Note 1 – Description of Plan

The following description of the Freshfields Bruckhaus Deringer US LLP 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established effective January 1, 1999 and most recently amended effective January 1, 2012 to include in-plan Roth rollover contributions. The Plan adopted the Automatic Data Processing ("ADP") Flexible Defined Contribution Prototype Plan and Trust on April 1, 2011 and restated the Plan. Non-union, non-leased employees of Freshfields Bruckhaus Deringer US LLP (the "Partnership" or "Employer") become eligible to participate the following quarter after being hired and attaining the age of 21. Nonresident aliens who do not receive any earned income from the Employer which constitutes United States source income and employees who are residents of Puerto Rico are not eligible to make contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Board of Trustees are responsible for oversight of the Plan. Management of the Partnership determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

Contributions

Participants may contribute a pre-tax amount equal to not less than 1 percent and not more than 60 percent of their pre-tax annual compensation as defined in the Plan. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan accepts Roth Elective Deferrals made on behalf of participants. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants direct their contributions and the employer contributions into various investment options offered by the Plan. The Employer contributes 50 percent limited to the first 6 percent of certain participant's base compensation that the participant contributes to the Plan, not including catch-up contributions. Certain highly compensated participants are subject to certain employer contribution limitations as defined in the Plan agreement. During the years ended December 31, 2014 and 2013, the Partnership made $493,473 and $378,254 of matching contributions, respectively. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Partnership's matching contribution, as well as an allocation of Plan earnings, and charged with an allocation of Plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. The vesting in the Partnership's contribution portion of the participants' accounts is based on years of continuous service. A participant becomes 20 percent vested after one year of service, 40 percent vested after two years of service, 60 percent after three years of service, 80 percent after four years of service and 100 percent vested after five years of service. However, if an active participant dies or becomes totally and permanently disabled prior to attaining the normal retirement age, the participant's account becomes 100 percent vested.

Note 1 – Description of Plan (continued)

Forfeited Accounts
Forfeitures of non-vested accounts are used to reduce Plan expenses and contributions by the Employer. At December 31, 2014 and 2013, forfeited non-vested accounts totaled $7,618 and $9,715, respectively. For the years ended December 31, 2014 and 2013 $9,624 and $43,840, respectively were used to offset Plan expenses and Partnership contributions.

Payment of Benefits
On termination of service including death, disability or retirement, a participant with a vested interest over $1,000 may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or delay the distribution until required by law to receive a required minimum distribution. Upon death or retirement if your vested interest is over $5,000 you or your beneficiary may elect to receive equal annual installments at least equal to the required minimum distribution amount. Vested balances with less than $1,000 will receive a lump sum distribution. Distributions are subject to the applicable provisions of the Plan agreement.

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the vested balance in the participants' account and bear interest at rates ranging from 4.25% to 6.00%, which are equal to the banks prime rate plus 1%. The loans must be repaid over a period not to exceed five years or ten years for the purchase of a primary residence. Principal and interest is paid through semi-monthly payroll deductions.

Note 2 – Summary of Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contract (a stable value fund held under a common collective trust) as well as the adjustment, if applicable, of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared using the contract value basis for fully-benefit responsive investment contracts.

Use of Estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment in the stable value fund (the Fund), a collective trust for the years ended December 31, 2014 and 2013, is based on the fair value of the underlying investments as reported and certified by the trustees.

Note 2 – Summary of Accounting Policies (continued)

The Fund has an investment objective to receive a constant rate of return on funds. Generally, there are no restrictions on a participant's ability to redeem their investment in the Fund; however, withdrawals prompted by certain events may restrict a participant's ability to redeem the investment. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Management of the Employer determines the Plan's valuation policies utilizing information provided by the Plan's investment advisers, trustees and insurance Company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrued basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. No allowance for credit losses have been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits
Benefits are recorded when paid by the Plan.

Administrative Expenses
The Plan's expenses are paid either by the Plan or the Partnership as provided by the Plan document. Certain administrative expenses of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits. Expenses that are paid by the Partnership are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events
The Plan has evaluated subsequent events for potential recognition or disclosure in the financial statements through September 30, 2015, the date the financial statements were available to be issued.

Note 3 – Investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2014 and 2013, and net appreciation in the fair value of investments, interest and dividends for the years then ended, was obtained and derived from information supplied to the plan administrator and certified as complete and accurate by Reliance for the year ended December 31, 2014 and DWS for the year ended December 31, 2013 (the trustees of the plan).

Note 3 – Investments (continued)

The assets of the plan are invested at the direction of the participants in various investment funds at December 31, 2014 and 2013.

The following presents investments that represent 5 percent or more of the Plan's net assets:

	December 31, 2014	2013
Investments at fair value:		
Pimco Real Return Fund - A 188,871 and 178,404 units, respectively	$2,062,468	$1,957,087

Investments at contract value:		
Common Collective Trust Invesco Stable Asset ADP30 2,827,210 and 2,634,844 units, respectively	2,827,210	2,634,844

* Investment was not over 5% threshold of specified year.

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated for the years ended December 31, 2014 and 2013 by $580,744 and $2,835,309 respectively, as follows:

	2014	2013
Mutual funds	$ 119,738	$ 2,044,668
Common/collective trusts	461,006	790,641
	$ 580,744	$ 2,835,309

Note 4 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The levels of the hierarchy and those investments included in each are as follows:

Note 4 – Fair Value Measurements (continued)

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability access.
Level 2	Inputs to the valuation methodology include • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the assets or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the assets or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. If the Plan were to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 – Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013:

December 31, 2014

	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Common/Collective trusts				
Invesco National Trust	$2,868,488	n/a	Daily	30 Days
State Street Bank and Trust (various trusts)	$4,592,834	n/a	Daily	30 Days

Note 4 – Fair Value Measurements (continued)

Invesco National Trust	$2,660,929	n/a	Daily	30 Days
State Street Bank and Trust (various trusts)	$3,659,308	n/a	Daily	30 Days

Note 5 – Plan Termination

Although it has not expressed any intent to do so, the Partnership has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

Note 6 – Tax Status

The Automatic Data Processing Plan ("ADP") Flexible Defined Contribution Prototype Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable sections of the Internal Revenue Code (IRC). As of April 1, 2011, the Plan adopted the ADP Prototype Plan and Trust. The Plan has been amended since adopting the ADP plan and receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, no uncertain positions are taken or are expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to tax examinations for years prior to 2011.

Note 7 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the statements of net assets available for benefits.

Note 8 – Related Party Transactions

Certain Plan investments are managed by Reliance in 2014 and DWS in 2013 the trustees as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid by revenue sharing, rather than direct payment.

Note 9 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2014 and 2013:

	2014	2013
Net assets available for benefits per the financial statements	$29,293,465	$24,671,513
Adjustment from contract value to fair value	41,278	26,085
Net assets available for benefits per Form 5500	$29,334,743	$24,697,598

The following is a reconciliation of the changes in net assets available for benefits per the financial statements to the Form 5500 for the years ended December 31, 2014 and 2013:

	2014	2013
Net increase in assets available for benefits per the financial statements	$ 4,621,952	$ 5,721,522
Adjustment from contract value to fair value for investment contract at beginning of year	(26,085)	26,085

Net increase in assets available for benefits per the Form 5500	$ 4,637,145	$ 5,747,607

Investment contracts are recorded at fair value on the Form 5500 and are adjusted to contract value on the statements of net assets available for benefits and at contract value on the statements of changes in net assets available for benefits (see Note 2).
