1. DESCRIPTION OF PLAN

The following description of the Johnson & Bell, Ltd. 401(k) Profit Sharing (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by Johnson & Bell, Ltd. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). All employees who have completed at least six months of service with the Company, as defined in the Plan, are at least 20 ½ years of age, and have completed 500 hours of service during the plan year are eligible for 401(k) deferral, voluntary nondeductible, and employer matching contributions. If an employee does not satisfy the 500 hour requirement in their first six months of employment, they must work 1,000 hours during a plan year to become eligible to participate.

In addition to the above-mentioned eligibility requirements, an employee must complete 1,000 hours of service during the plan year and be employed as of the last day of the plan year in order to receive an allocation of the employer's discretionary contribution.

Contributions

Each year, participants may contribute a portion of their annual compensation as pre-tax or Roth contributions, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute, with the consent of the plan administrator, amounts representing distributions from other qualified plans (rollover contributions).

In order to maintain safe harbor status and meet nondiscrimination regulations, the Company makes a contribution equal to 3% of participant's eligible compensation. Additional company contributions may be contributed at the discretion of the Company's Board of Directors. For the years ended December 31, 2014 and 2013, the Company made discretionary contributions in the amount of $800,000 and $725,000, respectively. Contributions are subject to certain limitations.

Investment Options

Participants may direct all their contributions among one or more funds subject to the allocation limitations set forth in the Plan. Changes in allocation of future contributions and transfers among funds of presently invested contributions are permitted pursuant to the Plan's provisions.

1. DESCRIPTION OF PLAN (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion and the profit sharing portion of their accounts is based on the following table:

Years of Service	Percentage
1	20%
2	40%
3	60%
4	80%
5	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to the maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participants account and bear interest at the current prime rate. Principal and interest is paid ratably through payroll deductions. Loans must be paid off or defaulted upon termination of employment. A participant may only have two loans outstanding from the Plan at any given time. Interest rates for outstanding loans range from 3.25% to 7.5% with varying maturities.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon, death, disability, retirement, or termination of employment, as defined by the plan agreement. The Plan provides for normal retirement at 59 ½. Upon obtaining eligibility for a distribution, the total vested portion of a participant's account balance may be distributed in the form of a lump sum payment. Under certain conditions participants may receive a hardship distribution.

1. DESCRIPTION OF PLAN (Continued)

Administrative Expenses

Plan administration fees cover day-to-day expenses of administering the Plan, and may be charged directly to a participant's account, covered by a portion of the asset-based fees deducted directly from investment returns, or paid through revenue-sharing payments made from investment managers to the Plan.

Forfeited Accounts

During the years ended December 31, 2014 and 2013, company discretionary contributions were reduced by $19,214 and $9,586, respectively, from forfeited nonvested accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributed to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements is in conformity with accounting principles generally accepted in the United States of America and requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Subsequent events are events or transactions that occur after year end but before financial statements are issued or are available to be issued. These events and transactions either provide additional evidence about conditions that existed at year end, including the estimates inherent in the process of preparing financial statements (that is, recognized subsequent events), or provide evidence about conditions that did not exist at year end but arose after that date (that is, nonrecognized subsequent events).

The Plan has evaluated subsequent events through October 8, 2015, which was the date that these financial statements were available for issuance, and determined that there were no significant nonrecognized subsequent events through that date.

3. INVESTMENTS

Investments that represent 5% or more of the Plan's net assets are separately identified below as of either or both year ends.

	2014	2013
Mutual funds	$ 1,403,482	$ 9,126,939
Collective trust	104,193	120,110
TOTAL	$ 1,507,675	$ 9,247,049

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) guidance on fair value measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

4. FAIR VALUE MEASUREMENTS (Continued)

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Collective trust fund: The investment relates to the EB MaGIC 50 Stable Value Fund as disclosed below. Investments are valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within Level 2 of the valuation hierarchy, because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market. The trust is reported at fair value, which approximates contract value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. FAIR VALUE MEASUREMENTS (Continued)

KeyBank EB MaGIC fund (a)	$8,560,169	$9,468,849	Daily	None

4. FAIR VALUE MEASUREMENTS (Continued)

(a) The KeyBank EB MaGIC Fund's (the Fund) investment objective is to obtain a reasonable level of income together with stability of principal. To achieve its investment objective, the Fund invests in synthetic GICs (high quality debt securities that are insulated from market volatility by a bank issued or insurance company issues wrap contract), guaranteed investment contracts (obligations of credit worthy life insurance companies), and cash and equivalents.

Investments in this category can be redeemed immediately at the participant level and in 12 months at the Plan level, at the current net asset value per share based on the fair value of the underlying assets.

Changes in Fair Value Levels

The Plan assesses the levels of the investments at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfer in accordance with the Plan's accounting policy regarding the recognition of transfers between levels of the fair value hierarchy. For the years ended December 31, 2014 and 2013, there were no such transfers.

5. CERTIFICATION OF FINANCIAL INFORMATION

The following financial data included in the accompanying financial statements and supplemental schedule as of and for the years ended December 31, 2014 and 2013 has been certified as complete and accurate by Capital Bank and Trust, the trustee of plan assets, and has not been audited by the independent auditors for the Plan: investments at fair value, notes receivable from participants, interest and dividend income, interest on notes receivable from participants, and net appreciation in fair value of investments.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

7. TAX STATUS

The Company adopted a volume submitter plan from Sungard Corbel LLC. This plan received a determination letter from the Internal Revenue Service on March 31, 2008, stating that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to tax authority examinations for years prior to 2011.

8. RELATED PARTY TRANSACTIONS

Certain plan investments and notes receivable from participants are managed by Capital Bank and Trust, the trustee and, therefore, these transactions qualify as party-in-interest. Certain employees of the Company provide administrative services to the Plan. These employees are not paid by the Plan for their services.

Plan administration fees that cover day-to-day expenses of administering the Plan are paid through revenue-sharing payments made from investment managers to the Plan. The Plan received $51,770 and $41,629 of revenue sharing payments for the years ended December 31, 2014 and 2013, respectively, of which $16,949 and $21,453, respectively, was used to pay administrative fees. During the years ended December 31, 2014 and 2013, $0 and $11,390, respectively, were credited back to participants. The unused balance remains in the Plan.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.
