Report on the Financial Statements

I was engaged to audit the accompanying financial statements of Precision Components International, Inc. Defined Benefit Plan which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America: this includes the design, implementation, maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, I was not able to obtain sufficient appropriate evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed me not to perform, and I did not perform, any auditing procedures with respect to the information summarized in Note E, which was certified by MassMutual, the trustees of the Plan, except for comparing the information with the related information included in the accompanying financial statements and schedules. I have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of and for the years ended December 31, 2014 and 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, I have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, I do not express an opinion on these financial statements.

Other Matter

The supplemental schedules, statements of assets held for investment and the schedule of reportable transactions as of or for the year ended December 31, 2014 are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, I do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by me in accordance with auditing standards generally accepted in the United States of America and, in my opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

PRECISION COMPONENTS INTERNATIONAL, INC. DEFINED BENEFIT PENSION PLAN

NOTE A--SIGNIFICANT ACCOUNTING POLICIES

Accounting Records: The financial statements of the Plan are prepared on the accrual basis.

Investments: Investments, primarily pooled separate accounts(PSA), are maintained and managed by Mass Mutual. Investments are recorded at fair value. The fair value of the investments as reflected in the accompanying financial statements have been determined by Mass Mutual for assets held by them.

The changes in the difference between current value and the cost of investments at the beginning of the year and the end of the year, as adjusted for sales during the year of investments held at the beginning of the year, is reflected in the statement of changes in net assets available for plan benefits as unrealized appreciation or depreciation in the aggregate current value of investments.

The realized gain or loss on investments is the difference between the proceeds received and the current value as of the end of the preceding year.

Use of Estimates: The preparation of financial statements in conformity with generally accepted accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties: The Plan invests in various investments securities(primarily pooled separate accounts with MassMutual).Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risks associated with certain investment options, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could be materially affect the amounts reported in the statement of net assets available for plan benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Subsequent events: The Plan has evaluated subsequent events through October 1, 2015 the date the financial statements were available to be issued. See note below on the scheduled merger of the Plan on December 31, 2015.

Payment of Benefits: Benefits are recorded when paid.

Information Certified by Trustee: In accordance with DOL regulations, the audit may be restricted with respect to assets held and transactions executed by certain institutions. In an ERISA limited scope audit, the plan administrator can instruct the auditor to limit the scope of testing in investment information prepared and certified by a qualified trustee, custodian, or insurance company as complete and accurate.

NOTES TO FINANCIAL STATEMENTS

PRECISION COMPONENTS INTERNATIONAL, INC. DEFINED BENEFIT PENSION PLAN-CONTINUED

NOTE A—SIGNIFICANT ACCOUNTING POLICIES-Continued

Actuarial Present Value of Accumulated Plan Benefits: Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on credited service through the valuation date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits were determined by actuaries from Mass Mutual and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations for December 31, 2014 and 2013 were (a) salary increase rate of 3% , (b) discount rate for obligations of 8% (c) investment returns of 7.5%.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

NOTE B--DESCRIPTION OF THE PLAN

Formation: Effective March 1, 1995, Precision Components International, Inc. (PCI) was spun off from United Technologies Corporation (UTC). Precision Components International, Inc. assumed sponsorship of a qualified retirement plan to provide benefits to those employees previously covered under the United Technologies Corporation Retirement Plan.

The actuarially determined assets of the employees spun off to PCI were determined as of March 1, 1995. These assets were held in the trust of UTC's retirement plan as of December 31, 1995. They were transferred to PCI's Plan during 1996 along with accrued earnings.

General: Precision Components International, Inc. Defined Benefit Pension Plan is a defined benefit plan which covers all employees of the Company other than those covered by a collective bargaining agreement unless otherwise agreed to by the Company.

Plan Merger: On December 31, 2015, the Plan will be merged into the United Technologies Corporation Employee Retirement Plan. The benefits accrued under the Plan will be frozen as of that date. United Technologies Corporation is the parent company of Pratt Whitney who acquired Precision Components International, Inc. on July 7, 2014.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE B--DESCRIPTION OF THE PLAN - Continued

Benefits: A participant who retires at his normal retirement age (65) shall be entitled to receive a retirement benefit payable monthly during his lifetime based on years of service and final average earnings as defined in the Plan.

The Plan permits early retirement at ages 55 - 64 with 10 years of service. Benefits are reduced by a percentage for each year of retirement before normal retirement age. If employees terminate before rendering 5 years of service, they forfeit the right to receive their accumulated plan benefits.

If an active employee dies at age 55 or older, with 5 years of service, the eligible spouse, if any, shall receive monthly payments in the form of joint and survivor annuity as computed under the Plan. Active salaried employees who become totally disabled before age 65 and have completed 10 years of service shall be entitled to monthly benefits equal to the normal retirement benefits they have accumulated as of the time they become disabled. Active hourly employees who become totally disabled before age 65 may be eligible for a Disability Retirement Annuity prior to reaching normal retirement age.

Plan Expenses: Certain administrative expenses of the Plan are paid by the Sponsor.

Contributions to the Plan: The Company has agreed to contribute such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to Plan participants. The contributions for 2014 and 2013 met or exceeded the minimum funding requirements of ERISA.

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. (see note below pertaining to the scheduled merger of the Plan)

Termination of the Plan: In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits former employees or their beneficiaries have been receiving for at least three years, or those employees eligible to retire for that three year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U. S. governmental agency) up to the applicable limitations (discussed below).
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All nonvested benefits.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

NOTE B--DESCRIPTION OF THE PLAN - Continued

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2014 and 2013 that ceiling, which is adjusted periodically, were \$4,943 and \$4,790 per month, respectively. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

NOTE C--INCOME TAX STATUS

The Plan obtained its latest determination letter on September 25, 2014, in which the Internal Revenue Service states that the Plan as then designed, was in compliance with the applicable requirements of the Internal Revenue Code and is, therefore, not subject to tax under the present income tax laws.

Accounting principles generally accepted in the United States of America required plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions, however there are currently no audits for any tax period in progress. All years of the plan's existence are subject to audit at this time.

NOTE D--ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are summarized as follows:

	January 1,	
	2014	2013
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	\$ 9,331,808	\$ 8,637,304
Other participants	<u>20,434,332</u>	<u>19,314,726</u>
	29,766,140	27,952,030
Nonvested benefits	<u>0</u>	<u>0</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 29,766,140</u>	<u>\$ 27,952,030</u>

Increase in accumulated plan benefits is due primarily to accumulation of additional benefits for participants' additional year of service of \$2,695,236, decrease due to disbursements of \$933,461 and increase due to other changes of \$52,335.

NOTE I—FAIR VALUE MEASUREMENTS

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

NOTES TO FINANCIAL STATEMENTS – CONTINUED

NOTE I—FAIR VALUE MEASUREMENTS —CONTINUED

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodology used for December 31, 2014 and 2013.

Pooled separate accounts(psa)-- value determined on a participant unit basis. The balance of participant units credited to the equity accounts held on behalf of the Plan are multiplied by the current units value which is valued daily based on investment results. The value of each psa is based on the value of the mutual fund shares held by each fund.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
