Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Retirement Plan for Employees of Kolmar
Laboratories, Inc. and its Subsidiaries and Affiliates

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Retirement Plan for Employees of Kolmar Laboratories, Inc. and its Subsidiaries and Affiliates, which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by First State Trust Company and Bank of America Merrill Trust Company, the trustees of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2014 and 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matter

As further discussed in Note 9 to the financial statements, the plan sponsor has made application to the Pension Benefit Guarantee Corporation ("PBGC") for a distress termination of the Plan. Subsequent to December 31, 2014 the PBGC approved the Notice of Intent to Terminate and effective February 11, 2015 the PBGC became the Statutory Trustee of the Plan.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets (held at end of year) and reportable transactions, which are the responsibility of plan management, are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Retirement Plan for Employees of Kolmar
Laboratories, Inc. and its Subsidiaries and Affiliates

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Retirement Plan for Employees of Kolmar Laboratories, Inc. and its Subsidiaries and Affiliates, which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by First State Trust Company and Bank of America Merrill Trust Company, the trustees of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2014 and 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matter

As further discussed in Note 9 to the financial statements, the plan sponsor has made application to the Pension Benefit Guarantee Corporation ("PBGC") for a distress termination of the Plan. Subsequent to December 31, 2014 the PBGC approved the Notice of Intent to Terminate and effective February 11, 2015 the PBGC became the Statutory Trustee of the Plan.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets (held at end of year) and reportable transactions, which are the responsibility of plan management, are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

RETIREMENT PLAN FOR EMPLOYEES OF KOLMAR LABORATORIES, INC.
AND ITS SUBSIDIARIES AND AFFILIATES

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2014 AND 2013

(1) DESCRIPTION OF THE PLAN

The accompanying summarized description of the Retirement Plan for Employees of Kolmar Laboratories, Inc. (the “Company”) and its Subsidiaries and Affiliates (the “Plan”) is intended only to highlight some of the features of the Plan. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

- General

The Plan is a non-contributory, defined benefit pension plan sponsored by the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

- Pension Benefits

Under the terms of the Plan, employees are eligible for participation upon attaining age 21 and completing one year (1,000 hours) of credited service. Benefits are generally paid in the form of a life annuity payable monthly. When the present value of the benefit is \$5,000 or less, eligible participants will receive a lump-sum actuarial equivalent of the benefit in lieu of any other payments. Participants with at least 5 years of participation become eligible for monthly benefits at the normal retirement age of 65, or reduced monthly benefits at the early retirement age of 55. Participants who terminate their employment after periods of service equal to five or more years, or after attaining age 55, will receive specified retirement income benefits at their retirement date.

During the year ended December 31, 2003 the Plan was amended effective January 1, 2004 to not allow any new participants to enter the Plan and to stop all future benefit accruals of current participants. Years of benefit service, compensation, covered compensation, and any other applicable benefit accrual service or compensation earned after December 31, 2003 shall not count for purposes of calculating any accrued benefit under the Plan.

(2) SIGNIFICANT ACCOUNTING POLICIES AND INFORMATION

This summary of significant accounting policies and information of Retirement Plan for Employees of Kolmar Laboratories, Inc., and its Subsidiaries and Affiliates is presented to assist in understanding the Plan’s financial statements. The financial statements and notes are representations of the Plan’s trustees, who are responsible for their integrity and objectivity. These accounting policies conform to U.S. generally accepted accounting principles and have been consistently applied in the preparation of these financial statements.

RETIREMENT PLAN FOR EMPLOYEES OF KOLMAR LABORATORIES, INC.
AND ITS SUBSIDIARIES AND AFFILIATES

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2014 AND 2013

(2) SIGNIFICANT ACCOUNTING POLICIES AND INFORMATION – (Continued)

- Method of Accounting

The accounting records of the Plan are maintained on the accrual basis.

- Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer liability in an orderly transaction between market participants at the measurement date. See Note 10 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

The Fund follows Financial Accounting Standards Board Accounting Standards Update (ASU) 2009-12, Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). ASU 2009-12 amended Accounting Standards Codification 820 to allow entities to use net asset value (NAV) per share (or its equivalent), as a practical expedient, to measure fair value when the investment does not have a readily determinable fair value and the NAV is calculated in a manner consistent with investment company accounting. The Fund adopted the guidance in ASU 2009-12 and has used the practical expedient to measure the fair value of investments within the scope of this guidance. ASU 2009-12 requires enhanced disclosures about the nature and risks of investments within its scope. Refer to Note 10 for such disclosures.

- Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated July 2, 2012 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

- Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

RETIREMENT PLAN FOR EMPLOYEES OF KOLMAR LABORATORIES, INC.
AND ITS SUBSIDIARIES AND AFFILIATES

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2014 AND 2013

(2) SIGNIFICANT ACCOUNTING POLICIES AND INFORMATION – (Continued)

- Administrative Expenses

Substantially all administrative expenses are paid by the Plan. The balance of such expenses are paid by the Company. The Company provides certain administrative services to the Plan at no cost to the Plan.

- Accounting for Uncertainty in Income Taxes

In accordance with guidance issued by the Financial Accounting Standards Board (FASB) on accounting for uncertainty in income taxes, management has evaluated the Plan's tax position and concluded that the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. Management believes that the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2011.

- New Accounting Pronouncement

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2011-04, Fair Value Measurement, which amends Accounting Standards Codification 820 (originally issued as FASB Statement No. 157, Fair Value Measurements), expanding the qualitative and quantitative fair value disclosure requirements for Level 3 measurements. ASU No. 2011-04 is effective for periods beginning after December 15, 2011. The adoption of ASU No. 2011-04 had no impact on the financial statements, as the Fund did not hold any level 3 assets at December 31, 2014 and 2013 or during the years then ended.

- Subsequent Events

Fund management has evaluated subsequent events for potential recognition or disclosure through September 28, 2015.

(3) LEGAL MATTERS

According to the Plan's Trustees and legal counsel, the Fund is not a party to any litigation the outcome of which would have a material effect on these financial statements.

(4) RISKS AND UNCERTAINTIES

The Plan's assets are invested in various securities and shares of common and collective funds. These investments are exposed to various risks, such as, interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially effect the amounts reported in the statements of net assets available for benefits and statements of changes in net assets available for benefits.

AND ITS SUBSIDIARIES AND AFFILIATES

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2014 AND 2013

(4) RISKS AND UNCERTAINTIES (Continued)

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

(5) INVESTMENT INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED)

The Plan's assets are held by a trust fund administered by the trustee. The following is a summary of assets (at fair value) and changes in assets certified as complete and accurate by the trustee as of and for the years ended December 31, 2014 and 2013. Investments that represent 5% or more of the Plan's total assets are separately identified.

(5) INVESTMENT INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED) – (Continued)

Other additions and deductions to the Plan's assets during the years ended December 31, 2014 and 2013 were as follows:

	<u>2014</u>	<u>2013</u>
Interest Income	\$ 100	\$ 121
Dividend Income	894,059	790,975
Investment Expenses	91,045	68,686
Benefits Paid Directly to Participants	1,511,395	1,371,013
Administrative Expenses	67,921	237,399

(6) ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the services employees have rendered through the valuation date, which is as of January 1, 2014. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on the number of years of credited service and reported compensation.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is calculated by applying actuarial assumptions to accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Calculations of the present value of accumulated benefits were made using the unit credit cost method. The significant actuarial assumptions used in determining the actuarial present value of accumulated plan benefits were as follows.

(6) ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS – (Continued)

Actuarial Cost Method – The actuarial cost method used for determining the plan’s ERISA funding requirements is the unit credit method. Under this method, an accrued benefit is determined at each active participant’s assumed retirement age based on compensation and service at both the beginning and the end of the current year. The plan’s normal cost is the sum of the present value of the excess of each active participant’s accrued benefit at the end of the current year over that at the beginning of the current year. The plan’s accrued liability is the sum of (a) the present value of each active participant’s accrued benefit at the beginning of the current year plus (b) the present value of each inactive participant’s future benefits.

Asset Valuation Method – The Actuarial Value of Assets used for determining the plan’s ERISA funding requirements is equal to the Adjusted Market Value of Assets minus a decreasing fraction of the investment gain or loss for each of the two immediate preceding plan years, but it cannot be less than 90% nor more than 110% of the Adjusted Market Value of Assets. The expected investment return for a plan year is based on the lesser of the expected rate of return on plan assets (currently 8% per year) or the applicable statutory interest rate for the year.

Changes in Assumptions

None

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of December 31, 2014 and 2013 was as follows:

	<u>2013</u>	<u>2012</u>
Vested Benefits		
Participants Currently Receiving Payment	\$ 10,077,325	\$ 9,963,922
Other Participants	<u>10,188,605</u>	<u>10,219,422</u>
Total Vested Benefits	20,265,930	20,183,344
 Nonvested Benefits	 <u>30,440</u>	 <u>34,114</u>
 Actuarial Present Value of Accumulated Plan Benefits	 <u>\$ 20,296,370</u>	 <u>\$ 20,217,458</u>

(6) ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS – (Continued)

The changes in the actuarial present value of accumulated plan benefits for the year ended December 31, 2014 were as follows

Actuarial Present Value of Accumulated Plan Benefits	
Beginning of Year	<u>\$ 20,217,458</u>
Increase (Decrease) During the Year Attributable to:	
Reduction in Discount Period	1,563,611
Benefits Paid	(1,371,013)
Actuarial Gains and (Losses)	<u>(113,686)</u>
Net Increase (Decrease)	<u>78,912</u>
Actuarial Present Value of Accumulated Plan Benefits	
End of Year	<u>\$ 20,296,370</u>

(7) FUNDING POLICY

The Company makes contributions to the Plan as determined by the Plan's independent actuary in amounts that meet or exceed the minimum funding requirements of ERISA. Contributions for 2014 and 2013 were \$400,507 and \$1,090,265, respectively. The Plan met the minimum funding requirements of ERISA as of December 31, 2014. The plan's actuary has certified that the Adjusted Funding Target Attainment Percentage ("AFTAP") for the plan was 83.65% as of January 1, 2014. AFTAP is the ratio of the plan's adjusted assets to its adjusted funding target (100% of the present value of all benefit liabilities accrued to date).

(8) PARTY-IN-INTEREST TRANSACTION

The Plan's investments are managed by an affiliate of Bank of America, N.A.. Bank of America, N.A. is the Plan's Trustee and provides recordkeeping services to the Plan. As such, these transactions qualify as exempt party-in-interest transactions. Usual and customary fees were paid by the Plan for the investment management and recordkeeping services.

(9) PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

AND ITS SUBSIDIARIES AND AFFILIATES

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2014 AND 2013

(9) PLAN TERMINATION – (Continued)

In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations. Upon termination, the employees become vested in the present value of their accrued benefit, to the extent funded, and benefits will be distributed in the following order:

- Monthly benefits former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- All other vested benefits insured by the Pension Benefit Guaranty Corporation (“PBGC”), up to specified limitations. The PBGC is a government agency established under ERISA.
- All other vested retirement benefits under the Plan not insured by the PBGC.
- All nonvested benefits.

As mentioned above, certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor’s pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination. However, there is a statutory ceiling on the amount of an individual’s monthly benefit that the PBGC guarantees.

If the Plan terminates, participant benefits will depend on the sufficiency, at that time, of the Plan’s net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

On June 22, 2012, the plan sponsor filed Notice of Intent to Terminate (“NOIT”) with the Pension Benefit Guarantee Corporation (“PBGC”) for a distress termination of the Plan to be effective June 30, 2012. A distress termination of the Plan would result in the transfer of Plan assets and liabilities to the PBGC. Subsequent to December 31, 2014 the PBGC approved the NOIT and effective February 11, 2015 the PBGC became the Statutory Trustee of the Plan.

(10) FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ASC 820, *Fair Value Measurements and Disclosures* (formerly FAS 157 Fair Value Measurements), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

RETIREMENT PLAN FOR EMPLOYEES OF KOLMAR LABORATORIES, INC.
AND ITS SUBSIDIARIES AND AFFILIATES

NOTES TO FINANCIAL STATEMENTS
FOR THE YEARS ENDED DECEMBER 31, 2014 AND 2013

(10) FAIR VALUE MEASUREMENTS - (Continued)

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means;

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Money Market Funds: Valued using cost which approximates fair value.

Equities: Valued at the closing price reported in the active market in which the individual security is traded.

Mutual Funds and Exchange Traded Funds: Valued at the closing price (net asset value) reported in the active market in which the Fund is traded.

The valuation methods used may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the valuation date.

Appendix B

Summary of Principal Plan Provisions

1. Definitions

Accrued Benefit

The Accrued Benefit for each Participant is determined using the same formula which is used to compute such Participant's Normal Retirement Benefit, taking into account the Participant's years of benefit service, compensation, and covered compensation through the date of determination.

Actuarial Equivalent

Actuarial Equivalent means an accrued benefit having the same value as another stated benefit on the date payment commences or on any other date calculated on the basis of the following factors:

Interest:	6.0% per annum, compounded annually
Mortality:	UP-1984 Mortality Table

Compensation

The form W-2 compensation that is actually paid in gross income during the plan years.

Effective Date

The Effective Date of the Plan is February 1, 1965.

The Plan was frozen effective December 31, 2003, with no future benefit accruals or new entrants after such date.

Plan Year

The Plan Year is the 12 month period beginning January 1 and ending December 31 (or the short plan year beginning February 1, 1991, and ending December 31, 1991).

Year of Service

A Plan Year during which an Employee is credited with at least 1,000 hours of service.

2. Participation

Upon attainment of age 21 and completion of 1 year of service.

3. Normal Retirement

A Participant who retires on his or her Normal Retirement Date shall be entitled to receive a Normal Retirement Benefit.

(a) Eligibility

Attainment of age 65 with 5 years of participation.

(b) Benefit Amount

1% of a Participant's compensation up to one-half of the Participant's covered compensation plus 1.5% of the Participant's compensation in excess of one-half of the Participant's covered compensation for each Year of Benefit Service. The Plan was frozen effective December 31, 2003, with no future benefit accruals or new entrants after such date.

4. Early Retirement**(a) Eligibility**

Attainment of age 55 with 5 years of service.

(b) Benefit Amount

The Accrued Benefit reduced by .5% for each month prior to Normal Retirement Age.

5. Late Retirement**(a) Eligibility**

Employment beyond age 65.

(b) Benefit Amount

The monthly benefit based on the Normal Retirement Benefit formula using the Participant's years of service and earnings through his late retirement date.

6. Disability Retirement

No special disability benefits are provided.

7. Optional Benefit Forms

A Participant who elects not to receive the standard form of distribution may elect to have his or her benefit distributed in one of the following optional forms:

(1) Life Annuity with 120 payments guaranteed, payable monthly to the Participant for life. Any of the guaranteed 120 payments due to the Participant shall be payable to the Participant's designated beneficiary upon the Participant's death if it precedes completion of the 120 payments.

(2) A reduced benefit to be paid during the Participant's lifetime with 50%, 66.67%, 75%, or 100% of the reduced benefit to the joint annuitant for life after the Participant's death.

(3) A lump sum payment if the amount is less than \$3,500 for plan years beginning prior to August 6, 1997, or less than \$5,000 for plan years beginning on or after August 6, 1997.

8. Pre-Retirement Death Benefit**(a) Eligibility**

The death of a vested Participant with a surviving spouse prior to the commencement of monthly retirement benefits.

(b) Benefit Amount

The surviving spouse is entitled to receive a monthly benefit payable for life equal to 50% of the amount the Participant would have received if he had survived and elected to commence receiving a benefit at the earliest date allowed under the Plan, payable as a 50% joint and survivor annuity.

Appendix A

Summary of Actuarial Assumptions and Methods

The ultimate cost of a pension plan is the excess of actual benefits and administrative expenses paid over actual net investment return on plan assets during the plan's existence until the last payment has been made to the last participant. The plan's "actuarial cost method" determines the expected incidence of actuarial costs by allocating portions of the ultimate cost to each plan year. The cost method is thus a budgeting tool to help ensure that the plan will be adequately and systematically funded and accounted for. There are several commonly-used cost methods which differ in how much of the ultimate cost is assigned to each prior and future year. Therefore, the pattern of annual contributions and accounting expense varies with the choice of cost method. Annual contributions and accounting expense vary with the choice of cost method. Annual contributions and accounting expense are also affected by the "asset valuation method" (as well as the plan provisions, actuarial assumptions, and actual plan demographic and investment experience each year).

Actuarial Cost Method

The actuarial cost method used for determining the plan's ERISA funding requirements is the unit credit method. Under this method, an accrued benefit is determined at each active participant's assumed retirement age based on compensation and service at both the beginning and the end of the current year. The plan's normal cost is the sum of the present value of the excess of each active participant's accrued benefit at the end of the current year over that at the beginning of the current year. The plan's accrued liability is the sum of (a) the present value of each active participant's accrued benefit at the beginning of the current year plus (b) the present value of each inactive participant's future benefits.

The actuarial cost method used for determining the plan sponsor's FASB ASC Topic 960 accounting requirements is the projected unit credit method. Under this method, a projected benefit is determined at each active participant's assumed retirement age assuming future compensation increases. The plan's normal cost is the sum of the present value of the portion of each active participant's projected benefit attributable to the current year of service. The plan's accrued liability is the sum of (a) the present value of the portion of each active participant's projected benefit attributable to all prior years of service plus (b) the present value of each inactive participant's future benefits.

Asset Valuation Method

The Actuarial Value of Assets used for determining the plan's ERISA funding requirements is equal to the Adjusted Market Value of Assets minus a decreasing fraction of the investment gain or loss for each of the two immediately preceding plan years, but it cannot be less than 90% nor more than 110% of the Adjusted Market Value of Assets. The expected investment return for a plan year is based on the lesser of the expected rate of return on plan assets (currently 8% per year) or the applicable statutory interest rate for the year.

The Market-Related Value of Plan Assets used for determining the plan sponsor's FASB ASC Topic 960 accounting requirements is equal to the Fair Value of Plan Assets (without inclusion of any contributions receivable).

Changes in Actuarial Methods since Prior Valuation

None.

Funding Target Segment Rates

Segment Rates for January 2014 under HATFA (4.99%, 6.32%, 6.99%) (0 month lookback) were elected for minimum funding purposes. The Segment Rates used for maximum tax deductible purposes are 1.28%, 4.05%, and 5.07%.

Effective Interest Rate – 6.44%

Interest Rate – FASB ASC Topic 960

8.0% per annum, compounded annually

Census Date

The participant population was measured as of 1/1/2014.

Earnings Progression

No increase is assumed since Plan is frozen

Explicit Provision for Expenses

None assumed

Assumed Form of Payment

Single Life Annuity

Explicit Provision for Expenses

None.

Healthy Mortality Rates

PPA Liabilities and ASC Topic 960 Liabilities:

Males – RP 2000 system table with floating Scale AA projections for Males

Females – RP 2000 system table with floating Scale AA projections for Females

Employee mortality is projected to valuation year plus 15 years

Annuitant mortality is projected to valuation year plus 7 years

Retirement Rates

The assumed retirement age is 65

Withdrawal Rates

Representative rates (per 100 employees):

Age	Withdrawal (Male)	Withdrawal (Female)
25	5.29	5.29
40	4.19	4.19
55	.94	.94

Marriage Rates

- a. Percentage married: Males 100%
Females 100%

- b. Age difference: Males are assumed to be 3 years older than their spouse.

Change in Actuarial Assumptions since Prior Valuation

There have been no changes in assumptions since the prior valuation other than required mortality improvements and required changes in funding target segment rates.

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
