Fontana Fasteners, Inc. 401(k) Plan

Notes to Financial Statements February 4, 2015, December 31, 2014, and December 31, 2013

Note 1 - Plan Description

In December 2014, resolutions were approved to merge the assets of Fontana Fasteners, Inc. 401(k) Plan (the "Plan") with a qualified retirement plan sponsored by Acument Global Technologies, Inc. (Acument), an entity under common control. The transfer of plan assets and the merger were finalized on February 4, 2015, effectively terminating the Plan.

The following description of Fontana Fasteners, Inc. 401(k) Plan (formerly known as LEP Special Fasteners, Inc. 401(k) Plan) provides only general information regarding the Plan, prior to the plan merger. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan was established by Fontana Fasteners, Inc. (f/k/a LEP Special Fasteners, Inc.) (the "Company") on March 1, 2007 and covers all employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Any covered employee of the Company or an affiliated employer (which includes Fontana America, Inc., the parent company of the plan sponsor, and the now defunct Fontana USA, Inc., which merged operations with the Company effective February 2, 2013), participants were eligible to participate in the Plan on the first day of the plan quarter following the date the individual met the eligibility requirements.

Contributions - Participants may elect to make 401(k) deferral contributions up to 90 percent of their total earnings. These contributions are made out of pretax earnings and are subject to certain Internal Revenue Service (IRS) limitations.

Participants may also contribute, with the consent of the plan administrator, amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Plan provides for employer matching contributions of 50 percent of the participant's contribution not to exceed 6 percent of the employee's compensation.

The Company may make a discretionary qualified nonelective contribution to each participant based on a uniform percentage of each participant's compensation. The Company did not make any discretionary contributions to the Plan for the period from January 1, 2015 through February 4, 2015 and for the year ended December 31, 2014.

Participant Notes Receivable - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balances. Loan terms range from one to five years. However, a loan may exceed five years if used for the purchase of a principal residence. The loans are secured by the balance in the participant's vested account and bear interest at a reasonable fixed rate, which was commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Fontana Fasteners, Inc. 401(k) Plan

Notes to Financial Statements February 4, 2015, December 31, 2014, and December 31, 2013

Note 1 - Plan Description (Continued)

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting - Participants are immediately 100 percent vested in employee salary and rollover contributions and any income or loss thereon. Participants vest in their employer matching and discretionary contribution accounts based on years of service with the Company or an affiliated employer (which includes Fontana America, Inc., the parent company of the plan sponsor, and the now defunct Fontana USA, Inc., which merged operations with the Company effective January 1, 2012) in accordance with the following table:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2	0 %
2	50
3	100

Participant vesting carried over into the merged plan.

Benefit Payments - Distributions are payable upon death, disability, or termination of service. A participant may elect to receive the value of the participant's vested interest in his or her account in the form of a lump-sum payment. Active participants may also begin taking tax-free distributions from the Plan upon reaching the age of 59½.

Hardship Withdrawals - Participants may request that all or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions.

No forfeitures were used to reduce employer matching contributions for the period from January 1, 2015 through February 4, 2015. During the plan year ended December 31, 2014, forfeitures of \$25,483 were used to reduce employer matching contributions.

Notes to Financial Statements February 4, 2015, December 31, 2014, and December 31, 2013

Note 1 - Plan Description (Continued)

Party-in-interest Transactions - Certain plan assets are in investment funds managed by State Street Bank & Trust Company (State Street) or its affiliates. State Street is the trustee of the Plan and therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, no further contributions will be made to the Plan and all amounts credited to the participants' accounts will become 100 percent vested. The plan sponsor will direct the distribution of participant accounts in a manner permitted by the Plan as soon as is practical.

As further described above, all plan assets, participants, and their related account balances were transferred to a qualified retirement plan sponsored by Acument, effectively terminating the Plan on February 4, 2015.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value except as noted below. The stable value common collective trust fund investment is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of this common collective trust fund is based on the fair value of the underlying net assets at the measurement date by the issuer of the fund. The common stable value fund primarily holds guaranteed investment contracts, fixed-income securities, and derivatives. The fair value of the guaranteed investment contracts is based on current yields of similar instruments with comparable durations taking into account the contract terms, including interest reset intervals and the credit rating of the issuer. The fair values of the fixed-income securities are valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. The fair value of a wrapper contract provided by the contract issuer is based on the replacement cost methodology, which is the present value of the difference between the replacement wrapper fee and the contracted wrapper fee. The common collective trust fund primarily holds common collective trust fund and wrapper contracts. The common collective trust funds are valued at net asset value per share (or its equivalent) of the funds, which are based on the fair value of the funds' underlying net assets. The fair value of a wrapper contract provided by the contract issuer is based on the replacement cost methodology, which is the present value of the difference between the wrapper fee and the contracted wrapper fee. The remaining common collective trust funds are valued at net asset value per share (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets.

All other investments are valued based on quoted market prices. See Note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Fontana Fasteners, Inc. 401(k) Plan

Notes to Financial Statements February 4, 2015, December 31, 2014, and December 31, 2013

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 6, 2015, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

State Street Bank & Trust Company (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances as of February 4, 2015, December 31, 2014, and December 31, 2013 and related investment income and losses included in the financial statements for the period from January 1, 2015 through February 4, 2014 and for the year ended December 31, 2014 and supplemental schedule of assets held at end of year as of December 31, 2014 are based solely on information provided by the Trustee.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2014 and 2013.

Fontana Fasteners, Inc. 401(k) Plan

Notes to Financial Statements February 4, 2015, December 31, 2014, and December 31, 2013

Note 5 - Fair Value Measurements (Continued)

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Assets Measured at Fair Value on a Recurring Basis at December 31, 2014

- (1) This class represents investments in an actively managed common collective trust fund that invests primarily in investment contracts and a variety of fixed-income investments, which may include corporate bonds, both U.S. and non-U.S. municipal securities, and wrapper contracts. Investments are valued at the fair value per share multiplied by the number of shares held as of the measurement date. At year end, there are no unfunded commitments or other redemption restrictions related to the stable value fund described above.
- (2) This class represents investments in actively managed common collective trust funds that invest primarily in equity securities, which may include common stocks, options, and futures. There are no unfunded commitments or redemption restrictions with this class.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no transfers between levels of fair value hierarchy during the period from January 1, 2015 through February 4, 2015 and for the year ended December 31, 2014.

Note 6 - Tax Status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) indicating that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter.

Notes to Financial Statements February 4, 2015, December 31, 2014, and December 31, 2013

Note 6 - Tax Status (Continued)

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2011.

Fontana Fasteners, Inc. 401(k) Plan

Notes to Financial Statements February 4, 2015, December 31, 2014, and December 31, 2013

Note 1 - Plan Description

In December 2014, resolutions were approved to merge the assets of Fontana Fasteners, Inc. 401(k) Plan (the "Plan") with a qualified retirement plan sponsored by Acument Global Technologies, Inc. (Acument), an entity under common control. The transfer of plan assets and the merger were finalized on February 4, 2015, effectively terminating the Plan.

The following description of Fontana Fasteners, Inc. 401(k) Plan (formerly known as LEP Special Fasteners, Inc. 401(k) Plan) provides only general information regarding the Plan, prior to the plan merger. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan was established by Fontana Fasteners, Inc. (f/k/a LEP Special Fasteners, Inc.) (the "Company") on March 1, 2007 and covers all employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Any covered employee of the Company or an affiliated employer (which includes Fontana America, Inc., the parent company of the plan sponsor, and the now defunct Fontana USA, Inc., which merged operations with the Company effective February 2, 2013), participants were eligible to participate in the Plan on the first day of the plan quarter following the date the individual met the eligibility requirements.

Contributions - Participants may elect to make 401(k) deferral contributions up to 90 percent of their total earnings. These contributions are made out of pretax earnings and are subject to certain Internal Revenue Service (IRS) limitations.

Participants may also contribute, with the consent of the plan administrator, amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Plan provides for employer matching contributions of 50 percent of the participant's contribution not to exceed 6 percent of the employee's compensation.

The Company may make a discretionary qualified nonelective contribution to each participant based on a uniform percentage of each participant's compensation. The Company did not make any discretionary contributions to the Plan for the period from January 1, 2015 through February 4, 2015 and for the year ended December 31, 2014.

Participant Notes Receivable - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balances. Loan terms range from one to five years. However, a loan may exceed five years if used for the purchase of a principal residence. The loans are secured by the balance in the participant's vested account and bear interest at a reasonable fixed rate, which was commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Notes to Financial Statements February 4, 2015, December 31, 2014, and December 31, 2013

Note 1 - Plan Description (Continued)

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting - Participants are immediately 100 percent vested in employee salary and rollover contributions and any income or loss thereon. Participants vest in their employer matching and discretionary contribution accounts based on years of service with the Company or an affiliated employer (which includes Fontana America, Inc., the parent company of the plan sponsor, and the now defunct Fontana USA, Inc., which merged operations with the Company effective January 1, 2012) in accordance with the following table:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2	0 %
2	50
3	100

Participant vesting carried over into the merged plan.

Benefit Payments - Distributions are payable upon death, disability, or termination of service. A participant may elect to receive the value of the participant's vested interest in his or her account in the form of a lump-sum payment. Active participants may also begin taking tax-free distributions from the Plan upon reaching the age of 59½.

Hardship Withdrawals - Participants may request that all or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions.

No forfeitures were used to reduce employer matching contributions for the period from January 1, 2015 through February 4, 2015. During the plan year ended December 31, 2014, forfeitures of \$25,483 were used to reduce employer matching contributions.

Notes to Financial Statements February 4, 2015, December 31, 2014, and December 31, 2013

Note 1 - Plan Description (Continued)

Party-in-interest Transactions - Certain plan assets are in investment funds managed by State Street Bank & Trust Company (State Street) or its affiliates. State Street is the trustee of the Plan and therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination of the Plan, no further contributions will be made to the Plan and all amounts credited to the participants' accounts will become 100 percent vested. The plan sponsor will direct the distribution of participant accounts in a manner permitted by the Plan as soon as is practical.

As further described above, all plan assets, participants, and their related account balances were transferred to a qualified retirement plan sponsored by Acument, effectively terminating the Plan on February 4, 2015.

Notes to Financial Statements February 4, 2015, December 31, 2014, and December 31, 2013

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value except as noted below. The stable value common collective trust fund investment is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of this common collective trust fund is based on the fair value of the underlying net assets at the measurement date by the issuer of the fund. The common stable value fund primarily holds guaranteed investment contracts, fixed-income securities, and derivatives. The fair value of the guaranteed investment contracts is based on current yields of similar instruments with comparable durations taking into account the contract terms, including interest reset intervals and the credit rating of the issuer. The fair values of the fixed-income securities are valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. The fair value of a wrapper contract provided by the contract issuer is based on the replacement cost methodology, which is the present value of the difference between the replacement wrapper fee and the contracted wrapper fee. The common collective trust fund primarily holds common collective trust fund and wrapper contracts. The common collective trust funds are valued at net asset value per share (or its equivalent) of the funds, which are based on the fair value of the funds' underlying net assets. The fair value of a wrapper contract provided by the contract issuer is based on the replacement cost methodology, which is the present value of the difference between the wrapper fee and the contracted wrapper fee. The remaining common collective trust funds are valued at net asset value per share (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets.

All other investments are valued based on quoted market prices. See Note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Notes to Financial Statements February 4, 2015, December 31, 2014, and December 31, 2013

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 6, 2015, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

State Street Bank & Trust Company (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances as of February 4, 2015, December 31, 2014, and December 31, 2013 and related investment income and losses included in the financial statements for the period from January 1, 2015 through February 4, 2014 and for the year ended December 31, 2014 and supplemental schedule of assets held at end of year as of December 31, 2014 are based solely on information provided by the Trustee.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2014 and 2013.

Fontana Fasteners, Inc. 401(k) Plan

Notes to Financial Statements February 4, 2015, December 31, 2014, and December 31, 2013

Note 5 - Fair Value Measurements (Continued)

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Assets Measured at Fair Value on a Recurring Basis at December 31, 2014

- (1) This class represents investments in an actively managed common collective trust fund that invests primarily in investment contracts and a variety of fixed-income investments, which may include corporate bonds, both U.S. and non-U.S. municipal securities, and wrapper contracts. Investments are valued at the fair value per share multiplied by the number of shares held as of the measurement date. At year end, there are no unfunded commitments or other redemption restrictions related to the stable value fund described above.
- (2) This class represents investments in actively managed common collective trust funds that invest primarily in equity securities, which may include common stocks, options, and futures. There are no unfunded commitments or redemption restrictions with this class.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no transfers between levels of fair value hierarchy during the period from January 1, 2015 through February 4, 2015 and for the year ended December 31, 2014.

Note 6 - Tax Status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) indicating that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter.

Note 6 - Tax Status (Continued)

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2011.
