VELOCITY EXPRESS, LLC 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013
(MODIFIED CASH BASIS)

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Velocity Express, LLC 401(k) Plan (Plan) is provided for general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan was formed effective February 1, 2010 in connection with the termination of the Velocity Express, Inc. 401(k) Retirement Plan. Participants were given the option of taking a distribution or transferring their funds from the terminated plan into this Plan. During the plan year ended December 31, 2013, Velocity Express was acquired by Dynamex. Effective December 31, 2014, the Board of Directors passed a resolution to merge the Velocity Express, LLC 401(k) Plan into the Dynamex 401(k) Plan, thus terminating the Plan.

General - The Plan was a defined contribution Plan covering all former full-time employees of Velocity Express, LLC (Company) (except union employees, nonresident alien employees, leased employees and employees working outside the United States) who had at least 2 months of service and were age 20 or older. Effective January 1, 2014, no new participants were accepted into the Plan. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants contributed a portion of their eligible annual compensation as defined by the Plan within the salary deferral limitations imposed by Section 401(k) of the Internal Revenue Code (IRC). Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants were also able to contribute amounts representing distributions from other qualified defined benefit or contribution plans. Effective January 1, 2014, all Velocity employees became employees of Dynamex; therefore, except for contributions withheld but not yet remitted as of December 31, 2013, there were no employee contributions to the Plan in 2014. Employer matching contributions were equal to a discretionary percentage of each participant's contribution, as determined by the Company's Board of Directors. The Company made no matching contributions during 2014.

Participant Accounts - Each participant's account was credited with the participant's contributions and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that could have been provided from the participant's vested account.

Vesting - Participants were immediately vested in their voluntary contributions and actual earnings thereon. Vesting in the Company's contribution portion of participants' accounts was based on years of continuous service. Under the Velocity 401(k) Plan, a participant was 100% vested after five years of credited service.

Notes Receivable from Participants - Participants were able to borrow from their fund accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance, reduced by the highest outstanding loan balance in the prior 12-month period. The loan terms ranged from two to five years, provided, however, that if such loan were to be used to acquire or construct any dwelling unit that was to be used as a principal residence, the loan was to be repaid over a period not to exceed 15 years. A participant was not permitted to have more than two loans outstanding at one time. Participant loans were secured by the participant's vested account balance, and bore interest at 1% over the prime lending rate published in the *Wall Street Journal* on the first day of the month before the loan was originated. Principal and interest were paid ratably through payroll deductions.

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

Investment Options - Participants directed the investment of their contributions to various investment options offered by the Plan.

Payment of Benefits - Upon termination of service, death, disability or retirement, participants or beneficiaries were entitled to a distribution equal to the total value of the vested interest in their accounts. Participant distributions due to death, disability or retirement were 100% vested in the Plan. All participants with account balances of less than \$1,000 received mandatory lump-sum distributions upon termination. Accounts of terminated participants with balances in excess of \$1,000, but less than \$5,000, were deposited into the specified IRA account with the trustee, unless otherwise instructed by the participant. In-service withdrawals were permitted in the event of severe and immediate financial hardship or attainment of age 59-1/2. Withdrawals based on financial hardship resulted in a suspension of employee contributions for six months.

Forfeited Accounts - Forfeitures were used to reduce future employer contributions or to pay Plan expenses. There were no forfeited amounts as of December 31, 2014.

Administrative Expenses - Expenses related to Plan administration were paid from Plan assets (either from the use of Plan forfeitures or by allocations of costs to participant accounts), except to the extent the expenses were paid (or reimbursed) by the Company. Participants electing to withdraw their 401(k) contributions or take out loans were charged a fee, which was deducted from that participant's account.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of significant accounting policies applied by the trustee in preparation of the accompanying financial statements follows:

Basis of Accounting - The financial statements of the Plan were prepared using the modified cash basis of accounting that the Plan uses for tax reporting. The basis differs from accounting principles generally accepted in the United States of America primarily because the statement of net assets available for benefits and the statement of changes in net assets available for benefits reflect only cash received, cash disbursed, changes in fair value of investments, and the notes held by participants. Therefore, contributions receivable, payables and accrued income and expenses, which may be material, were not reflected in the accompanying financial statements.

Use of Estimates - The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of the assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments were reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's retirement committee determined the Plan's valuation policies utilizing information provided by the investment advisors, custodians and insurance company. See Note 6 for discussion of fair value measurements. Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the cash basis. Dividends were recorded on the ex-dividend date.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Net appreciation included the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefits were recorded when paid.

Notes Receivable from Participants - Notes receivable from participants were measured at the unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans were reclassified as distributions based upon terms of the Plan document.

Subsequent Events - Management has evaluated subsequent events through October 12, 2015, which is the date that the financial statements were available to be issued.

NOTE 3 - INVESTMENT CONTRACTS WITH INSURANCE COMPANY

The Plan had an investment contract with Great-West Life & Annuity Insurance Company (Great-West). Great-West maintained the contributions in a pooled account. The account was credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by Great-West. The contract was included in the financial statements at contract value, which approximated fair value, which represented contributions made under the contract, plus earnings, less withdrawals and administrative expenses. The average yield of the Great-West contract was 1.25% and 1.26% for the plan years ended December 31, 2014 and 2013, respectively.

NOTE 4 - TAX STATUS

The Plan was designed under the provisions of an Orchard Trust Company prototype Plan. The Internal Revenue Service (IRS) determined and informed Orchard Trust Company, by a letter dated March 31, 2014, that the prototype Plan utilized by the Plan was designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan operated in reliance on the prototype Plan determination letter, and the Plan administrator believed that the Plan was designed and was operated in compliance with the applicable requirements of the IRC, and therefore believed that the Plan is qualified and was tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator analyzed the tax positions taken by the Plan, and concluded that, as of December 31, 2014, there were no uncertain positions taken or expected to be taken that have required recognition of a liability (or asset) or disclosure in the financial states. The Plan was subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believed that the Plan was no longer subject to income tax examinations for years prior to 2011.

NOTE 5 - INVESTMENTS

There were no investments in the Plan as of December 31, 2014, however, the following presents investments that represent 5% or more of the Plan's net assets at December 31, 2013:

	<u>2013</u>
JP Morgan Smartretirement 2025 A	\$ 3,660,617
JP Morgan Smartretirement 2015 A	2,304,180
JP Morgan Smartretirement 2035 A	1,790,997

NOTE 6 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTE 6 - FAIR VALUE MEASUREMENTS (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Guaranteed Investment Contract/Guaranteed Portfolio Fund: Valued at fair value using a discounted cash flow valuation methodology where the interest rate for the investment contract is reset at least as frequently as annually (See Note 3).

The methods previously described might produce a fair value calculation that might not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believed that its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Effective December 31, 2014, the Plan merged with another plan, and the Plan assets were transferred into that plan; therefore, there are no Plan assets to report at December 31, 2014.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value, which approximates fair value as of December 31, 2013:

	<u>Assets at Fair Value as of December 31, 2013</u>			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds:				
Target date funds	\$ 8,163,540	-	-	\$ 8,163,540

NOTE 7 - CERTIFICATION

The Plan administrator received certification from Great-West Life & Annuity Insurance Company, the custodian of the Plan's assets, as to the completeness and accuracy of the investments and related investment income. Such information included the composition and current value of the investments reported in the statement of net assets available for Plan benefits and the related investment income reported in the statement of changes in net assets available for Plan benefits.

NOTE 8 - TRANSACTION WITH PARTY-IN-INTEREST

Certain Plan investments included a guaranteed investment contract managed by Great-West. Great-West Retirement Services, Inc., a wholly owned subsidiary of Great-West, was the custodian defined by the Plan and, therefore, Plan transactions qualified as party-in-interest. Fees paid by the Plan to related parties for the investment management services and for Plan expenses amounted to approximately \$9,000 for the year ended December 31, 2014. In addition, participant loans were considered party-in-interest transactions, since these participants had a vested interest in Plan assets.
