NOTES TO FINANCIAL STATEMENTS

Metalworks Worldwide Employees Profit Sharing and 401(k) Plan

1 Description of Plan

The following description of the Metalworks Worldwide Employees Profit Sharing and 401(k) Plan provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General:

The Plan, which began March 1, 2008 is a defined contribution plan covering all employees of LJ Metalworks, Ltd. and S&Z Metalworks, Ltd. ("Company") who meet the eligibility requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

In April 2014, ING U.S., the parent company of the Trustee, changed its name to Voya Financial. As a result, the Trustee's name changed to Voya Institutional Trust Company.

On March 11, 2009, the Company voluntarily dissolved its corporate status by filing a certificate of dissolution with the Ohio Secretary of State.

As of March 31, 2009, all employees of the Company were terminated due to the dissolution of the company. As of this date, the Plan has not yet been terminated.

Eligibility:

All employees of the Company age 18 and older and employed for 6 months are eligible to participate in the Plan.

Contributions:

Cash or Deferred Option 401(k) - Participants may elect a portion of their compensation to be contributed to the Plan by the Company.

Employer Contributions - The Company may make contributions to each eligible participant's account by matching a percentage of the Participant's elective deferral for the plan year. No matching contributions were made for the 2014 or 2013 Plan years. The employer did make a qualified non-elective contribution to the Plan for 2013 in order to correct for prior year errors.

The Company may also make additional contributions. Such additional contributions, if any, shall be allocated to each participant in proportion to his or her compensation for the calendar year.

Rollover contributions from other plans are also accepted, providing certain specified conditions are met.

Contributions are subject to limitations on annual additions and other limitations imposed by the Internal Revenue Code as defined in the Plan agreement.

Participants' Accounts:

401(k) Accounts - Each participant's account is credited with the participant's elective contributions, employer matching contributions, earnings and losses thereon.

NOTES TO FINANCIAL STATEMENTS

Metalworks Worldwide Employees Profit Sharing and 401(k) Plan

1 Description of Plan, Continued

Vesting:

All participants are 100% vested in elective deferrals and rollover contributions made to the Plan.

Participants are vested in employer matching and discretionary (non-matching) contributions (made prior to March 31, 2009) based on years or service according to the following schedule:

Years of Service	Vested %
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures:

Forfeitures due to termination of employment before a participant is 100% vested shall be used to pay administrative expenses of the Plan and then to reduce any employer contributions. At December 31, forfeited non-vested accounts totaled \$37,925 (2014) and \$38,848 (2013).

Other Plan Provisions:

Normal retirement age is 65, however, a participant may elect early retirement on or after age 55 as long as they have accrued 5 years of service. The Plan also provides for early payment of benefits after reaching age 59-1/2.

NOTES TO FINANCIAL STATEMENTS

Metalworks Worldwide Employees Profit Sharing and 401(k) Plan

2 Summary of Significant Accounting Policies

Valuation of Investments:

Investments which are held in the Metalworks Worldwide Employees' Profit Sharing and 401(k) Plan are stated at fair value. Marketable securities are reported at fair market value as of the balance sheet date. Fair market values represent quoted market prices or, if quoted market prices are not available, estimated fair values as determined by the Plan's investment broker.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as held during the year.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Fees:

Substantially all administrative fees are paid by the Company.

Plan Termination:

The Company intends to terminate the Plan after required corrections are made to participant accounts and all required filings are completed.

Risks and Uncertainties:

The Plan's investment include investments in a guaranteed interest contract and pooled separate accounts holding investment contracts with varying degrees of risk, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statement of Net Assets Available for Plan Benefits.

Subsequent Events:

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through October 6, 2015, which is the date the financial statements were available to be issued.

NOTES TO FINANCIAL STATEMENTS

Metalworks Worldwide Employees Profit Sharing and 401(k) Plan

3 Tax Status

The Internal Revenue Service has issued an opinion letter dated March 31, 2008 for the Prototype Plan held by the Plan. The Plan as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended, however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan Administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2014, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.

4 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

- * Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.
- * Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:
 - * Quoted prices for similar assets or liabilities in active markets
 - * Quoted prices for identical or similar assets or liabilities in inactive markets
 - * Inputs other than quoted prices that are observable for the asset or liability
 - * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- * Level 3: Inputs that are unobservable inputs for the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

NOTES TO FINANCIAL STATEMENTS

Metalworks Worldwide Employees Profit Sharing and 401(k) Plan

4 Fair Value Measurements, Continued

Guaranteed Interest Account:

The fair value of the guaranteed interest account is based on contributions to the funds as well as interest credited to the fund at declared rates. Daily credited interest becomes part of the principal and the investment increases through compound interest. The assets of the fund are held in Voya's general account and are backed by the general assets of the insurance company as an unallocated contract. As such, these are classified in Level 3 of the valuation hierarchy.

Pooled Separate Accounts:

The fair value of the pooled separate accounts are based on the net fair value of the underlying assets. The underlying investments are valued at fair value based on commercial quotation services. The fair value is allocated among the contract holders based on a unit value. These fall into the Level 2 category of the valuation hierarchy.

The pooled separate accounts invest in lifestyle funds as well as separate investment "divisions" which, in turn, invest in other mutual funds either managed independently or through an affiliate. The lifestyle funds invest in a combination of active and passive investments in strategically determined proportions. The investor may redeem the investments or transact them daily. The obligation to make benefit payments is the obligation of Voya as deemed by the Contract. To the extent the benefits to be paid to contract owners exceed their account values, Voya will contribute additional funds to the benefit proceeds.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.
