shutdown, reduction in force, or disability, full pension is payable (except for employees hired on or after November 1, 2009 the pension is reduced as described under "Early Retirement"), subject to proper application following notification by the administrator. A terminated associate who satisfies (1) or (2) above and was hired prior to November 1, 2009, will receive an additional \$400 monthly until such time as he is eligible for unreduced Social Security benefits or until age 62, if earlier.

Rule of 65 Benefit

If (1) an associate is laid off after 20 years of service with a combined age and service equal to 65 or more because of permanent plant shutdown, reduction in force, or disability, and (2) the associate has not refused an opportunity for employment with the Company, full pension is payable (except for employees hired on or after November 1, 2009 the pension is reduced as described under "Early Retirement"), subject to proper application following notification by the administrator. A terminated associate who satisfies (1) and (2) above and was hired prior to November 1, 2009 will receive an additional \$400 monthly until such time as he is eligible for unreduced Social Security benefits or until age 62, if earlier.

Special Retirement Payment

Associates hired prior to November 1, 2009 are eligible for a Special Retirement Payment. To calculate this benefit, the average straight time hourly rate during two pay periods before retirement is multiplied by 400 for associates with 14 to 18 years of service or by 360 for associates with 18 years of service or over. Regular pension payments, as indicated above, then commence three months after this payment is made from the Pension Fund.

Optional Benefits

Survivorship options are available at appropriate actuarial factors. Benefits for married associates are payable in the form of a 50% joint and survivor option unless the associate elects otherwise.

Surviving Spouse's Benefit/Death Benefit

Participants who have been married one year and who have completed 15 years of service at the time of their death are eligible for a pre-retirement spouse's benefit equal to 50% of their accrued benefit. The minimum benefit is \$200 per month.

If a married participant dies with between 5 and 15 years of service, his spouse is entitled to a benefit for her lifetime commencing the first of the month following the date that the participant could have retired had he lived and continued working. The benefit is determined assuming the participant terminated employment in the month preceding his death and had elected a 50% joint and survivor option to begin on the first day he could have elected his retirement benefits to begin.

Participants who are married at retirement are eligible for a post-retirement spouse's benefit equal to 50% of their accrued benefit minus 50% of the spouse's Social Security benefit. The minimum benefit is \$150 per month.

Beneficiaries of active participants who die with at least 30 years of service will receive a benefit for 60 months equal to the participants accrued benefit before any survivor benefits are paid.

Special Pension Benefit Option

This option is available to all associates hired prior to November 1, 2009 with 30 or more years of service at the time of retirement, or who are age 60 with at least 25 years of service. Eligible associates who retire and choose this option will receive a minimum monthly pension of \$1,500. The supplemental amount added to the regular pension will be at least \$400 per month.

This special benefit will be paid until the age of eligibility for 80 percent Social Security benefits as established by existing law (age 62 for those born prior to 1937) or for a minimum of 12 payments. After this time, payments to retirees choosing this option will revert to the pension amount calculated according to minimum or percentage formulas.

An associate retiring with at least 30 years of service who was hired prior to November 1, 2009 may elect to instead receive a minimum monthly benefit based on the following schedule:

Age at Retirement	Minimum Monthly Benefit
Less than 55	\$1,000
